Forward Looking Statements

You should read the following discussion and analysis of our financial condition and results of operations together with our financial statements and related notes appearing elsewhere in this quarterly report. Various statements have been made in this report that may constitute "forward-looking statements." Forward-looking statements may also be made in Yippy's other reports filed with or furnished to the OTC Disclosure and News Service or the United States Securities and Exchange Commission, as well as in other documents. In addition, from time to time, Yippy, through its management, may make oral forward-looking statements. Forward-looking statements are subject to risks and uncertainties, which could cause actual results to differ materially from such statements. The words "believe," "expect," "anticipate," "optimistic," "intend," "plan," "aim," "will," "may," "should," "could," "would," "likely" and similar expressions are intended to identify forward-looking statements. Readers are cautioned not to place undue reliance on these forward-looking statements, which speak only as of the date on which they are made. Yippy undertakes no obligation to update or revise any forward-looking statements.

Plan of Operation

Introduction

Yippy, Inc. ("Yippy," the "Company," "we," "us" or "our") designs, develops, markets, distributes and supports access and data management software in a cloud configuration. Yippy operates three distinct business divisions which deliver a wide range of products and services for enterprise, EDU (education) and web customers.

1) Enterprise

Yippy recently launched its EASE 360 (Enterprise Application Services Environment) platform which provides a complete 360˚ Big Data solution for the enterprises via an appliance called the Blue Flame. The appliance includes best of breed search capabilities for all disparate data silos, as well as providing authenticated access for application servers, operating systems and virtualized environments.

EASE 360 will improve the performance, productivity, scalability and reliability of enterprise applications and associated programs through proprietary software infrastructure components that are designed from inception to support, interact or interoperate with other disparate database, software or hardware platforms through role based Active Directory (AD)/LDAP authenticated access. As such, we believe Yippy to be the only company in the world that can demonstrate true ESSO (Enterprise Single Sign On) through an appliance with best of breed search based applications.

Our success in search development has been predicated by identifying early on in the start-up phase the need for ESSO. Currently, Yippy is able to provide a full 360° solution for enterprises through a single user interface. As such we believe that our trademarked slogan "Welcome to Cloud" embodies our unique ability to move legacy prone enterprises into the next evolution of software driven platforms such as the Company's EASE solution.

Providing access to all disparate systems and data points was achieved by internally developed and acquired programs over the last four years of the Company's operations. The internally developed programs include but are not limited to multiple user interfaces, access controls, early binding active directory/LDAP interface that works seamlessly with the programs acquired from Vivisimo (now called: Watson Explorer) (2010), Macte Labs (2012) and MuseGlobal (2013).

The following list of capabilities is available through Yippy's EASE platform:

- Superior Search Capabilities;
- Data Compression;
- Platform Agnostic Enterprise Single Sign On (ESSO);
- Active Directory AD/LDAP Interface for Identity and Access Management;
- Federated Bridge and Connector Frameworks;
- Server and User Performance Monitoring and Analytics;
- Secure Web Browser (No trace outside enterprise);
- Business Intelligence;
- Email Intelligence;
- Sentiment Analysis;
- Entity Extraction;
- Data Harvesting;
- Data Visualization;
- Discovery (via Non-Taxonomy Based Clustered Search);
- Data Management and Storage;
- Virtual Data Warehousing;
- Disaster Recovery (DR);
- Accessibility through any Internet Enabled Device.

In late 2014, the Company introduced the "Blue Flame" appliance. This new product was developed to provide a stable platform in which to run the EASE 360 software stack. The Company delivered its first order in 2015, and sales have been increasing year over year.

2) EDU

Yippy also provides learning products and sophisticated custom search products to higher learning institutions. Yippy can be private labeled for educational companies, school districts and universities. Yippy's custom search products can integrate multiple federated sources from an unlimited amount of information databases. Yippy's active and passive filters are written specifically for Velocity scrub search results, providing a robust research information cluster on topic and devoid of objectionable material. Additional active filters were recently created to override all major browsers through extension technologies to deny access to blacklisted websites or websites with content that contains terms deemed inappropriate.

Yippy's EDU search application, formerly known as Clusty, got its start in Pittsburgh, PA, in 2004, when the search software company Vivísimo decided to take its award-winning search technology to the web. Vivísimo was founded in 2000 by three Carnegie Mellon University scientists who decided to tackle the problem of information overload in web searches. Rather than focusing just on search engine result rankings, they realized that grouping results into topics, or "clouds," made for better search and discovery. As searching became a necessity for students, Vivísimo developed a service robust enough to handle the variety of information the everyday web user sought. The result was Clusty, an innovative way to get more out of every search. Clusty.com was acquired by Yippy in May 2010, along with the program known as Velocity.

