POTASH AMERICA, INC.
(AN EXPLORATION STAGE COMPANY)
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2019

NOTE 1 – NATURE OF OPERATIONS

Potash America, Inc. ("the Company" or "PTAM"), was incorporated in the state of Nevada on July 31, 2007. PTAM's primary focus is the development of fertilizer and agri-business assets. Such assets may include Potash, Montmorillonite, Bentonite and Gypsum. The Company was seeking to acquire known deposits whose economic value has recently changed with market pricing levels, and develop these assets into agri-products. Due to the market change and lack of funding, the Company began a search for other business opportunities which may benefit our shareholders and allow us to raise capital and operate.

NOTE 2 – SIGNIFICANT ACCOUNTING POLICIES

Exploration Stage Company
The accompanying financial statements have been prepared in accordance with generally accepted accounting principles related to accounting and reporting by exploration stage companies. An exploration stage company is one in which planned principal operations have not commenced or if its operations have commenced, there has been no significant revenues.

Basis of Presentation
The financial statements of the Company have been prepared in accordance with generally accepted accounting principles in the United States of America and are presented in US dollars

Accounting Basis
The Company uses the accrual basis of accounting and accounting principles generally accepted in the United States of America ("GAAP" accounting). The Company has adopted a March 31 fiscal year end.

Financial Instrument
The Company's financial instrument consists of cash, prepaid expenses, deposits, accounts payable and accrued expenses, deferred compensation, accrued interest, convertible line of credit, note payable, and a line of credit due to a related party.

It is management's opinion that the Company is not exposed to significant interest, currency or credit risks arising from its other financial instruments and that their fair values approximate their carrying values except where separately disclosed.

Income Taxes
Income taxes are computed using the asset and liability method. Under the asset and liability method, deferred income tax assets and liabilities are determined based on the differences between the financial reporting and tax bases of assets and liabilities and are measured using the currently enacted tax rates and laws. A valuation allowance is provided for the amount of deferred tax assets that, based on available evidence, are not expected to be realized.

Cash and Cash Equivalents
PTAM considers all highly liquid investments with maturities of three months or less to be cash equivalents. At December 31, 2019 and December 31, 2018, respectively, the Company had $0 cash.

Revenue Recognition

The Company recognizes revenue when products are fully delivered, or services have been provided and collection is reasonably assured.

Advertising

The Company expenses advertising costs as incurred. As of December 31, 2019, and 2018, respectively, the Company expensed $0 in marketing and website development and maintenance of its site.

Mineral Properties Costs

Mineral exploration and development costs are accounted for using the successful efforts method of accounting.

Property acquisition costs - Mineral property acquisition costs are capitalized as mineral exploration properties. Upon achievement of all conditions necessary for reserves to be classified as proved, the associated acquisition costs are reclassified to prove properties

Exploration costs - Geological and geophysical costs and the costs of carrying and retaining undeveloped properties are expensed as incurred.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles of the United States requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the year. The more significant areas requiring the use of estimates include asset impairment, stock-based compensation, and future income tax amounts. Management bases its estimates on historical experience and on other assumptions considered to be reasonable under the circumstances. However, actual results may differ from the estimates.

Basic Income (Loss) Per Share

Basic income (loss) per share is calculated by dividing the Company's net loss applicable to common shareholders by the weighted average number of common shares during the period. Diluted earnings per share is calculated by dividing the Company's net income available to common shareholders by the diluted weighted average number of shares outstanding during the year. The diluted weighted average number of shares outstanding is the basic weighted number of shares adjusted for any potentially dilutive debt or equity.

Stock-Based Compensation

Stock-based compensation is accounted for at fair value in accordance with ASC Topic 718. As of September 30, 2019, there were no stock options outstanding.

Recent Accounting Pronouncements

PTAM does not expect the adoption of recently issued accounting pronouncements to have a significant impact on the Company's results of operations, financial position or cash flow.

