6) Describe the Issuer's Business, Products and Services

True North Energy Corporation (the "Company" or "True North"), formerly Ameriprint International, Ltd. ("Ameriprint"), was incorporated in the state of Nevada in April 2004. Ameriprint provided printing, advertising and graphic design services to commercial customers. During January 2006 Ameriprint underwent a change of control and operation of its prior business activities was discontinued. Immediately thereafter, Ameriprint was renamed True North and commenced operation as an independent oil and gas entity.

True North has been engaged in the acquisition, exploration, development and production of oil and gas properties in Alaska, Colorado and Texas since February of 2006. All of our oil and gas properties were divested through either foreclosure or sales between July 2009 and August 2011. On June 28, 2013, the Company changed control and the new management intends to revive more extensive oil and gas activities. Recently, True North has undergone exciting changes, which complement its core philosophy to build an energy company by continuously evaluating the bottom line. From bedrock to barrels: phase projects, establish positive earnings, and move methodically forward.

True North's strategy is to continue to build its operations under a two Phased approach. Phase I includes acquiring assets to establish positive earnings and underpin operating expenses with low risk producing assets. Phase II focuses on acquiring production and leasehold in low risk proven fields and implement workover and drilling programs including activating behind pipe, "stranded," reserves; increasing operational efficiency; and drilling infill locations on proven fields.

With the appointment of Nicolo' Golia Bedendo as CEO and President, the Company will continue promote its interest in the fashion industry, specifically to identify acquisition candidates and investment opportunities.

A. A description of the issuer's business operations;

True North is engaged in the acquisition, exploration, development and production of oil and gas and focused on Colorado, Oklahoma and Texas. The Company first became an oil and gas exploration and development company in February 2006, and until September 2007 had no developed reserves or production, nor revenues from its operations. Our producing properties acquired from September of 2007 were foreclosed upon in July of 2009, and we had not held any producing properties until the purchase of a .051416% royalty interest in Oklahoma effective August 2014.

Colorado Properties

In June 2007 True North acquired certain non-producing oil and gas interests and properties in northwest Colorado in an area covering more than 17,000 acres. The Company held a 100% working interest in the underlying oil and gas leases, which expire in 2016. On April 27, 2010, four of the eleven leases were suspended by the U.S. Department of the Interior Bureau of Land Management pending an Environmental Assessment which has not yet been completed. On June 20, 2010, the Company sold these leases for total proceeds of \$350,000, resulting in a loss of \$1,074,235 on the sale during the year ended April 30, 2011. The Company retained an Overriding Royalty Interest of 0.375% on the leasehold interests.

Oklahoma Properties

On September 1, 2014, the Company, through its TN Energy, Inc. subsidiary, purchased a .051416% royalty interest in the producing wellbore of the K Farm 9-18N-1W #1WH located in Section 9-T18N-R1W, Payne County, Oklahoma. Operated by Devon Energy Corporation of Oklahoma City, Oklahoma.

Marco Capital Limited

On June 4, 2014, the Company acquired all of the outstanding shares of a recently formed and inactive corporation, Marco Capital Limited, which was organized pursuant to the Hong Kong Companies Ordinance. Headquartered in Hong Kong, Marco Capital Limited plans to explore emerging markets with opportunities in various industries, including China. On October 30, 2015, the Marco Capital Limited executed a letter of intent with LeCrown Ltd., a Hong Kong company. On November 26, 2015 Marco Capital Limited would acquire 70% of the total outstanding shares of LeCrown. The purpose of the transaction is to fund the operations of LeCrown in the areas of Italian fashion design, hand-made shoes, e-commerce, trademark commercialization, and merchandising. Effective April 30, 2016, Marco Capital issued additional shares to other parties and effectively diluting the Company's ownership to 9%.

On July 30, 2014, the Company formed a wholly owned subsidiary, TN Energy, Inc., in the state of Texas, for the purpose of acquiring, owning and/or operating oil and gas properties. On July 30, 2014, the Company's overriding royalty interests in its Colorado properties were assigned to this subsidiary.