Yippy queries several top research sites combining the results with internal indexes, and generates an ordered list based on comparative ranking. This approach helps raise the best results to the top and push search engine spam to the bottom. What we believe makes Yippy unique is what happens after a user searches. Instead of delivering only search results, Yippy search groups similar results together into "Clouds" or clusters. The Clouds help separate search results by topic so the searcher can zero in on exactly what they are searching for. This is especially useful for students of all ages.

Yippy.com allows students to access normally blocked search keywords such as "breasts" or "sexual health", as examples, without generating pornographic results and allows access to websites that are blocked by "dumb" software/hardware, giving educators more time to teach and less time overriding other inferior protective programs. This is enhanced by Yippy's access to non-public information repositories that provide access to thousands of periodicals, magazines, newspapers, books, articles and journals not available on any other search engines and combining with the best of the web.

3) General Web Search

The Company provides secure, family friendly, online web destinations and services such as search, browser, email, cloud applications and storage. Yippy operates one of the most robust filtered search engines available and provides an unparalleled approach to child safe web browsing and application aggregation within one of the most visually appealing web properties on the Internet. Yippy creates consumer environments around conservative family values and provides all the tools necessary for all aspects of online activities.

Results of Operations

Revenues

Revenues for the three months ended February 29, 2015, were $103,500, compared to $128,850 for the same period ending February 28, 2015. Revenues for the nine months ended February 29, 2016 were $416,500, compared to $241,275 for the nine months ending February 28, 2015. The decrease in revenue from the previous period is attributed to a change in customer deliverables timing schedule.

General and Administrative Expenses

General and administrative expenses for the three months ended February 29, 2016 were $164,828, compared to $81,235 for the three months ending February 28, 2015. General and administrative expenses for the nine months ended February 29, 2016 were $771,981, compared to $244,819 for the nine months ending February 28, 2015. The increase in general and administrative expenses is mainly attributed to software development costs and legal expense.

Share Based Compensation

Share based compensation was $20,000 and $0 for the three months ended February 29, 2016 and February 28, 2015, respectively, and $581,840 and $0 for the nine months ending February 29, 2016 and February 28, 2015, respectively. The increase in share based compensation expense was due to the issuance of a warrant to a legal advisor that vests over five years.

Depreciation and Amortization Expense

Amortization expense relates primarily to the amortization of intangible assets. Amortization expense was $126,761 for the three months ended February 29, 2016, compared to $126,761 for the three months ending February 28, 2015. Amortization expense was $380,283 for the nine months ended February 29, 2016, compared to $382,282 for the nine months ending February 28, 2015.

Net Loss

The Company experienced a net loss of $243,292 for the three months ended February 29, 2016, compared to $80,192 for the three months ended February 28, 2015. The Company experienced a net loss of $793,621 for the nine months ended February 29, 2016, compared to $388,648 for the nine months ended February 28, 2015. The increase in net loss was primarily due to warrant based compensation and amortization.

Liquidity and Capital Resources

As of February 29, 2016, the Company had cash on hand of $111,128 and $294,912 in accounts receivables. The Company had total liabilities of $494,642. We believe that we have sufficient cash on hand to meet our operating expense requirements for the next quarter.

Off-Balance Sheet Arrangements

The Company does not have any off-balance sheet arrangements, financings, or other relationships with unconsolidated entities or other persons, also known as "special purpose entities" (SPEs).

ITEM VII: Property

The Company does not currently own any facility. The Company currently maintains a leased administrative office in Fort Myers, Florida. The facility is located at 17595 S. Tamiami Trail, Suite 221, Fort Myers, Florida 33908, in the Sea Tech Center. The Company also has office space made available at both Globalstar USA locations.

ITEM X: Legal Proceedings.

From time to time we may become involved in legal proceedings which could adversely affect us. We are currently not involved in any litigation, other than litigation in the ordinary course of business, which we believe could have a materially adverse effect on our financial condition or results of operations. There is no action, suit, proceeding, inquiry or investigation before or by any court, public board, government agency, self-regulatory organization or body pending or, to the knowledge of the executive officers of our company or any of our subsidiaries, threatened against or affecting our company, our common stock, any of our subsidiaries or of our company's or our company's subsidiaries' officers or directors in their capacities as such, in which an adverse decision could have a material adverse effect.

