

## **Notification of Late Filing**

**Name of Company:** Yippy, Inc.

**Type of Report:** Annual Report for the Year Ended May 31, 2012

**Filing Status:** Late

**Reason for Late Filing:** Yippy, Inc. (the “Company”) was not able to complete and timely file its Annual Report for the fiscal year ended May 31, 2012, because certain accounting and documentation work required for the completion of the review of the Company’s financial statements could not, without unreasonable effort or expense, be prepared and provided to the Company’s independent accountants early enough to allow for the completion of their review of the financial statements prior to the prescribed due date. Thus, the Company requires additional time to properly complete and file its Annual Report for the fiscal year ended May 31, 2012.

**Anticipated Date of Filing:** September 14, 2012
