## Shareholder Notification

Dallas, Texas February 7<sup>th</sup>, 2013

**To the Shareholders of TeleFix Communications, Inc. from the Chief Executive Officer:**

TeleFix Communications has made great strides in the past year. We hired talented people, formed strategic ventures, and most importantly, have positioned our company to create meaningful long-term value for you, our shareholders. We want you to know that we sincerely appreciate each and every one of you and value your contribution to our growth.

We continue to ramp up to fulfill our commitments. Although we are building our infrastructure, as a small company, we do not have the resources to promulgate information frequently. At this time it is paramount to our success for us to direct all available resources to the legal and material costs of a major ramp up to sustain our contractual obligations. Our customers are counting on us. Included in these costs are activities such as raising capital, additional hiring, training, equipment, and contractual documentation.

As you are probably aware, the country is under-going a major long-term build out of LTE communications in every state. We are uniquely positioned to lead in this endeavor. At this point we require our entire focus be placed on this activity. We will continue to be a non-reporting company until we can sustain our contractual obligations and are able to complete the level of reporting for which we strive.

Make no mistake – there is a tremendous amount of work ahead of us. Our entire product and services offering are in high demand. We are optimistic that we can ultimately deliver a solid foundation for a sustainable and stronger future. While we may need patience for all of our efforts to bear fruit, we are confident that we will produce superior results. Rest assured that we are working on your behalf. We will continue to update you monthly.

Thank you in advance for your continued support as we build TeleFix into the enterprise it can become.

Sincerely,

/S/ MNorman
