Notes to Financial Statements

For the six months ended June 30, 2013 and three months ended March 31, 2013 and year ended December 31, 2012

NOTE 1. Organization, Business and Significant Accounting Policies

Business Description

Mammoth Energy Group, Inc. (A Development Stage Company) was incorporated on February 27, 2006 under the laws of the State of Nevada. Prior to its incorporation in Nevada, the Company had been incorporated as Technigen Corporation in Canada. It has had limited operations since its incorporation in the United States. In accordance with Accounting Standards Codification ("ASC") 915, Development Stage Entities, the Company is considered to be in the development stage. In March of 2013, management decided to change jurisdiction to Wyoming, and to subsequently dissolve the Nevada Corporation. Mammoth Energy Group, Inc. was incorporated in Wyoming by filing Articles of Continuance on March 5, 2013. These articles were not finally accepted and approved until July 16, 2013 when the company filed its dissolution with the State of Nevada. T

Cash

The Company maintains cash balances at one financial institution in New York. The account is insured by Federal Deposit Insurance Corporation up to \$250,000. The Company's accounts at this institution may, at times, exceed the federally insured limits. The company has not experienced any losses in such accounts.

Property and Equipment and Depreciation Policy

Property and equipment are recorded at cost, less accumulated depreciation. Cost of repairs and maintenance are expensed as they are incurred. Major repairs that extend the useful life of equipment are capitalized and depreciated over the remaining estimated useful life. When property and equipment are sold or otherwise disposed, the related cost and accumulated depreciation are removed from the respective accounts and the gains or losses realized on the disposition are reflected in operations. The Company uses the straight - line method in computing depreciation for financial reporting purposes.

Income taxes

The Company uses the assets and liability method of accounting for income taxes pursuant to SFAS No. 109 "Accounting for Income Taxes". Under the assets and liability method of SFAS No. 109, deferred tax assets and liabilities are recognized for the future tax consequences attributable to temporary differences between the financial statements carrying amounts of existing assets and liabilities and their respective tax bases. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled.

In June 2006, the FASB issued FASB Interpretation No. 48, "Accounting for Uncertainty in Income Taxes." Specifically, the pronouncement prescribes a recognition threshold and a measurement attribute for the financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. The interpretation also provides guidance on the related de-recognition, classification, interest and penalties, accounting for interim periods, disclosure and transition of uncertain tax positions. The company adopted this interpretation effective January 1, 2007. The adoption of FIN 48 did not have a material impact on the Company's financial position, results of operations or cash flows.

Revenue Recognition

The company recognizes revenues when it is received. During the six months ended June 30, 2013 the Company had net losses of \$706,502, of which \$8,918 were for the three months ended June 30, 2013, as compared to the three (3) months ended March 31, 2013 in which the Company had net losses of \$ 694,586, and for the twelve months ended December 31, 2012 net losses of \$(224,496.00) bringing the accumulated deficit to \$ (1,987,914) as compared an accumulated deficit of \$(1,290,643) for the year ending December 31, 2012.

Use of estimates

The Company's Consolidated Financial Statements have been prepared in accordance with accounting principles generally accepted in the United States of America. The preparation of the Company's Financial Statements requires the Company to make estimates and assumptions that affect the reported amounts of assets and liabilities and the related disclosure of contingent assets and liabilities at the date of the Financial Statements, and the reported amounts of revenues and expenses during the reporting period. The Company bases its estimates on historical experience and on various other assumptions that are believed to be reasonable under the circumstances. Accordingly, actual results may differ significantly from these estimates under different assumptions or conditions.

Basic and Diluted Per Common Share

Under Statement of Financial Accounting Standards ("SFAS") No. 128 "Earning per Share" basic earnings per common share is computed by dividing income available to common stockholders by the weight average number of common shares assumed to be outstanding during the period of computation. Diluted earnings per share is computed similar to basic earnings per share except that the denominator is increased to include the number of additional common shares that would have been outstanding if the potential common shares had been issued if the additional shares were dilutive.

Research and Development

The company expenses research and development cost as incurred.

Note 2. Financial Statements

The unaudited financial statements as of June 30, 2013 and March 31, 2013 were prepared in accordance with accounting principles generally accepted in the United States for interim financial information. In the opinion of management, the unaudited financial statements reflect all adjustments,

which include only normal recurring adjustments, necessary to present fairly the financial position as of June 30, 2013 and March 31, 2013 and December 31, 2012. The financial data and other information disclosed in these notes to the financial statements related to these periods are unaudited. Certain information and footnote disclosures normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States have been condensed or omitted pursuant to the Securities and Exchange Commission's rules and regulations.

