5) Financial Statements

Financial Statements are included at the end of this disclosure statement as Exhibit A:

6) Describe the Issuer's Business, Products and Services

On June 23, 2017, the Company entered into a non-binding letter of intent which contemplates a proposed reverse merger with Deep Green Waste & Recycling, LLC ("Deep Green"). The transaction is expected to be accomplished by way of a merger with Deep Green into a newly formed subsidiary of the Company and the accompanying issuance of 85,000,000,000 shares of the Company's common stock to the members of Deep Green in exchange for their membership interests.

If the merger transaction occurs, the Company would carry on the business of Deep Green, which is summarized below.

Deep Green is a full-service waste and recycling company that manages services to and logistics for large commercial properties throughout the continental U.S. The company serves retail malls and shopping centers, multi-family apartment and townhome communities, hospitals, hotels, correctional institutions, office parks and more.

In addition to traditional waste removal and recycling efforts, the company also offers temporary construction waste bins, valet trash services, cooking oil collection and e-waste disposal such as bulb, ballast disposal, etc. Deep Green has a national network of on-call service vendors and can service any type of waste equipment typically within 24 hours or less.

Deep Green's unique value proposition is in the design and execution of end-to-end waste management program for its clients. Deep Green's programs not only save money on direct waste disposal and lower administrative costs but also income from direct recycling rebates. The company has a presence in 35 states across the Midwest, South and East regions of the United States, and serves approximately 300 commercial customers.

A. The Company was originally incorporated in 1980 and is domiciled in Wyoming.
B. The Company's current SIC code is listed as 2380 (Misc. Apparel and Accessories), but will change if the above merger occurs.
C. The Company's fiscal year ends on December 31st.
D. The Company's primary line of business, assuming the merger occurs, will be to carry on the business of Deep Green.

7) Describe the Issuer's Facilities

The Company is headquartered at 400 Renaissance Center, Suite 2600 Detroit, MI 48243. The lease on this property is $100 per month.

NOTE 1 – ORGNIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Organization and Description of Business

Critic Clothing, Inc. (the "Company ") was incorporated under the laws of the State of Nevada on August 24, 1995. The Company worked largely with robotic technologies and their development. The Company operated two unique subsidiaries, DR Robot and Visisys. Visisys was an innovative developer in the robotics industry with research and development departments who are looking to create visual intelligence systems with a unique edge. In December of 2012 the company decided to end the reverse merger with Visisys, its subsidiary corporation. On June 30, 2014, the company acquired 100% of Critic Clothing, Inc., an extreme sports apparel design and manufacturing company, and the CEO of Critic Clothing, Alec Simione, was appointed to the position of sole board member of the Company. as well. On November 4, 2015 the Company received a market effective date for its name and symbol change from FINRA, changing its name from Evader, Inc. to Critic Clothing, Inc., and its symbol from EVDR to CRTC.

On June 23, 2017, the Company entered into a non-binding letter of intent which contemplates a proposed reverse merger with Deep Green Waste & Recycling, LLC ("Deep Green"). The transaction is expected to be accomplished by way of a merger with Deep Green into a newly formed subsidiary of the Company and the accompanying issuance of 85,000,000,000 shares of the Company's common stock to the members of Deep Green in exchange for their membership interests.

If the merger transaction occurs, the Company would carry on the business of Deep Green, which is summarized below.

Deep Green is a full-service waste and recycling company that manages services to and logistics for large commercial properties throughout the continental U.S. The company serves retail malls and shopping centers, multi-family apartment and townhome communities, hospitals, hotels, correctional institutions, office parks and more.

In addition to traditional waste removal and recycling efforts, the company also offers temporary construction waste bins, valet trash services, cooking oil collection and e-waste disposal such as bulb, ballast disposal, etc. Deep Green has a national network of on-call service vendors and can service any type of waste equipment typically within 24 hours or less.

Deep Green's unique value proposition is in the design and execution of end-to-end waste management program for its clients. Deep Green's programs not only save money on direct waste disposal and lower administrative costs but also income from direct recycling rebates. The company has a presence in 35 states across the Midwest, South and East regions of the United States, and serves approximately 300 commercial customers.

A. The Company was originally incorporated in 1980 and is domiciled in Wyoming.
B. The Company's current SIC code is listed as 2380 (Misc. Apparel and Accessories), but will change if the above merger occurs.
C. The Company's fiscal year ends on December 31st.
D. The Company's primary line of business, assuming the merger occurs, will be to carry on the business of Deep Green.

Basis of Presentation

The condensed consolidated interim financial statements are presented in conformity with accounting principles generally accepted in the United States of America, as reported on our fiscal period ended on December 31, 2016. We have summarized our most significant accounting policies.

