Note 1 – Nature of Business and Basis of Presentation

World Mobile Holdings, Inc. (the "Company"), formerly Microscint, Inc., was incorporated in the State of Nevada on May 5, 2006. The Company provides effective processed system, and customized system integrations, such as, integration of Surveillance System & Multimedia Signage, integration of Lithium-Iron Battery Modules.

In May 2011 and May 2012, the Company appointed the following officers: Chuan-Chen (Jason) Hu as President & CEO & Treasurer, Yuying (Samantha) Jen as Secretary and Executive Vice President, Fu-Shan (Jimmy) Shen as Executive Vice President & CTO, Yuneng (Mike) Ho as Executive Vice President of China Market, Jun-Ying (John) Chen and Tseng-Chien (Daniel) Huang as Board Directors. On March 22, 2012 the Company received approval from Financial Industry Regulatory Authority "FINRA" to be quoted on the OTC Markets under the symbol "MCSC". On July 12, 2012, FINRA approved the company symbol change from "MCSC" to "WMHI". In October 2012, Dr. Thomas Lu joined the board to be the Executive Board Director of the company. In 2013, all board directors remain the same.

Aglow Communications Corp. Ltd is a 100% owned subsidiary of World Mobile Holdings, Inc. Incorporated in Hong Kong on March 31, 2008, Aglow supports all production, sales and marketing, as World Mobile Holdings' mobile manufacturers are outsourcing to several supply companies. In March 2012, Aglow's Shenzhen office was officially registered in China; both Aglow Hong Kong and Shenzhen offices will provide field application services if a customer has a technical issue that needs to be solved.

Note 2 – Summary of Significant Accounting Policies

Use of Estimates – The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America require management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. The Company evaluates these estimates on a regular basis and bases them on historical experience and on various assumptions that the Company believes are reasonable. Actual results could differ from the estimates.

Cash and Cash Equivalents – Cash and cash equivalents include cash on hand, cash on deposits and all short-term highly liquid investments purchased with remaining_maturities of three months or less. The Company currently maintains substantially all of its day-to-day operating cash balances with major financial institutions.

Property, Plant and Equipment – Property, plant and equipment are stated at cost, less accumulated depreciation and amortization. Depreciation and amortization are computed using the straight-line method based upon the shorter of the estimated useful lives of the assets, or the lease term of the respective assets, if applicable. Maintenance and repairs are charged to expense as incurred, and improvements are capitalized. When assets are retired or otherwise disposed of, the cost and accumulated depreciation and amortization are removed from the accounts and any resulting gain or loss is reflected in operations in the period realized. The ranges of estimated useful lives for property and equipment categories are as follows:

Land and building twenty years
Plant and equipment five years

Allowance for doubtful accounts - The allowance for doubtful accounts is an estimate to cover the losses resulting from the inability of customers to make payments for outstanding balances. In estimating the required allowance, the Company takes into consideration the overall quality and aging of the accounts receivable, credit evaluations of customers' financial condition and existence of credit insurance. The Company also evaluates the collectability of accounts receivable based on specific customer circumstances, current economic trends, historical experience with collections and any value and adequacy of collateral received from customers.

Inventory – Inventory is stated at the lower of cost or market (weighted average method). Any write-down of inventory to the lower of cost or market at the close of a fiscal period creates a new cost basis that subsequently would not be marked up based on changes in underlying facts and circumstances. Inventories on hand are evaluated on an on-going basis to determine if any items are obsolete or in excess of future needs. Items determined to be obsolete are reserved for.

The Company provides for the possible inability to sell its inventories by providing an excess inventory reserve. There was \$10,899 reserve at Dec. 31, 2010.

Intangible Assets – Intangible assets with finite lives are amortized over their respective estimated useful lives. The amount of intangible assets to be amortized shall be the amount initially assigned to that asset less any residual value. Identifiable intangible assets that are subject to amortization are evaluated for impairment using a process similar to that used to evaluate long-lived described below.

Impairment of long-lived assets - The Company reviews the recoverability of its long-lived assets, such as property and equipment and intangible assets, when events or changes in circumstances occur that indicate the carrying value of the asset or asset group may not be recoverable. The assessment of possible impairment is based on the Company's ability to recover the carrying value of the asset or asset group from the expected future pre-tax cash flows, undiscounted and without interest charges, of the related operations. If these cash flows are less than the carrying value of such assets, an impairment loss is recognized for the difference between estimated fair value and carrying value. The measurement of impairment requires management to estimate future cash flows and the fair value of long-lived assets.