Note 3. Recent Accounting Pronouncements

Business combinations

In December 2007, the FASB issued FASB Statement No. 141[®], "Business Combinations," which amends SFAS No. 141, and provides revised guidance for recognizing and measuring identifiable assets and goodwill acquired, liabilities assumed, and any non-controlling interest in the acquiree. It also provides disclosure requirements to enable users of the financial statements to evaluate the nature and financial effects of the business combination. SFAS No. 141[®] is effective for the Company's fiscal year beginning January 1, 2009 and is to be applied prospectively. The Company is currently evaluating the potential impact of adopting this statement on the Company's financial position, results of operations or cash flows.

Accounting for Convertible Debt Instruments

In September 2007, the FASB published proposed FSP No. APB 14-a, titled "Accounting of Convertible Debt Instruments Which May Be Settled in Cash upon Conversion". The proposed FSP applies to convertible debt instruments that, by their stated terms, may be settled in cash (or other assets) upon conversion, including partial cash settlement, unless the embedded conversion option is required to be separately accounted as a derivative under SFAS 133.

Convertible debt instruments within the scope of the proposed FSP are not addressed by the existing APB 14. The proposed FSP would require that the liability and equity components of convertible debt instruments within the scope of the proposed FSP shall be separately accounted for in a manner that reflects the entity's nonconvertible debt borrowing rate. This will require an allocation of convertible debt proceeds between the liability component and the embedded conversion option (i.e., the equity component). The difference between the principal amount of the debt and the amount of the proceeds allocated to the liability component would be reported as a debt discount and subsequently amortized to earning over the instrument's expected life using the effective interest method. The Company is currently evaluating the potential impact of adopting this statement on the Company's financial position, results of operation or cash flows.

Accounting for Income Tax Benefits of Dividends on Share – Based payment Awards

In June 2007, the EITF reached consensus on Issue No. 06-11, "Accounting for Income Tax Benefits of Dividend on Share-Based Payment Award. " EITF Issue No. 06-11 requires that the tax benefit related to dividend and dividend equivalents paid on equity-classified non-vested shares and non-vested share units, which are expected to vest, be recorded as an increase to additional paid –in capital. EITF issue No.06-11 is to be applied prospectively for tax benefits on dividends declared in the Company's fiscal

year beginning January 1, 2008. The Company is currently evaluating the impact that the adoption of this statement will have on the Company's financial position, results of operations or cash flows.

Fair Value Accounting

In February 2007, the FASB Statement No. 159, "The Fair Value Option for Financial Assets and Financial Liabilities" ("FAS 159"). FAS 159 permits entities to choose to measure many financial, instruments and certain other items at fair value, with the objective of improving financial reporting by mitigating volatility in reported earnings caused by measuring related assets and liabilities differently without having to apply complex hedge accounting provisions. The provisions of FAS 159 are effective for the Company's fiscal year beginning January 1, 2008. The Company does not expect the adoption of FAS 159 to have a material impact on the Company's financial results.

In September 2006, the FASB issued FASB Statement No. 157, "Fair Value Measurements"

("FAS 157"). FAS 157 defines fair value, establishes a framework for measuring fair value in generally accepted accounting principles, and expands disclosures about fair value measurements. The provisions of FAS 157 are effective for the Company's fiscal year beginning January 1, 2008. The Company does not expect the adoption of FAS 157 to have a material impact on the Company's financial results.

NOTE 4 – GOING CONCERN

The financial statements have been prepared in accordance with generally accepted accounting principles applicable to a going concern, which contemplates the realization of assets and the satisfaction of liabilities and commitments in the normal course of business. However, as of June 30, 2013, the Company has a net deficit in retained earnings of \$ (1,321,990) and working capital of \$97,288. The company is able to pay its obligations to vendors from funds provided by loans. The Company intends on financing its future development activities from the same sources, until such time that funds provided by operations are sufficient to fund working capital requirements.

