Inventory is stated at the lower of cost or market, which is determined by the first in, first out method of valuation. At March 31st 2017, inventories were \$0.

Depreciation and amortization:

Property and equipment are stated at cost. Depreciation on property and equipment is recorded using the straight-line method of depreciation over the estimated useful lives of depreciable assets which range from 7 to 10 years for equipment and automobiles and 40 years for improvements.

For federal income tax purposes, depreciation is computed using the accelerated cost recovery system and the modified accelerated cost recovery system.