Valuation of financial instruments - The carrying value of the Company's financial instruments, including cash and cash equivalents, accounts receivable, accounts payable, short term debt, and long-term debt approximate fair value due to their current market conditions, maturity dates and other factors.

Revenue Recognition – Revenue is recognized in connection with sales of products when all of the following conditions are met: (1) there exists persuasive evidence of an arrangement with the customer, typically consisting of a purchase order or contract; (2) products have been delivered and title and risk of loss has passed to the customer, which occurs when a product is shipped under customary terms; (3)the amount of revenue is fixed or determinable; and (4) collectability is reasonably assured.

Concentration of Credit Risk – Financial instruments that potentially subject the Company to significant concentration of credit risk consist principally of accounts receivable, cash and cash equivalents. The Company's cash and cash equivalents are maintained with high quality institutions, the compositions and maturities of which are regularly monitored by management. Through June 30, 2013, the Company had not experienced any losses on such deposits.

Accounts receivable include amount, USD167,265.24, due from customer primarily in King Star IT (Shen Zhen) Corp. for Gansu Mobile Signage Project I. Phase I Project started on January 19 and ended on April 19, 2012.

During the second quarter of 2013, KingStar IT (Shen Zhen) Corp. has paid the 30% of USD229,793.98 due to the Phase I Project. due to the Phase I Project. 50% of USD229,793.98 will be paid by the first quarter of 2014.

Income taxes - The asset and liability method is used in accounting for income taxes. Under this method, deferred tax assets and liabilities are recognized for the expected tax consequences of temporary differences between the tax bases of assets and liabilities and their reported amounts in the financial statements using enacted tax rates and laws that will be in effect when the difference is expected to reverse.

Valuation allowances are provided against deferred tax assets that are not likely to be realized.

Foreign Currency – The financial statements of the company's foreign operations are translated into U.S. dollars for financial reporting purposes. The assets and liabilities of foreign operations whose functional currencies are not in U.S. dollars are translated at the average exchange rates during the period, and equity accounts at historical exchange rates, while revenues and expenses are translated at average exchange rates during the fiscal year. Translation adjustments resulting from the translation of the subsidiaries' accounts are included in "Accumulated other comprehensive income". Gains and losses resulting from foreign currency transactions are included within "Other income (expense), net". Such amounts are not significant to the periods presented.

Comprehensive income - Comprehensive income is defined as the change in equity of a business enterprise during a period from transactions and other events and circumstances from non-owner sources.

The primary components of comprehensive income for the Company include net income and foreign currency translation adjustments arising from the consolidation of the Company's foreign subsidiaries.

Net income per common share - Net income per common share-basic is computed by dividing the net income attributable to the Company for the period by the basic weighted-average number of outstanding common shares. The calculation of net income per common share attributable to the Company is presented in Note 3.

Note 3 – Earnings per share

Basic net earnings per share are computed by dividing net earnings for the period by the weighted-average number of shares of common stock outstanding during the period.

The following table sets forth the computation of basic and diluted net earnings per share for the periods indicated:

Net income attributable to common stockholders
Weighted average common stock outstanding Basic and diluted

Earnings per share attributable to common stockholder Basic and diluted

(0.0094)

Note 4 – Inventory

Inventories stated at the lower of cost or market value are as follows:

2013

Finished goods in Shenzhen office	\$43,863.26
Merchandise inventory	10,899
Allowance for reduction of inventory to market	(10,899)
	\$43,863.26

Note 5-Property, Plant and equipment

Property, Plant and equipment and the related accumulated depreciation consisted of the following at December 31, 2013:

Office equipment \$8,249.83

Accumulated depreciation: Office equipment (3,014.67)

Plant and equipment – net 5,235.16

Depreciation was \$3,014.67 for the ended December 31, 2013.

Note 6- Intangible Assets

Intangible assets:

Amortizable intangible assets

Computer software	\$ 3,529.41
Trademarks	680.00
Goodwill	54,744.34
Accumulated amortization	(1,792.23)
Total	\$57,161.52

Identifiable intangible assets, which are subject to amortization, consist primarily of computer software and trademarks. These intangible assets are amortized over the assets' estimated useful lives which range from three to ten years.

Amortization expense associated with identifiable intangible assets was \$1,792.23 for the ended December 31, 2013.

Note 7- Intangible Assets (Continued)

On Feb.4th, 2010, World Mobile Holdings Inc. has official merged its whole owned subsidiary "Aglow communication corp. Limited" which based in HK with goodwill resulted.

