3. INCOME PRODUCING PROPERTIES

As at	June 30, 2015	December 31, 2014
Balance, beginning of year	\$ 531,041,031	\$ 588,391,005
Dispositions of income producing properties at carrying value	-	(34,020,564)
Improvements to income producing properties	1,730,193	4,330,334
Expenditures on tenant incentives and direct leasing costs	1,276,869	436,291
Amortization of tenant incentives and direct leasing costs	(385,438)	(618,482)
Recognition of straight-line rent	276,499	787,884
Unrealized fair value losses	(8,179,214)	(28,265,437)
Balance, end of period	\$ 525,759,940	\$ 531,041,031

Income producing properties, which are classified as investment properties under IFRS, are appraised at fair value by management support on a sample basis by qualified external valuation professionals ("Appraisers") in accordance with IAS 40 – *Investment Properties*. The Appraisers are independent valuation firms, not related to the REIT, that employ valuation professionals who are members of the Appraisal Institute of Canada and the Ordre des évaluateurs agréés du Québec, and who have appropriate qualifications and experience in the valuation of properties in the relevant locations.

For the period ended June 30, 2015 the fair value of the REIT's income producing property portfolio was determined either internally by the REIT using the Direct Capitalization methodology or by obtaining external appraisals.

During the six months ended June 30, 2015, an external appraisal was obtained for one of the REIT's properties with an aggregate fair value of \$14.3 million, representing 2.7% of the fair value of the income producing property portfolio. During 2014, external appraisals were obtained for twenty-three of the REIT's properties with an aggregate fair value of \$347.6 million, representing 65.5% of the fair value of the income producing property portfolio as of the end of 2014. Properties acquired within the year are valued at the purchase price plus closing costs unless there is evidence of a significant change in the fair value of the property. The value of the remainder of the REIT's income producing property portfolio is determined internally by the REIT by applying significant new information obtained to adjust previous externally prepared appraisals.

The following table outlines the range and weighted average of the capitalization rates applied to the stabilized net operating income in estimating the fair value for the REIT's properties:

As at	June 30, 2015	December 31, 2014
Capitalization rates		
Maximum	8.25%	8.25%
Minimum	5.75%	5.75%
Weighted Average	6.72%	6.70%

At June 30, 2015, a 0.50% increase in capitalization rates for income producing properties would decrease fair value by \$37.1 million (December 31, 2014 - \$37.4 million) and a 0.50% decrease in capitalization rates would increase fair value by \$43.1 million (December 31, 2014 - \$43.4 million).

PARTNERS REAL ESTATE INVESTMENT TRUST

Notes to the Condensed Consolidated Financial Statements

Three and six months ended June 30, 2015 and 2014

The aggregate cost of tenant incentives and direct leasing costs included in income producing properties are recognized as a reduction of rental income over the lease term, on a straight-line basis. As at June 30, 2015, income producing properties included \$4.6 million (December 31, 2014 - \$4.3 million) of net straight-line rent receivables arising from the recognition of rental revenue on a straight-line basis over the lease term in accordance with IAS 17 – *Leases*.

Mortgages payable are secured by the income producing properties to which they relate with most having recourse to the REIT. The mortgages bear interest at effective rates between 2.43% and 6.02% per annum (December 31, 2014 – 2.43% and 6.02%) and contractual rates between 2.40% and 6.70% (December 31, 2014 – 2.40% and 6.70%). The REIT's weighted average effective interest rate is 4.35% per annum (December 31, 2014 – 4.43%). The total carrying value of the properties pledged as security is \$520.5 million (December 31, 2014 - \$527.4 million).

During the six months ended June 30, 2015 the following mortgages were obtained:

In February 2015, the REIT accepted a financing commitment for \$3.15 million secured as a first mortgage on a single tenant property located in Manitoba. The mortgage has a term of five years with interest at 2.83% per annum and an amortization period of 15 years. This financing replaced a maturing \$1.5 million mortgage with a contractual interest rate of 6.35%.

