Part C Business Information

Item VII. The Name and Address of our Transfer Agent

Our transfer agent is Signature Stock Transfer. Their address is 2632 Coachlight Court, Plano, Texas 75093, and their telephone number is (972) 612-4120, and their fax number is (972) 612-4122

Signature Stock Transfer is registered under the Securities Exchange Act of 1934 and it is regulated by the United States Securities and Exchange Commission.

Item VIII. The Nature of Our Business

A. Business Development .

All of our operations are conducted through our wholly owned subsidiary, Green LED Technologies, Inc., a Florida Corporation ("Green LED").

Green LED was formed in 1995 by Dror Svorai, our majority shareholder. Green LED is a supplier of eco-friendly, low energy consumption LED lighting products. Green LED had revenues of $3,041 in 2008, and $117,776 in 2009. From January 1, 2010 through June 30, 2010, Green LED had revenues of $345,852.

On January 25, 2008, Linda MacDonald delivered a president's certificate issuing 40,000,000 shares of common stock to herself. The certificate was on the form used by our transfer agent, Signature Transfer, and delivered to our transfer agent but reflected a certificate date of August 23, 2007. A review of our shareholder list as of December 23, 2007, from our prior transfer agent reflects that Linda MacDonald was not a shareholder on such date. As such, we are investigating whether Linda MacDonald ever had the shareholder voting control she represented when she took various acts as our officer and director including a 1 share for 1000 share reverse stock split.

On August 27, 2009, a one (1) share for one thousand (1000) share reverse stock split became effective. The split reduced our outstanding shares from 33,056,594 to 33,056 common shares. In connection with the reverse stock split, applicable Delaware corporate law required a shareholder vote of our common stockholders and the filing of an amendment to our articles of incorporation with the Delaware Secretary of State. A review of documents filed with the Delaware secretary of state reveals no such amendment was filed. As such, we may be subject to actions by the shareholders who were effected by the reverse split. This is particularly true since only months before the reverse split MacDonald had issued to herself individually forty million (40,000,000) common shares which represented more than the aggregate number of shares outstanding and which were held by more than 400 persons. The foregoing issuances gave MacDonald voting control of our common shares.

On September 1, 2009, Green Streak Group, Inc., a company owned and controlled by Eddy Marin, entered into an agreement of understanding with Green LED Technology, whereby Green Streak agreed to locate a publicly trading company for us to engage in a reorganization which would result in the shareholders of Green LED holding fifty percent of the public company's common shares and us receiving no less than $5,000,000 in financing in exchange for 100% of Green LED's common stock. Green Streak is not registered with the Securities and Exchange

Commission or Financial Industry Regulatory Authority as a broker. To date, Green LED has not receive the promised funding of $5,000,000.

This agreement was amended on September 4, 2009, to reflect that Green Streak would deliver $250,000 to Green LED at closing. Green LED received $100,000 on September 8, 2009, and $150,000 was provided on September 18, 2009.

A purchase and exchange agreement, dated September 18, 2009, was executed on September 29, 2009, by and between Hi Score Corporation and Green LED (the "Green LED Purchase Agreement").

On October 21, 2009 we delivered certificates representing 40,000,000 restricted shares of our common stock to Dror Svorai and completed the acquisition of Green LED.

We received funding in the amounts of $186,000 of the promised funding of $750,000 in the Green LED Purchase Agreement which we used for our operating capital. The funding received is as follows:

1. 2/31/09 50,000
4. 01/15/10 6,000
5. 02/17/10 50,000
6. 03/18/10 25,000
7. 04/16/10 30,000
8. 05/14/10 25,000

A principal reason Green LED entered into its agreement with Green Streak and us was to execute Green LED's business expansion plan. A principal component of the plan was to enter into an agreement with Lighting Components Design (LCD) where in LCD would develop Green LED's design of Energy Efficient LED Street Lights. This development was (is) crucial to Green LED's ability to meet its commitments to its distributors. This commitment included the ability to distribute floor samples to lighting wholesalers. Because Green Streak only provided only a portion of the financing promised, we have been thus far unable to meet these obligations. Additionally we relied upon the commitment made by Green Streak of $5,000,000 (five million dollars). We increased of our monthly operating expenses based upon the promises of Green Streak. The ultimate lack of funding as committed to by Green Streak prohibited us from executing our business plan past the point of expanded infrastructure.

On October 23, 2009, our former management caused the issuances of 40,000,000 shares of our common stock to 12 entities including Green Streak in violation of Section 5 of the Securities Act of 1933, as amended (the "Securities Act"). Based upon a resolution of our former board of directors, the Debt Shares were issued in exchange for four purported loans (the "Loans") made to us from September 2003 through October 2007, in the amount of $223,547, by the "lending consortium" of Shayla Investments LLC, a company owned and controlled by Mac Shahsavar. The legal opinion requesting removal of the restrictive legend provides that the loans were made by the Shareholders receiving the shares not Shayla. Neither our current management nor our auditor has any documents which evidence the Loans and thus are unable to confirm whether such loans were valid and who made the loans. Additionally, the loans were purportedly made during a period when we were an inactive corporation.

