# World Mobile Holdings, Inc. & Subsidiary

## Notes to Consolidated Financial Statement

---

### Note 1 – Nature of Business and Basis of Presentation

World Mobile Holdings, Inc. (the “Company”), formerly Microscint, Inc., was incorporated in the State of Nevada on May 5, 2006. The Company provides effective processed system, and customized system integrations, such as, integration of Surveillance System & Multimedia Signage, integration of Lithium-Iron Battery Modules.

In May 2011 and May 2012, the Company appointed the following officers: Chuan-Chen (Jason) Hu as President & CEO & Treasurer, Yuying (Samantha) Jen as Secretary and Executive Vice President, Fu-Shan (Jimmy) Shen as Executive Vice President & CTO, Yuneng (Mike) Ho as Executive Vice President of China Market, Jun-Ying (John) Chen and Tseng-Chien (Daniel) Huang as Board Directors. On March 22, 2012 the Company received approval from Financial Industry Regulatory Authority “FINRA” to be quoted on the OTC Markets under the symbol “MCSC”. On July 12, 2012, FINRA approved the company symbol change from “MCSC” to “WMHI”. In October 2012, Dr. Thomas Lu joined the board to be the Executive Board Director of the company. In 2013, all board directors remain the same. In May 2014, three directors are re-elected in the board; they are Chuan-Chen Jason Hu, Jun-Ying Chen and Tseng-Chien Huang. Mr. Jason Hu is the CEO, Secretary and CFO of the company in 2014.

The Company’s website is [www.worldmobileholdings.com](http://www.worldmobileholdings.com), and our US office is located at 80 Wall Street Suite 212, New York, NY 10005; Our Sales and Marketing office is at 413, Building B, Hengyu Center, No. 21, Dengliang Rd., Nanshan DST, Shenzhen 518054, China. Our Taiwan Liaison Office is at 13F, No. 207, Tun-Hua North Road, Taipei City 105, Taiwan (R.O.C.). US Sales Office is planning to be opened in Pasadena, CA in late 2014.

Aglow Communications Corp. Ltd is a 100% owned subsidiary of World Mobile Holdings, Inc. Incorporated in Hong Kong on March 31, 2008, Aglow supports all production, sales and marketing, as World Mobile Holdings' mobile manufacturers are outsourcing to several supply companies. In March 2012, Aglow’s Shenzhen office was officially registered in China; both Aglow Hong Kong and Shenzhen offices will provide field application services if a customer has a technical issue that needs to be solved.

## Notes to Consolidated Financial Statement

---

### Note 2 – Summary of Significant Accounting Policies

**Use of Estimates** – The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America require management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. The Company evaluates these estimates on a regular basis and bases them on historical experience and on various assumptions that the Company believes are reasonable. Actual results could differ from the estimates.

**Cash and Cash Equivalents** – Cash and cash equivalents include cash on hand, cash on deposits and all short-term highly liquid investments purchased with remaining maturities of three months or less. The Company currently maintains substantially all of its day-to-day operating cash balances with major financial institutions.

**Property, Plant and Equipment** – Property, plant and equipment are stated at cost, less accumulated depreciation and amortization. Depreciation and amortization are computed using the straight-line method based upon the shorter of the estimated useful lives of the assets, or the lease term of the respective assets, if applicable. Maintenance and repairs are charged to expense as incurred, and improvements are capitalized. When assets are retired or otherwise disposed of, the cost and accumulated depreciation and amortization are removed from the accounts and any resulting gain or loss is reflected in operations in the period realized. The ranges of estimated useful lives for property and equipment categories are as follows:

Land and building	twenty years
Plant and equipment	five years

**Allowance for doubtful accounts** - The allowance for doubtful accounts is an estimate to cover the losses resulting from the inability of customers to make payments for outstanding balances. In estimating the required allowance, the Company takes into consideration the overall quality and aging of the accounts receivable, credit evaluations of customers' financial condition and existence of credit insurance. The Company also evaluates the collectability of accounts receivable based on specific customer circumstances, current economic trends, historical experience with collections and any value and adequacy of collateral received from customers.

## World Mobile Holdings, Inc. & Subsidiary

### Notes to Consolidated Financial Statement

---

#### Note 2 – Summary of Significant Accounting Policies (Continued)

**Inventory** – Inventory is stated at the lower of cost or market (weighted average method). Any write-down of inventory to the lower of cost or market at the close of a fiscal period creates a new cost basis that subsequently would not be marked up based on changes in underlying facts and circumstances. Inventories on hand are evaluated on an on-going basis to determine if any items are obsolete or in excess of future needs. Items determined to be obsolete are reserved for.

The Company provides for the possible inability to sell its inventories by providing an excess inventory reserve. There was \$10,899 reserve at Dec. 31, 2010.

**Intangible Assets** – Intangible assets with finite lives are amortized over their respective estimated useful lives. The amount of intangible assets to be amortized shall be the amount initially assigned to that asset less any residual value. Identifiable intangible assets that are subject to amortization are evaluated for impairment using a process similar to that used to evaluate long-lived described below.

