5) <u>Financial Statements:</u> Enclosed at end of this document.

6) Describe the Issuer's Business, Products and Services

TeleFix Communications, Inc., operating subsidiary of Parent company (Holdings), private entity was founded in March 2010, pre-launched at the CTIA Wireless Show in Las Vegas. We are a woman-owned turn-key wireless communications infrastructure services provider and business technologies company. We supply a new level of high quality plus lower cost savings in our turn-key wireless network construction and engineering services to a rapidly expanding multi-billion market.

TeleFix surpasses current industry norms, ensuring lower costs of service by "Getting the job done right the first Time", employing our proprietary technology and solution specifically developed to solve this problem and deliver on our promise. Primary customers are private mobile carriers.

TeleFix is poised to deliver exemplary services in design, project document management, network planning, deployment, quality control, and cost efficiency.

Our key advantage is our genuine concern for our customers, employees, and passion for the industry. Our continual commitment is to meet the requirements for higher quality and efficiencies; giving customers what they want at the price they want. These are the main pains in the industry - higher overall quality in network performance to the end consumer; faster data speeds and enhanced voice service – reduced dropped calls, lower upgrade build costs, improve margins.

The industry created Quest Forum, a collaboration of telecom companies and government agencies to design ISO qualification standards centered on higher quality and cost efficiency. TeleFix's business model and new technologies directly addresses and solves these pains.

We have innovated a proprietary process utilizing forward-thinking technology. (COPS). We systemized a tedious project close out reporting and documentation process using mobile video via smartphones with a live broadcast interactive platform. The platform's capabilities enable precise delivery of TeleFix's mission. Being able to remotely monitor multiple work sites either virtually or from our expert staffed command center meets the higher level of quality and cost efficiency for which so many industries strive. An added and key benefit of this technology is bridging the skills gap so common in today's technology workplace. Most importantly, it will improve overall cash flow with the elimination of time to collect, increase margins and profitability particularly true in service related industries such as construction and engineering. We want this solution to advance industries across multiple verticals and improve lives. The company is in the process of deployment. This will be a license and subscription based business segment. Multiple additional revenue streams will be derived via mobile devices and data usage.

At this time the company is in a strategic partnership approval process with a major mobile service provider.

Get the work done right the first time. Get jobs done fast.

A. Date and State (or Jurisdiction) of Incorporation:

January 14th, 2009 (Holdings "Parent")

B. The issuer's primary and secondary SIC Code -

Primary –	4812; 4899	Radio Telecommunications - Cellular/Wireless
Secondary -	1623-12	Telecommunications Equipment/Systems, Cabling & Wiring

C. The issuer's fiscal year end date;

June 30th

D. Principal products or services, and their markets:

Wireless Network Infrastructure - Service

Video mobile to mobile project and documentation system - COPS® - Proprietary Technology

7) Describe the Issuer's Facilities

The Company has a lease agreement for 2800 SF of office space. This is a temporary space to house administrative and temporary technical command center until the Company is able to remodel permanent space of approximately 5000 SF. This space will mostly be accommodating TeleFix's full 24/7/365 Technical Command Center. This Command Center is key to TeleFix's full execution of service delivery's business model of "Get the Job Done Right the First Time."

8) Officers, Directors, and Control Persons

<u>TeleFix Communications Holdings, Inc.</u> (F/K/A Sierra Desert Holdings and Subsidiary TeleFix Communications, Inc.) <u>Notes to Consolidated Financial Statements, Unaudited</u> <u>Fiscal Quarter Ended 12/31/2014</u>

Note 1 – Material Changes in Company

- a) Additional investment of \$22k was received in Q2, 2015
- b) A payment plan was entered into with the Internal Revenue Service for payroll taxes.
- c) At the suggestion from our auditors, the \$2m intangible asset notated as WEBNC has been removed.
- d) A correction was made to the investor's Loan Payable. A disbursement received from the investor in 2013 was incorrectly applied to the loan account but was in fact for the purchase of stock. Since the stock account has been reconciled with the Transfer Agent each quarter, the funds were reclassed to additional paid in capital.
- e) \$6k of inventory was written off in this quarter at auditors recommendations

Note 2 – common Stock Compensation – non-GAAP financial measures

a) No stock sales were initiated in Q2, 2015