NOTE 3 – ACCRUED EXPENSES

Accrued expenses and liabilities consisted of the following as of December 31, 2019 and December 31, 2018:

	December 31, 2019	December 31, 2018
Accounting fees	$ 2,500	$ 2,500
Legal fees	7,445	7,445
Filing fees	200	200
Administrative expense	-	-
Total accrued expenses	$ 10,145	$ 10,145

NOTE 4 – NOTES PAYABLE

A former shareholder and director of the Company advanced funds at various times since inception in order to support operations. The loans are unsecured, non-interest bearing and due on demand. The amount due to the former shareholder and director was $57,140 as of December 31, 2019 and 2018.

NOTE 5 – LINE OF CREDIT – RELATED PARTY

The Company opened a line of credit during the year ended March 31, 2011 in the amount of $200,000. The line of credit is secured by the assets of the company, bears 5% interest and is due on demand.

On June 22, 2011, the Company's credit line was increased from $200,000 to $1,000,000 under the same terms. The line of credit was drawn to $494,567 as of December 31, 2019. Interest expense related to the line of credit was $257,341, as of December 31, 2019 and has not been paid. During the year ended March 31, 2013, control of the Company was acquired by the person who also controls the company that has issued this line of credit.

NOTE 7 – LINE OF CREDIT

On November 22, 2011, the Company entered into a second Credit Facility Agreement in which the lender agreed to provide the Company with a line of credit in the amount of up to $500,000. Pursuant to the terms of the Credit Facility Agreement, the Company shall pay any outstanding amounts to the lender on demand. The Company may also repay the loan and accrued interest at any time without penalty.

Amounts outstanding shall bear interest at the rate of 10% per annum. The line of credit was drawn to $400,000 as of March 31, 2012.

During the year ended March 31, 2013, the balance was repaid and the amount due at March 31, 2013 was $0. Accrued interest related to the line of credit was $21,246 as of December 31, 2019 and has not been paid.

NOTE 8 – CONVERTIBLE LINE OF CREDIT

On April 12, 2012, the Company entered into a $1,000,000 Letter of Credit Agreement dated March 27, 2012. Pursuant to the terms outlined in the Letter of Credit, at any time the Company may require any and all funds outstanding under the Letter of Credit, except for accrued interest which is to be paid in cash, to be converted into units of the Company at a price of $0.80 per unit (the "Unit"). Each Unit consists of one

(1) share of common stock and one (1) warrant to purchase one (1) share of common stock at $1.50 for a period of five (5) years. The Company will pay annual interest of 5% until the loan is repaid or converted into Units. The Company will issue up to 1,250,000 Units when the exercise provision is enacted. The Company determined the intrinsic value of the beneficial conversion feature on each draw date by valuing the warrants using the Black-Scholes Option Pricing Model and then allocating the $0.80 conversion price of each unit between the stock and warrants. The warrants were valued using the following assumptions on each draw date: stock price at grant date - $0.23-$0.89, exercise price - $1.50, expected life – 5 years, volatility – 126%-130%, risk-free rate - .70%-.86%. The total intrinsic value of the beneficial conversion feature of the draws was determined to be $302,904 and was amortized in full as of March 31, 2013. The line of credit was drawn to $710,000 as of December 31, 2019. Accrued interest related to the line of credit was $269,021 as of December 31, 2019 and has not been paid.

NOTE 9 – RELATED PARTY TRANSACTIONS

On November 7, 2011, the Company entered into an employment agreement with Barry Wattenberg, our former president, chief executive officer, chief financial officer, secretary, treasurer and a member of our board of directors. The employment agreement became effective on December 1, 2011.

Barry Wattenberg resigned as director, Chairman, President and Treasurer of the Company, effective March 22, 2013.

The total deferred compensation amounts of $185,500 as of March 22, 2013 has not changed.

On October 1, 2019, the Company entered into an employment agreement with Matthew Markin as our chief executive officer. The employment agreement became effective on October 1, 2019.

The total deferred compensation for Mr. Markin salary as of December 31, 2019 is $73,500.

The total amount of deferred compensation as of December 31, 2019 is $259,000 compare to total deferred compensation as of December 31, 2018 of $185,000.

NOTE 10 – CAPITAL STOCK

Stock-based compensation expense related to option grants for the year ended December 31, 2019 was $0.

There were 348,625,000 shares of common stock issued and outstanding as of December 31, 2019.

As of December 31, 2019, the Company has no warrants or stock options outstanding.

Stock options

The Company uses the Black-Scholes Option Pricing Method to value all stock options granted.

