SPO Global, Inc.
Consolidated Notes to the Financial Statements
(unaudited)

NOTE 1 GENERAL

S.P.O. GLOBAL INC, is a holding company whose strategic plan is to acquire interests in emerging young businesses, and provide financing, advice and guidance to assist them in realizing their potential. The Company is implementing an acquisition roll-up model of acquiring sales, marketing, and manufacturing businesses. Once acquired, the collective groups of companies leverage the low cost and efficient infrastructure that has been created.

On October 3, 2018, Wine on Tap, Inc., a wholly owned subsidiary of SPO GLOBAL, INC. acquired specific assets of Wine Stream Inc., including key personnel and intellectual property, licensing and franchise rights. The acquisition excludes Wine Stream Inc.'s current Florida operations but includes the remaining 49 States. The acquisition does include all operations in Sarasota County Florida. With this acquisition, Wine on Tap adds deep industry expertise in the platform technology that will allow the Company to roll out and develop facilities throughout the United States from which to market premium wines in keg volume. The Company will be able to utilize the strategic partnerships and relationships already in place to offer the same high quality products already offered in Florida by Wine Stream.

As part of the acquisition, the Company agreed to issue 10,000,000 shares of common stock upon the closing of the transaction, 10,000,000 shares after 90 days, and 10,000,000 after the completion of the first facility. As of March 31, 2019, 10,000,000 Shares were issued pursuant to the agreement. The Company also assumed \$ 657,327 of debt.

Our initial acquisition, Reflective Solutions, has unique performance optimization software IP for all enterprise applications. The focus of Reflective will be to build its revenues through a growing customer base around the world and to create maximum shareholder value. The Company is focusing on increasing the revenue in Reflective Solutions with expansion in the North American Markets. The principal software products of Reflective Solutions is "Stress Tester" a robust Performance Stress testing solution for large enterprise applications and the product "Sentinel" that is providing enterprise customers an intelligent monitoring solution 24 / 7 software as a service (SAS) The focus of SPO is to acquire unique software companies that either own outright valuable IP with a proven verifiable customer base or represent cutting edge technology in the software or healthcare industry.

The Company is incorporated under the laws of the State of Delaware.

NOTE 2 GOING CONCERN

As reflected in the accompanying financial statements, the Company's working capital deficit for the period ended March 31, 2019, was \$3,786,847 and the Company's balance sheet reflects a net stockholders' deficit of \$2,829,520. The Company's ability to continue operating as a "going concern" is dependent on its ability to increase revenues and raise sufficient additional working capital. These matters raise substantial doubt about the Company's ability to continue as a going concern. The financial statements have been prepared on a going concern basis, which contemplates realization of assets and liquidation of liabilities in the ordinary course of business. The Company plans to raise additional capital as needed. There can be no assurance that this capital will be available and if it is not, the Company may be forced to substantially curtail or cease operations. The financial statements do not include any adjustments that might result from the outcome of this uncertainty.

NOTE 3 SIGNIFICANT ACCOUNTING POLICIES

Principles of Consolidation:

The consolidated financial statements include the accounts of SPO and its subsidiaries.

All material inter-company accounts and transactions have been eliminated in consolidation.

On May 24, 2018, the Company announced that it had entered into an Asset Purchase Agreement under which its subsidiary, Reflective Solutions, sold substantially all assets of Reflective Solutions UK, to UnoSoftware, a company

owned by Owen Dukes, formerly President, CEO and Chairman of the Board of the Company. The Company retained the Software, IP, source code and other assets related to the Reflective Software Product Line.

Use of Estimates:

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Financial Statements in U.S. dollars:

The reporting currency of the Company is the U.S. dollar ("dollar"). The dollar is the functional currency of the Company and the Company's U.S. subsidiary.

The financial statements of the non-U.S. subsidiaries are translated to U.S. dollars using the methods mandated by ASC 830.

Cash and Cash Equivalents:

The Company considers all highly liquid investments originally purchased with maturities of three months or less to be cash equivalents.

