SGD Holdings, Ltd. and Subsidiary

Notes to Interim Consolidated Financial Statements

Three Months Ended March 31, 2011

(Unaudited - Prepared by Management)

1. Formation and Nature of Business

a. Basis of Presentation - The consolidated financial statements include the accounts of SGD Holdings, Ltd. ("SGD") and its wholly owned subsidiary Ecopaper, Inc. ("EP") (collectively "we," "us," or the "Company"). All intercompany transactions have been eliminated in consolidation.

b. Organization - SGD was originally incorporated on May 22, 1996, in Delaware as Transun International Airways, Inc. ("Transun") and until June 1999, was a development stage company with plans to establish itself as an air transport company providing nonscheduled air service (charter flights). Transun changed its name to Goldonline International, Inc. on June 10, 1999 and changed its name to SGD Holdings, Ltd. On January 24, 2001 to reflect its change in business. Until 2004, SGD ("Debtor") acquired and operated several companies, principally in the wholesale and retail gold and silver jewelry businesses. On January 20, 2005, SGD filed a voluntary petition for relief under Chapter 11 of Title 11 of the United States Bankruptcy Code in the United States Bankruptcy Court for the District of Delaware (the "Bankruptcy Court") (Case No. 05-10182). The Debtor continued to manage its properties as "debtors-in-possession" under the jurisdiction of the Bankruptcy Court and in accordance with the applicable provisions of the Bankruptcy Code, until June 2, 2005, when a Chapter 11 Trustee ("Trustee") was appointed. In February 2005, a motion was filed to transfer venue of the case from Delaware to the Northern District of Texas, Fort Worth Division and a new case number (Case No. 05-42392-rfn-11) was assigned on March 4, 2005 when the motion was granted. All liabilities were settled in 2006 and a Motion for Final Decree was filed on April 8, 2010. When the final decree is granted SGD's bankruptcy case will be closed and it will be released from the jurisdiction of the bankruptcy court.

Effective July 1, 2009, SGD acquired EP, a California corporation organized on January 1, 2008, for 38,500,000 shares of its common stock, which resulted in the shareholders of EP having control of SGD. Accordingly, the transaction was recorded for accounting purposes as the acquisition of EP by SGD with EP as the acquirer (reverse acquisition). The consolidated financial statements of the Company prior to July 1, 2009 are those of EP.

c. Nature of Business and Current Operations - SGD is a holding company. EP has created techniques for producing paper that make it possible to never have to cut down another tree again for the production of paper. The Company does this by producing its paper products from natural fibers, such as banana or coffee.

2. Summary of Significant Accounting Policies

a. Use of estimates - The preparation of consolidated financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

b. Cash and cash equivalents - include demand and time deposits with maturities of three months or less when acquired.

- c. Income taxes - benefits have not been recorded as the benefit of any net operating loss has been fully reserved.
- d. Earnings per share - Basic earnings per share is based on the sum of the weighted average number of common shares outstanding. Diluted earnings per share include any dilutive effect of stock options and convertible securities (common stock equivalents). During the periods presented, there were no common stock equivalents outstanding. Accordingly, basic and fully diluted earnings per share are the same.
- e. Revenue - the Company records revenue when the product is shipped to its customers and relieves inventory for the cost of product sold at the same time.
- f. Accounting Standards Codification - The Company adopted the Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") during 2009. The ASC did not alter current accounting principles generally accepted in the United States of America ("GAAP"), but rather integrated existing accounting standards with other authoritative guidance. The ASC provides a single source of authoritative GAAP for nongovernmental entities and supersedes all other previously issued non-public accounting and reporting guidance. The adoption of the ASC had no effect on the Company's consolidated financial statements.
- g. Recent Accounting Pronouncements - During 2009, the Company adopted the FASB ASC Topic 105 (previously FASB Statement No. 168, "The FASB Accounting Standards Codification and the Hierarchy of Generally Accepted Accounting Principles." ASC Topic 105 established the ASC as the source of authoritative accounting principles recognized by the FASB to be applied by nongovernmental entities in the preparation of financial statements in conformity with accounting principles generally accepted in the United States of America. Management does not believe that any recently issued but not yet adopted accounting standards will have a material effect on the Company's results of operations or on the reported amounts of its assets and liabilities upon adoption.
