.
SEILON, INC.

Annual Company Information and Disclosure Statement

September 30, 2014

1) Name of the issuer and its predecessors (if any)

In answering this item, please also provide any names used by predecessor entities in the past
five years and the dates of
the name changes.

SEILON, Inc.

2) Address of the issuer's principal executive offices

Company Headquarters
25 Milvan Drive
Toronto, Ontario, M9L 1Y8
Phone: 647-272-4289
Email: investors@lumastrike.com
Website(s): www.lumastrike.com

3) Security Information

Trading Symbol: SEIL
Exact title and class of securities outstanding: common
CUSIP: 816051 10 6
Par or Stated Value: \$0.001
Total shares authorized: 400,000,000 as of: March 31, 2014
Total shares outstanding: 125,000,000 as of: March 31, 2014

Transfer Agent
Name: Action Stock Transfer
2469 E Fort Union Blvd, Suite 214
Salt Lake City, UT 84121
801-274-1088
801-274-1099 fax
www.actionstocktransfer.com

Is the Transfer Agent registered under the Exchange Act?* Yes:

Action Stock Transfer.. is currently registered under the Securities Exchange Act of 1934 and is an SEC regulated and approved transfer agent.

List any restrictions on the transfer of security:

none

Describe any trading suspension orders issued by the SEC in the past 12 months.

none

4) Issuance History

List below any events, in chronological order, that resulted in changes in total shares outstanding by the issuer in the past two fiscal years and any interim period. The list shall include all offerings of securities, whether private or public, and all shares or any other securities or options to acquire such securities issued for services, describing (1) the securities, (2) the persons or entities to whom such securities were issued and (3) the services provided by such persons or entities.

The list shall indicate:

A. The nature of each offering (e.g., Securities Act Rule 504, intrastate, etc.);

n/a

B. Any jurisdictions where the offering was registered or qualified;

n/a

C. The number of shares offered;

n/a.

D. The number of shares sold;

No shares were sold.

E. The price at which the shares were offered, and the amount actually paid to the issuer;

No cash amount was received by the issuer.

F. The trading status of the shares; and

n/a

G. Whether the certificates or other documents that evidence the shares contain a legend (1) stating that the shares have not been registered under the Securities Act and (2) setting forth or referring to the restrictions on transferability and sale of the shares under the Securities Act.

With respect to private offerings of securities, the list shall also indicate the identity of the persons who purchased securities in such private offering; *provided, however*, that in the event that any such person is an entity, the list shall also indicate (a) the identity of each natural person beneficially owning, directly or indirectly, more than ten percent (10%) of any class of equity securities of such entity and (b) to the extent not otherwise disclosed, the identity of each natural person who controlled or directed, directly or indirectly, the purchase of such securities for such entity.

n/a

5) Financial Statements

Nine Month Financial Statement for September 30, 2014 posted on November 28, 2014.

6) Describe the Issuer's Business, Products and Services

A. a description of the issuer's business operations;

SEILON, Inc has a joint venture with Lumastrike, Inc the nature of which is the production of illuminated signage for all types of business and industry.as well as government

Luma strike is a company that has already gained huge interest. The demand for our products is tremendous and the company began to achieve recognition as an innovative integrator of Electroluminescent solutions.

Electroluminescence is an exceptionally versatile lighting technology that can be used for just about anything.

Our product suite called "The Innovative EL-Solutions" includes:

Outdoor Advertising – Unique artwork and illuminated animation will immediately draw attention to an outdoor advertising campaign. Car wrapping, benches, billboards, hoardings, panels, walls

decoration and window displays.

Interior Decoration – Furniture design, banquet decorations.

Artwork Integration – EL can be integrated into a variety of products such as: packaging, electronic equipment, greeting cards, apparel, car accessories, and more.

State-of-The-Art Studio – Modern printers and laser equipment are all on hand to integrate electroluminescence with many forms of media.

Our Team – Merely having a bright idea is not enough, our team of professionals will make it happen from inception to completion.

We provide the means to deliver your message with maximum impact, based on your specific needs. We have a lot to offer, and it all serves one purpose - helping our clients stand out!

B. Date and State (or Jurisdiction) of Incorporation:

SEILON, INC. was originally incorporated under the laws of the State of Delaware on August 17, 2010,

C. the issuer's primary and secondary SIC Codes;

n/a

D. the issuer's fiscal year end date;

December 31

E. principal products or services, and their markets;

SEILON, INC., through its joint venture with Lumastrike is engaged in the designing, installing and supporting electroluminescent (EL) technologies for residential and commercial usage, we create EL systems that convert regular posters and banners into spectacular, one-of-a-kind, dynamically animated displays. Our products are flexible, reliable and energy green. They are easily integrated into any space as furniture, light fixtures, artwork and many other diverse applications

Typical Implementation

Subway Advertisements	Gas Stations	Vending Machines
Sport Events & Campaigns	Bus Shelters	Banner Stands
Bar & Restaurants	Billboards	Exhibitions Show
Fashion Accessories	Vehicle Wraps	Safety Applications
Special & Emergency Signs	Floor Mats	Election Signage

Luma Strike provides a fantastic way of creating unique displays that can be used for exhibitions, events, trade shows, fashion shows and much more. Signs and banners can be conveniently placed in receptions or showrooms, and with the use of electroluminescence can be further enhanced by adding lights and animation to the static displays. Our lighted signs and banners are thin, flexible, durable and lightweight. They can be rolled up and packed into a tube, just like paper posters. The banners can be customized to your requirements and the lights can be programmed to turn on and off in various ways.

