TURNER VALLEY OIL & GAS CORPORATION

(a Development Stage Company)

Notes to the Financial Statements

December 31, 2012 and 2011

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Organization

The Company was incorporated under the laws of Nevada on April 21, 1999 as NetParts.com. The Company was originally organized to create a series of 16 specialized auto salvage yards whereby the salvageable components would be inventoried on a computer and listed on the internet. The Company, however, changed their operations and their name on July 24, 2003 to Turner Valley Oil & Gas Corporation.

B. Revenue and Cost Recognition

Revenue Recognition

Revenue from sales of crude oil, natural gas and refined petroleum products are recorded when deliveries have occurred and legal ownership of the commodity transfers to the customers. Title transfers for crude oil, natural gas and bulk refined products generally occur at pipeline custody points or when a tanker lifting has occurred. Revenues from the production of oil and natural gas properties in which the Company shares an undivided interest with other producers are recognized based on the actual volumes sold by the Company during the period.

Oil and Gas Properties

The full cost method is used in accounting for oil and gas properties. Accordingly, all costs associated with acquisition, exploration, and development of oil and gas reserves, including directly related overhead costs, are capitalized. In addition, depreciation on property and equipment used in oil and gas exploration and interest costs incurred with respect to financing oil and gas acquisition, exploration and development activities are capitalized in accordance with full cost accounting. All capitalized costs of proved oil and gas properties subject to amortization are being amortized on the unit-of-production method using estimates of proved reserves.

Turner Valley Oil And Gas - 10K Year End 2012

3270 Sul Ross Houston, TX 77098 - Phone: 1-713-521-4205

Investments in unproved properties and major development projects not subject to amortization are not amortized until proved reserves associated with the projects can be determined or until impairment occurs. If the results of an assessment indicate that the properties are impaired, the amount of the impairment is added to the capitalized costs to be amortized. Capitalized interest for the years ended December 31, 2012 and 2011 was \$0.

Environmental Protection and Reclamation Costs

The operations of the Company have been, and may in the future be affected from time to time in varying degrees by changes in environmental regulations, including those for future removal and site restoration costs. Both the likelihood of new regulations and their overall effect upon the Company may vary from region to region and are not predictable.

The Company's policy is to meet or, if possible, surpass standards set by relevant legislation, by application of technically proven and economically feasible measures. Environmental expenditures that relate to ongoing environmental and reclamation programs will be charged against statements of operations as incurred or capitalized and amortized depending upon their future economic benefits. The Company does not currently anticipate any material capital expenditures for environmental control facilities because all property holdings are at early stages of exploration. Therefore, estimated future removal and site restoration costs are presently considered minimal. .

Asset Retirement Obligations

The Company has adopted Statement of Financial Accounting Standards No. 143 ("SFAS 143"), "Accounting for Asset Retirement Obligations", which requires that asset retirement obligations ("ARO") associated with the retirement of a tangible long-lived asset, including natural gas and oil properties, be recognized as liabilities in the period in which it is incurred and becomes determinable, with an offsetting increase in the carrying amount of the associated assets. The cost of tangible long-lived assets, including the initially recognized ARO, is depleted, such that the cost of the ARO is recognized over the useful life of the assets. The ARO is recorded at fair value, and accretion expense is recognized over time as the discounted cash flows are accreted to the expected settlement value. The fair value of the ARO is measured using expected future cash flow, discounted at the Company's credit-adjusted risk-free interest rate.

C. Cash and Cash Equivalents

The Company considers all highly liquid investments with maturities of three months or less to be cash equivalents.

D. Use of estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect reported amounts of assets and liabilities, disclosure of contingent assets and liabilities at the date of the financial statements and revenues and expenses during the reporting period. In these financial statements assets and liabilities involve extensive reliance on management's estimates. Actual results could differ from those estimates.

E. Financial Instruments

The recorded amounts of financial instruments, including cash equivalents, accounts receivable, accounts payable and short term notes approximate their market values as of December 31, 2012 and 2011. The Company has no investments in derivative financial instruments.

F. Basis of Presentation

These financial statements are presented in United States dollars and have been prepared in accordance with generally accepted accounting principles in the United States of America.

G. Impairment of Long-Lived Assets

In accordance with Financial Accounting Standards Board Statement No. 144, the Company records impairment of long-lived assets to be held and used or to be disposed of when indicators of impairment are present and the undiscounted cash flows estimated to be generated by those assets are less than the carrying amount.

H. Accounts Receivable

Management reviews its accounts receivable on a regular basis. If an account has a balance which is six months old, it is the policy of the company to record an allowance for doubtful accounts. The Company will continue to pursue all collection efforts. If at a later date, the account is deemed uncollectible, the account balance will be written off.