These financial statements have not been subjected to an audit or review or compilation engagement, and no assurance is provided on them.

Revenue Recognition:

The Company recognizes revenues when persuasive evidence of an arrangement exists, delivery has occurred or services rendered, the sales price or fee is fixed or determinable, and collectability is reasonably assured.

Research and Development Costs:

Research and development costs are charged to expenses as incurred. The Company's research and development efforts were performed by the Company's former subsidiary, Reflective Solutions Bulgaria Ltd. In June 2018, the subsidiary was closed and future research and development efforts will be performed by outside consultants.

Income Taxes:

The Company accounts for income taxes in accordance with ASC 740-10, "Accounting for Income Taxes" This statement prescribes the use of the liability method whereby deferred tax assets and liability account balances are determined based on differences between financial reporting and tax bases of assets and liabilities and are measured using the enacted tax rates and laws that will be in effect when the differences are expected to reverse. The Company provides a valuation allowance, if necessary, to reduce deferred tax assets to their estimated realizable value.

Fair Value of Financial Instruments:

ASC 820, "Fair Value Measurements and Disclosures", defines fair value as the price that would be received to sell an asset or paid to transfer a liability (i.e., the "exit price") in an orderly transaction between market participants at the measurement date.

In determining fair value, the Company uses various valuation approaches. ASC 820 establishes a hierarchy for inputs used in measuring fair value that maximizes the use of observable inputs and minimizes the use of unobservable inputs by requiring that the most observable inputs be used when available. Observable inputs are inputs that market participants would use in pricing the asset or liability developed based on market data obtained from sources independent of the Company. Unobservable inputs are inputs that reflect the Company's assumptions about the assumptions market participants would use in pricing the asset or liability developed based on the best information available in the circumstances.

The fair value hierarchy also requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. As a basis for considering such assumptions, ASC 820 establishes a three-tier value hierarchy, which prioritizes the inputs used in the valuation methodologies in measuring fair value:

Level 1 - Valuations based on quoted prices in active markets for identical assets that the Company has the ability to access. Valuation adjustments and block discounts are not applied to Level 1 instruments. Since valuations are based on quoted prices that are readily and regularly available in an active market, valuation of these products does not entail a significant degree of judgment.

These financial statements have not been subjected to an audit or review or compilation engagement, and no assurance is provided on them.

Level 2 - Valuations based on one or more quoted prices in markets that are not active or for which all significant inputs are observable, either directly or indirectly.

Level 3 - Valuations based on inputs that are unobservable and significant to the overall fair value measurement.

The fair value of the derivative liabilities are valued based on level 2 of the hierarchy.

The carrying amounts of cash and cash equivalents, short-term loans, and accounts payable approximate their fair value due to the short-term maturities of such instruments.

The carrying amounts of long-term notes payable received in cash are reported at their original amounts.

Basic and Diluted Net Loss per Share:

Basic and diluted net loss per share is presented in accordance with ASC 260-10, "Earnings per Share" for all periods presented. Basic and diluted net loss per share of Common Stock was determined by dividing net loss attributable to Common stock holders by weighted average number of shares of Common Stock outstanding during the period. Diluted net loss per share of Common Stock is the same as basic net loss per share of Common Stock for all periods presented as the effect of the Company's potential additional shares of Common Stock were anti-dilutive.

NOTE 6 STOCKHOLDER'S DEFICIENCY

Authorized Shares: The Company's Board of Directors is authorized to issue from time to time up to 2 million shares of preferred stock in one or more series, and to fix for each such series such voting power and such designations, preferences, relative participating or other rights, redemption rights, conversion privileges and such qualifications or restrictions thereof as shall be adopted by the board and set forth in an amendment to the Company's Certificate of Incorporation. Unless a vote of any shareholders is required pursuant to the rights of the holders of preferred stock then outstanding, the board may from time to time increase or decrease (but not below the number of shares of such series outstanding) the number of shares of any series of Preferred Stock after the issuance of shares of that series.

