Valuation allowances are established when necessary to reduce deferred tax assets to the amounts expected to be realized.

## **NOTES TO FINANCIAL STATEMENT**

**AS AT May 31, 2014**

### **4. NEW ACCOUNTING PRONOUNCEMENTS**

FASB Interpretation 48

In June 2006, FASB Interpretation 48 “Accounting for Uncertainty in Income Taxes” was issued which clarifies the accounting for uncertainty in income taxes recognized in an enterprise’s financial statements in accordance with FASB Statement No 109, Accounting for Income Taxes. This Interpretation prescribes a recognition threshold and measurement attribute for the financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. This Interpretation also provides guidance on de-recognition, classification, interest and penalties, accounting in interim periods, disclosure, and transition.

This Interpretation is effective for fiscal years beginning after December 15, 2006, and earlier application of the provisions of this Interpretation is encouraged if the enterprise has not yet issued financial statements, including interim financial statements, in the period this Interpretation is adopted. The Company adoption of FIN 48 has not had an impact on its financial statements.

#### **SFAS No 157**

In September 2006, the FASB issued SFAS No 157, “Fair Value Measurements”, which establishes a framework for measuring fair value measurements and expands disclosures about such measurements. SFAS No 157 does not require any new fair value measurements, but rather it creates a consistent method for calculating fair value measurements to address non-comparability of financial statement issued for fiscal years beginning after November 15, 2007. The Company is evaluating the impact SFAS 157 will have on the financial statements.

#### **SFAS No 159**

On February 15, 2007, the FASB issued SFAS No 159, “The Fair Value Option for Financial Assets and Financial Liabilities: Including an amendment of FASB No 115’ to reduce earnings volatility caused by related assets and liabilities measured differently under GAAP SFAS No 159 allows all entities to make an irrevocable instrument-by-instrument election to measure eligible items at fair value in their entirety. In addition, unrealized gains and losses will be reported in earnings at each reporting date. SFAS No 159 also the establishes presentation and disclosure requirements that focus on providing information about the impact of electing the fair value option. SFAS No 159 is effective as of the beginning of the first fiscal year that begins after November 15, 2007, concurrent with the adoption of SFAS No 157. The Company does not anticipate that the adoption of SFAS No 159 will have a significant impact on the financial position, results of operations or cash flows.