NOTE 5 – Stockholders' Equity

The Company was organized under the laws of the state of Nevada on February 27, 2006, and had authorized capital stock of 1,000,000,000 common shares with a par value of \$0.0001. On February 6, 2008, the Company amended its Articles of Incorporation to raise the authorized capital stock to 1,500,000,000 common shares at a par value of \$0.0001. On April 21, 2008, the Company amended its Articles raising the authorized capital stock to 7,000,000,000 common shares with a par value of \$0.0001. On October 15, 2009, the Company then again amended its Articles, reducing the authorized capital stock to 5,000,000,000 of common stock with a par value of \$0.0001; in March 2011, the Company further amended its Articles eliminating the Preferred Shares and raising the authorized capital stock to 15,000,000,000.

The Company has divided the Common Stock into three (3) distinct classes, Common "A", C1 and C2. There are no special rights or preferences for any class of Common Stock, each having the same rights and par value. The establishment of the class of Common Stock was simply a device to facilitate the identification of certain shareholders which were shareholders of the Canadian predecessor. For purposes the financial statements contained herein, Common Stock was treated as if only a single class.

In March 2013, the Company moved its jurisdictional state from Nevada to Wyoming amending its articles to increase the authorized capital stock of the Company to 25,000,000,000 with a par value of \$0.0001. Of the this authorization the Company authorized 5,000,000 shares designating as Preferred Series "C", with a par value of \$0.001. These Preferred Shares "C" have the same rights and warranties as the 24,995,000,000 designated common shares with no preference as to dissolution, but a conversion to common of 2000 common for each Preferred C share.

On July 16, 2013 the company formally dissolved its Nevada Corporation.

Dividends:

The Company has not yet adopted any dividend policy regarding payment of dividends. No dividends have been paid during the periods shown.

NOTE 6 – Related Party Transactions

There were no related party transactions during the quarter.

NOTE 7- Securities

On March 23, 2011 all remaining 658,500 Preferred "C" shares were cancelled by the company from a board resolution enacted by the company's management.

On March 23, 2011, the shareholders' approved an amendment to the Company's Articles of Incorporation increasing the authorized common stock to 15,000,000,000 shares with a par value of \$0.0001.

At December 31, 2011, the Company had 6,869,554,120 common shares issued and outstanding. During the year, the Company issued 1,712,603,333 common shares primarily in debt settlement, including a court ordered settlement of 562,603,333 common shares, 150,000,000 common shares in debt reduction and 1,253,205,128 in Officer Compensation and directors' fees.

At December 31, 2012, the Company had 13,020,357,680 common shares issued and outstanding. During the year ending December 31, 2012, the Company issued 6,310,803,500 common shares 2,385,803,500 in aged debt settlement as unrestricted common shares.

The Company amended its Articles on March 5, 2013 to include an increase of the overall authorized capital stock. See Note 6 above.

On March 21, 2013 the Company issued 1,979,876,276 common voting restricted shares to Capital, Inc. for services.

There were no stock transactions during the period ended 30-Jun-13.

Note 8- Subsequent events

As of approximately July 18, 2013, the company has formally submitted to FINRA a reversal of its common stock. The company in its current Capital structure is unable to operate and has serious implications as a going concern. The company has changed its articles to Wyoming as the state fees of Nevada have had a serious impact on the ability for the company to move itself forward. The company expects once the reversal of its common stock is complete, to immediately change its authorized share structure in Wyoming and to amend the Articles of Incorporation. The company expects to have an authorized share structure congruent to the marketplace for its securities that is both reasonable and expected in today's securities market upon completion of the reverse.

6. Describe Issuer's Business Products and Services

A. Issuer's Business

The Company is in the developmental stage and preparing to engage in the mining and extraction of lithium

1. Mining and extraction of Lithium: Lithium is the world's lightest metal and is used primarily as the energy source in the batteries used to power laptops, cell phones, I-pads and a myriad of other portable electronic products. But with the recent emphasis on hybrid and electric cars, the Company expects the demand to increase exponentially. Chile, along with Argentina and Bolivia, account for nearly 75% of all the lithium brine deposits in the world. The Company is optimistic that once the agreements are final they will be well situated to exploit this increasing valuable mineral, creating excellent shareholder value for its investors.

