None

4) Issuance History

The following events resulted in changes in total shares outstanding during the past two fiscal years and through the period ended September 30, 2015. Unless otherwise specifically noted, all share issuances described below were issued pursuant to the exemption from registration provided by Section 4(a)(2) of the Securities Act of 1933 (the "Act"). The shares were not registered or qualified in any jurisdiction and contained a restrictive legend stating that they had not been registered under the Act.

Issuance of Stock through Period Ended September 30, 2015:

On April 22, 2015, we issued 340,000,000 shares to three shareholders at and agreed value of \$0.0006 per share in exchange for consulting services for our LED division, provided to the Company. The shares were issued pursuant to the exemption from registration provided by Section 4(2) of the Securities Act of 1933.

On March 10, 2015, we issued 220,000,000 shares of common stock to a shareholder at a rate of \$0.0001, pursuant to Notices of Conversion related to existing Promissory Notes with Company. The shares were issued pursuant to the exemption from registration provided by Section 4(2) of the Securities Act of 1933.

On February 4, 2015, we issued 250,000,000 shares of common stock to a shareholder at a rate of \$0.0001, pursuant to Notices of Conversion related to existing Promissory Notes with Company. The shares were issued pursuant to the exemption from registration provided by Section 4(2) of the Securities Act of 1933.

Issuances of Stock through Period Ended December 31, 2014:

On June 11, 2014, we issued 200,000,000 shares of our common stock to two separate shareholders at \$0.0006 per share pursuant to a share purchase agreement. The shares were issued pursuant to the exemption from registration provided by Section 4(a)(2) and Rule 504 of the Securities Act.

On June 11, 2014, we issued 50,000,000 shares of our common stock to Charles Castelli at and agreed value of \$0.0006 per share in exchange for consulting services provided to the Company.

On June 11, 2014, we issued 5,000,000 shares of our common stock to Heritage First Capital & Equity Research Group at and agreed value of \$0.0006 per share in exchange for consulting services provided to the Company.

On June 11, 2014, we issued 80,000,000 shares of our common stock to Amjad Shouekani at and agreed value of \$0.0006 per share in exchange for consulting services provided to the Company.

On June 11, 2014, we issued 40,000,000 shares of our common stock to Athena M. Shouekani at and agreed value of \$0.0006 per share in exchange for consulting services provided to the Company.

On November 4, 2013 we issued 150,000,000 shares of our common stock to one shareholder at the rate of \$0.0001 per share pursuant to a Notice of Conversion related to existing Promissory Note with Company.

VIPER NETWORKS, INC. AND SUBSIDIARIES
Notes to the Consolidated Unaudited Financial Statements
For the Nine Months Ended
September 30, 2015

NOTE 1 - CONDENSED FINANCIAL STATEMENTS

The accompanying September 30, 2015 financial statements have been prepared by the Company without audit. In the opinion of management, all adjustments (which include only normal recurring adjustments) necessary to present fairly the financial position and results of operations at September 30, 2015 and for all periods presented have been made. Certain information and Footnote disclosures normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States of America have been condensed or omitted. It is suggested that these condensed financial statements be read in conjunction with the financial statements and notes thereto included in the Company's December 31, 2014 unaudited financial statements. The results of operations for period ended September 30, 2015 are not necessarily indicative of the operating results for the full years.

NOTE 2 - DESCRIPTION OF BUSINESS

The consolidated financial statements presented are those of Viper Networks, Inc. and its wholly-owned Subsidiaries (the "Company").

Viper Networks, Inc. (in partnership with Apollo Metro) is a manufacturer and distributor of highly-efficient LED lighting to provide superior turnkey LED lighting solutions for metropolitan areas (streets and highways), parking lots and warehousing facilities anywhere. By combining LED Lighting, Wireless MESH, Sensors, Infrared and Video into a single design; Apollo Metro Solutions' proprietary line of wireless products can be applied to existing infrastructure through streamlined system integration for a full selection of intelligent LED lighting solutions worldwide.

Viper Networks also provides telecom engineering services for planning, network expansion and managed services to telecommunication service providers of various telecom networks in the U.S., Middle East and Northern Africa with top tier expertise in wireless communications.

NOTE 3 - GOING CONCERN

The Company's consolidated financial statements are prepared using generally accepted accounting principles applicable to a going concern which contemplates the realization of assets and liquidation of liabilities in the normal course of business. The Company has incurred a loss from inception on September 14, 2000 through September 30, 2015, which has resulted in an accumulated deficit of \$(25,051,047) at September 30, 2015 which raises doubt about the Company's ability to continue as a going concern. The accompanying consolidated financial statements do not include any adjustments relating to the recoverability and classification of asset carrying amounts or the amount and classification of liabilities that might result from the outcome of this uncertainty.

The following is a summary of significant accounting policies followed in the preparation of these financial statements:

Principles of Consolidation

The accompanying consolidated financial statements of the Company include the accounts of its wholly-owned subsidiaries.

Intangible Assets

Intangible Assets are carried on the books at fair market value.

To estimate the fair value of Intangible Assets, the Company used an income approach, and then validated the results with a market approach for reasonableness. The income approach establishes fair value based on the present value of estimated future cash flows, which are formed by evaluating historical trends, current budgets, operating plans, and industry data. The market approach establishes fair value by applying cash flow multiples to the assets projected operating performance. The multiples are derived from other publicly-traded companies that are similar but not identical from an operational and economic standpoint. Determining the fair value of reporting units under both methods involves the use of significant estimates and assumptions. For the income approach, this includes revenue growth rates, operating margins, risk-adjusted discount rates, and future economic and market conditions. For the market approach, this includes determining appropriate market comparables and an appropriate control premium. The Company uses its fair value estimates on assumptions it believes to be reasonable, but that are unpredictable and inherently uncertain. Actual future results may differ from those estimates. The Company tests for impairment on a quarterly basis.

Cash and Cash Equivalents

The Company considers any highly liquid investments with an original maturity of three months or less at the date of acquisition to be cash equivalents.

Intangible Assets

Intangible Assets consist of Patents, Trademarks, and Goodwill. Intangible Assets are carried on the books at fair market value. The Company tests for impairment on a quarterly basis.

Critical Accounting Policies

The preparation of our consolidated financial statements in accordance with accounting principles generally accepted in the United States of America requires us to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements; and the reported amount of revenues and expenses during the reporting periods. We are required to make judgments and estimates about the effect of matters that are inherently uncertain. Actual results could differ from our estimates. While we are a development-stage company, the most significant areas involving our judgments and estimates are principally those involving our current liabilities.