Unaudited Condensed Consolidated Interim Financial Statements

These unaudited condensed consolidated interim financial statements have been prepared on the same basis as the annual financial statement and should be read in conjunction with those annual financial statements filed on Form 10-K for the year ended December 31, 2016. In the opinion of management, these unaudited condensed consolidated interim financial statements reflect adjustments, necessary to present fairly the Company's financial position, results of operations and cash flows for the periods shown. The results of operations for such periods are not necessarily indicative of the results for a full year or for any future period.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date the financial statements and the reported amount of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Fair Value of Financial Instruments

The carrying amounts reflected in the balance sheets for cash, accounts payable and accrued expenses approximate the respective fair values due to the short maturities of these items.

As required by the Fair Value Measurements and Disclosures Topic of the FASB ASC, fair value is measured based on a three-tier fair value hierarchy, which prioritizes the inputs used in measuring fair value as follows: (Level 1) observable inputs such as quoted prices in active markets; (Level 2) inputs, other than the quoted prices in active markets, that are observable either directly or indirectly; and (Level 3) unobservable inputs in which there is little or no market data, which require the reporting entity to develop its own assumptions.

The three levels of the fair value hierarchy are described below:

Level 1: Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities;

Level 2: Quoted prices in markets that are not active, or inputs that is observable, either directly or indirectly, for substantially the full term of the asset or liability;

Level 3: Prices or valuation techniques that require inputs that are both significant to the fair value measurement and unobservable (supported by little or no market activity).

The fair value of the accounts receivable, accounts payable, notes payable are considered short term in nature and therefore their value is considered fair value.

Financial assets and liabilities measured at fair value on a recurring basis are summarized below for the six months ended June 30, 2017:

	Level 1	Level 2	Level 3	Total
Liabilities				
Derivative Financial Instruments	$ —	$ —	$ 601,402	$ 601,402

Financial assets and liabilities measured at fair value on a recurring basis are summarized below for the year ended December 31, 2016:

	Level 1	Level 2	Level 3	Total
Liabilities				
Derivative Financial Instruments	$ —	$ —	$601,794	$ 601,794

NOTE 2 – GOING CONCERN

These condensed consolidated interim financial statements have been prepared in accordance with generally accepted accounting principles applicable to a going concern, which contemplates the realization of assets and the satisfaction of liabilities and commitments in the normal course of business. As of June 30, 2017, the Company has an accumulated deficit of $9,190,133. The Company's ability to continue as a going concern is contingent upon the successful completion of additional financing arrangements and our ability to achieve and maintain profitable operations. While we are expanding our best efforts to achieve the above plans, there is no assurance that any such activity will generate funds that will be available for operations. These conditions raise substantial doubt about our ability to continue as a going concern. These condensed consolidated interim financial statements do not include any adjustments that might arise from this uncertainty.

NOTE 3 - CONVERTIBLE NOTE PAYABLE

Convertible notes payable consists of the following as of June 30, 2017 and December 31, 2016:

	2017	2016
Convertible notes payable	200,000	305,050
Less discounts	(-)	(-)
Convertible notes net of discount	$ 200,000	$ 305,050

On June 22, 2017, the Company entered into an amended promissory with a lender with two convertible promissory notes in the aggregate principal amount of $200,000. Under the amendment, the lender is able to convert the notes into a total of 13,300,000,000 shares of the Company's common stock provided the lender does not own more than 9.99% at any given time.

During the six months ended June 30, 2017, the Company issued 441,441,500 shares of common stock with a fair value of $11,037 for the partial conversion of convertible notes payable. During the six months ended June 30, 2017, the holder of the certain convertible notes payable settled the balance of the convertible notes for no consideration. The balance of those notes amounting to $94,013 was recorded a gain on forgiveness of debt.

The Company accounts for the fair value of the conversion features of its convertible debt in accordance with ASC Topic No. 815-15 "Derivatives and Hedging; Embedded Derivatives" ("Topic No. 815-15"). Topic No. 815-15 requires the Company to bifurcate and separately account for the conversion features as an embedded derivative contained in the Company's convertible debt. The Company is required to carry the embedded derivative on its balance sheet at fair value and account for' any unrealized change in fair value as a component of results of operations. The Company values the embedded derivatives using the Black-Scholes pricing model.

The following table presents details of the Company's derivative liabilities associated with its convertible notes as of June 30, 2017 and December 31, 2016:

	Amount
Balance December 31, 2016	$ 601,794
Change in fair market value of derivative liabilities	(608)
Balance June 30, 2017	$ 601,402

NOTE 4 – RELATED PARTY TRANSACTIONS
