NOTE 1 - ORGANIZATION AND OPERATIONS

TRIAD PRO INNOVATORS, INC. (the "Company") was incorporated in Nevada on May 17, 1994 ("Inception"). After several failed business attempts during the late 1990's through August 22, 2016, the Company acquired new management, and a Certificate of Reinstatement was issued by the State of Nevada. New management obtained control at that time and has entered into a business plan to develop renewable energy storage products. On August 18, 2016 Pal Business Groups, Inc., a company possessing significant energy storage technology, was merged into our Company. On August 20, 2016 the Company acquired Rapid-K Energy Solutions; its proprietary energy storage solutions and its registered trademarks. On October 31, 2016, and on January 2, 2017 the Company acquired two revenue producing co-generation facilities, and on November 30, 2017 acquired a third one.

NOTE 2 – BASIS OF PRESENTATION AND SIGNIFICANT ACCOUNTING POLICIES

Summary of Significant Accounting Policies

This summary of significant accounting policies of Triad Pro Innovators, Inc. is presented to assist in understanding the Company's financial statements. The financial statements and notes are representations of the Company's management who are responsible for the integrity and objectivity of the financial statements. These accounting policies conform to generally accepted accounting principles and have been consistently applied in the preparation of the financial statements.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. A change in managements' estimates or assumptions could have a material impact on the Company's financial condition and results of operations during the period in which such changes occurred.

Actual results could differ from those estimates. The Company's financial statements reflect all adjustments that management believes are necessary for the fair presentation of their financial condition and results of operations for the periods presented.

Year-end

The Company's year-end is November 30.

Cash and Cash Equivalents

For purposes of the statements of cash flows, cash equivalents include all highly liquid investments with original maturities of three months or less which are not securing any corporate obligations. The

TRIAD PRO INNOVATORS, INC
Notes to Financial Statements
For the Years Ended November 30, 2018 and 2017
(unaudited)

Company maintains its cash in bank deposit accounts, which, at times, may exceed federally insured limits. The Company has not experienced any losses in such accounts.

Property and Equipment

Property and equipment are carried at cost. Expenditures for maintenance and repairs are charged against operations. Renewals and betterments that materially extend the life of the assets are capitalized. When assets are retired or otherwise disposed of, the cost and related accumulated depreciation are removed from the accounts, and any resulting gain or loss is reflected in income for the period. Depreciation is computed for financial statement purposes on a straight-line basis over estimated useful lives of the related assets. The estimated useful lives of depreciable assets are:

Classification	Estimated Useful Lives
Computers and office equipment	3 years
Furniture and fixtures	5 years
Operating plants	5 years
Intellectual property	7 years

The Company has elected to begin depreciating the intellectual property when revenue is earned from it. Until then the intellectual property including trademarks will be evaluated quarterly to determine whether any impairment is required.

Revenue Recognition

The Company recognizes revenue for its professional services and product sales when persuasive evidence of an arrangement exists, performance of services has occurred or the product has been delivered, and the sales price is fixed or determinable and collectability is probable.

Subsequent to acquisition of the 808 operating plants on October 31, 2016, and January 2, 2017, the Company has generated \$1,120,639 from co-generation services provided to two clients.

During the year November 30, 2018 the Company did not earn any fees for professional services or other product sales.

Impairment of Long-lived Assets

The Company reviews long-lived assets for impairment when circumstances indicate the carrying amount of an asset may not be recoverable based on the undiscounted future cash flows of the asset. If the carrying amount of the asset is determined not to be recoverable, a write-down to fair value is recorded. Fair values are determined based on quoted market values, discounted cash flows, or external appraisals, as applicable. The Company reviews long-lived assets for impairment at the individual asset or the asset group level for which the lowest level of independent cash flows can be identified. No impairment expense has been recorded on long-lived assets for the year ended November 30, 2018 nor the year ended November 30, 2017.

Income Taxes

Income taxes are accounted for under the asset and liability method. Deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases and operating loss and tax credit carry forwards. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the enactment date. A valuation allowance is provided for deferred tax assets if it is more likely than not these items will either expire before the Company is able to realize their benefits, or that future deductibility is uncertain.

The Company also follows the guidance related to accounting for income tax uncertainties. In accounting for uncertainty in income taxes, the Company recognizes the financial statement benefit of a tax position only after determining that the relevant tax authority would more likely than not sustain the position following an audit. For tax positions meeting the more likely than not threshold, the amount recognized in the financial statements is the largest benefit that has a greater than 50 percent likelihood of being realized upon ultimate settlement with the relevant tax authority. No liability for unrecognized tax benefits was recorded as of November 30, 2018 and November 30, 2017.