NOTE 2 - GOING CONCERN

The accompanying financial statements have been prepared assuming that the Company will continue as a going concern. The Company has suffered recurring operating losses and is dependent upon raising capital to continue operations. The financial statements do not include any adjustments that might result from the outcome of this uncertainty.

NOTE 3 – OIL & GAS PROPERTIES

All the Company's properties to date are geologically and physically independent of one another. They are all located in the Western Canadian Geologic Basin centered in Alberta, Canada.

On August 20, 2003, the Company entered into a purchase agreement to acquire 1% interest in a producing gas well, located at 2-2-38-9W5 Red Deer, Alberta, Canada. The gas production rate at the time of the acquisition fluctuated between 1.5 and 2 MMCF/Day (million cubic feet of gas per day). The Company's senior management has set out a rework program for this well. The rework program calls for an acid wash and acid stimulation of the producing formation. The Company has agreed to participate in the program. The program was completed on October 15, 2003 and as of October 20, 2003, the new production rates have stabilized at 2.66 MMCF/Day, representing a 40% increase over initial production rates.

In addition to the preceding acquisition, the Company entered into a purchase agreement to acquire 0.5% interest in 10 Sections (6,400 acres) of drilling rights offsetting Sct. 22-38-9W-5. These offsetting sections have identified seismic anomalies in multiple cretaceous pay zones.

On September 23, 2005 Turner Valley Oil and Gas Inc. through its wholly owned subsidiary TV Oil and Gas Canada Limited, has entered into a farm-out agreement with Odin Capital Inc. of Calgary, Alberta.

The terms of the Farm-Out agreement are as follows:

In exchange for our paying 3.00% of all costs associated with drilling, testing and completing the test well (expected drilling cost - approx. \$6.3 million Canadian to the 100% interest) on the property that is referred to as the Leduc Formation test well, we will have earned;

1. In the spacing unit for the Earning Well, a 1.500% interest in the petroleum and natural gas below the base of the Mannville excluding natural gas in the Leduc formation, and a 3.00% interest in the natural gas in the Leduc formation before payout subject to payment of an Overriding Royalty which is

- convertible upon payout at the Royalty Owners option to 50% of our interest.
2. A 1.200% interest in the rights below the base of the shunda formation in Section 10, Township 38, Range 9W5M

ITEM 6. DESCRIBE THE ISSUER'S BUSINESS, PRODUCTS AND SERVICES.

A. DESCRIPTION OF ISSUER'S BUSINESS OPERATIONS.

The Company is a holding company with a current focus on the energy industry. The Company concentrates its efforts in acquisition and management of businesses within that industry that are either profitable or can be made profitable by application of the Company's management and/or resource expertise.

B. DATE AND STATE OF INCORPORATION

The Company was incorporated in the State of Nevada on April 21, 1999.

C. PRIMARY AND SECONDARY SIC CODES

The Company's primary (and only) SIC code is 1311 (oil and gas).

D. THE COMPANY'S FISCAL YEAR END DATE

The Company's fiscal year ends on December 31.

E. PRINCIPAL PRODUCTS OR SERVICES AND THEIR MARKETS

The Company focuses on exploration and development of natural resources, primarily oil and natural gas, the markets for which are worldwide dealers and wholesale buyers. Oil and gas are widely used throughout the United States. Recent, dramatic commodity price increases and surging global demand means the outlook for such resources is strong. Extraction has become more profitable in areas where production costs were formerly prohibitive. This creates highly favorable opportunities for the company in both development and redevelopment.

F. RESULTS OF OPERATIONS FOR THE YEAR ENDED DECEMBER 31, 2013 COMPARED TO THE YEAR ENDED DECEMBER 31, 2012:

Revenues: The Company had no revenue for the period ended December 31, 2012, or for the period ended December 31, 2011.

Cost of Revenues: The Company incurred no costs of sales for either of the periods ended December 31, 2012 or December 31, 2011.

Gross Profit: The Company did not have any gross profit for either the period ended December 31, 2012 or the period ended December 1, 2011.

Operating Costs: Operating costs consist of the Company's administrative expenses before depreciation and interest. Operating costs for the year ended December 31, 2012 totaled \$75,159, compared to \$79,975 for the year ended December 31, 2011.

Operating Gain (Loss): The Company produced a operating loss for the year ended December 31, 2012 of \$75,759, compared to a loss of \$79,975 for the year ended December 31, 2011.

Net Gain (Loss) Before Income Taxes: Net gain or loss before income taxes represents operating gain or loss plus other (non-operating) gain or loss. For the year ended December 31, 2012, the company had a net loss of \$75,759, compared to a net loss of \$79,975 for the year ended December 31, 2011.

