Issuer Direct Transfer Corporation, LLC is registered under the federal Exchange Act, and as such is regulated by the Securities and Exchange Commission, in conjunction with FINRA

### List any restrictions on the transfer of security

In late 2011, Wanderport's previous transfer agent (National Stock Transfer) was closed due to legal proceedings. This forced Wanderport to be proactive in immediately effecting a change of transfer agent to New York Stock Transfer, which merged with Issuer Direct Corporation on May 14<sup>th</sup>, 2012. Because of the legal proceedings against National Stock Transfer, Wanderport was resilient and expedited their payment "in full" in exchange for National Stock Transfer's promise to immediately transfer all electronic and original physical files and journals to New York Stock Transfer. Although electronic files were received, National Stock Transfer's immediate shut down prevented the transfer of original physical files and journals. These very particular and somewhat "out of the ordinary" circumstances had repercussions resulting in the central stock clearing house's (Depository Trust Company - "DTC") TEMPORARY "chill" status.

Wanderport is delighted to confirm receipt of all physical files and journals by their new transfer agent (Issuer Direct Corporation) and has since issued a soft announcement (released through social media and [otcm Markets.com](http://otcm Markets.com) news) that

the DTC "chill" has been removed. Wanderport is now fully DTC eligible which means it is able to complete share transfers and deposits of Wanderport shares electronically through DTC.

Wanderport released the following statement:

"For those of you who have had difficulty depositing, transferring or trading shares of Wanderport Corporation due to the Depository Trust Company (DTC) "Chill", we are in receipt and have reviewed a recent activity transaction journal supplied by our transfer agent (Issuer Direct Transfer, LLC), which now confirms DTC's decision to accept share deposits and transfers into street name. For further information, please refer to your individual brokers concerning their respective policy modifications due to the lifting of the DTC "Chill". Please note that brokerage firms may reserve the right not to modify their current internal policies to reflect this resolution in Wanderport's favor."

The Company sees no reason for a subsequent news release pertaining to the resolution of this matter, as this news flash constitutes the company's official position. Wanderport may modify the company's outstanding share count to reflect the any prescribed DTC position, which may be provided by DTC to our transfer agent in the near future. In conclusion, there no longer seems to be a restriction at the DTC level as we are presently able to make electronic transfers and we are DTC eligible.

Further explanation was released as follows:

"THE FOLLOWING COMMENTSHOULD PROVIDE ADEQUATE ELABORATION PRIOR TO BEING WRONGLY ACCUSED OF REPORTING MISLEADING INFORMATION PERTAINING TO THE COMPANY'S TOTAL ISSUED AND OUTSTANDING SHARES RELATIVE TO THE REMOVAL OF THE DTC "CHILL":

"The lack of record keeping by now defunct National Stock Transfer Co. led to Wanderport being "chilled" by DTC. To rectify this problem Wanderport has acknowledged that it is prepared to accept the modification that will be prescribed by DTC to reflect the discrepancy caused by National's lack of record keeping and reporting. The modification remains unknown to Wanderport but expected by Issuer Direct Stock Transfer LLC (Wanderport's new transfer agent) and a small change resulting from the removal of the "Chill". In order to balance with DTC, Wanderport reserves the right to create a simple book entry to either increase or decrease the company's total outstanding shares accordingly. This change does not represent dilution on Wanderport's part and its effect is minimal considering it is already existing and imbedded into Wanderport's "day to day" for quite some time. The Company assures investors that Wanderport has under no circumstances, diluted them during the past few years nor has Mr. Simoneau attempted to remove the legend from his shares, which remain restricted to date."

There are no trading suspension orders issued by the SEC in the past 12 months.

However, the next quarter may provide the right setting to contemplate and complete a re-structuring due to finally acquiring highly anticipated performance efficiency test results for the multi-cavity microwave heating unit ("MCMHU"), which has taken much more time than originally expected and is dependent on funds and Mr. Simoneau's availability, as well as, the said acquisition of ReGenesis which will be further explained in ITEM 6 "DESCRIBE THE ISSUER'S BUSINESS, PRODUCTS AND/OR SERVICES".

**Accounting period**

The Company has adopted an annual calendar accounting period of January 1st through December 31st.

**NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING PRINCIPLES AND LIQUIDITY**

**Critical Accounting Policies**

Our significant accounting policies are disclosed in the Notes to our Unaudited Financial Statements ended December 31, 2018 and December 31, 2017. Particular points of our policies require the application of management judgment in making estimates and assumptions that affect the amounts reported in the financial statements and disclosures made in the accompanying notes. Those estimates and assumptions are based on historical experience and various other factors deemed to be applicable and reasonable under the circumstances. The use of judgment in determining such estimates and assumptions is by nature, subject to a degree of uncertainty. Accordingly, actual results could differ from the estimates made and all is “subject to revision”.