On the April 26, 2016 the company applied to the State of Delaware to designate a Series B Convertible Preferred Stock and the amendment of the Amended and restated Certificate of Incorporation of the company that the total number of shares of all classes of stock that the company shall have the authority to issue is 300,000,000 of which 298,000,000 are shares of common stock, par value \$0.01 per share and 2,000,000 shares are Preferred Stock, par value \$0.01.

The Series B Convertible Preferred Stock shall consist of 1,000,000 shares. The Series B Convertible Preferred shall be senior to the common stock. Each share of Series B Convertible Preferred shall be convertible, at the option of the holder thereof, at any time after three (12) months from the date of issuance, however, the stock will be callable if it trades at \$1.00 or more for ten (10) consecutive days (the "Conversion Date") and will convert into a number of shares of fully paid and non-assessable shares of Common Stock based upon the price per share of the Common stock, determined based on the average of the closing bid price for the Company's common stock for each of the ten (10) consecutive trading days immediately prior to the date the holder gives notice to the Corporation of their intent to convert the Preferred, less a discount of fifty percent (50%) (the "Conversion Ratio").

On July 14, 2016 The State of Delaware approved the amendment of the Amended and restated Certificate of Incorporation of the company that the total number of shares of all classes of stock that the company shall have the authority to issue is 750,000,000 of which 748,000,000 are shares of common stock, par value \$0.01.

On January 30, 2017 the State of Delaware approved the amendment of the Amended and restated Certificate of Incorporation of the that the total number of shares of all classes of stock that the company shall have the authority to issue is 5,000,000,000 of which 4,998,000,000 are shares of common stock , par value \$0.0001 per share and 2,000,000 shares are Preferred Stock, par value \$0.0001. All amounts based on the par value have been restated for this change in par value.

Equity Incentive Plans

In April 2005, the Company adopted the 2005 Equity Incentive Plan (the "2005 Plan"). A total of 87,500 shares of Common Stock were originally reserved for issuance under the 2005 Plan. The 2005 Plan provides for the grant of incentive stock options, nonqualified stock options, stock appreciation rights, restricted stock, and bonus stock, awards in lieu of cash obligations, other stock-based awards and performance units. The 2005 Plan also permits cash payments under certain conditions. The compensation committee of the Board of Directors is responsible for determining the type of award, when and to who awards are granted, the number of shares and the terms of the awards and exercise prices. The options are exercisable for a period not to exceed ten years from the date of grant. Vesting periods range from immediately to four years. Under the 2005 plan options granted expire no later than the tenth anniversary from the date of the grant.

In April 2005, the Company adopted the 2005 Non-Employee Directors Stock Option Plan (the "2005 Directors Plan") providing for the issuance of up to 20,000 shares of Common Stock to non-employee. Under the 2005 Directors Plan, only non-qualified options may be issued and they will be exercisable for a period of up to six years from the date of grant.

The 2005 Plan and the Non-Employee Directors Plan authorized options exercisable into 95,000 shares of common stock at an exercise price of \$7.80. NOTE 7 INCOME TAXES

For the three months ended March 31, 2019, the Company had available for U.S federal income tax purposes net operating loss carryovers of approximately \$1,200,000, which expire beginning in 2036. The net operating loss carryovers may be subject to limitations under Internal Revenue Code due to significant changes in the Company's ownership. The Company has provided a full valuation allowance against the full amount of the net operating loss benefit, since, in the opinion of management, based upon the earnings history of the Company it is more likely than not that the benefits will not be realized.

For the year ended December 31, 2018, the Company had available for UK income tax purposes net operating loss carryovers of approximately \$900,000, which can be carried forward indefinitely. The Company has provided a full valuation allowance against the amount of UK unused net operating loss benefit, since management believes that, based upon the earnings history of the Company, it is more likely than not that the benefits will not be realized. Management does not believe that the Company has any material uncertain tax positions requiring recognition or measurement in accordance with the provisions of ASC 740. The Company's policy is to record interest and penalties on uncertain tax positions, if any, as income tax expense. All tax years for the Company remain subject to future examinations by the applicable taxing authorities.