Note 8 – Accrued expenses

Accrued expenses:

Salaries	\$25,215.47
VAT Payable	10,352.16
Taxes-Shenzhen office rental taxes	261.40
Expense paid by employee	2,088.95
Total	\$37,917.98

Note 9- Related Party Transactions

The Company has recorded expenses for the following related party transactions in the ended December 31, 2013:

Other payable:

Other payable- Harry Zhang	\$19,515.28
Other payable- Allen Liang	34,028.62
Other payable- Eden	128,568.50
Total	182,112.40

Harry Zhang is a major shareholder of the company and consultant to the Board. He has been provided administrative services to the company since 2009 with no interest.

Allen Liang is a major shareholder of the company. The various payables were paid by Allen for setting start-up businesses for the company with no interest.

Chuan-Chen Hu, the Chairman and CEO of the company also owned Eden International Investment and Development Inc. ("Eden") located in Taipei Taiwan. The amount of \$128,568.50 is loan to the company with no interest.

Note 10– Subsequent Events

The Company evaluated all events subsequent to December 31, 2013 through the date of the issuance of the financial statements and concluded that there are no other significant or material transactions to be reported, except the following:

The company has been cooperated with Zhenshen local SI (Kingstar IT) to launch Signage Media Player Project and Surveillance System with Gansu Mobile. The Media Player project is divided into three periods within 4 years with total revenue about \$4.3M. The project has officially started in September 2011. The phase I has been completed in 2012. Due to client's network upgrading project, the phase II will be postponed to Q1 2014; phase III Q3 2014 and the surveillance system will be launched by Q1 2015.

The company has been received two major orders for Signage Media Player System and Baby Cam from China. For the Signage Media Player System, including software platform development for the major wireless carrier from Shanghai China, the first shipment has been delivered by the end of November 2013, to be completed by January 2014. For the Baby cam, the shipments starts in the first quarter of 2014, consistently making delivery until 2017. It will generate the revenue for the company over \$20M.

6): The nature of the issuer's business, products and services;

A. <u>Business Operations of the Issuer</u>

World Mobile Holdings Inc. provides effective processed system, and customized systems integration, such as, integration of Surveillance Systems & Multimedia Signage, integration of Lithium-Iron Battery Modules.

- Cooperating with world leading wireless operators:
 - World Mobile has valuable assets to establish its B to B business model with worldwide major wireless operators to fulfill their needs of 3.5G and 4G/5G wireless information services in order to satisfy their customers.
- Cooperating with electric power industry, financial enterprises, among others:
 WMHI provides various types of systems integration, for instance, integration of Surveillance Systems & Multimedia Signage, integration of Lithium-Iron Battery Modules.

World Mobile Holdings, Inc. is a US holding company. By acquiring Aglow, we are able to support the production, sales and marketing control over the image transmission and to deal with manufacturers that we outsource to. Aglow could provide field application services if a customer has a technical issue that needs to be solved.

World Mobile is in the business of selling and providing effective processed system, and integrating Image Transmission Devices and Image Receiving Devices in order to meet the needs of 3.5G wireless information services of the world's leading wireless operators and their customers.

B. Date and State (or Jurisdiction) of Incorporation

World Mobile Holdings, Inc. (the "Company"), formerly Microscint, Inc., was incorporated in the State of Nevada on May 5, 2006. On November 3, 2009, Microscint Inc., a publicly traded company, which at the time held non-exclusive licenses of certain patents, and was in development of crystal production technologies for gamma ray sensing applications, ultra pure materials, and other high tech products, changed its name to World Mobile Holdings, Inc., by a shareholder approval, and issued shares to a number of shareholders at \$0.001 per share and also appointed new directors as follows: Chuan-Chen (Jason) Hu, Haining (Harry) Zhang, Hsiu-Pin (Sharon) Hsu, Jane Liang, Yong-Jin Lee, Hsiang-Kung Kuo and Jun-Ying (John) Chen. In May 2011, the newly appointed officers are as follows: Chuan-Chen (Jason) Hu as President & CEO & Treasurer, Yuving (Samantha) Jen as Secretary and Executive Vice President, Fu-Shan (Jimmy) Shen as Executive Vice President & CTO, Yuneng (Mike) Ho as Executive Vice President of China Market, Jun-Ying (John) Chen and Tseng-Chien (Daniel) Huang as Board On December 1, 2009, World Mobile Holdings, Inc. entered into a purchase agreement to acquire Aglow Communication Corp Limited ("Aglow"), a company incorporated in Hong Kong on March 31, 2008, from Arise Technologies Inc. ("ATI"), under the laws of the state of Nevada. Aglow became a wholly owned subsidiary of World Mobile Holdings Inc. on December 1, 2009. On March 22, 2012 the Company received approval from Financial Industry Regulatory Authority "FINRA" to be quoted on the OTC Markets under the symbol "MCSC". On July 12, 2012, FINRA approved the company symbol change from "MCSC" to "WMHI". In October 2012, Dr. Thomas Lu joined the board to be the Executive Board Directors of the company. In May 2013, all board directors are re-elected and remained in the board.

