Note 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Organization

SigmaBroadband Co. (the “Issuer” or the “Company”) was incorporated in Georgia in October 2012. As a corporate developing public company, the Company’s strategic decision is to grow and restructure its business in establishing strategic partnerships to achieve organizational excellence. The Company is creating opportunities through actions such as mergers and acquisitions and deals that leverage the value of the Company’s business platform.

Basis of Presentation

The accompanying unaudited financial statements have been prepared in accordance with U.S. generally accepted accounting principles for interim financial information. Certain information and footnote disclosures normally included in annual financial statements prepared in accordance with U.S. generally accepted accounting principles have been condensed or omitted pursuant to such principles and regulations of the Securities and Exchange Commission for Form 10Q. All adjustments, consisting of normal recurring adjustments have been made which in the opinion of management are necessary for a fair presentation of the results of interim periods. The results of operations for such interim periods are not necessarily indicative of the results that may be expected for a full year because of among other things seasonality factors in the retail business. The unaudited financial statements contained herein should be read in conjunction with the audited financial statements and notes thereto for the fiscal year ended December 31st, 2019.

Equipment, net

Equipment is stated at cost. Major renewals and betterments are capitalized while maintenance and repairs, which do not extend the lives of the respective assets are expensed when incurred. Depreciation is computed over the estimated useful lives of the assets using the straight-line method of accounting.

The Company has estimated the useful life of the equipment to be 10 years. The cost and accumulated depreciation for equipment sold, retired, or otherwise disposed of are relieved from the accounts, and any resulting gains or losses are reflected in income.

At December 31, 2019 and December 31, 2018, the assets have been fully impaired. As a result of the return of the equipment, both parties agree that the note payable of Ten Million Dollars (\$10,000,000) and interest on this note totaled \$324,187, shall be considered no longer payable to nTELn.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates. Segment Information The Company follows Accounting Standards Codification (“ASC”) 280, “Segment Reporting”. The Company currently operates in a single segment and will evaluate additional segment disclosure requirements as it expands its operations.

Net Loss Per Common Share

Basic net (loss) income per common share is calculated using the weighted average common shares outstanding during each reporting period. Diluted net (loss) income per common share adjusts the weighted average common shares for the potential dilution that could occur if common stock equivalents (convertible debt and preferred stock, warrants, stock options and restricted stock shares and units) were exercised or converted into common stock. There were no common stock equivalents at December 31, 2019.

Income Taxes

The Company follows the asset and liability method of accounting for future income taxes. Under this method, future income tax assets and liabilities are recorded based on temporary differences between the carrying amount of assets and liabilities and their corresponding tax basis. In addition, the future benefits of income tax assets including unused tax losses, are recognized, subject to a valuation allowance to the extent that it is more likely than not that such future benefits will ultimately be realized. Future income tax assets and liabilities are measured using enacted tax rates and laws expected to apply when the tax liabilities or assets are to be either settled or realized. The Company’s effective tax rate approximates the Federal statutory rates.

Stock-Based Compensation

Stock-based compensation is accounted for at fair value in accordance with ASC 718, “Compensation - Stock Compensation,” when applicable. Under FASB Accounting Standards Codification No. 718, companies are required to measure the compensation costs of share-based compensation arrangements based on the grant-date fair value and recognize the costs in the financial statements over the period during which employees are required to provide services.

Share-based compensation arrangements include stock options, restricted share plans, performancebased awards, share appreciation rights and employee share purchase plans. As such, compensation cost is measured on the date of grant at their fair value. Such compensation amounts, if any, are amortized over the respective vesting periods of the option grant. The company applies this statement prospectively.

Equity instruments (“instruments”) issued to other than employees are recorded on the basis of the fair value of the instruments, as required by FASB Accounting Standards Codification No. 718. FASB Accounting Standards Codification No. 505, Equity Based Payments to Non-Employees defines the measurement date and recognition period for such instruments. In general, the measurement date is when either a (a) performance commitment, as defined, is reached or (b) the earlier of (i) the non-employee performance is complete or (ii) the instruments are vested. The measured value related to the instruments is recognized over a period based on the facts and circumstances of each particular grant as defined in the FASB Accounting Standards Codification.

SigmaBroadband Co.
Annual Report
December 31, 2019

Cash and Cash Equivalents

The Company considers all highly liquid investments with original maturities of three months or less to be cash equivalents. Cash and cash equivalents are stated at cost, which approximates fair value. The amounts of cash equivalents as of December 31, 2019, and December 31, 2018, were nil.

Reclassification of Prior Period Financial Statements

Certain items previously reported have been reclassified to conform with the current year's presentation. The reclassification has no effect on aggregate assets, liabilities, equity, or net income as previously reported.

Recent Accounting Pronouncements

The Company has reviewed all recently issued, but not yet effective, accounting pronouncements and does not believe the future adoption of any such pronouncements may be expected to cause a material impact on our financial condition or the results of its operations.

In March 2016, the FASB issued ASU 2016-03. The amendments in this Update make the guidance in Updates 2014-02, 2014-03, 2014-07, and 2014-18 effective immediately by removing their effective dates. The amendments also include Transition provisions that provide that private companies are able to forgo a profitability assessment the first time they elect the accounting alternatives within the scope of this update. The Company is in the process of evaluating the impact of the adoption of this ASU.

In March 2016, the FASB issued ASU 2016-09, Stock Compensation, which is intended to simplify several aspects of the accounting for share-based payment award transactions. The guidance will be effective for the fiscal year beginning after December 15th, 2016, including interim periods within that year. The Company is in the process of evaluating the impact of the adoption of this ASU.

Note 6. GOING CONCERN

These financial statements have been prepared on a going concern basis, which assumes that the Company will be able to realize its assets and discharge its liabilities in the normal course of business for the foreseeable future. The Company has yet to demonstrate sustainable profitability and does not currently have the funding to fully implement its business plan. Future losses are anticipated in the continued development of its business, raising substantial doubt about the Company's ability to continue as a going concern. The ability to continue as a going concern is dependent upon the Company's generating profitable operations in the future and/or obtaining the necessary financing to meet its obligations and repay its liabilities arising from normal business operations when they come due. Management intends to finance operating costs over the next 12 months with existing cash on hand, loans from directors or stockholders or through debt or equity financings. The financial statements do not include any adjustments to reflect the

Annual Report
December 31, 2019

possible future effects on the recoverability and classification of assets or the amounts and classification of liabilities that may result from the possible inability of the Company to continue as a going concern.