## **Basis of the Presentation**

The accompanying unaudited condensed financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America by the Issuer and in the opinion of management, include all adjustments consisting only of normal recurring accruals considered necessary to present fairly the Company's financial position at December 31, 2018 and the results of operations for the year ended December 31, 2017. The preparation of financial statements in conformity with accounting principles generally accepted in United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

## **Unaudited Annual Report and Interim Financial Statements**

The accompanying unaudited Quarterly Report has been prepared on a basis consistent with generally accepted accounting principles in the United States ("GAAP") for quarterly or annual report information and pursuant to the rules of the Securities and Exchange Commission (SEC). In the opinion of management, the accompanying unaudited financial statements reflect all adjustments, consisting of only normal and recurring adjustments, necessary for a fair presentation of the results of operations, financial position and cash flows for the periods presented. The results of operations for the periods presented are not necessarily indicative of the results expected for any future period.

## **Summary of Significant Accounting Policies**

The accompanying financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (GAAP).

## **Principle of Consolidation and Presentation**

The accompanying financial statements include the accounts of Wanderport Company.

## **Use of estimates**

The preparation of the accompanying financial statements in conformity with accounting principles generally accepted in the United States requires management to make certain estimates and assumptions that directly affect the results of reported assets, liabilities, revenue, and expenses. Actual results may differ from these estimates and could be subject to revision.

## **Revenue Recognition**

The Company will recognize product revenue when persuasive evidence of an arrangement exists, delivery has occurred, the fee is fixed or determinable, and collection is probable. In instances where final acceptance of the product is specified by the customer, revenue is deferred until all acceptance criteria have been met. No provisions were established for estimated product returns and allowances based on the Company's historical experience. All orders are customized with substantial down payments. Products will be released upon receipt of the remaining funds.

All convertible notes payable were evaluated and determined not to be conventional convertible debt instruments and, therefore, because of certain terms and provisions including liquidating damages under the associated registration rights agreement the embedded conversion option was bifurcated and has been accounted for as a derivative liability instrument, therefore, classified as a liability on the balance sheet. The accounting guidance also requires that the conversion feature and warrants be recorded at fair value for each reporting period with changes in fair value recorded in the consolidated statements of operations.

### **Cash requirements in the next twelve months**

Over the subsequent twelve months (2019-2020) Wanderport Corporation has identified several areas requiring capital. (1) Funding our continuing business development and working capital needs. (2) Additional efforts associated with investing in the Company's core activities. Please see LIQUIDITY AND CAPITAL RESOURCES AND FINANCE below for more information about our fund raising possibilities moving forward. More specifically, financing, if obtained, will be used to fund overhead, marketing and inventory. Funding could also be for the order process with letters of credit and the internal staff structure in the company and the establishment of larger headquarters; travel and sales. Since the establishment of the Company, Wanderport has adopted a strategy of growing the Company in a controlled manner to minimize spending and expenditures while using its own capital sources (i.e.: sales, officers' investment and private money). Wanderport may also use a portion of expected product sale net proceeds for the possible acquisition of additional businesses and technologies or the establishment of joint ventures that are complementary to our current or future business. We cannot be certain that we will complete any acquisition or joint venture or, that if completed, any acquisition or joint venture will be successful. We cannot be certain that we will be able to obtain financing to attain the goals and enhancements discussed above.

### **Liquidity and Capital Resources and Finance**

There may be a possibility but not a certainty of offering common shares in a SEC Regulation A private placement offering at some point within 2019 or 2020. Additional financing may be raised through either shareholder rights offerings, secondary offerings that consist of private individuals and institutions (otherwise known as PIPE's; Private Equity into Public Entity), conversion of debt to equity and or issuing options or warrants. This may or may not occur during this calendar fiscal year. This could provide financing required to repay debt and/or grow operations at the planned rate. There is no assurance the Company will be able to raise any of the funds required to finance the expansion of our business either in this or any other period.

### **Financial information for the issuer's most recent fiscal period**

Issuer's financial statements are reviewed by the signing officer of the Company, in that they present fairly, in all material respects, the financial position, as a result of operations and cash flows for the periods presented, in conformity with accounting principles generally accepted in the United States, consistently applied. Issuer's Unaudited Financial Statements for the period and Notes included listed in Item 5, are attached hereto in Item 5 respectively and incorporated herein by this reference. Concerning annual reports, similar financial information for such part of the two preceding fiscal years as the issuer or its predecessor has been in existence will be included.

### **Net Loss per Share**

Basic net loss per share includes no dilution and is computed by dividing net loss available to common shareholders by the weighted average number of common stock outstanding for the period. Diluted net loss per share does not differ from basic net loss per share since potential shares of common stock are anti-dilutive for all periods presented.

Management does not believe there would have been a material effect on the accompanying financial statements had any recently issued, but not yet effective, accounting standards been adopted in the current period.
