

## OTC Pink® Basic Disclosure Guidelines

Federal securities laws, such as Rules 10b-5 and 15c2-11 of the Securities Exchange Act of 1934 ("Exchange Act") as well as Rule 144 of the Securities Act of 1933 ("Securities Act"), and state Blue Sky laws, require issuers to provide *adequate current information* to the public markets. With a view to encouraging compliance with these laws, OTC Markets Group has created these OTC Pink Basic Disclosure Guidelines. **4. NEW ACCOUNTING PRONOUNCEMENTS**

**FASB Interpretation 48**

In June 2006, FASB Interpretation 48 "Accounting for Uncertainty in Income Taxes" was issued which clarifies the accounting for uncertainty in income taxes recognized in an enterprise's financial statements in accordance with FASB Statement No 109, Accounting for Income Taxes. This Interpretation prescribes a recognition threshold and measurement attribute for the financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. This Interpretation also provides guidance on de-recognition, classification, interest and penalties, accounting in interim periods, disclosure, and transition.

This Interpretation is effective for fiscal years beginning after December 15, 2006, and earlier application of the provisions of this Interpretation is encouraged if the enterprise has not yet issued financial statements, including interim financial statements, in the period this Interpretation is adopted. The Company adoption of FIN 48 has not had an impact on its financial statements.

**SFAS No 157**

In September 2006, the FASB issued SFAS No 157, "Fair Value Measurements", which establishes a framework for measuring fair value measurements and expands disclosures about such measurements. SFAS No 157 does not require any new fair value measurements, but rather it creates a consistent method for calculating fair value measurements to address non-comparability of financial statement issued for fiscal years beginning after November 15, 2007. The Company is evaluating the impact SFAS 157 will have on the financial statements.

**SFAS No 159**

On February 15, 2007, the FASB issued SFAS No 159, "The Fair Value Option for Financial Assets and Financial Liabilities: Including an amendment of FASB No 115' to reduce earnings volatility caused by related assets and liabilities measured differently under GAAP SFAS No 159 allows all entities to make an irrevocable instrument-by-instrument election to measure eligible items at fair value in their entirety. In addition, unrealized gains and losses will be reported in earnings at each reporting date. SFAS No 159 also the establishes presentation and disclosure requirements that focus on providing information about the impact of electing the fair value option. SFAS No 159 is effective as of the beginning of the first fiscal year that begins after November 15, 2007, concurrent with the adoption of SFAS No 157. The Company does not anticipate that the adoption of SFAS No 159 will have a significant impact on the financial position, results of operations or cash flows.

**Accounting Estimates**

The preparation of financial statements in conformity with General Accepted Accounting Principles(GAAP) requires management to make estimates and assumptions that affect the amounts recorded in the financial statement. These estimates are based on management's best knowledge of current events and actions that the Company may undertake in the future. Actual results may differ from these estimates.

**Revenue Recognition**

The Company also recorded its revenues in accordance with Staff Accounting Bulletin (SAB) 104 which requires that four basic criteria must be met before revenue can be recognized: (i) persuasive evidence of an arrangement exists; (ii) delivery has occurred or service has been rendered; (iii) the fee is fixed and determinable; (iv) collectability is reasonably assured. The Company recognized revenue when the services have been rendered.

**Earning (loss) Per Share**

The Company has presented the basic earning (loss) per share computed on the basis of the weighted average number of common shares outstanding during the year.

**Income Taxes**

The Company uses the liability method in providing income taxes on all transactions that have been recognized in the financial statements. This method requires the adjustment of deferred taxes to reflect the tax rates at which future amounts will be settled or realized. The effects of tax rate changes on future deferred tax liabilities and deferred tax benefits, as well as other changes in income tax laws are recognized in net earnings in the period in which such changes are enacted. Valuation allowances are established when necessary to reduce deferred tax assets to the amounts expected to be realized.

**Comprehensive Income (Loss)**

Comprehensive income (loss) includes net income (loss) and comprehensive income ("OCI"). OCI refers to changes in net assets from transactions and other events and circumstances other than transactions with shareholders. The only other comprehensive income (loss) item for the Company relates to foreign currency transactions arising from the transaction of the financial statements from the functional currency into the reporting currency.

**3. FINANCIAL INSTRUMENTS**