True North Energy Corporation & Subsidiaries Notes to Consolidated Financial Statements For the Three and Six Months Ended October 31, 2016 and 2015

(unaudited)

Note 1 – Basis of Presentation and Significant Accounting Policies

Organization and Basis of Presentation

The accompanying interim unaudited consolidated financial statements and footnotes of True North Energy Corporation and its subsidiaries (the "Company"), have been prepared in accordance with accounting principles generally accepted in the United States ("GAAP") and applicable rules and regulations of the Securities and Exchange Commission regarding interim financial reporting. The financial statements reflect all adjustments that are, in the opinion of management, necessary to fairly present such information. All such adjustments are of a normal recurring nature. Although the Company believes that the disclosures are adequate to make the information presented not misleading, certain information and footnote disclosures, including a description of significant accounting policies normally included in financial statements prepared in accordance with GAAP have been condensed or omitted pursuant to such rules and regulations. These financial statements should be read in conjunction with the financial statements and the notes thereto included in the Company's Annual Report filed on the OTC Markets. The accompanying unaudited financial statements reflect all normal recurring adjustments necessary to present fairly the financial position, results of operations, and cash flows for the interim periods, but are not necessarily indicative of the results for any subsequent quarter or the entire year ending April 30, 2017. On June 28, 2013, True North Energy Corporation (the "Company" or "True North") had a change of control and management. The Company's common stock is traded on the Over the Counter Pink Sheets ("OTC PK") under the symbol, ("TNEN").

On June 4, 2014, the Company acquired all of the outstanding shares of a recently formed and inactive corporation, Marco Capital Limited (MCL), organized pursuant to the Hong Kong Companies Ordinance. Headquartered in Hong Kong, MCL is exploring emerging market opportunities in various industries, including those in China. On or about November 20, 2015, MCL acquired shares in LeCrown Ltd., a newly organized Hong Kong Company for the purpose of operating in the fashion industry centralized in Milan, Italy. LeCrown designs and produces handmade Italian fashion shoes, with a heritage from the 1940's. All significant inter-company transactions were eliminated in the preparation of these consolidated financial statements.

Effective April 30, 2016 MCL issued additional common shares to new investors which reduced the Company's ownership to 9.1% of the then outstanding shares of MCL. As of April 30, 2016, MCL and its subsidiary, LeCrown were deconsolidated from the reporting of the Company.

On July 30, 2014, the Company formed a wholly owned subsidiary, TN Energy, Inc., under the laws of the state of Texas for the purpose of acquiring, owning and/or operating oil and gas properties. On July 30, 2014, the Company's overriding royalty interests in its Colorado properties were assigned to this subsidiary (Note 4). All significant inter-company transactions have been eliminated in the preparation of these consolidated financial statements.

Note 1 – Basis of Presentation and Significant Accounting Policies (continued)

Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amount of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Basic and Diluted Loss Per Share

Basic earnings per share (EPS) are computed by dividing net income (the numerator) by the weighted average number of common shares outstanding for the period (the denominator). Diluted EPS is computed by dividing net income by the weighted average number of common shares and potential common shares outstanding (if dilutive) during each period. Potential common shares include stock options, warrants and restricted stock. The number of potential common shares outstanding relating to stock options, warrants and restricted stock is computed using the treasury stock method. For the six months ended October 31, 2016 and 2015, approximately 320,000,000 and 568,500,000 potentially dilutive securities, respectively, were excluded from the EPS calculation because they would have had an anti-dilutive effect.

Income Taxes

The Company recognizes deferred tax assets and liabilities based on differences between the financial reporting and tax basis of assets and liabilities using the enacted tax rates and laws that are expected to be in effect when the differences are expected to be recovered. The Company provides a valuation allowance for deferred tax assets for which it does not consider realization of such assets to be more likely than not.

Recently Issued Accounting Pronouncements

During the six months ended October 31, 2016 and through December 15, 2016, several new accounting pronouncements were issued by the Financial Accounting Standards Board and/or the Securities and Exchange Commission. Each of these pronouncements, as applicable, has been or will be adopted by the Company. Management does not believe the adoption of any of these accounting pronouncements has had or will have a material impact on the Company's consolidated financial statements.