The Company's website is www.worldmobileholdings.com, and our US office is located at 80 Wall Street Suite 212, New York, NY 10005; Our Sales and Marketing office is at413, Building B, Hengyu Center, No. 21, Dengliang Rd., Nanshan DST, Shenzhen 518054, China. Our Taiwan Liaison Office is at 13F, No. 207, Tun-Hua North Road, Taipei City 105, Taiwan (R.O.C.). US Sales Office is planning to be opened in Pasadena, CA in 2013.

C. Please indicate the Company's primary and secondary SIC Codes:

3661

D. The company's fiscal year end date:

Our fiscal year ends on December 31.

E. The nature of products or services offered and their markets;

World Mobile Holdings Inc. provides effective processed system, and customized systems integration, such as, integration of Surveillance Systems & Multimedia Signage, and integration of Lithium-Iron Battery Modules.

- Cooperating with world leading wireless operators:

World Mobile has valuable assets to establish its B to B business model with worldwide major wireless operators to fulfill their needs of 3.5G and 4G / 5G wireless information services in order to satisfy their customers.

Cooperating with electric power industry, financial enterprises, among others:
 WMHI provides various types of systems integration, for instance, integration of Surveillance Systems & Multimedia Signage, and integration of Lithium-Iron Battery Modules.

The Company's current solutions and applications are:

- Image Transmission: Surveillance System;

Multi-Media Signage System.

System on Chip.

- Lithium-Iron (LeFO4) Battery Modules.
- 1. Surveillance Systems:

Product Line

2. Multi-Media Signage Systems:

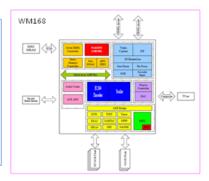

Product Line

3. System On Chip: WM168/WM264

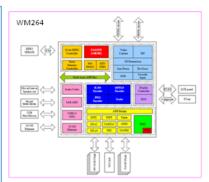

WM168

WMHI provide a high-performance solution using the FA626TE CPU inside the WM168 video chip to accelerate the video or image applications, such as H.264 of the end products. Also WM168 supports the H.264 encoders. WM168 provides a very easy development system and cost-effective for the verification and integration of the video applications at the early development stage. The WM168 series system platform consists of a wide range of elementary functions, which are the AMBA bus framework, H.264 encoder, display controller, video capture, DMA controller, DES/3DES controller to reduce the overall system cost.

WM264

WMHI provide a high-performance solution using the FA626TE CPU inside the WM264 video chip to accelerate the video or image applications, such as H.264, MPEG4, and JPEG, of the end products. Also WM264 supports the JPEG, MPEG4, and H.264 encoders. WM264 provides a very easy development system and cost-effective for the verification and integration of the video applications at the early development stage. The WM264 series system platform consists of a wide range of elementary functions, which are the AMBA bus framework, H.264 encoder, display controller, video capture, USB 2.0 PHY, DMA controller, DES/3DES controller, USB 2.0 OTG controller, Ethernet PHY, Ethernet, and MAC controller, to reduce the overall system cost.

4. Lithium-Iron Battery Modules:

LiFePO4 Battery Cell and Module			
Product Line		Specification	
Energy type		2Ah、3Ah、5Ah、7Ah、 10Ah	
Power type		10Ah 、15Ah 、20Ah 、30Ah and 50Ah	
Single Cell		Plan Upgrade to 100Ah/per cell	
	EV Power	12V/30Ah · 24V/7Ah · 24V/10Ah · 36V/10Ah · 36V/30Ah	
Multi series and parallel high power Module	Solar storage	48V/10Ah、48V/30Ah、48V/90Ah、48V/300Ah	
	UPS	144V/30Ah 、288V/90Ah 、360V/30Ah 、360V/120Ah 、600V/400Ah···etc.	
		12V ~ 48V E-Scooter	
		48V ~ 96V Industrial E-Vehicle	
Various Elec. Vehicles		144V~ 324V E-Bus	
		600V above series- E Bus	

The company has been cooperated with Zhenshen local SI (Kingstar IT) to launch Signage Media Player Project and Surveillance System with Gansu Mobile. The Media Player project is divided into three periods within 4 years with total revenue about \$4.3M. The project has officially started in September 2011. The phase I has been completed in 2012. Due to client's network upgrading project, the phase II will be postponed to Q1 2014; phase III Q3 2014 and the surveillance system will be launched by Q1 2015.