In February 2015, the REIT accepted extended first mortgages, totaling \$2.45 million, on two free standing properties located in Manitoba. The mortgages have an average term of six years with an average rate of interest of 2.95% per annum and amortization periods ranging from 20 to 25 years.

As at June 30, 2015 the REIT was in technical violation of two December 31, 2014 annual financial covenants on mortgages secured by properties in Ontario and Quebec. The REIT's mortgages do not contain cross-default provisions that would be triggered by the breach of a financial covenant. The REIT has classified these two mortgages, totaling \$26.7 million, as current on the statements of financial position. For the Quebec property, the REIT, with the agreement of the mortgagor and with no penalties will make a \$1.4 million paydown on the mortgage. After making this payment, the debt service covenant would be achieved resulting in the remediation of the covenant violation. For the Ontario property, the loan was otherwise maturing December 15, 2015 and the REIT is in discussion with lenders on the re-financing of this property.

In March, 2013, the REIT issued \$23,000,000 of 5.5% convertible unsecured subordinated debentures (the "5.5% convertible debentures") due March 31, 2018. The 5.5% convertible debentures are convertible into REIT units at \$10.25 per unit at the holder's option at any time on or after March 31, 2016. On or after March 31, 2016 and prior to March 31, 2017, the 5.5% convertible debentures may be redeemed by the REIT, in whole or in part, at a price equal to their principal amount plus accrued and unpaid interest, provided that the volume weighted average trading price of the REIT's units during the 20 consecutive trading days ending on the fifth trading day preceding the date on which the notice of redemption is given is not less than 125% of the conversion price. On or after March 31, 2017, the 5.5% debentures may be redeemed by the REIT at any time. The fair value of the convertible feature of the 5.5% convertible debentures as at June 30, 2015 is nil (December 31, 2014 - nil).

14. UNITHOLDERS' EQUITY

(a) Distributions

For the six months ended June 30, 2015 the REIT made monthly cash distributions to unitholders in an amount of \$0.02083 per unit, representing an annualized distribution of \$0.25 per unit. The amount of the REIT's cash distributions is determined by, or in accordance with, the guidelines established from time to time by the Trustees. The Trustees have discretion in declaring distributions. Pursuant to the REIT's Declaration of Trust, it is the intention of the Trustees to make distributions not less than the amount necessary to ensure that the REIT will not be liable to pay income taxes under Part I of the Income Tax Act.

(b) Distribution reinvestment plan and Optional Unit Purchase Plan

The REIT has a Distribution Reinvestment Plan ("DRIP") to enable Canadian resident unitholders to acquire additional units of the REIT through the reinvestment of regular monthly distributions on all or any part of their units.

The REIT has an Optional Unit Purchase Plan ("OUPP") to enable Canadian resident unitholders to acquire additional units of the REIT through optional cash payments subject to a minimum of \$1,000 per month and a maximum of \$12,000 per calendar year.

Units issued in connection with the DRIP and OUPP are issued directly from the treasury of the REIT at a price based on the volume-weighted average of the closing price for the 20 trading days immediately preceding the relevant distribution date. Participants receive "bonus units" in an amount equal in value to 5% of each cash distribution.

At June 30, 2015, the REIT has 229,276 units remaining in its reserve for issuance of units under the DRIP and OUPP. The REIT will increase the unit reserve as required and with approval from the TSX.

16. UNIT-BASED COMPENSATION PLANS

(a) Incentive unit option plan

The REIT's incentive unit option plan provides that the maximum number of units which may be reserved and set aside for issue under the incentive unit option plan shall not exceed 10% of the issued and outstanding units at the time that the options were granted (on a non-diluted basis).

As at June 30, 2015 there are no options outstanding under the incentive unit option plan.

(b) Deferred unit plan ("DUP")

Under the DUP, Trustees have the option to have their fees ("Trustees Fees") paid in deferred units of the REIT. The number of units will be equivalent to the cash value of the Trustees Fees elected by the Trustee to be paid in units. The maximum number of units reserved for issuance under the DUP is 1% of the issued and outstanding units and the maximum number of units reserved under the DUP and all unit-based compensation plans of the REIT shall not exceed 10% of the REIT's issued and outstanding units at any given time.

