NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
JUNE 30, 2010
UNAUDITED, PREPARED BY MANAGEMENT**

1. ORGANIZATION AND PRINCIPAL ACTIVITIES

LC Luxuries Limited (the “Company”) was incorporated on July 14, 2003, in the state of Nevada. On November 21, 2006, the Company changed its name to Makeup.com Limited, and on February 5, 2010, changed its name to LC Luxuries Limited.

On February 1, 2010, the Company sold most of its domain names and certain intellectual property rights associated with these domain names (Note 9). The Company was in the business of selling beauty products, such as makeup and perfume, on the internet through its website makeup.com. As a result of the sale of domain names, the Company is now seeking new business opportunities and effective February 1, 2010 is in the development stage.

Going Concern

These unaudited consolidated financial statements have been prepared under the assumption that the Company will continue on a going concern basis and that it will be able to realize assets and discharge liabilities in the normal course of business. As reported in the accompanying financial statements, the Company has an accumulated deficit of \$4,939,026 a working capital deficiency of \$1,557,296 and a stockholders’ deficit of \$1,557,296 as at June 30, 2010. Should the Company be unable to continue as a going concern, significant adjustments to asset values may be necessary. The ability of the Company to continue as a going concern is dependent upon the Company raising financing through the issuance of equity, settling related party loans, and generating sufficient revenue to achieve profitable operations in the future. There are no assurances that the company will be successful in securing a new business.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Reclassifications

Certain prior year amounts in the accompanying unaudited consolidated financial statements have been reclassified to conform to the current year’s presentation. These reclassifications had no effect on the consolidated results of operations or financial position for any years presented.

Principles of Consolidation

The Company’s consolidated financial statements have been prepared in accordance with generally accepted accounting principals (“GAAP”) in the United States and are presented in the US dollars.

These consolidated financial statements include the financial statements of the Company and its wholly owned subsidiary. All significant intercompany balances and transactions have been eliminated from the consolidated financial results.

Use of Estimates

The preparation of the consolidated financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of

contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Foreign Currency Translation and Transactions

Transactions denominated in currencies other than the functional currency of the Company are initially recorded at the exchange rate in effect at the time of the transaction. Current asset and current liability accounts are re-measured to the functional currency of the Company at the rates in effect at the balance sheet date. Any associated transactional currency re-measurement gains and losses are recognized in current operations. Items recorded in revenue and expenses arising from transactions are translated at an average exchange rate for the year.

Financial Instruments

The estimated fair values for financial instruments are determined based on relevant market information. These estimates involve uncertainties and cannot be determined with precision. The estimated fair value of cash, account receivable, accounts payable, convertible notes, notes payable and due to related parties approximates their carrying value due to their short-term nature.

Revenue Recognition

The Company recognizes revenue from product sales or services rendered when the following criteria are met: persuasive evidence of an arrangement exists, delivery has occurred, the selling price is fixed or determinable, and collectability is reasonably assured. Revenue is recorded net of allowances for customer sales incentives and rebates. The allowances are accrued concurrently with the recognition of revenue and are determined based primarily upon customer arrangements and historical data.

During the six months ended June 30, 2009 and first quarter of the 2010 the Company also offered coupons for replacement orders and discount programs. Discounts and coupons for “free products” were only redeemable on purchases made or on products offered on our website. Discounts were included as a reduction in sales whereas coupons for “free products” were classified as “cost of sales” in the consolidated statements of operations.

Earnings / Loss per Share

The Company presents both basic and diluted earnings / loss per share (“EPS”/“LPS”) on the face of the statements of operations. Basic EPS / LPS is computed by dividing net loss available to common shareholders by the weighted average number of shares outstanding during the year. Diluted EPS / LPS gives effect to all dilutive potential common shares outstanding during the period including convertible debt, stock options, and warrants, using the treasury stock method. Diluted LPS excludes all dilutive potential shares if their effect is anti-dilutive.

Recent Accounting Guidance

The Company reviewed recently issued accounting pronouncements and plans to adopt those that apply to it. The Company does not expect the adoption of these pronouncements to have a material impact on its financial position, results of operations or cash flows.

(a) During the six months ended June 30, 2010, the Company re-paid amounts owed to related parties.

8. COMMON STOCK

On July 18, 2008, the Company's shareholders approved a 1 for 20 share reverse stock split of their issued and outstanding common stock. All common stock amounts have been retroactively adjusted for all periods presented.

On May 5, 2008, the Company issued 7,491,875 shares of common stock at \$0.432 per share on the conversion of \$3,236,490 in convertible debt. The shares were issued at a discount of 20% to the closing market price of the Company's common stock on May 5, 2008, which was the date the borrower and lender agreed on the conversion. (Note 4)

9. DOMAIN SALE

On February 1, 2010, the Company sold most of its domain names, including the rights to makeup.com logo, social networking website accounts, and subscriber lists (for customers who consent to transfer their contact information) for \$2,000,000. The carrying value of these intangibles was \$333,334, and accordingly the Company realized a gain on disposal of \$1,666,666.