Electroluminescent material can be constructed in the form of wires and flat strips, creating an awesome decoration tool for concerts and festivals. Can be integrated into floors, bars, shelves and furniture.

Designed to catch attention in an otherwise distracting environment and lead to impulse purchases, once implemented as POS advertising (e.g. hanging signs, window displays or sales stands) they are noticeable, effective and memorable. Electroluminescence products achieve that by transforming simple sign into a futuristic-looking, dynamic display. Our production can be applied to any artwork, from a simple sales signage to more intricate and ambitious applications.

Product Integration

Electroluminescent lighting is a flexible, light-weight, low-carbon, non-hazardous product, with low power consumption. It can be integrated into a variety of materials, and combines flexibility and reliability with incredible energy savings.

Safety Products

Electroluminescent lighting emits no heat or ultraviolet light and consumes little energy - a truly green, environmentally friendly product. It can be clearly observed at night and brings the function of security indication. It also has easy set-up and installation. Can be used in construction, traffic management, etc... Luma Strike Safety Signs are the absolute solution in numerous environmental conditions where visibility is a key word to safe operations. Without the need for a direct light source as in the example of reflective tapes, our products become irreplaceable at many dangerous sites and conditions.

EL Safety Signs are vibration and impact resistant. Damage proof even when the material is pierced or torn. Cool to the touch and highly flexible the dynamic nature of this technology may replaces many traditional use cases.

Enhanced EL components on clothing, such as safety marks or logos can be created by integrating flexible lights in a variety of vibrant colors. Any animated element and combination with sound sensing technology creates an interactive experience. The power source is detachable, allowing standard care for the fabric.

. Luma Strike Animated Panels – EL

The panels are flexible, flat, thin, neon look alike light sources that can be cut into complex shapes.

The EL panel is essentially a capacitor structure with phosphor sandwiched between two electrodes. Application of an AC voltage between the electrodes generates a changing field within the phosphor which causes the phosphor to emit light.

EL panels are impact and vibration resistant, require low power, generate low heat during operation and are manufactured using a cost effective silk screen printing process.

The technology is not new but still not easy to create or reproduce.

Electroluminescent lighting is an amazingly thin, captivating light source that is revolutionizing the way businesses market their branded message to target audiences.

Any artwork supplied can be animated to light as per your specifications. All Luma Strike products can be customized to illuminate in any size, shape, color or animated sequence.

Our panels are usually powered by an AC or DC power supply, which differs, based upon the size and illuminated area. Batteries could also be used, in which case we can prolong the life of the batteries by using a motion sensor, timer, solar panels or any other different detectors.

This technology is set to take over back lit posters among a host of other light source based products that are energy inefficient, expensive and bulky. The potential of this product is immense across a wide range of applications.

The electroluminescent light source is shadowless and homogeneous and can be shaped to fit small and/or complex spaces. EL panels can be thin as paper and bendable, which allows them to be framed, installed on curved surfaces, or even to be wearable. It requires no light box but a small power supply. The low power consumption makes EL technology one of the most energy efficient light sources available.

Printing an image over the light will produce a backlit sign. Applying an animation makes it very effective and visually striking. Furthermore those images can be programmed to be illuminated in a sequence to create an effect of movement.

Using this technology we produce a dazzling lighting effect on a wide range of media, animated designs and programmable patterns

7) Describe the Issuer's Facilities

The Company maintains its offices at 25 Milvan Drive, Toronto ON M9L 1Y8

The leased office quarters contain approximately 500 square feet, for which the Company pays \$100 per month.

8) Officers, Directors, and Control Persons

A. Names of Officers, Directors, and Control Persons. In responding to this item, please provide the names of each of the issuer's executive officers, directors, general partners and control persons (control persons are beneficial owners of more than five percent (5%) of any class of the issuer's equity securities), as of the date of this information statement.

Robert Johnson CEO/President, Director, and
Konstantin Krouk COO and
Greg Spencer Secretary/Director

B. Legal/Disciplinary History. Please identify whether any of the foregoing persons have, in the last five years, been the subject of:

1. A conviction in a criminal proceeding or named as a defendant in a pending criminal proceeding (excluding traffic violations and other minor offenses);

none

2. The entry of an order, judgment, or decree, not subsequently reversed, suspended or vacated, by a court of competent jurisdiction that permanently or temporarily enjoined, barred, suspended or otherwise limited such person's involvement in any type of business, securities, commodities, or banking activities;

none