The issue price of the units under the DUP is volume-weighted average price of the units for the last 20 trading days preceding the date of issuance to the Trustees.

The DUP became effective May 17, 2015. During the six months ended June 30, 2015, no units were issued under the DUP.

17. INCOME TAXES

As of June 30, 2015, the REIT wound-up Charter Realty Holdings Ltd., a wholly owned subsidiary, which previously held beneficial ownership of three single tenant properties in Ontario. The REIT also dissolved 137th Avenue Limited Partnership which previously held beneficial ownership of a single tenant property in Alberta. These restructurings resulted in a transfer of beneficial ownership of the related properties to the REIT. Upon completion, all of the REIT's corporate entities that consolidate into the REIT are nominee corporations and do not have any taxable income and therefore do not have any current income tax payable.

18. CAPITAL MANAGEMENT

The REIT actively manages both its debt and its equity with the objectives of ensuring that the REIT can continue to grow and operate its business.

The real estate industry is capital intensive by nature. As a result, debt capital is a very important aspect in managing the business. In addition, financial leverage is used to enhance returns from purchased real estate. Part of the REIT's objectives in securing mortgages for its properties and managing its long-term debt is to stagger the maturities in order to mitigate short-term volatilities in the debt markets. As well, given the importance of debt capital to real estate entities, the REIT monitors its debt-to-gross book value ratio; a ratio that has become a common industry metric reviewed by analysts, unitholders and others within the industry. The REIT does not have a specific debt-to-gross book value threshold imposed on it in its Declaration of Trust.

The debt-to-gross book value ratio is measured as the REIT's total debt, including mortgages payable, debentures and Credit Facility, divided by the gross book value of its assets.

At June 30, 2015, the REIT's debt-to-gross book value ratio is 70.8%, (December 31, 2014 – 69.9%), which is calculated as follows:

As at	June 30, 2015	December 31, 2014
Debt⁽¹⁾		
Mortgage principal	\$ 295,966,273	\$ 296,262,514

Unamortized deferred financing fees	3,311,736	4,204,330
	\$ 542,150,021	\$ 546,755,370
Debt-to-Gross Book Value	70.8%	69.9%
Debt-to-Gross Book Value Excluding Debentures	55.0%	54.2%

⁽¹⁾ Debt refers to secured debt, debentures and the Credit Facility excluding deferred financing costs, the value of the debentures' convertible feature and unamortized above market interest rate adjustments.

19. FAIR VALUE OF FINANCIAL INSTRUMENTS

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair values of the REIT's assets and liabilities were determined as follows:

(a) *Income producing properties*

The significant assumptions used to determine the fair value of investment properties are disclosed in Note 3.

(b) *Current assets and liabilities*

The carrying amounts for cash, accounts receivable, other assets, bank indebtedness, accounts payable and other liabilities, credit facilities and distributions payable approximate their fair values due to the short-term nature of these items.

(c) *Mortgages payable*

The fair value of secured debt is based on discounted future cash flows, using interest rates ranging between 2.57% and 3.78% that reflect current market conditions for instruments of similar term and risk.

Assets and liabilities measured at fair value in the statements of financial position are classified based on a three-level hierarchy that reflects the significance of the inputs used when determining the fair value as follows:

- Level 1 - determined by reference to quoted prices in active markets for identical assets and liabilities;
- Level 2 - determined by using inputs other than the quoted prices that are observable for the asset or liability, either directly or indirectly; and
- Level 3 - determined using inputs that are not based on observable market data.

