For the Year Ended April 30, 2015**

NOTE 1 – NATURE OF OPERATIONS AND BASIS OF PRESENTATION

Vacation Home Swap, Inc. (“Vacation Home Swap, “we”, “the Company”) was incorporated in the State of Nevada as a for-profit Company on March 31, 2009 and established a fiscal year end of April 30. We are a development-stage Company organized to enter into an Internet based vacation home swapping company. The company will have a website where people can exchange homes for their holidays and travels.

Vacation Home Swap attempted to compete with other Internet based exchanging companies and was not successful.

NOTE 2 – SIGNIFICANT ACCOUNTING POLICIES

A summary of the significant accounting policies applied in the presentation of the accompanying unaudited condensed consolidated financial statements follows:

General

The accompanying unaudited condensed consolidated financial statements of the Company, have been prepared in accordance with the rules and regulations (S-X) of the Securities and Exchange Commission (the "SEC"). Accordingly, they do not include all of the information and footnotes required by generally accepted accounting principles for complete financial statements.

In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation have been included.

Estimates

The preparation of the financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Revenue Recognition

The Company will recognize revenue in accordance with Accounting Standards Codification subtopic 605-10, Revenue Recognition (“ASC 605-10”) which requires that four basic criteria must be met before revenue can be recognized: (1) persuasive evidence of an arrangement exists; (2) delivery has occurred; (3) the selling price is fixed and determinable; and (4) collectability is reasonably assured. Determination of criteria (3) and (4) are based on management's judgments regarding the fixed nature of the selling prices of the products delivered and the collectability of those amounts. Provisions for discounts and rebates to customers, estimated returns and allowances, and other adjustments will be provided for in the same period the related sales will be recorded.

ASC 605-10 incorporates Accounting Standards Codification subtopic 605-25, Multiple-Element Arrangements (“ASC 605-25”). ASC 605-25 addresses accounting for arrangements that may involve the delivery or performance of multiple products, services and/or rights to use assets. There was no effect on implementing ASC 605-25 on the Company’s financial position and results of operations, since the Company has not started generating revenue.

Cash

The Company considers cash to consist of cash on hand and temporary investments having an original

maturity of 90 days or less that are readily convertible into cash.

Property and Equipment

Property and equipment are stated at cost. When retired or otherwise disposed, the related carrying value and accumulated depreciation are removed from the respective accounts and the net difference less any amount realized from disposition, is reflected in earnings. All acquired property and equipment has yet to be placed in service, therefore no depreciation was recorded for the period from date of inception through the year ended April 30, 2015. The Company does not own or rent any property.

Long-Lived Assets

The Company follows FASB ASC 360-10-15-3, "Impairment or Disposal of Long-lived Assets," which established a "primary asset" approach to determine the cash flow estimation period for a group of assets and liabilities that represents the unit of accounting for a long-lived asset to be held and used. Long-lived assets to be held and used are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. The carrying amount of a long-lived asset is not recoverable if it exceeds the sum of the undiscounted cash flows expected to result from the use and eventual disposition of the asset. Long-lived assets to be disposed of are reported at the lower of carrying amount or fair value less cost to sell.

Income Taxes

The Company has adopted Accounting Standards Codification subtopic 740-10, Income Taxes ("ASC 740-10") which requires the recognition of deferred tax liabilities and assets for the expected future tax consequences of events that have been included in the financial statement or tax returns. Under this method, deferred tax liabilities and assets are determined based on the difference between financial statements and tax basis of assets and liabilities using enacted tax rates in effect for the year in which the differences are expected to reverse. Temporary differences between taxable income reported for financial reporting purposes and income tax purposes consist primarily of timing differences such as deferred officers' compensation and stock based compensation accounting.

Net Loss per Common Share, basic and diluted

The Company has adopted Accounting Standards Codification subtopic 260-10, Earnings Per Share ("ASC 260-10") specifying the computation, presentation and disclosure requirements of earnings per share information. Basic loss per share has been calculated based upon the weighted average number of common shares outstanding.

Stock based compensation

The Company follows Accounting Standards Codification subtopic 718-10, Compensation ("ASC 718-10") which requires that all share-based payments to both employees and non-employees be recognized in the income statement based on their fair values.

As of April 30, 2015, the Company did not have any issued or outstanding stock options.

Convertible Debt Instruments

If the conversion features of conventional debt instruments provides for a rate of conversion that is below market value at issuance, this feature is characterized as a beneficial conversion feature ("BCF"). A BCF is recorded by the Company as a debt discount pursuant to ASC Topic 470-20 "Debt with Conversion and Other Options." In those circumstances, the convertible debt is recorded net of the discount related to the BCF, and the Company amortizes the discount to operations over the life of the debt using the effective

interest method. The Company was not required to record any BCF's on any of the convertible debt it issued during the years ended April 30, 2015 and 2014.