A review of the daily trading activity of our common shares from October 23, 2009, to present reveals that approximately 29,000,000 of the Debt Shares were publicly resold without registration or exemption in violation of the Securities Act. Since we had only approximately

15,000 shares freely tradable prior to the issuance of the Debt Shares and only 33,056 shares outstanding, we have assumed the public sale of the approximate 29,000,000 common shares is the result of the resale of the Debt Shares by the recipients. The sum representing the average of each trading days bid and ask price multiplied by each respective days volume reflects that the public sale of these 29,000,000 common shares resulted in gross proceeds to the recipients of approximately $5,000,000.

Based upon Edgar filings of our predecessor prior to 2003, it appears we were previously a shell company, therefore the safe harbor provisions of Rule 144 may not be available. Item IX. The nature of products or services offered

A. Principal Products and their markets

All of our operations are conducted through our wholly owned subsidiary, Green LED Technologies, Inc., a Florida Corporation ("Green LED"). Green LED was formed in 1995 by Dror Svorai, our majority shareholder. Green LED is a supplier of eco-friendly, low energy consumption LED lighting products.

B. Distribution

We market LED lighting solutions that are environmentally friendlier and more energy efficient than traditional lighting products in the worldwide market place. We use commissioned sales people and our in house staff to sell our products directly to lighting retailers and through our showroom. We use commission sales people and our in house staff to sell our products directly to lighting retailers through direct contact and our showroom.

C. Status of any publicly announced new product or service.
We have no publicly announced new product or service.

D. Competitive business conditions, our competitive position in the industry, and methods of Competition

We currently face competition from both traditional lighting companies that provide general lighting products, such as incandescent, fluorescent and neon lighting, and from specialized lighting companies that are engaged in providing LED and fiber optic lighting products and systems. In general, we compete with both groups on the basis of design, innovation, quality of light, effects, maintenance costs, safety issues, energy consumption, price, product quality and brightness.

We compete with traditional lighting companies in the general illumination market. Our LED products tend to be alternatives to traditional lighting sources for applications within the commercial market. In these markets, we compete on the basis of energy savings, lamp life and durability.

We compete with specialized lighting companies that offer competing LED and fiber optic lighting products. In these markets, we compete on the basis of design, innovation, light quality, effects, maintenance costs, safety issues, energy consumption, price, product quality and brightness.

We expect our markets to remain competitive and to reflect rapid technological evolution and continuously evolving customer and regulatory requirements. Our ability to remain competitive depends in part upon our success in developing new and enhanced advanced lighting solutions and introducing these systems at competitive prices on a timely basis. If we are not able to compete effectively against companies with greater resources, our prospects for future success will be jeopardized. The lighting industry is highly competitive. In the high performance lighting markets in which we sell our advanced lighting systems, our products compete with lighting products utilizing traditional lighting technology provided by many vendors. Additionally, in the advanced lighting markets in which we have primarily competed to date, competition has largely been fragmented among a number of small manufacturers of LED products. However, some of our competitors, particularly those that offer traditional lighting products, are larger companies with greater resources to devote to research and development, manufacturing and marketing than we have.

E. Sources and availability of raw materials and the names of principal suppliers.

We outsource the manufacture and assembly of our products. We currently depend on a small number of contract manufacturers to manufacture our products at plants in the United States of America and China. These manufacturers supply most of the necessary raw materials (in some cases we procure and provide our contract manufacturers with certain critical components, such as LEDs) and provide all necessary facilities and labor to manufacture our products. Historically, we have not entered into contracts with these manufacturers. If these companies were to terminate their arrangements with us without adequate notice, or fail to provide the required capacity and quality on a timely basis, we would be unable to manufacture and ship our lighting products until replacement manufacturing services could be obtained. To qualify a new contract manufacturer, familiarize it with our products, quality standards and other requirements, and commence volume production is a costly and time-consuming process. If it became necessary to do so, we may not be able to establish alternative manufacturing relationships on acceptable terms.

Our reliance on contract manufacturers involves certain additional risks, including the following:

- lack of direct control over production capacity and delivery schedules;
- lack of direct control over quality assurance, manufacturing yields and production costs;
- risk of loss of inventory while in transit from China; and

- risks associated with international commerce, particularly with China including unexpected changes in legal and regulatory requirements, changes in tariffs and trade policies, risks associated with the protection of intellectual property and political and economic instability.

