Basis. The Company uses the accrual method of accounting.

Estimates. The preparation of the financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statement and accompanying notes. Actual results could differ from those estimates.

NOTE 3 INCOME TAXES

The Company has adopted the provision of SFAS No. 109 "Accounting for Income Taxes". It requires recognition of deferred tax liabilities and assets for the expected future tax consequences of events that have been included in the financial statements or tax returns.