ITEM XI: Defaults Upon Senior Securities.

The Magna Group (dba Hanover Holdings) ("Magna") and the Company are in the discovery stage of litigation regarding a dispute concerning the exact amount of debt outstanding which is owed by the Company to Magna pursuant to multiple note transactions entered into by the parties in 2012. The litigation also relates to the application against the outstanding debt of third party collateral which was sold in connection with such transactions. Requests by the Company and its counsel for audited accounting of the transactions in question were repeatedly ignored and to date the Company still has not received such records. The Company does not believe Magna's claims have merit and is prepared to defend itself rigorously. The Company does not believe this litigation will have a materially adverse effect on its financial condition or results of operations.

ITEM XII: Other Information.

Not applicable.

ITEM XIII: Exhibits.

Note 1. The Company and Summary of Significant Accounting Policies

The Company

Yippy, Inc. (formerly known as Cinnabar Ventures, Inc.) (the "Company") was incorporated in the State of Nevada on May 24, 2006. Yippy Soft, Inc., a Delaware corporation (formerly known as Yippy, Inc.), was incorporated in the State of Delaware on October 6, 2009, and was renamed Yippy Soft, Inc. on April 23, 2010. On January 26, 2010, the Company acquired Yippy Soft, Inc. for 4,680,000 common shares. The acquisition was accounted for as a combination of entities under common control. All historical financial information is presented as combined for all periods presented. On April 15, 2010, the Company changed its name from Cinnabar Ventures, Inc. to Yippy, Inc.

On December 5, 2011, the Company declared a 2-for-1 forward stock split. All per share and share amounts have been restated to reflect the forward stock split in the amounts presented.

On July 30, 2012, the Company formed a wholly owned subsidiary, Yippy Labs, Inc., ("Yippy Labs") a corporation incorporated in British Columbia, Canada. On August 1, 2012, Yippy Labs acquired 100% of the issued and outstanding common stock of Macte! Labs, Inc. ("Macte"), a corporation incorporated in British Columbia, Canada. On March 31, 2013, Yippy Labs sold its interest in Macte.

Yippy provides secure family friendly online web destinations and services such as search, browser, email, cloud applications and storage to family PC's, learning institutions and libraries. In addition, Yippy provides custom search and tool platforms.

Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period.

Making estimates requires management to exercise significant judgment. It is at least reasonably possible that the estimate of the effect of a condition, situation or set of circumstances that existed at the date of the financial statements, which management considered in formulating its estimate could change in the near term due to one or more future confirming events. Accordingly, the actual results could differ significantly from estimates.

Principles of Consolidation

The consolidated financial statements include the accounts of the Company and its wholly-owned subsidiaries. All intercompany accounts and transactions have been eliminated in consolidation.

Cash and Cash Equivalents

For purposes of the statement of cash flows, the Company considers all short-term investments purchased with original maturities of three months or less at the date of purchase to be cash equivalents.

Intangible Assets

Intangible assets include a software license agreement acquired from an independent party. Intangible assets have a definite life and are amortized on a straight-line basis, with estimated useful lives of two to seven years. Intangible assets with a definite life are tested for impairment whenever events or circumstances indicate that the carrying amount of an asset (asset group) may not be recoverable. An impairment loss is recognized when the carrying amount of an asset exceeds the estimated undiscounted cash flows used in determining the fair value of the asset. The amount of the impairment loss to be recorded is calculated by the excess of the asset's carrying value over its fair value. No impairment was recognized for the three and nine months ended February 29, 2016.

Note 1. The Company and Summary of Significant Accounting Policies – (continued)

Income Taxes

Income taxes are computed using the asset and liability method. Under the asset and liability method, deferred income taxes and liabilities are determined based on the difference between financial reporting and tax bases of assets and liabilities and are measured using the currently enacted tax rates and laws. A valuation allowance is provided for the amount of deferred tax assets that, based on available evidence, are not expected to be realized.

Revenue Recognition

Revenue is recognized when the price is fixed or determinable, persuasive evidence of an arrangement exists, the service is performed, and collectability of the related fee is reasonably assured. Revenue is derived primarily from consulting contracts and our contract with Globalstar, Inc.

