CLUB VIVANET, INC.
NOTES TO FINANCIAL STATEMENTS
FOR THE YEAR-ENDED
March 31, 2009

Note 1 - Organization and Basis of Presentation

Organization and Line of Business

Club Vivanet Inc. was formed in August 2006 as a Florida C corporation. Club Vivanet is a global marketing company delivering a range of products and services through a network of IGC's (Independent global consultants) around the world.

With the increasing pace of new products hitting the market, there is a need to move those products throughout the world at a very fast rate. Club Vivanet Inc. has been formed to provide a marketing vehicle for global distribution of these new products and services, which is imperative to capture market share.

Basis of Presentation

The accompanying financial statements have been prepared in conformity with accounting principles generally accepted in the United States of America.

Note 2 - Summary of Significant Accounting Policies

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Principles of Consolidation

The financial statements are not consolidated

Cash and Cash Equivalents

Cash and cash equivalents include cash in hand and cash in time deposits, certificates of deposit and all highly liquid debt instruments with original maturities of three months or less.

Notes to Affiliates

Property and Equipment

Property and equipment are stated at cost. Expenditures for maintenance and repairs are charged to earnings as incurred; additions, renewals and betterments are capitalized. When property and equipment are retired or otherwise disposed of, the related cost and accumulated depreciation are removed from the respective accounts, and any gain or loss is included in operations. Depreciation of property and equipment is provided using the MACRS method for substantially all assets with estimated lives of 5 years.

Revenue Recognition

The Company's revenue recognition policies are in compliance with SEC Staff Accounting Bulletin ("SAB") 104.

Stock-Based Compensation

The Company accounts for its stock-based compensation in accordance with SFAS No. 123R, "Share-Based Payment, an Amendment of FASB Statement No. 123." The Company recognizes in the statement of operations the grant-date fair value of stock options and other equity-based compensation issued to employees and non-employees.

Income Taxes

The Company utilizes SFAS No. 109, "Accounting for Income Taxes," which requires the recognition of deferred tax assets and liabilities for the expected future tax consequences of events that have been included in the financial statements or tax returns. Under this method, deferred income taxes are recognized for the tax consequences in future years of differences between the tax bases of assets and liabilities and their financial reporting amounts at each period end based on enacted tax laws and statutory tax rates applicable to the periods in which the differences are expected to affect taxable income. Valuation allowances are established, when necessary, to reduce deferred tax assets to the amount expected to be realized.

Basic and Diluted Earnings Per Share

CLUB VIVANET, INC.
NOTES TO FINANCIAL STATEMENTS
FOR THE YEAR-ENDED
March 31, 2009

Earnings per share is calculated in accordance with the SFAS No. 128 ("SFAS No. 128"), "Earnings Per Share." Net earnings per share for all periods presented has been restated to reflect the adoption of SFAS No. 128. Basic earnings per share is based upon the weighted average number of common shares outstanding. Diluted earnings per share is based on the assumption that all dilutive convertible shares and stock options were converted or exercised. Dilution is computed by applying the treasury stock method. Under this method, options and warrants are assumed to be exercised at the beginning of the period (or at the time of issuance, if later), and as if funds obtained thereby were used to purchase common stock at the average market price during the period. At this time there are no stock options granted.

Note 3 - Going Concern

The accompanying financial statements have been prepared in conformity with generally accepted accounting principles in the United States of America, which contemplates continuation of the Company as a going concern. The Company has generated a profit, which eliminates doubt about its ability to continue as a going concern.