Mammoth Energy Group Inc. has acquired a controlling interest in Compania Lithium Investments Limitada in a stock exchange. Under the agreement, the company acquired 99% of the capital stock of Compania Lithium Investments in exchange for one hundred twenty five million (125,000,000) shares of the Company's common stock, approximately \$225,000 USD at the time of the stock exchange. Compania Lithium is intended to be the first operating entity of MMTE and is in the business of mining and wholesale distribution of lithium and other minerals. Salt Gold Inter Chile Limitada lithium concessions consist of 1008 acres in the Salar de Maricunga. Preliminary results of drilling and chemical analysis from its project under development has returned results and confirmed the presence of lithium -- potassium brine bearing aquifers. Brine Concentrations averaged grades of 650 ppm (parts per million) for lithium and 9500 ppm for potassium. These results

confirm a significant third dimension to surface brines sampled on the project. The brine chemistry in the first test wells compares favorably to other Lithium companies in the region including the large multi-national Lithium producers whose estimates in the Atacama and throughout the region average 500 to 750 ppm Lithium and 9000-10000 ppm for potassium. Depths at the Salar de Maricunga average 100 Meters or 300 feet and currently acres are valued around \$30,000 USD.

B. Date and Jurisdiction of Incorporation

The Company was incorporated in the State of Nevada as Mammoth Energy Group, Inc. on February 27, 2006. It had been originally incorporated in Canada as *Technigen Corp.* and changed its name upon becoming an US corporation.

In March 2013, the Company changed its jurisdictional state by filing Articles of Continuance with the Secretary of State of Wyoming. It is in the process of dissolving its corporate jurisdiction in Nevada. A copy of the Articles including its amended capitalization are attached as Exhibit 1 hereto and are incorporated by reference.

C. Primary and Secondary SIC Codes

Primary SIC Code: 2819
Secondary SIC Code: 1099

D. Fiscal Year

The Company's fiscal year end date is December 31.

E. Principal Products and Services and Their Markets

Lithium:

Lithium is the thirty-third most frequently occurring mineral, but concentrations are generally low, and extraction difficult and costly. However, the major trend in the lithium industry has been a transition from hard rock mining-based sources of lithium to brine-based ones, which is significantly more cost-efficient.

The economics of obtaining lithium carbonate from brine are so favorable that most hard rock production has been priced out of the market. Lithium brines are currently the only lithium source that can support mining without significant other credits from tantalum, niobium, tin etc. Lithium brine resources are now the preferred method of lithium recovery.

Lithium recovery from brines could lead to a huge carbon footprint reduction because of a nearly zero-waste mining method. Once the lithium is recovered, the chemicals used can be recycled, and the by-products include saleable compounds such as potash and/or boron.

The Company is in the exploration stage and has not produced or marketed any lithium or other commercial minerals. It has had difficulty raising sufficient working capital to sustain its exploration of

the Salar de Maricunga property in Chile. Initially survey of the property purports the presence of lithium as well as other commercially viable minerals and salts. The Company continues its efforts to raise sufficient capital to extract these minerals.

Markets for lithium, a soft metallic compound, include the auto industry, air craft industry, and small electronics industry each competing for this natural resource.

7. Issuer's Facilities

The Company shares office space in New York on a rent fee basis. It owns no real property, equipment limited to office equipment.

8. Officers, Directors and Control Persons

A. Officers, Directors and Control Persons

William Lieberman- President/CEO/Chairman of the Board
Beneficial Ownership- 4,475,000,000 common restricted shares
1,500,000 Preferred Series "C"

Mr. Lieberman is the former President of Trilliant Exploration Corp., a gold mining operation with assets in southern Ecuador and nearly 200 employees in full scale mining production with reserves of nearly 1.2 million oz. He worked closely and was intimately involved in all stages of financing and development of Trilliant Exploration and his efforts resulted in the closing of nearly \$3 MM venture capital and private equity investment. Beginning in 2005, Mr. Lieberman served as Vice President of Resource Polymers, Inc of Toronto, Canada. Mr. Lieberman holds a Masters in Business Administration from Hult International Business School, and a Bachelor of Arts in Political Science from the University of Western Ontario. He is fluent in Spanish and has worked in Ecuador, Costa Rica, The Bahamas, Germany, the Czech Republic, Romania and Mexico as a former international journalist.

Samir Ahshrup Secretary, Chief Operating Officer, Director
Beneficial Ownership- 450,000,000 common restricted shares

Mr. Ahshrup, a native of Malaysia, is experienced in energy, government and the telecommunications industries. Working internationally his expertise has lied in strategy formulation and program implementation throughout Fortune 500 firms. He began his career with the consulting company Traderoof and in 2005 he joined the Computer Science Corporation, in which he led the consulting team that designed Maybank's online cash management system in Malaysia. Mr. Ahshrup has also worked as a Product Manager at Siemens and has consulted at PA Consulting Group, in Boston, MA. Throughout 2008 and 2009, he was involved in writing and successfully prepared a case to secure over \$70 Million in clean energy stimulus funds for the state of Massachusetts from the federal

government. Mr. Ahshrup graduated with a Master's in Business Administration from the Hult International School of Business Administration with honors and holds an Engineering Degree from the University Putra Malaysian in Computer and Communications Systems. He is fluent in Malay, English, Indonesian, Hindi and Punjab.