Accounts Receivable and Allowances

Trade accounts receivable are recorded at the invoiced amount and do not bear interest. The Company maintains allowances for bad debts. The allowance for doubtful accounts is based on the best estimate of the amount of probable credit losses in existing accounts receivable. The Company determines the allowances based on historical write-off experience by industry and regional economic data and historical sales returns. The Company reviews the allowance for doubtful accounts periodically. The Company does not have any significant off-balance-sheet credit exposure related to its customers.

Fair Value of Financial Instruments

Under Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") 820, "*Fair Value Measurements and Disclosures"*, we are permitted to elect to measure financial instruments and certain other items at fair value, with the change in fair value recorded in earnings. We elected not to measure any eligible items using the fair value option. Consistent with the Fair Value Measurement Topic of the FASB ASC 820, we implemented guidelines relating to the disclosure of our methodology for periodic measurement of our assets and liabilities recorded at fair market value.

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. A three-tier fair value hierarchy prioritizes the inputs used in measuring fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). These tiers include:

- Level 1, defined as observable inputs such as quoted prices for identical instruments in active markets;
- Level 2, defined as inputs other than quoted prices in active markets that are either directly or indirectly observable such as quoted prices for similar instruments in active markets or quoted prices for identical or similar instruments in markets that are not active; and
- Level 3, defined as unobservable inputs in which little or no market data exists, therefore requiring an entity to develop its own assumptions, such as valuations derived from valuation techniques in which one more significant inputs or significant value drivers are unobservable.

Note 1. The Company and Summary of Significant Accounting Policies – (continued)

The carrying amounts of trade and other accounts receivable, trade accounts payable, accrued payroll, bonuses and team member benefits, and other accrued expenses approximate fair value because of the short maturity of those instruments.

Derivative Instruments

In connection with the issuance of certain debt instruments, the Company may provide features allowing the debt to be convertible into shares of the Company's common stock. In these circumstances, these options may be classified as derivative liabilities, rather than as equity. Additionally, these instruments may contain embedded derivative instruments, such as embedded derivative features which in certain circumstances may be required to be bifurcated from the associated host instrument and accounting for separately as a derivative instrument liability.

The Company's derivative instrument liabilities are re-valued at the end of each reporting period, with the changes in the fair value of the liability recorded as charges or credits to income in the period in which the changes occur. For warrants and bifurcated embedded derivative features that are accounting for as derivative instrument liabilities, the Company estimates the fair value using either quoted market prices of financial instruments with similar characteristics or other valuation techniques. The valuation techniques require assumptions related to the remaining term of the instrument and risk-free rates of return, expected dividend yield, and the expected volatility of the Company's common stock over the life of the instrument. Because of the limited trading history of the Company's common stock, the Company estimates the future volatility of its common stock price based on not only the history of its stock price but also the experience of other entities considered to be comparable to the Company.

Earnings Per Share

In accordance with accounting guidance now codified as ASC Topic 260, *"Earnings per Share,"* basic earnings (loss) per share is computed by dividing net income (loss) by weighted average number of shares of common stock outstanding during each period. Diluted earnings (loss) per share is computed by dividing net income (loss) by the weighted average number of shares of common stock, common stock equivalents and potentially dilutive securities outstanding during the period.

Since the Company reflected net losses for the three and nine months ended February 29, 2016 and February 28, 2015, the effect of considering any common stock equivalents, if outstanding, would have been anti-dilutive. A separate computation of diluted earnings (loss) per share is not presented.

New Accounting Pronouncements

Management does not expect adoption of recently issued but not yet effective pronouncements to have a material impact on the Company's financial statements.

Note 2. Accounts receivable

At February 29, 2016, the Company evaluated the collectability of accounts receivable and determined that an allowance for doubtful accounts of $200,000 was necessary due to the cancellation of projects by a customer. Accounts receivable at February 29, 2016 and May 31, 2015 consists of:

	February 29, 2016	May 31, 2015
Accounts receivable	$ 494,912	$ 385,463
Less: Allowance for doubtful accounts	200,000	150,000
Balance, accounts receivable	$ 294,912	$ 235,463

Note 3. Intangible Assets

On May 17, 2010, the Company entered into a license agreement (the "License Agreement") with Vivisimo, Inc. ("Vivisimo"), granting the Company a non-exclusive, world-wide right to the use of "Velocity," a software information optimization platform that unifies access to secure business repositories, presents relevant information and enables knowledge sharing across an enterprise, for use in connection with computer applications currently being developed by the Company. In connection with the License Agreement, the Company acquired the domain Clusty.com, a metasearch engine, and all sub-domains and scripts related thereto, pursuant to a related purchase agreement (the "Purchase Agreement"). Vivisimo agreed not to compete with the Company in the consumer search area for a period of two years. Total consideration paid to Vivisimo under the Purchase Agreement and License Agreement was approximately $5,550,000 (the "Acquisition Price"). In May 2012, Vivisimo was acquired by IBM.

