QUARTERLY DISCLOSURE STATEMENT
FOR THE THREE AND SIX MONTHS ENDED DECEMBER 31, 2017 and 2016

D. Presentation of Unaudited Financial Statements – Financial Statement Notes

The accompanying unaudited financial statements of the Company should be read in conjunction with the Company's Annual Disclosure Statement for the year ended June 30, 2017, as filed with the OTC Marketplace on October 2, 2017. In the opinion of the Company, the unaudited financial statements contain all adjustments (all of which were considered normal and recurring) necessary for a fair statement of the Company's financial position at December 31, 2017 and the results of operations and cash flows for the three and six months ended December 31, 2017 and 2016. The preparation of the Company's financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts and disclosure of certain assets and liabilities at the balance sheet date. Such estimates include revenue recognition, the collectability of receivables, and the carrying value of inventory and property and equipment. Actual results may differ from such estimates. These interim results are not necessarily indicative of results to be expected for a full year or subsequent interim periods.

(1) **Inventories**

Inventories consist of the following:	(Unaudited) December 31, 2017	(Unaudited) June 30, 2017
Finished goods/work-in-progress	\$ 46,382	\$ 38,092
Purchased product and materials	2,042,775	1,934,973
	\$ 2,089,157	\$ 1,973,065

(2) Stockholders' Equity

Dividend - On September 14, 2016, the Board of Directors declared a special one-time dividend of \$2.00 per share for stockholders of record on October 10, 2016, payable on November 9, 2016 which reduced retained earnings by \$614,256.

Treasury Stock – Shares of common stock repurchased are classified as treasury shares. During the six months ended December 31, 2017, the remaining 1,000 of the 13,000 shares of treasury stock that were accrued at June 30, 2017, were issued as compensation to key members of the staff for performance bonuses included in accrued expenses as of June 30, 2017. During fiscal 2016, the Company determined that 1,923 shares of common stock previously reported as treasury shares were actually retired prior to July 1, 2014. This resulted in a restatement of common shares issued from 360,331 to 358,358, a decrease in common stock par value, and an increase in additional paid-in-capital, of \$40. Prior periods in the financial statements reflect this change.

(3) Income Taxes

The income tax provision for the six months ended December 31, 2017 and 2016 consists of the following:

(5) Not Yet Adopted Recent Accounting Pronouncements

Revenue

In May 2014, the FASB issued Accounting Standards Update No. 2014-09, *Revenue from Contracts with Customers* (ASU 2014-09), which supersedes nearly all existing revenue recognition guidance under U.S. GAAP. The core principle of ASU 2014-09 is to recognize revenues when promised goods or services are transferred to customers in an amount that reflects the consideration to which an entity expects to be entitled for those goods or services. ASU 2014-09 defines a five-step process to achieve this core principle and, in doing so, more judgment and estimates may be required within the revenue recognition process than are required under existing U.S. GAAP.

The standard is effective for annual periods beginning after December 15, 2018, using either of the following transition methods: (i) a full retrospective approach reflecting the application of the standard in each prior reporting period with the option to elect certain practical expedients, or (ii) a retrospective approach with the cumulative effect of initially adopting ASU 2014-09 recognized at the date of adoption (which includes additional footnote disclosures). The new standard allows for early adoption for annual periods beginning after December 15, 2016. The Company is currently evaluating the impact of its pending adoption of ASU 2014-09 on its financial statements and has not yet determined the method by which it will adopt the standard.

Leases

In February 2016, the FASB issued Accounting Standards Update No. 2016-02, *Leases*. The new standard establishes a right-of-use (ROU) model that requires a lessee to record a ROU asset and a lease liability on the balance sheet for all leases with terms longer than 12 months. Leases will be classified as either finance or operating, with classification affecting the pattern of expense recognition in the income statement.

The new standard is effective for fiscal years beginning after December 15, 2019. A modified retrospective transition approach is required for lessees for capital and operating leases existing at, or entered into after, the beginning of the earliest comparative period presented in the

QUARTERLY DISCLOSURE STATEMENT FOR THE THREE AND SIX MONTHS ENDED DECEMBER 31, 2017 and 2016

financial statements, with certain practical expedients available. The Company is currently evaluating the impact of its pending adoption of the new standard on its financial statements.

Deferred Taxes

In November 2015, the FASB issued ASU 2015-17, *Balance Sheet Classification of Deferred Taxes*, which will eliminate the guidance in Topic 740, *Income Taxes*, that required an entity to separate deferred tax liabilities and assets between current and noncurrent amounts in a classified balance sheet. Rather, deferred taxes will be presented as noncurrent under the new standard. The amendment is effective for fiscal years beginning after December 15, 2017. The Company does not expect that the adoption of this new standard will have a significant impact on the financial statements.
