NOTES TO FINANCIAL

NOTE 1. NATURE OF OPERATIONS AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Operations: Global Enterprises Group is in the business of developing and implementing green energy solutions for both commercial and residential dwellings.

Basis of Presentation. Global Enterprises Group prepared its combined financial statements in accordance with accounting principles generally accepted in the United States of America. These combined financial statements include the results of operations. Accordingly, the financial statements for Global Enterprises Group have been combined for the 3-months ending November 30, 2014.

Use of Estimates. The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Recently Issued Accounting Pronouncements. Global Enterprises Group does not believe that there are any other new pronouncements that have been issued that might have a material impact on its combined financial position or combined results of operations.

Cash and Cash Equivalents. Global Enterprises Group considers all highly liquid investments purchased with an original maturity of three months or less to be cash equivalents.

Income Taxes. Deferred tax assets and liabilities are recorded to reflect the future tax consequences attributable to the effects of differences between the carrying amounts of existing assets and liabilities for financial reporting and for income tax purposes. Deferred taxes are calculated by applying enacted statutory tax rates and tax laws to future years in which temporary differences are expected to reverse. The impact on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that the rate change is enacted.

NOTE 2. - STOCKHOLDERS' EQUITY

During the period ending April 20, 2015 the Company had 7,423,000 shares outstanding on a fully diluted basis.

NOTE 3. – GOING CONCERN

The accompanying financial statements have been prepared assuming that the Company will continue as a going concern. The Company's continuation as a going concern is dependent on its ability to meet its obligations, to obtain additional financing as may be required and ultimately to attain profitability. These financial statements do not include any adjustments that might result from the out come of this uncertainty.

NOTE 4. – INCOME TAXES

The Company provides for income taxes under that Statement of Financial Accounting Standards NO. 109. Accounting for Income Taxes SFAS No. 109 requires the use of an asset and liability approach in accounting for income taxes. Deferred tax assets and liabilities are recorded based on the differences between the financial statement and tax bases of assets and liabilities and the tax rates in effect when these differences are expected to reverse.

SFAS No. 109 requires the reduction of deferred tax assets by a valuation allowance if, based on the weight of available evidence, it is more likely than not that some sort or all of the deferred tax assets will not be realized. All of the expenditures thus far have been to organize the Company and will not be expensed for tax purposes until the Company has operations.

The provision for income taxes is comprised of the net changes in deferred taxes less the valuation account plus the current taxes payable as shown in the chart below:

Net changes is Deferred Tax Benefit	
less than valuation account	0
Current Taxes Payable	<u>0</u>
Net Provision for Income Taxes	<u>0</u>

The Federal Income Tax filings are not current with the Company.

NOTE 5. –EVENTS.