Concentrations of Credit Risk

Financial instruments and related items, which potentially subject the Company to concentrations of credit risk, consist primarily of cash, cash equivalents and trade receivables. The Company places its cash and temporary cash investments with high credit quality institutions. At times, such investments may be in excess of the FDIC insurance limit.

Research and Development

The Company accounts for research and development costs in accordance with Accounting Standards Codification subtopic 730-10, Research and Development ("ASC 730-10"). Under ASC 730-10, all research and development costs must be charged to expense as incurred. Accordingly, internal research and development costs are expensed as incurred. Third-party research and development costs are expensed when the contracted work has been performed or as milestone results have been achieved as defined under the applicable agreement. Company-sponsored research and development costs related to both present and future products are expensed in the period incurred. The Company did not incur any research and development expenses from date of inception through April 30, 2015.

Reliance on Key Personnel and Consultants

The Company has 1 full-time employee and no part-time employees. Additionally, the Company has consultants performing various specialized services. The Company is heavily dependent on the continued active participation of these current executive officers, employees and key consultants. The loss of any of the senior management or key consultants could significantly and negatively impact the business until adequate replacements can be identified and put in place.

Fair Value

Accounting Standards Codification subtopic 825-10, Financial Instruments ("ASC 825-10") requires disclosure of the fair value of certain financial instruments. The carrying amount reported in the consolidated balance sheet for accounts payable and accrued expenses, advances and notes payable approximates fair value because of the immediate or short-term maturity of these financial instruments.

Reclassification

Certain reclassifications have been made to prior periods' data to conform to the current period's presentation. These reclassifications had no effect on reported income or losses.

Recent Accounting Pronouncements

The Company continually assesses any new accounting pronouncements to determine their applicability to the Company. Where it is determined that a new accounting pronouncement affects the Company's financial reporting, the Company undertakes a study to determine the consequence of the change to its financial statements and assures that there are proper controls in place to ascertain that the Company's financials properly reflect the change.

NOTE 2 – GOING CONCERN MATTERS

The accompanying unaudited condensed consolidated financial statements have been prepared on a going concern basis, which contemplates the realization of assets and the satisfaction of liabilities in the

normal course of business. As shown in the accompanying unaudited condensed consolidated financial statements. In addition, the Company is in a development stage, has yet commercialized its planned business and has not generated any revenues since inception. These factors among others may indicate that the Company will be unable to continue as a going concern for a reasonable period of time.

The Company's existence is dependent upon management's ability to develop profitable operations and or upon obtaining additional financing to carry out its planned business. Management is devoting substantially all of its efforts to the commercialization of its planned product and processes, as well as raising additional debt or equity financing in order to accelerate the development and commercialization of additional products. There can be no assurance that the Company's commercialization or financing efforts will result in profitable operations or the resolution of the Company's liquidity problems.

There can be no assurance that any additional financings will be available to the Company on satisfactory terms and conditions, if at all. In the event the Company is unable to continue as a going concern, it may elect or required to seek protection from its creditors by filing a voluntary petition in bankruptcy or may be subject to an involuntary petition in bankruptcy. To date, management has not considered this alternative, nor does management view it as a likely occurrence.

The accompanying unaudited condensed consolidated statements do not include any adjustments relating to the recoverability of assets and classification of assets and liabilities that might be necessary should the Company be unable to continue as a going concern.

NOTE 3 – NOTES PAYABLE – UNERELATED THIRD PARTY

As at April 30, 2015 The Company has received \$20,005 as a loan from unrelated parties. The loan is payable on demand and without interest.

NOTE 4 – NOTES PAYABLE, RELATED PARTIES

As at April 30, 2015 The Company has received \$35,735 as a loan from related parties. The loan is payable on demand and without interest.

NOTE 5 – STOCKHOLDERS' EQUITY

Preferred Stock

The Company has no authorized preferred shares.

Common stock

The Company is authorized to issue 200,000,000 shares of \$0.001 par value common stock as of April 30, 2015. As of April 30, 2015, there were 69,920,000 shares of the Company's common stock issued and outstanding.

NOTE 6 - STOCK OPTIONS

As of April 30, 2015, the Company has not granted any stock options.

NOTE 7 - RELATED PARTY TRANSACTIONS

As of April 30, 2015 there were no related party transactions.