There Company did not have stock-based compensation expense related to option as of December 31, 2019.

All prior options granted have expired.

NOTE 12 – INCOME TAXES

The provision for Federal income tax consists of the following for the nine months ended December 31, 2019 and 2018:

	December 31, 2019	December 31, 2018
Federal income tax benefit attributable to:		
Current operations	$ 45,490	$ 19,487
Less: valuation allowance	(45,490)	(19,487)
Net provision for Federal income taxes	$ -	$ -

The cumulative tax effect at the expected rate of 35% of significant items comprising our net deferred tax amount is as follows as of December 31, 2019 and December 31, 2018:

	December 31, 2019	December 31, 2018
Deferred tax asset attributable to:		
Net operating loss carryover	$ 1,391,919	$ 1,340,957
Less: valuation allowance	(1,391,919)	(1,340,957)
Net deferred tax asset	$ -	$ -

Due to the change in ownership provisions of the Tax Reform Act of 1986, net operating loss carry forwards of $3,976,912 for federal income tax reporting purposes are subject to annual limitations. Should a change in ownership occur, net operating loss carry forwards may be limited as to use in future years.

NOTE 13 – GOING CONCERN

The accompanying financial statements have been prepared assuming that the company will continue as a going concern. The Company has negative working capital, no established source of revenue and significant losses since inception. These factors raise substantial doubt about the Company's ability to continue as a going concern. Without realization of additional capital, it would be unlikely for the Company to continue as a going concern. The financial statements do not include any adjustments that might result from this uncertainty. Management continues to seek funding from its shareholders and other qualified investors to pursue its business plan.

NOTE 14 – SUBSEQUENT EVENTS

In accordance with ASC Topic 855-10, the Company has analyzed its operations subsequent to December 31, 2019 to the date these financial statements were issued and has determined that it does not have any material subsequent events to disclose in these financial statements other than the events described above.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

FORWARD-LOOKING STATEMENTS

This quarterly report contains forward-looking statements. These statements relate to future events or our future financial performance. In some cases, you can identify forward-looking statements by terminology such as "could", "may", "will", "should", "expect", "plan", "anticipate", "believe", "estimate", "predict", "potential" or the negative of these terms or other comparable terminology. These statements are only predictions and involve known and unknown risks, uncertainties and other factors that may cause our or our industry's actual results, levels of activity, performance or achievements to be materially different from any future results, levels of activity, performance or achievements expressed or implied by these forward-looking statements.

Although we believe that the expectations reflected in the forward-looking statements are reasonable, we cannot guarantee future results, levels of activity, performance or achievements. Except as required by applicable laws, including the securities laws of the United States, we do not intend to update any of the forward-looking statements so as to conform these statements to actual results.

Our unaudited financial statements are stated in U.S. dollars and are prepared in accordance with generally accepted accounting principles in the United States. The following discussion should be read in conjunction with our financial statements and the related notes that appear elsewhere in this quarterly report.

In this quarterly report, unless otherwise specified, all dollar amounts are expressed in United States dollars. All references to "common shares" refer to the common shares in our capital stock.

As used in this quarterly report and unless otherwise indicated, the terms "we", "us", "our" and "our company" mean Potash America, Inc., a Nevada corporation, unless otherwise indicated.

General Overview

We were incorporated in the state of Nevada on July 31, 2007 as Adtomize Inc. On June 29, 2010, we underwent a change of control. On September 8, 2010, we affected a split of our authorized capital and our issued and outstanding common shares on an 80 for 1 basis. On March 3, 2011, we changed our name to Potash America, Inc., and began looking for opportunities to acquire exploration stage mineral properties. We maintain our business offices at 200 South Virginia Street, 8th Floor, Reno, Nevada, 89501 and our telephone number is (775) 398-3019.

Before we went through a change of control and business focus, we engaged in the business of developing an online advertising brokerage service to bring together high traffic web site publishers with companies wishing to place ads on them in order to drive traffic to their own internet sites. Since our inception, we had been attempting to raise money to operate our business, but have not been able to secure the funds necessary to do so. The lack of funds and the present economy have prevented that from happening. As we have been unable to raise the capital necessary to develop and market our service, we began a search for other business opportunities which may benefit our shareholders and allow us to raise capital and operate.