The following table classifies assets and liabilities measured at fair value according to the three level hierarchy:

	June 30, 2015			December 31, 2014		
	Level 1	Level 2	Level 3	Level 1	Level 2	Level 3
Assets measured at fair value:						
Income producing properties	\$ -	\$ -	\$ 525,759,940	\$ -	\$ -	\$ 531,041,031
Liabilities for which fair values are disclosed:						
Mortgages payable	\$ -	\$ -	\$ 306,622,201	\$ -	\$ -	\$ 303,966,018

The fair value of assets and liabilities is performed on a quarterly basis using the valuation approaches noted above. During the six months ended June 30, 2015 there were no transfers between the hierarchy levels.

20. RISK MANAGEMENT

In the normal course of business, the REIT is exposed to a number of risks that can materially affect its operating performance.

(a) Interest rate risk

The REIT is exposed to interest rate risk when funds are drawn under mortgages with floating interest rates. An increase in interest rates would increase the interest cost of these mortgages having an adverse effect on the REIT's comprehensive income and earnings per unit. Based on the outstanding balance of variable debt at June 30, 2015, a 1% increase or decrease in the prime rate would have an impact of \$0.2 million on the REIT's annual interest expense (December 31, 2014 – \$0.2 million).

The REIT structures its fixed rate financing so as to stagger the maturities of its mortgages, thereby minimizing exposure to future interest rate fluctuations.

(b) Credit risk

Credit risk arises from the possibility that tenants may experience financial difficulty and be unable to fulfill their lease commitments. The REIT attempts to mitigate this risk by conducting credit assessments on new lessees, by ensuring that its tenant mix is diversified and by limiting its exposure to any one tenant. The maximum credit risk exposure at June 30, 2015 relates to the carrying value of the accounts receivable balance without taking into account any collateral held or other credit enhancements. Collateral held on certain leases are letters of credit or security deposits from the tenants.

The following table presents an analysis of the age of tenant and other accounts receivable inclusive of amounts for which an allowance has been made.

As at	June 30, 2015	December 31, 2014
Tenant rents receivable		
Less than 30 days past billing date	588,186	1,023,389
30-60 days past billing date	326,621	417,554

Unbilled recoveries	1,007,768	1,579,945
	5,644,121	5,706,995

The following table presents a summary of the activity related to the REIT's allowance for doubtful accounts.

(d) *Liquidity risk*

Liquidity risk arises from the possibility of not having sufficient debt and equity capital available to fund future growth, refinance debts as they mature or meet the REIT's payment obligations as they arise. Furthermore, liquidity risk also arises from the REIT not being able to obtain financing or refinancing on favourable terms.

The REIT's main liquidity requirements arise from ongoing working capital requirements, debt servicing and repayment obligations, capital and leasing expenditures on existing properties, property acquisitions and distributions to unitholders. All of the aforementioned liquidity requirements, except for debt repayment obligations at maturity and property acquisitions, are generally funded from cash flows from operations or from drawing on the \$10.0 Credit Facility (drawn \$2.0 million at June 30, 2015). Debt repayment obligations are generally funded from refinancing the related debt and property acquisitions are generally funded from equity raises as well as obtaining debt financing on the related property.

Within the next 12 months the REITs first series of convertible debentures, with a principal balance of \$28.8 million bearing interest at 8.0% per annum, will mature. The REIT will need to obtain debt and/or equity financing to repay these debentures.

The REIT's financial condition and results of operations would be adversely affected if it were unable to obtain financing/refinancing, cost-effective financing/refinancing, or if it were unable to meet its other liquidity requirements from ongoing operating cash flows. The REIT attempts to mitigate its liquidity risk by:

- staggering the maturities of its debt;
- not entering into property acquisitions unless it has secured or knows that it can secure the appropriate capital (debt and equity) to fund the particular acquisitions;
- planning capital spending around the availability of cash from operations or debt/equity funding; and
- reviewing the current liquidity position and forecasted cash flows in advance of the quarterly approval of the distribution.

Except for the periodic impact to cash for the \$2.8 million in bi-annual interest payments on the three series of convertible debentures (interest payments are due March 31st and September 30th) - most operating revenues and expenses are consistent on a month to month basis thereby assisting the management and forecasting of cash flows.