The company has been received two major orders for Signage Media Player System and Baby Cam from China. For the Signage Media Player System, including software platform development for the major wireless carrier from Shanghai China, the first shipment has been delivered by the end of November 2013, to be completed by January 2014. For the Baby cam, the shipments starts in the first quarter of 2014, consistently making delivery until 2017. It will generate the revenue for the company over \$20M.

The markets in which we operate are highly competitive and many of our competitors have significantly greater resources than we do. Many of the Company's competitors have far greater name recognition and greater financial, technological and marketing resources than our Company. This may allow them to respond more quickly to new or emerging technologies and changes in customer requirements. It may also allow them to devote greater resources to the research, development, promotion, sale and support of their products than the Company.

In addition, the Company also faces competition from a number of smaller manufacturers that have developed similar products. The relatively low barrier to entry into the "no brand" mobile industry permits new competitors to enter the industry easily.

We believe that the Company's continued operations, revenue growth and future profitability will depend on its ability to attract sufficient capital. We have and are currently taking steps to raise sufficient capital to fund our operations which include funding a joint venture with Hunan Telecom and Hunan Unicom.

The major market of the company is in China where the policies and social changes made by the Chinese government can be unpredictable. To remain competitive, the Company must continue to enhance and improve the responsiveness, functionality and features of its main products. The Company's performance is substantially dependent on the performance of our executive officers and key employees and on our ability to retain and motivate the Company's personnel, especially our Sales and Marketing teams. The Company's future success also depends on our continuing ability to identify, hire, train and retain other highly qualified sales and managerial personnel.

Attached: Order received and estimate from 2014 to 2015:

2011 Total Order Amount in USD: \$8.67M. Estimated to complete all projects by $2015 \circ$

Project	Schedule	Client	Revenue (USD)
Gansu Mobile Multimedia Signage Player System I Part I: For LCD/LED	September 2011 won the tender; December 2011 started the project.	China Mobile Gansu Province	\$230,000
Gansu Mobile Multimedia Signage Player System I Part II: For auto-clerk kiosks.	September 2011 won the tender; Estimate to start the project by 2014 Q1.	China Mobile Gansu Province	\$400,000
Gansu Mobile Multimedia Signage Player System II; For 1,000 stores	Estimate to start the project by 2014 Q1.	China Mobile Gansu Province	\$0.8M

Gansu Mobile Multimedia Signage Player System III; For 1,000 stores	Estimate to start the project by 2014 Q3.	China Mobile Gansu Province	\$0.8M
Gansu Mobile Surveillance Project	Estimate to start the project by 2015 Q1.	China Mobile Gansu Province	\$4.8M

2013 Order Received: USS\$20M +

30% is expected to start at the end of 2013; the rest 70% is expected to be completed by 2014.

Project	Schedule	Client	Est. Revenue (USD)
Baby Cam (3 years contract)	Signed the contract by 2013 Q4	Major China Enterprise	\$15M to \$20M
Signage Media Player System	Signed the contract by 2013 Q4	China Mobile Shanghai	\$200,000

7): <u>Issuer's facilities;</u>

The Company does not own real estate. The Company has no plans to acquire any property in the immediate future. The Company's US office is located at 80 Wall Street Suite 212, New York, NY 10005; Our Sales and Marketing office is located at 413, Building B, Hengyu Center, No. 21, Dengliang Rd., Nanshan DST, Shenzhen 518054, China; and a Taiwan Liaison Office at 13F., No. 207, Tun-Hua North Road, Taipei City 105, Taiwan (R.O.C.).

8): The name of the chief executive officer and members of the board of directors and control persons;

<u>A.</u> The names and ages of the directors and officers of the Company are set forth below and the business address for all key personnel is: 80 Wall Street, Suite 212, New York, NY 10005.

Chuan-Chen (Jason) Hu, 55 years old, President, Board Chairman and CEO

From November 2009 to present, Mr. Hu is the Board Chairman and CEO of World Mobile Holdings Inc. From 2004 up to present, Mr. Hu is the Board Chairman & CEO of EDEN Investment & Development Inc. of Taiwan.