Current Business

We are a development stage company previously engaged in the acquisition, exploration and development of mineral properties. As at the end of March 31, 2013, we have suspended our plan of operation as it relates to the exploration mining interest and are investigating other business opportunities to enhance shareholder value.

Credit Facility Agreements

On March 15, 2011, we entered into a credit facility agreement. The lender agreed to provide us with a line of credit in the amount of up to $200,000 wherein, within three business days after receipt of notice from us, the lender would advance amounts requested to our company. On June 22, 2011, the credit facility agreement was amended to increase the size of the line of credit to a total of $1,000,000. We shall use the advances to fund working capital and general corporate activities. Pursuant to the terms of the credit facility agreement, our company shall pay any outstanding amounts to the lender on demand. We may also repay the loan and accrued interest at any time without penalty. Amounts outstanding shall bear interest at the rate of 5% per annum. During the year ended March 31, 2013, control of the Company was acquired by the person who also controls the company that has issued this line of credit.

On November 22, 2011, we entered into a second credit facility agreement in which the lender agreed to provide our company with a line of credit in the amount of up to $500,000. Pursuant to the terms of the credit facility agreement, our company shall pay any outstanding amounts to the lender on demand. Our company may also repay the loan and accrued interest at any time without penalty. Amounts outstanding shall bear interest at the rate of 10% per annum.

On April 12, 2012, we entered into a $1,000,000 letter of credit agreement dated March 27, 2012. Pursuant to the terms outlined in the letter of credit, at any time our company may require any and all funds outstanding under the letter of credit, except for accrued interest which is to be paid in cash, to be converted into units of our company at a price of $0.80 per unit. Each unit consists of one share of common stock and one warrant to purchase one share of common stock at $1.50 US for a period of five years. Our company will pay annual interest of 5% until the loan is repaid or converted into units. Our company will issue 1,250,000 units when the exercise provision is enacted.

Purchase of Significant Equipment

We do not intend to purchase any significant equipment over the next twelve months.

Off-Balance Sheet Arrangements

We have no significant off-balance sheet arrangements that have or are reasonably likely to have a current or future effect on our financial condition, changes in financial condition, revenues or expenses, results of operations, liquidity, capital expenditures or capital resources that are material to stockholders.

Employees

We do not expect any material changes in the number of employees over the next 12 month period (although we may enter into employment or consulting agreements with our officers or directors). We do and will continue to outsource contract employment as needed.

Results of Operations

The following unaudited summary of our results of operations should be read in conjunction with our financial statements for the three and nine months ended December 31, 2019 and 2018.

We have not generated any revenue since inception and are dependent upon obtaining financing to pursue our business activities. For these reasons, our auditors believe that there is substantial doubt that we will be able to continue as a going concern.

Results of Operations for the Three Months Ended December 31, 2019 and 2018

Net Increase (Decrease) in Cash During Period	$ Nil	$ Nil	$ Nil

As of December 31, 2019, our total current assets were $0 and our total liabilities were $2,083,211 and we had a working capital deficit of $2,083,211. Our unaudited financial statements report a net loss of $129,970 for the nine months ended December 31, 2019 compared to a net loss of $55,676 for the same period in 2018 and a net loss of $3,976,912 for the period from July 31, 2007 (inception) to December 31, 2019.

We estimate that our cash expenses over the next 12 months will be approximately $60,000 as described in the table below. These estimates may change significantly depending on the nature of our future business activities and our ability to raise capital from shareholders or other sources.

Specifically, we estimate our operating expenses and working capital requirements for the next 12 months to be as follows:

Description	Target completion date or period	Estimated expenses ($)
Legal and accounting fees	12 months	50,000
General and administrative	12 months	10,000
Total		**60,000**

Future Financings

We will require additional financing in order to enable us to proceed with our plan of operations, as discussed above, including approximately $60,000 over the next 12 months to pay for our ongoing expenses. These expenses include legal, accounting and audit fees as well as general and administrative expenses. These cash requirements are in excess of our current cash and working capital resources. Accordingly, we will require additional financing in order to continue operations and to repay our liabilities. There is no assurance that any party will advance additional funds to us in order to enable us to sustain our plan of operations or to repay our liabilities.

