SUPERBOX, INC.
NOTES TO FINANCIAL STATEMENTS
FOR THE THREE AND SIX MONTHS
ENDED JULY 31, 2022 AND JULY 31, 2021
(Unaudited)

NOTE 1 – ORGANIZATION AND DESCRIPTION OF BUSINESS

Superbox Inc. (“Superbox” or the “Company”) Superbox, Inc. was originally incorporated under the name Telequipment Inc. on July 22, 1996, in the State of Nevada. The Company has been dormant since December, 2000.

On March 11, 2020, pursuant to a court order in the Eighth Judicial District Court in Clark County, Nevada, Case # A-20-809896-B, Custodian Ventures, LLC managed by David Lazar was appointed the Custodian of the Company.

On February 2, 2021, Custodian Ventures sold its controlling interest in the Company by selling 5,000,000 shares of Series A Preferred Stock to Britannica Management Ltd.

Superbox was a company focused on cutting-edge transition technologies related to the waste conversion process and energy sector. Highly specialized in the field of alternative fuels, aimed at deep emissions reduction and decarbonization of various fuels, the Company continuously strives to innovate with the ultimate goal of a zero-carbon footprint. At present, the Company holds patented and internationally applied technologies. The Company's technologies are related mainly to desulphurization of fuels, Nano Emulsions, and Waste to Energy solutions. One of Company's key success factors is the focus on research and

development to own and develop technologies that can drive towards zero emissions, all in support of the highly topical issue related to the green economy and economic sustainability.

The Company's year-end is January 31.

COVID-19

On March 11, 2020, the World Health Organization ("WHO") declared the Covid-19 outbreak to be a global pandemic. In addition to the devastating effects on human life, the pandemic is having a negative ripple effect on the global economy, leading to disruptions and volatility in the global financial markets. Most US states and many countries have issued policies intended to stop or slow the further spread of the disease.

Covid-19 and the U.S.'s response to the pandemic are significantly affecting the economy. There are no comparable events that provide guidance as to the effect the Covid-19 pandemic may have, and, as a result, the ultimate effect of the pandemic is highly uncertain and subject to change. We do not yet know the full extent of the effects on the economy, the markets we may serve, our future potential business, or our operations.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The accompanying financial statements have been prepared in accordance with the Financial Accounting Standards Board ("FASB") "FASB Accounting Standard Codification™" (the "Codification") which is the source of authoritative accounting principles recognized by the FASB to be applied by nongovernmental entities in the preparation of financial statements in conformity with generally accepted accounting principles ("GAAP") in the United States.

Going Concern

The accompanying financial statements have been prepared assuming the Company will continue as a going concern, which contemplates the realization of assets and the satisfaction of liabilities in the normal course of business for the twelve months following the date of these financial statements. The Company has incurred operating losses since its inception. As of July 31, 2022, the Company had an accumulated deficit of \$3,026,738.

Because the Company does not expect that existing operational cash flow will be sufficient to fund presently anticipated operations, this raises substantial doubt about the Company's ability to continue as a going concern. Therefore, the Company will need to raise additional funds and is currently exploring alternative sources of financing.

Use of Estimates

The preparation of financial statements in conformity with US GAAP requires management to make estimates and assumptions that affect the reported amounts of liabilities and disclosure of contingent assets and liabilities at the date of the financial statements. The most significant estimates relate to income taxes and contingencies. The Company bases its estimates on historical experience, known or expected trends, and various other assumptions that are believed to be reasonable given the quality of information available as of the date of these financial statements. The results of these assumptions provide the basis for making estimates about the carrying amounts of assets and liabilities that are not readily apparent from other sources. Actual results could differ from these estimates.

Revenue Recognition

On July 1, 2018, the Company adopted Accounting Standards Codification ("ASC") Topic 606, Revenue from Contracts with Customers ("ASC 606"). Results for reporting periods beginning after January 1, 2018, are presented under ASC 606. As of January 31, 2022, the financial statements were not impacted due to the application of Topic 606 because the Company had no revenues.

Cash and cash equivalents

The Company considers all highly liquid temporary cash investments with an original maturity of three months or less to be cash equivalents. On July 31, 2022, and January 31, 2022, the Company's cash equivalents totaled \$-0- and \$-0- respectively.

Income taxes

The Company accounts for income taxes under FASB ASC 740, "Accounting for Income Taxes". Under FASB ASC 740, deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. Under FASB ASC 740, the effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the enactment date. FASB ASC 740-10-05, "Accounting for Uncertainty in Income Taxes" prescribes a recognition threshold and a measurement attribute for the financial statement recognition and measurement of tax positions taken or expected to be taken in a tax return. For those benefits to be recognized, a tax position must be more likely than not to be sustained upon examination by taxing authorities.

The amount recognized is measured as the largest amount of benefit that is greater than 50 percent likely of being realized upon ultimate settlement. The Company assesses the validity of its conclusions regarding uncertain tax positions quarterly to determine if facts or circumstances have arisen that might cause it to change its judgment regarding the likelihood of a tax position's sustainability under audit.

Stock-based Compensation

The Company accounts for stock-based compensation using the fair value method following the guidance outlined in Section 718-10 of the FASB Accounting Standards Codification for disclosure about Stock-Based Compensation. This section requires a public entity to measure the cost of employee services received in exchange for an award of equity instruments based on the grant-date fair value of the award (with limited exceptions). That cost will be recognized over the period during which an employee is required to provide service in exchange for the award- the requisite service period (usually the vesting period). No compensation cost is recognized for equity instruments for which employees do not render the requisite service.

Net Loss per Share

Net loss per common share is computed by dividing net loss by the weighted average common shares outstanding during the period as defined by Financial Accounting Standards, ASC Topic 260, "Earnings per Share." Basic earnings per common share ("EPS") calculations are determined by dividing net income by the weighted average number of shares of common stock outstanding during the year. Diluted earnings per common share calculations are determined by dividing net income by the weighted average number of common shares and dilutive common share equivalents outstanding.

Recent Accounting Pronouncements

In February 2016, the FASB issued ASU No. 2016-02, Leases (Topic 842), which establishes a new lease accounting model for lessees. The updated guidance requires an entity to recognize assets and liabilities arising from financing and operating leases, along with additional qualitative and quantitative disclosures. The amended guidance is effective for fiscal years, and interim periods within those years, beginning after December 15, 2018, with early adoption permitted. In March 2019, the FASB issued ASU 2019-01, Codification Improvements, which clarifies certain aspects of the new lease standard. The FASB issued ASU 2018-10, Codification Improvements to Topic 842, Leases in July 2018. Also in 2018, the FASB issued ASU 2018-11, Leases (Topic 842) Targeted Improvements, which provides an optional transition method whereby the new lease standard is applied at the adoption date and recognized as an adjustment to retained earnings. The amendments have the same effective date and transition requirements as the new lease standard.

The Company adopted ASC 842 on January 31, 2020. The adoption of this guidance did not have any impact on our financial statements because the Company has no leases.

NOTE 3 – EQUITY

Common Stock

On July 25, 2022 the Company's Board of Directors increased the Company's authorized Common Shares from 100,000,000 to 900,000,000.