NOTE 8 - LITIGATION

The Company is subject at times to other legal proceedings and claims, which arise in the ordinary course of its business. Although occasional adverse decisions or settlements may occur, the Company believes that the final disposition of such matters should not have a material adverse effect on its financial position, results of operations or liquidity. There was no outstanding litigation as of April 30, 2015.

NOTE 9 - PRINCIPAL NUMBERS

The numbers contained in this filing are exclusively the accounting numbers for VACATION HOME SWAP, Inc.

NOTE 10 – FORWARD LOOKING STATEMENTS

This Annual Report includes a number of forward-looking statements that reflect Management's current views with respect to future events and financial performance. You can identify these statements by forward-looking words such as “may,” “will,” “expect,” “anticipate,” “believe,” “estimate” and “continue,” or similar words. Those statements include statements regarding the intent, belief or current expectations of us and members of our management team as well as the assumptions on which such statements are based. Prospective investors are cautioned that any such forward-looking statements are not guarantees of future performance and involve risk and uncertainties, and that actual results may differ materially from those contemplated by such forward-looking statements.

Readers are urged to carefully review and consider the various disclosures made by us in this report and in our other reports filed with the Securities and Exchange Commission and OTC Markets. Important factors currently known to Management could cause actual results to differ materially from those in forward-looking statements. We undertake no obligation to update or revise forward-looking statements to reflect changed assumptions, the occurrence of unanticipated events or changes in the future operating results over time. We believe that our assumptions are based upon reasonable data derived from and known about our business and operations. No assurances are made that actual results of operations or the results of our future activities will not differ materially from our assumptions. Factors that could cause differences include, but are not limited to, expected market demand for our products, fluctuations in pricing for materials, and competition.

END OF NOTES TO FINANCIALS

ITEM 6. ISSUER'S BUSINESS, PRODUCTS, AND SERVICES

Overview

Vacation Home Swap, Inc. was incorporated in the State of Nevada on March 31, 2009 and has a fiscal year end of April 30.

Vacation Home Swap intended to enter into an Internet-based vacation home swapping company. The company plans to have a website where people can exchange homes for their holidays and travels. At the present time the Company is unable to fulfill their current business plan. On April 7, 2015 the board of directors resigned and simultaneously appointed Mr. Frank Drechsler as the sole officer and director of the Company. In addition, Donald MacDow turned over the control block of 40,020,000 to Mr. Drechsler.

On or about April 22, 2015, Vacation Home Swap, Inc. (the "Company") entered into a Acquisition of Assets Agreement (the "Agreement") with R3 Technologies, Inc., a Nevada corporation ("R3") for the exchange of all of the Assets of R3 (the "R3 Assets"). The R3 Shares shall be exchanged for 48,500,000 fully paid non-assessable shares of the Company or 60% of the issued and outstanding shares of the Company.

The closing of the Agreement is conditioned upon certain, limited customary representations and warranties as well as conditions to close such as the total issued and outstanding shares of the Company being limited to 79,900,000 shares of common stock post-closing. Following the closing of the Agreement we intend to continue the Company's and R3's historical businesses and proposed businesses. Our historical business and operations will continue independently through a newly formed wholly owned subsidiary.

Both our CUSIP number and our trading symbol for our common stock which trades on the OTC PK Tier of the OTC Markets, Inc. will change as a result of the name change contemplated by the Agreement. We are in the process of submitting the notification and certain other information to the Financial Information Regulatory Association, Inc. ("FINRA") to process the name change and symbol change. The name change and a new CUSIP number will be announced upon effectiveness as announced by FINRA. At such time as we are assigned a new trading symbol, we will make a subsequent announcement.

The company is highly dependent upon the success of raising additional funds through debt financing and failure thereof would result in risk of business. However, if such financing were available, because Vacation Home Swap is a development stage company with no operations to date, it would likely have to pay additional costs associated with high risk loans and be subject to an above market interest rate. At such time these funds are required, management would evaluate the terms of such debt financing and determine whether the business could sustain operations and growth and manage the debt load.

If we are unable to complete any phase of our business plan or marketing efforts because we don't have enough money, we will cease our development and/or marketing activities until we raise money. Attempting to raise capital after failing in any phase of our business plan would be difficult. As such, if we cannot secure additional funds we will have to cease operations and investors will lose their entire investment.

Management does not plan to hire additional employees at this time. Our President and Directors will be responsible for the initial product sourcing. We intend to hire sales representatives initially on a commission only basis to keep administrative overhead to a minimum. We will use third party web designers to build and maintain our website.

We do not expect to be purchasing or selling plant during the next twelve months.