We anticipate continuing to rely on equity sales of our common stock in order to continue to fund our business operations. Issuances of additional shares will result in dilution to our existing stockholders. There is no assurance that we will achieve any additional sales of our equity securities or arrange for debt or other financing to fund our planned business activities.

We presently do not have any arrangements for additional financing for the expansion of our exploration operations, and no potential lines of credit or sources of financing are currently available for the purpose of proceeding with our plan of operations.

Going Concern

We have generated only nominal revenues and are dependent upon obtaining outside financing to carry out our operations and pursue our business development activities. If we are unable to generate future cash flows, raise equity or secure alternative financing, we may not be able to continue our operations and our business plan may fail. You may lose your entire investment.

If our operations and cash flow improve, our management believes that we can continue to operate. However, no assurance can be given that management's actions will result in profitable operations or an improvement in our liquidity situation. The threat of our ability to continue as a going concern will cease to exist only when our revenues have reached a level able to sustain our business operations.

Critical Accounting Policies

The discussion and analysis of our financial condition and results of operations are based upon our financial statements, which have been prepared in accordance with the accounting principles generally accepted in the United States of America. Preparing financial statements requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenue, and expenses. These estimates and assumptions are affected by management's application of accounting policies. We believe that understanding the basis and nature of the estimates and assumptions involved with the following aspects of our financial statements is critical to an understanding of our financial statements.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles of the United States requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the year. The more significant areas requiring the use of estimates include asset impairment, stock-based compensation, and future income tax amounts. Management bases its estimates on historical experience and on other assumptions considered to be reasonable under the circumstances. However, actual results may differ from the estimates.

Basic Income (Loss) Per Share

Basic income (loss) per share is calculated by dividing our company's net loss applicable to common shareholders by the weighted average number of common shares during the period. Diluted earnings per share is calculated by dividing our company's net income available to common shareholders by the diluted weighted average number of shares outstanding during the year. The diluted weighted average number of shares outstanding is the basic weighted number of shares adjusted for any potentially dilutive debt or equity. There are no such common stock equivalents outstanding as of December 31, 2019.

During the year ended March 31, 2011, our company enacted an 80 to 1 forward stock split. All share and per share data has been adjusted to reflect such stock split.

Stock-Based Compensation

Stock-based compensation is accounted for at fair value in accordance with ASC Topic 718. On April 21, 2011, our company instituted a Stock Option Plan which allows for the issuance of 3,000,000 shares of common stock to our company's management, employees and consultants. As of December 31, 2019, there were no stock options issued.

Income Taxes

Income taxes are computed using the asset and liability method. Under the asset and liability method, deferred income tax assets and liabilities are determined based on the differences between the financial reporting and tax bases of assets and liabilities and are measured using the currently enacted tax rates and laws. A valuation allowance is provided for the amount of deferred tax assets that, based on available evidence, are not expected to be realized.

Recent Accounting Pronouncements

Our company does not expect the adoption of recently issued accounting pronouncements to have a significant impact on our company's results of operations, financial position or cash flow.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

As a "smaller reporting company", we are not required to provide tabular disclosure obligations.

Item 4. Controls and Procedures

Management's Report on Disclosure Controls and Procedures

We maintain disclosure controls and procedures that are designed to ensure that information required to be disclosed in our reports filed under the *Securities Exchange Act of 1934*, as amended, is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms, and that such information is accumulated and communicated to our management, including our president (our principal executive officer and our principal financial officer and principle accounting officer) to allow for timely decisions regarding required disclosure.

As of the end of our quarter covered by this report, we carried out an evaluation, under the supervision and with the participation of our president (our principal executive officer and our principal financial officer and principle accounting officer), of the effectiveness of the design and operation of our disclosure controls and procedures. Based on the foregoing, our president (our principal executive officer and our principal financial officer and principle accounting officer) concluded that our disclosure controls and procedures were not effective as of the end of the period covered by this quarterly report.

Changes in Internal Control over Financial Reporting

There was no change in our internal controls over financial reporting that occurred during the period covered by this report, which has materially affected, or is reasonably likely to materially affect, our internal controls over financial reporting.

PART II – OTHER INFORMATION