As at June 30, 2015, the REIT had \$2.4 million in cash and \$8.0 million of capacity available under its Credit Facility, thereby providing \$10.4 million in liquidity. Despite this liquidity, management will need to complete re-financings of maturing mortgages while also continuing to reduce other transaction costs or the REIT may be required to obtain additional financings or sell properties. Furthermore, the Credit Facility has a restrictive financial covenant that is calculated and reported on a quarterly basis. The REIT was in technical violation of this covenant as at June 30, 2015. The REIT has obtained a covenant waiver letter for this reporting period, and all other terms and conditions for this Credit Facility are bound and in place. In order to meet this financial covenant in future reporting periods the REIT will need to reduce its debt or increase its equity (see note 8).

In addition to re-financing maturing mortgages, prior to March 31, 2016 the REIT will need to raise funds from a debt / equity issue(s) or net cash from property disposition(s), or a combination thereof, so that there is sufficient cash to repay the \$28.8 million of series I convertible debentures.

(d) *Concentration risk*

The REIT has one major tenant with 16 locations in the REIT's portfolio providing \$5.9 million in annualized base rents, or 15.7% of the REIT's total annualized base rental revenue.

21. CONTINGENCIES AND COMMITMENTS

(a) *Contingent liability*

As a condition of closing the Holyrood Rescission in October 2014, the REIT has provided a \$35.0 million loan guarantee to the lender of a loan to Holyrood Holdings Ltd. The loan was scheduled to mature June 30, 2015. The REIT has been advised that the loan was not repaid at maturity and that Holyrood is in the process of refinancing the loan with another lender. The current lender has advised that all interest payments on the loan are up-to-date and that the loan is being extended on a short-term basis. Should the lender make a demand on the REIT as a guarantor, the REIT may at its sole discretion purchase the lender's interest in the loan thus granting the REIT a first charge over Hamilton City Centre. The REIT currently has a registered second mortgage on the property. The REIT has no ongoing interest in the Hamilton City Centre and does not intend to guarantee any debt in connection with Holyrood's refinancing of the property.

(b) *Lease commitments – The REIT as lessee*

The REIT as lessee is committed under operating leases to renewal periods or notice periods not longer than four months for each of its office locations in Barrie, Ontario and Victoria, British Columbia. Neither lease represents a significant future commitment to the REIT.

(c) *Uncertified class action lawsuit*

The REIT has been notified that a Statement of Claim dated November 28, 2014 has been issued in the Ontario Superior Court seeking certification of a class action on behalf of persons who held units of the REIT on April 1, 2014 against certain parties, including a former officer and both current and former trustees of the REIT. The REIT itself has not been named as a defendant in the legal proceedings which allege that the conduct of the defendants in connection with the acquisition by the REIT of three properties from Holyrood in April 2014 caused harm to the plaintiffs. The Holyrood transaction was rescinded by the REIT and Holyrood in October 2014. The REIT has certain indemnity obligations to its trustees and officers (current and former) with respect to this claim, subject to exceptions including where it is determined that there has been a failure to act honestly and in good faith. The REIT has insurance which it expects to be applicable in these circumstances. Given that the REIT has not been named in the litigation, the REIT does not believe it will be material to its business and affairs.

22. RELATED PARTY TRANSACTIONS

IAS 24 – Related Party Disclosures requires entities to disclose in their financial statements information about transactions with related parties. Generally, two parties are related to each other if one party controls, or significantly influences the other party.

Transactions between the REIT and related parties are in the normal course of operations and are measured at the exchange amount, which is the amount of consideration established and agreed to by the related parties.

(a) *Management agreement*

Effective December 27, 2013, McCowan and Associates Ltd. (“McCowan”) purchased the REIT’s external management contract for \$1.5 million from LAPP Global Asset Management Corp. The REIT terminated the agreement on February 14, 2014 for a payment of \$1.5 million. This amount and other fees paid to McCowan under the terms of the management agreement are as follows.