**Impairment of long-lived assets** - The Company reviews the recoverability of its long-lived assets, such as property and equipment and intangible assets, when events or changes in circumstances occur that indicate the carrying value of the asset or asset group may not be recoverable. The assessment of possible impairment is based on the Company's ability to recover the carrying value of the asset or asset group from the expected future pre-tax cash flows, undiscounted and without interest charges, of the related operations. If these cash flows are less than the carrying value of such assets, an impairment loss is recognized for the difference between estimated fair value and carrying value. The measurement of impairment requires management to estimate future cash flows and the fair value of long-lived assets.

**Valuation of financial instruments** - The carrying value of the Company's financial instruments, including cash and cash equivalents, accounts receivable, accounts payable, short term debt, and long-term debt approximate fair value due to their current market conditions, maturity dates and other factors.

**Revenue Recognition** – Revenue is recognized in connection with sales of products when all of the following conditions are met: (1) there exists persuasive evidence of

## World Mobile Holdings, Inc. & Subsidiary

### Notes to Consolidated Financial Statement

---

an arrangement with the customer, typically consisting of a purchase order or contract; (2) products have been delivered and title and risk of loss has passed to the

#### Note 2 – Summary of Significant Accounting Policies (Continued)

customer, which occurs when a product is shipped under customary terms; (3) the amount of revenue is fixed or determinable; and (4) collectability is reasonably assured.

Concentration of Credit Risk – Financial instruments that potentially subject the Company to significant concentration of credit risk consist principally of accounts receivable, cash and cash equivalents. The Company's cash and cash equivalents are maintained with high quality institutions, the compositions and maturities of which are regularly monitored by management. Through December 31 2014, the Company had not experienced any losses on such deposits.

Accounts receivable include amount, USD165,358.31, due from customer primarily in King Star IT (Shen Zhen) Corp. for Gansu Mobile Signage Project I. Phase I Project started on January 19 and ended on April 19, 2012.

During the second quarter of 2013, KingStar IT (Shen Zhen) Corp. has paid the 30% of USD229,793.98 due to the Phase I Project. due to the Phase I Project. 50% of USD229,793.98 will be paid by the first quarter of 2015.

Income taxes - The asset and liability method is used in accounting for income taxes. Under this method, deferred tax assets and liabilities are recognized for the expected tax consequences of temporary differences between the tax bases of assets and liabilities and their reported amounts in the financial statements using enacted tax rates and laws that will be in effect when the difference is expected to reverse. Valuation allowances are provided against deferred tax assets that are not likely to be realized.

Foreign Currency – The financial statements of the company's foreign operations are translated into U.S. dollars for financial reporting purposes. The assets and liabilities of foreign operations whose functional currencies are not in U.S. dollars are translated at the average exchange rates during the period, and equity accounts at historical exchange rates, while revenues and expenses are translated at average exchange rates during the fiscal year. Translation adjustments resulting from the

## World Mobile Holdings, Inc. & Subsidiary

### Notes to Consolidated Financial Statement

---

translation of the subsidiaries' accounts are included in "Accumulated other comprehensive income". Gains and losses resulting from foreign currency transactions are included within "Other income (expense), net". Such amounts are

#### Note 2 – Summary of Significant Accounting Policies (Continued)

not significant to the periods presented.

**Comprehensive income** - Comprehensive income is defined as the change in equity of a business enterprise during a period from transactions and other events and circumstances from non-owner sources.

The primary components of comprehensive income for the Company include net income and foreign currency translation adjustments arising from the consolidation of the Company's foreign subsidiaries.

**Net income per common share** - Net income per common share-basic is computed by dividing the net income attributable to the Company for the period by the basic weighted-average number of outstanding common shares. The calculation of net income per common share attributable to the Company is presented in Note 3.

#### Note 3 – Earnings per share

Basic net earnings per share are computed by dividing net earnings for the period by the weighted-average number of shares of common stock outstanding during the period.

The following table sets forth the computation of basic and diluted net earnings per share for the periods indicated:

	<u>2014</u>
Net income attributable to common stockholders	\$(62,203.42)
Weighted average common stock outstanding -	35,223,306
Basic and diluted	
Earnings per share attributable to common stockholder -	<u>(0.00177)</u>
Basic and diluted

#### Note 10– Subsequent Events

The Company evaluated all events subsequent to December 31, 2013 through the date of the issuance of the financial statements and concluded that there are no other significant or material transactions to be reported, except the following:

The company has been cooperated with Zhenshen local SI (Kingstar IT) to launch Signage Media Player Project and Surveillance System with Gansu Mobile. The Media Player project is divided into three periods within 4 years with total revenue about \$4.3M. The project has officially started in September 2011. The phase I has been completed in 2012. Due to client's network upgrading project, the phase II will be postponed to Q1 2015; phase III Q3 2015 and the surveillance system will be launched by Q1 2016.