Liquidity and Capital Resources: During the year ended December 31, 2012, the Company did not produce any cash or cash equivalents from operations.

To date, we have not invested in derivative securities or any other financial

instruments that involve a high level of complexity or risk. We expect that in the future, any excess cash will continue to be invested in high credit quality, interest-bearing securities.

We believe cash from operating activities, and our existing cash resources may not be sufficient to meet our working capital requirements for the next 12 months. We will likely require additional funds to support the Company's business plan. Management intends to raise additional working capital through debt and equity financing.

There can be no assurance that additional financing will be available on acceptable terms, if at all. If adequate funds are not available, we may be unable to take advantage of future opportunities, respond to competitive pressures, and may have to curtail operations.

There are no legal or practical restrictions on the ability to transfer funds between parent and subsidiary companies.

There are no known trends or uncertainties excepting those herein disclosed, that will have a material impact on revenues.

G. OFF-BALANCE SHEET ARRANGEMENTS

The Company did not engage in any off-balance sheet arrangements during the fiscal Year ended December 31, 2013.

ITEM 7. DESCRIBE THE ISSUER'S FACILITIES

As of December 31, 2012, the Company's principal office is located 3270 Sul Ross Houston, TX 77098. As of December 31, 2012, there are no other facilities.

Forward Looking Statements

CAUTIONARY STATEMENTS RELEVANT TO FORWARD-LOOKING INFORMATION FOR THE PURPOSE OF “SAFE HARBOR” PROVISIONS OF THE PRIVATE SECURITIES LITIGATION REFORM ACT OF 1995

Based upon industry standards, Turner Valley would be considered highly speculative. Important factors that could cause actual results to differ materially from those in the forward-looking statements are crude oil and natural gas prices; refining margins and marketing margins; chemicals margins; actions of competitors; timing of exploration expenses; the competitiveness of alternate energy sources or product substitutes; technological developments; the results of operations and financial condition of equity affiliates; the inability or failure of the company’s joint-venture partners to fund their share of operations and development activities; the potential failure to achieve expected net production from existing and future crude oil and natural gas development projects; potential delays in the development, construction or start-up of planned projects; the potential disruption or interruption of the company’s net production or facilities or delivery/transportation networks due to war, accidents, political events, civil unrest, acts of God or crude-oil production quotas that might be imposed by OPEC (Organization of Petroleum Exporting Countries); the potential liability for remedial actions under existing or future environmental regulations and litigation; significant investment or product changes under existing or future environmental statutes, regulations and litigation; the potential liability resulting from pending or future litigation; the company’s acquisition or disposition of assets; gains and losses from asset dispositions or impairments; government-mandated sales, divestitures, recapitalizations, changes in fiscal terms or restrictions on scope of company operations; foreign currency movements compared with the U.S. dollar; the effects of changed accounting rules under generally accepted accounting principles promulgated by rule-setting bodies; Turner Valley’ managerial errors made based upon the Company’s limited experience and knowledge of the industry and regulatory risk as well as failure to meet Turner Valley’ financial and contractual obligations. In addition, such statements could be affected by general domestic and international economic and political conditions. This list is limited and additional risk not mentioned may apply including unpredictable or unknown factors not discussed in this publication could also have material adverse effects on forward-looking statements.

U.S. Securities and Exchange Commission (SEC) rules permit oil and gas companies to disclose only proved reserves in their filings with the SEC. Certain terms, such as “resources,” “undeveloped gas resources,” “oil in place,” “recoverable reserves,” and “recoverable resources,” among others, may be used in this and other publications to describe certain oil and gas properties that are not permitted to be used in filings with the SEC.

Information provided in the Company’s published communication including but not limited to; filings, press releases, blogs, newsletters and websites that contain forward-

looking statements relating to Turner Valley operations that are based on management's current expectations, estimates and projections about the petroleum and other energy-related industries. Words such as "anticipates," "expects," "intends," "plans," "targets," "projects," "believes," "seeks," "schedules," "estimates," "budgets" and similar expressions are intended to identify such forward-looking statements. These statements are not guarantees of future performance and are subject to certain risks, uncertainties and other factors, some of which are beyond our control and are difficult to predict. Therefore, actual outcomes and results may differ materially from what is expressed or forecasted in such forward-looking statements. The reader should not place undue reliance on these forward-looking statements, which speak only as of the date provided in each specific Turner Valley corporate publication. The Company does not intend to update any of the forward-looking statements after the date of publication to conform these statements to actual results or to changes in its expectations, except as may be required by law.