Note 2 – Going Concern

As shown in the accompanying consolidated financial statements, the Company has incurred recurring losses from operations resulting in an accumulated deficit of approximately \$27,786,408, and as of October 31, 2016, the Company's current and total liabilities exceeded its current and total assets by approximately \$3,510,025. These factors raise substantial doubt about the Company's ability to continue as a going concern. Management is actively pursuing new ventures to recommence operations, set up an operating subsidiary, in addition to holding its over-riding royalty interests in oil and gas assets. In addition, the Company currently seeks additional sources of capital to fund short term operations.

True North Energy Corporation & Subsidiaries Notes to Consolidated Financial Statements For the Three and Six Months ended October 31, 2016 and 2015

(unaudited)

Note 2 – Going Concern (continued)

Management plans to raise additional capital through loans, private offerings, and potentially through public offerings of its common stock.

The consolidated financial statements do not include any adjustments that might result from the outcome of any uncertainty as to the Company's ability to continue as a going concern. These consolidated financial statements also do not include any adjustments relating to the recoverability and classification of recorded asset amounts, or amounts and classifications of liabilities that might be necessary should the Company be unable to continue as a going concern.

Note 3 – Related Parties

On June 20, 2016, Mr. Gilbert Steedley, our CEO, President, Secretary, Treasurer, Chief Financial Officer and Sole Director tendered his resignation as Officer and Sole Director of the Company and its Subsidiary. Mr. William M. Simmons was appointed to act as interim CEO, President and Sole Director for an initial term of June 20, 2016 through September 30, 2016, renewable monthly. Mr. Simmons entered into an executive employment agreement in exchange for a fee of Two Thousand Dollars (\$2,000) monthly and warrants to purchase 100,000 shares of the Company's common stock.

On September 20, 2016, Mr. Simmons appointed Mr. Nicolo' Bedendo, to serve as the Chief Executive Officer, President and Director of the Company. Mr. Bedendo entered into an executive employment agreement with the Company for the period from September 20, 2016 through September 20, 2019. This Agreement supersedes and replaces the Consulting Agreement the Parties entered into approximately January 27, 2016 for the Executive to act as True North's Team Leader in the Fashion Sector. The agreement shall auto-renew for one month terms until either party terminates the agreement. Mr. Bedendo's agreement provides for annual compensation of One Dollar (\$1) and a warrant to purchase 10% of the Company's then outstanding common stock in exchange for \$15,000, should he continue to serve at the end of his three-year term.

Note 4 – Convertible Settlements Payable

On October 10, 2013, the Circuit Court of the Second Judicial Circuit in and for Leon County, Florida approved a Settlement Agreement entered into between the Company and ASC Recap LLC (Recap) whereby a total of \$1,124,000 of outstanding debts that were acquired by Recap from various creditors. In satisfaction of the outstanding debts acquired by Recap, we agreed to issue Recap shares of our common stock (Settlement Shares) in various tranches and from which 75% of the proceeds from the sale of these shares by Recap would be used to satisfy the outstanding debts until such time as the debts are satisfied. The exact number of Settlement Shares to be issued pursuant to the Settlement Agreement is indeterminable, and Recap is precluded from owning more than 9.99% of the Company's common stock in aggregate at any given time. Recap does not bear the risk of market loss. The difference between the amount of proceeds used to satisfy the outstanding debts and the fair value of the common stock shares issued will result in a gain or loss on debt settlement.

True North Energy Corporation & Subsidiaries Notes to Consolidated Financial Statements For the Three and Six Months ended October 31, 2016 and 2015 (unaudited)

Note 5 – Convertible Notes Payable

On varying dates between August 1, 2014 and April 30, 2016 the Company issued convertible promissory notes to unrelated parties totaling \$428,522 in exchange for cash advances, settlement of accounts payable and services provided to the Company. The notes bear interest at a rate of 6% per annum and are due on various dates from September 1, 2014 through April 1, 2016.