B. Legal/Disciplinary History

None of the foregoing persons have been convicted of or a subject of the following:

1. A conviction in a criminal proceeding or named as a defendant in a pending criminal proceeding (excluding traffic violations and other minor offenses);
2. The entry of an order, judgment, or decree, not subsequently reversed, suspended or vacated by a court of competent jurisdiction that permanently or temporarily enjoined, barred, suspended or otherwise limited such person's involvement in any type of business, securities, commodities or banking activities;
3. A finding or judgment by a court of competent jurisdiction (in a civil action), the Securities and Exchange Commission, the Commodities Futures Trading Commission, or a state securities regulator of a violation of federal, state securities or commodities law, which finding or judgment has not been reversed, suspended or vacated; or
4. The entry of an order by a self-regulatory organization that permanently or temporarily suspended or otherwise limited such person's involvement in any type of business or securities activities.

Nevada Secretary of State Form 73 ARTICLES 2002
 Revised 01, 10-01-03

Schedule to Articles of Incorporation

Shares

The classes and maximum number of shares that Vision Dynamics Inc. (the "Corporation") is authorized to issue is 999,000,000 Class "A" common shares and 1,000,000 Class "C" preferred shares.

The rights, privileges, restrictions and conditions for Class "A" common shares and Class "C" preferred shares are as follows:

- A) The holders of the Class "A" common shares shall be entitled to receive notice of and to attend any meeting of the shareholders of the Corporation and shall be entitled to one vote thereat for each Class "A" common share then held by them respectively.
- B) The Class "C" preferred shares may at any time, or from time to time, be issued in one or more series, each series to consist of such number of shares as may, before their issuance, be determined by resolution of the directors of the Corporation.

The directors of the Corporation may, by ordinary resolution, fix from time to time before their issuance the designation, rights, privileges, restrictions and conditions attaching to the Class "C" preferred shares of each series including, without limiting the generality of the foregoing, the rate or amount of dividends or the method of calculating dividends, the dates of payment of dividends, the redemption or purchase prices and terms and conditions of redemption or purchase, any voting rights, any conversion rights and any other provisions.

The Class "C" preferred shares of each series will rank, with respect to both dividends and return of capital, in priority to all other shares of the Corporation. The Class "C" preferred shares of any series may also be given such other preference over the common shares, and over any other shares of the Corporation ranking junior to the preferred shares, as may be fixed by the directors, provided that no rights, privileges, restrictions or conditions attached to a series of shares will confer on a series a priority in respect of dividends or return of capital over any other series of shares of the same class that are then outstanding.

Certificate of Amendment
(PURSUANT TO NRS 78.385 and 78.390)

Important: Read attached instructions before completing form.

Certificate of Amendment to Articles of Incorporation
For Nevada Profit Corporations
(Pursuant to NRS 78.385 and 78.390 - After Issuance of Stock)

1. Name of corporation: VISION DYNAMICS, INC.

2. The articles have been amended as follows (provide article numbers, if available):
ARTICLE 1 IS HEREBY AMENDED AND SHALL READ IN ITS ENTIRETY:

NAME OF CORPORATION: MAMMOTH ENERGY GROUP, INC.

3. The vote by which the stockholders holding shares in the corporation entitling them to exercise at least a majority of the voting power, or such greater proportion of the voting power as may be required in the case of a vote by classes or series, or as may be required by the provisions of the articles of incorporation have voted in favor of the amendment is: 51%*

4. Effective date of filing (optional): _____
(must not be later than 90 days after the certificate is filed)

5. Officer Signature (required): *Sp. V. Aronson, President*

*If any proposed amendment would alter or change any preference or any relative or other right given to any class or series of outstanding shares, then the amendment must be approved by the vote, in addition to the affirmative vote otherwise required, of the holders of shares representing a majority of the voting power of each class or series affected by the amendment regardless of limitations or restrictions on the voting power thereof.

IMPORTANT: Failure to include any of the above information and submit the proper fees may cause this filing to be rejected.

This form must be accompanied by appropriate fees.
