MANAGEMENT REVIEW REPORT THE MEMBERS OF RAPID NUTRITION PLC FOR THE PERIOD ENDED 30 JUNE 2022

The consolidated financial statements and notes represent those of Rapid Nutrition PLC ('the Company') and its subsidiaries ('the consolidated group' or 'group'), for the period under review to 30 June 2022.

1. General Information

The information for the period ended 30 June 2022 does not constitute statutory accounts as defined in section 434 of the Companies Act 2006. A copy of the statutory accounts for that period has been delivered to the Registrar of Companies. The auditors reported on those accounts: their report was unqualified, drew attention to the Group's going concern status by way of emphasis, and did not contain a statement under section 498(2) or (3) of the Companies Act 2006.

1.1 Accounting Policy

Basis of preparation

The statutory financial statements of the Group are prepared in accordance with IFRSs as adopted by the European Union. The condensed set of consolidated financial statements included in this interim financial report has been prepared in accordance with International Accounting Standard 34 'Interim Financial Reporting', as adopted by the European Union.

Going concern

This report has been prepared on the going concern basis, which contemplates the continuation of normal business activity and the realisation of assets and the settlement of liabilities in the normal course of business.

The Directors recognise that the ability of the Group to continue as a going concern and to pay its debts as and when they fall due may be dependent on settlement of substantial receivable balances, funding via equity and debt, continued support of shareholders through short term loans, and successful realisation of revenue growth via the company's plans for successful launch of company's new product lines. On this basis, the Directors believe there are sufficient funds to meet the Group's working capital requirements going forward.

The company's cash position has strengthened post 30 June 2022 due to a secured financing commitment to support growth and which has enabled the company to pay down all its debt commitments during the first half of the year.

The financial report does not include any adjustments relating to the recoverability and classification of recorded asset amounts nor to the amounts and classification of liabilities that may be necessary should the Group be unable to continue as a going concern.

Changes in accounting policy

For the current, interim financial period, the Group has noted no amendments to International Accounting Standards that will be effective for the first time. As such, the same accounting policies, presentation and methods of computation are followed in the condensed set of financial statements as applied in the Group's latest statutory audited financial statements.

Functional and presentation currency

An entity's functional currency is the currency of the primary economic environment in which it operates. Due to the importance of Australia as the group's base of operations, which includes but not limited to payroll, insurance, majority of cost of sale are incurred and where the board and senior management are based, the directors of the group view Australian Dollars as the group's functional currency. The Group uses Australian bank accounts and all dealings and commercial contracts are through the Australian company.

The financial information in this consolidated interim financial statements are in Australian dollars.

MANAGEMENT REVIEW REPORT THE MEMBERS OF RAPID NUTRITION PLC FOR THE PERIOD ENDED 30 JUNE 2022

Dear Shareholders,

We are pleased to report that we continue to track in line with our corporate expectations for 2022, with management successfully executing on its growth strategy as outlined in our latest annual report.

In particular, we recently signed a new distribution agreement in Korea, where we have successfully been approved for trademark registration for our flagship SystemLS™ brand. Likewise, we continue to expand this global brand with a focus on clean, plant-based ingredients and sustainable packaging, which will be launched later this year through a partnership with Australian packaging company Grounded.

We have also secured a financing commitment to support accelerated growth and completed the acquisition of The Plant-Based Bundle, a vegan influencer business which is already adding additional revenue and synergies to the group. We completed the first launch since acquiring the company in July with more than 144 world-renowned influencers, generating more than 3,494 sales in just the first 10 days. We are incredibly excited about the potential of this business as we prepare for our next launch in October.

We are also pleased to report that Rapid Nutrition is now debt-free after paying down all debt commitments during the period and year-to-date while diversifying revenue streams and expanding our product portfolio to significantly strengthen our position in the market. Our robust portfolio, strategic growth and partnerships are anticipated to continue to support revenue growth, new synergies and a strong position heading towards 2023.

As we move solidly into the second half of the year, momentum continues to build and we anticipate to achieve our targets as set out for the year 2022. In summary, 2022 has already been witness to significant achievements, notable management results and continued growth, which will create new tailwinds and opportunities for the company. Thank you to our shareholders, managers and partners who bolster this success.