On December 10, 2015, the Company entered into a 20 year license agreement with Globalstar, Inc. ("Globalstar") whereby the Company granted a limited exclusive (MSS industry) license to Globalstar for the use of the Company's technology and Globalstar granted to the Company the right to market its services to Globalstar's customers. The Company also received a carrier sales agreement for Globalstar services up to 20% of the network capacity with colocation and hosting in all the Globalstar network operation centers worldwide. The Company issued 14,430,000 shares of its common stock to Globalstar in exchange for the license agreement. The common stock has a market value of $3,028,857 on the date of issuance.

The intangible assets included in the table below:

Description	November 30, 2015	May 31, 2015	Estimated Useful Life
Software license	$ 3,849,180	$ 3,849,180	5 - 7 years
Developed software	902,150	902,150	5 years
Trademarks, brands and domains	1,500,000	1,500,000	5 - 7 years
Globalstar license	3,028,857	-	20 years
Total	9,280,187	6,251,330	
Less: accumulated amortization	(4,439,953)	(4,059,670)	
Intangible assets, net	$ 4,840,234	$ 2,191,660	

On an annual basis the Company will evaluate the carrying value of intangible assets and determine if impairment has occurred and if so, record a charge for impairment. Management has concluded no impairment exists as of February 29, 2016 and May 31, 2015, respectively.

The Company recorded amortization expense of $126,761 and $380,283 for the three and nine months ended February 29, 2016 and 2014, respectively, related to the intangible assets.

Note 4. Convertible Notes Payable

Convertible notes payable consists of the following at February 29, 2016, and May 31, 2015, respectively:

		February 29, 2016		May 31, 2015
Convertible Notes Payable				
Loan payable bearing interest at 18% due on August 20, 2016, convertible to common stock at $0.10 per share.		20,000		-
Loan payable bearing interest at 18% due on July 1, 2016, convertible to common stock at $0.10 per share.		30,000		-
Loan payable bearing interest at 18% at due at September 1, 2015, convertible to common stock at $0.10 per share.		10,000		10,000
Loan payable bearing interest at 18% at due at September 1, 2015, convertible to common stock at $0.10 per share		10,000		10,000
Less: Discounts		(50,000)		-
Plus: Amortization of Discounts		4,809		-
Total Convertible Notes Payable	$	24,809	$	20,000

Accrued interest on the convertible notes payable was $13,031 and $6,581 at February 29, 2016 and May 31, 2015, respectively.

Note 5. Going Concern

As reflected in the accompanying financial statements, the Company has accumulated net losses of $19,128,243 since inception and a net loss of $793,621 nine months ended February 29, 2016.

The Company may seek additional funds to finance its immediate and long-term operations through debt and/or equity financing. The successful outcome of future financing activities cannot be determined at this time and there is no assurance that if achieved, the Company will have sufficient funds to execute its intended business plan or generate positive operating results.

These factors, among others, raise substantial doubt about the Company's ability to continue as a going concern. The accompanying financial statements do not include any adjustments related to recoverability and classification of asset carrying amounts or the amount and classification of liabilities that might result should the Company be unable to continue as a going concern.

Note 6. Related Party Transactions

An officer and director of the Company advanced funds to the Company from time to time. The balance due the director and officer, was $72,469 and $72,770 at February 29, 2016 and May 31, 2015, respectively.

Note 7. Warrant

On July 15, 2015, the Company entered into a consulting agreement with a law firm to provide legal representation to the Company in exchange for a warrant to purchase a total of 2,500,000 shares of the Company's common stock at a purchase price of $0.03 per share. The warrant has term of five years. The fair market value of the warrant was $706,000 on the date of issuance. The warrant was valued using the Black-Scholes option pricing model with the following assumptions: volatility of 5.14%, risk adjusted interest rate of 1.66%, and zero dividends. The warrant vests as follows: 1,000,000 shares upon issuance and 100,000 shares per month, starting June 30, 2015. The Company recognized legal expense of $501,840 in the nine months ended February 29, 2016 related to the vesting of the warrant.