Fair Value Measurements

The fair value of a financial instrument is the amount that could be received upon the sale of an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Financial assets are marked to bid prices and financial liabilities are marked to offer prices. Fair value measurements do not include transaction costs. A fair value hierarchy is used to prioritize the quality and reliability of the information used to determine fair values. Categorization within the fair value hierarchy is based on the lowest level of input that is significant to the fair value measurement. The fair value hierarchy is defined into the following three categories:

Level 1: Quoted market prices in active markets for identical assets or liabilities

Level 2: Observable market-based inputs or inputs that are corroborated by market data

Level 3: Unobservable inputs that are not corroborated by market data

Stock-Based Compensation

The Company records stock-based compensation at fair value as of the date of grant and recognizes the corresponding expense over the requisite service period. Compensation expense is generally recognized on a straight line basis over the service period.

TRIAD PRO INNOVATORS, INC
Notes to Financial Statements
For the Years Ended November 30, 2018 and 2017
(unaudited)

Earnings (Loss) per Common Share

Basic earnings per share are calculated dividing income available to common stockholders by the weighted average number of common shares outstanding. Diluted earnings per share are based on the assumption that all dilutive convertible shares and stock options and warrants were converted or exercised. Dilution is computed by applying the treasury stock method. Under this method, warrants and options are assumed to be exercised at the beginning of the period (or at the time of issuance, if later), and as if funds obtained thereby were used to purchase common stock at the average market price during the period. There were 0 dilutive shares outstanding as of November 30, 2018 and November 30, 2017 respectively.

Research and Development Costs

The Company has and will continue to invest in the development and production of various products related to the Rapid K proprietary storage device. Expenditure will be analyzed and reviewed based on its specifics, to determine its specific disclosure with regard to ASC 350-30. The Company has reviewed the existing intellectual property and has determined that it is not economically feasible, at this time, to determine, for any of the products being developed, the economic benefit to be received, nor their future useful life and therefore will expense all costs as research and development costs.

Recently Adopted Accounting Pronouncements

The Company has evaluated recent accounting pronouncements, through February 28, 2018 and believes that none are expected to have a material effect on the Company's financial statements.

NOTE 3 – GOING CONCERN

The accompanying financial statements have been prepared, using accounting principles generally accepted in the United States of America ("GAAP"), assuming that the Company will continue as a going concern, which contemplates the recoverability of assets and the satisfaction of liabilities in the normal course of business. Since the change of management and control, the Company has been engaged substantially in developing its business plan and production of a proof of concept prototype. The Company incurred accumulated net losses through November 30, 2018 of \$11,325,218. In addition, the Company's development activities since acquisition have been financially sustained through the sale of capital stock and capital contributions from a lender and an affiliated party.

The ability of the Company to continue as a going concern is dependent upon its ability to raise additional capital from the sale of common stock or through debt financing and, ultimately, the achievement of significant operating revenues.

These financial statements do not include any adjustments relating to the recoverability and classification of recorded asset amounts, or amounts and classification of liabilities that might result from this uncertainty.

NOTE 4 – LOANS PAYABLE

On August 25, 2016 and September 1, 2016 the Company borrowed, from two unaffiliated investors, \$12,000 and \$7,885 respectively with interest of 5%. The loans were for working capital and bore a maturity date of April 29, 2017. The

advances including interest at the rate of 5% per annum, remained outstanding at November 30, 2016, and were repaid in full on April 18, 2017. On June 30, 2017 an unaffiliated investor loaned the Company, interest free, \$10,000 which was repaid on October 16, 2017. On July 26, 2017 an unaffiliated investor loaned the Company \$10,000 with interest of 5%, which loan was repaid in full on September 7, 2018.

On November 30, 2017, the Company assumed an obligation to a lender, in the amount of \$110,000, as partial compensation for acquisition of a co-generation facility. \$28,311 including accrued interest was repaid during the year ended November 30, 2018.

NOTE 5 – CONVERTIBLE LOAN PAYABLE

On October 7, 2007, Automated Shops Inc., which changed its name to Pal Business Groups, Inc. on January 21, 2016, borrowed \$200,000 from an investor. Our Company assumed the note as partial compensation for the intellectual property acquired from Pal. The note is unsecured, bears interest at 5% per annum, and is payable on demand. 5) Issuer's Business, Products and Services

A. Summarize the issuer's business operations (If the issuer does not have current operations, state "no operations")

The issuer has developed a proprietary device to be utilized in a variety of circumstances to store electricity. The newly developed Triad Pro power supply provides our storage system with tremendous operational flexibility. Using our propriety hardware and software solution, our eCell can be configured to store energy at a rate limited only by the network providing it, and then release that energy in a regulated way based upon the application, which allows for flexibility unknown in current chemical battery-based storage systems.

B. Describe any subsidiaries, parents, or affiliated companies, if applicable, and a description of their business contact information for the business, officers, directors, managers or control persons. Subsidiary information may be included by reference
