Dear Board members,

Let it be known that I have personally acquired approximately 17,575,00 shares of SMEV common stock in the open market with intentions to keep purchasing stock from time to time. My Personal securities are being held at a retail broker firm. Shares will be reported and can be seen on the incoming quarterly and annual statements. I fully understand that when buying these shares, they will become governed by the rules that apply to insider/affiliate shareholders with all applicable restrictions and limits.

Best Regards,
