URANIUM HUNTER CORPORATION.
(A EXPLORATION STAGE MINING COMPANY)

Notes to Interim Financial Statements

December 31, 2013

(Unaudited)

Note 1 - Organization and Summary of Significant Accounting Policies:

Organization:

Uranium Hunter Corporation (the “Company”) was incorporated in the State of Nevada on September 4, 2003. The Company was originally incorporated under the name Brownsville Company and changed its name to Uranium Hunter Corporation on February 1, 2007.

The Company’s fiscal year end is September 30.

Basis of Presentation – Exploration Stage Mining Company:

The Company has not earned any revenues from limited principal operations. Accordingly, the Company’s activities have been accounted for as those of a “Development Stage Enterprise” as set forth in Financial Accounting Standards Board Statement No. 7 (“SFAS 7”). Among the disclosures required by SFAS 7 are that the Company’s financial statements be identified as those of a development stage company, and that the statements of operations, stockholders’ equity (deficit) and cash flows disclose activity since the date of the Company’s inception.

Basis of Accounting:

The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States. In the opinion of management, these interim financials include all necessary adjustments to make them not misleading.

Cash and Cash Equivalents:

The Company considers all highly liquid debt instruments, purchased with an original maturity of three months or less, to be cash equivalents.

Use of Estimates:

These financial statements have been prepared in accordance with generally accepted accounting principles in the United States of America. Because a precise determination of assets and liabilities, and correspondingly revenues and expenses, depends on future events, the preparation of financial statements for any period necessarily involves the use of estimates and assumption an example being assumptions in valuation of stock options. Actual amounts may differ from these estimates. These financial statements have, in management's opinion, been properly prepared within reasonable limits of materiality and within the framework of the accounting policies summarized below.

Net Loss Per Share:

Net loss per share is based on the weighted average number of common shares and common shares equivalents outstanding during the period.

Other Comprehensive Income:

The Company has no material components of other comprehensive income (loss), and accordingly, net income(loss) is equal to comprehensive loss in all periods.

Fair Value of Financial Instruments:

The carrying amount of accounts payable and loan payable are considered to be representative of their respective fair values because of the short-term nature of these financial instruments.

Foreign Exchange Translation:

The accounts of the Company are accounted for in accordance with the Statement of Financial Accounting Statements No. 52 ("SFAS 52"), "Foreign Currency Translation". The financial statements of the Company are translated into US dollars as follows: assets and liabilities at year-end exchange rates; income, expenses and cash flows at average exchange rates; and shareholders' equity at historical exchange rate.

Monetary assets and liabilities, and the related revenue, expense, gain and loss accounts, of the Company are re-measured at year-end exchange rates. Non-monetary assets and liabilities, and the related revenue, expense, gain and loss accounts are re-measured at historical rates. Adjustments which result from the re-measurement of the assets and liabilities of the Company are included in net income.

Stock-Based Compensation

In December 2004, the Financial Accounting Standards Board (FASB) issued Statement of Financial Accounting Standards No. 123 (Revised 2004), "Share-Based Payment" (SFAS 123 (R)). SFAS 123 (R) requires companies to recognize compensation cost for employee services received in exchange for an award of equity instruments based on the grant-date fair value of the award. The Company adopted the provisions of SFAS 123 (R) on January 1, 2005 using the "modified prospective" application method of adoption which requires the Company to record compensation cost related to unvested stock awards as of January 1, 2005 by recognizing the unamortized grant date fair value of these awards over the remaining service periods of those awards with no change in historical reported earnings. The adoption of this standard did not affect the financial statements for the year ended December 31, 2005, since up to that date, no stock options had been issued. Awards granted after December 31, 2006 are valued at fair value in accordance with the provisions of SFAS 123 (R) and recognized on a straight line basis over the service periods of each award.

As of December 31, 2013 there was \$Nil of unrecognized expense related to non-vested stock-based compensation arrangements granted. There have been no options granted during the three months ended December 31, 2013.

Note 2 – Federal Income Taxes:

The Company has made no provision for income taxes because there have been no operations to date causing income for financial statements or tax purposes.

The Financial Accounting Standards Board (FASB) has issued Statement of Financial Accounting Standards Number 109 ("SFAS 109"). "Accounting for Income Taxes", which requires a change from the deferred method to the asset and liability method of accounting for income taxes. Under the asset and liability method, deferred income taxes are recognized for the tax consequences of "temporary differences" by applying enacted statutory tax rates applicable to future years to differences between the financial statement carrying amounts and the tax basis of existing assets and liabilities.

Note 2 – Federal Income Taxes(continued)

At December 31, 2013, the Company had net operating loss carry forwards of approximately \$1,580,237 for federal income tax purposes. These carry forwards if not utilized to offset taxable income will begin to expire.

Note 3 – Going Concern

The Company's financial statements have been prepared on the basis that it is a going concern, which contemplates the realization of assets and the satisfaction of liabilities in the normal course of business.

The Company has earned limited revenue from operations in the current period ended December 31, 2013. The Company's ability to continue as a going concern is dependent upon its ability to develop additional sources of capital and ultimately to achieve profitable operations. The accompanying financial statements do not include any adjustments that might result from the outcome of these uncertainties. Management is seeking new capital to revitalize the Company.

Note 4 – Capital Stock Transactions:

During the year ended September 30, 2013, the Company issued common stock as follows:

Note 5 – Financial Accounting Developments:

Recently Issued Accounting Pronouncements

Other accounting standards that have been issued or proposed by the FASB or other standards-setting bodies that do not require adoption until a future date are not expected to have a material impact on the Company's financial statements upon adoption.