Any interruption in our ability to manufacture and distribute products could result in delays in shipment, lost sales, reductions in revenue and damage to our reputation in the market, all of which would adversely affect our business.

F. Dependence on one or a few major customers.
We are not dependent on one or a few major customers.

G. Patents, trademarks, licenses, franchises, concessions.
We have no patents, trademarks, licenses, franchises or concessions.

H. The need for any government approval of principal products or services and the status of any requested government approvals.

We are required to comply with certain legal requirements governing the materials in our products. Although we are not aware of any efforts to amend any existing legal requirements or implement new legal requirements in a manner with which we cannot comply, our revenue might be materially harmed if such an amendment or implementation were to occur.

Item X. The nature and extent of the Our Facilities.
Our principal corporate office is located at 1909 Tigertail Blvd., Dania Beach, Florida 33004, where we occupy approximately 8,000 square feet of office and warehouse space. The monthly rent including the building's operating expenses is $7,000 per month. The lease for this space expires August 30, 2014. We believe that this space is adequate for our current operations and we do not anticipate any expansion or leasehold improvements.

There is $260,384 of remaining principal, not including accrued and unpaid interest outstanding.

E. Disclosure of Conflicts of Interest .
Our management has conflicts of interest that may favor the interests of our management, but to the detriment of our minority shareholders' interests. Our officers, directors, majority shareholder and founders may have interests in and/or serve as officers and/or directors of other lighting companies and may be related by family relations to one another. As a result, their personal interests and those of the companies that they are affiliated with may come into conflict with our interests and those of our minority stockholders. We as well as the other companies that our majority shareholder, founder, officers and/or directors are affiliated with may present our officers and directors with business opportunities that are simultaneously desired. Additionally, we may compete with these other companies for investment capital, technical resources, customers, key personnel and other things. You should carefully consider these potential conflicts of interest before deciding whether to invest in shares of our common stock. We have not yet adopted a policy for resolving such conflicts of interests. Because the interests of our officers and the companies that they are affiliated with may disfavor our own interests and those

of our minority stockholders, you should carefully consider these conflicts of interest before purchasing shares of our common stock.

Item XVI. Management's Discussion and Analysis

This report contains forward-looking statements that are based on current expectations, estimates, forecasts and projections about us, the industry in which we operate and other matters, as well as management's beliefs and assumptions and other statements regarding matters that are not historical facts. These statements include, in particular, statements about our plans, strategies and prospects. For example, when we use words such as "projects," "expects," "anticipates," "intends," "plans," "believes," "seeks," "estimates," "should," "would," "could," "will," "opportunity," "potential" or "may," and variations of such words or other words that convey uncertainty of future events or outcomes, we are making forward-looking statements within the meaning of Section 27A of the Securities Act of 1933 (Securities Act) and Section 21E of the Securities Exchange Act of 1934 (Exchange Act).

These forward-looking statements are subject to numerous assumptions, risks and uncertainties that may cause our actual results to be materially different from any future results expressed or implied by us in those statements. The most important factors that could prevent us from achieving our stated goals include, but are not limited to, the following:

(a) volatility or decline of our stock price;

(b) potential fluctuation in quarterly results;

(c) our failure to earn revenues or profits;

(d) inadequate capital to continue or expand our business, inability to raise additional capital or financing to implement our business plan;

(e) failure to commercialize our technology or to make sales;

(f) reductions in the demand for our products and services;

(g) rapid and significant changes in markets;

(h) litigation with or legal claims and allegations by outside parties; and

(i) insufficient revenues to cover operating costs, resulting in persistent losses.

There is no assurance that we will be profitable. We may not be able to successfully develop, manage or market our products. We may not be able to attract or retain qualified executives and other personnel. Intense competition may suppress the prices that we can charge for our products and services, hindering profitability or causing losses. We may not be able to obtain customers for our products or services. Government regulation may hinder our business. Additional dilution in outstanding stock ownership may be incurred due to the issuance of more shares, warrants and stock options, or the exercise of outstanding warrants and stock options. We are exposed to other risks inherent in our businesses. We may be subject to lawsuits from existing and former shareholders related to actions taken by our former management including reverse stock splits and issuances of our securities. We may have violated Section 5 of the Securities Act and as a result certain investors may have rescission rights against us and we may be required to pay damages. Consequently certain investors may have rescission rights as to any securities purchased from us. If this action was held by a court or other governmental body to be a violation of the Securities Act, we could be required to repurchase any shares purchased by investors and pay statutory interest and penalties.

Because the statements are subject to risks and uncertainties, actual results may differ materially from those expressed or implied by the forward-looking statements. We caution you not to place undue reliance on the statements, which speak only as of the date of this Information and Disclosure Statement. The cautionary statements contained or referred to in this section should be considered in connection with any subsequent written or oral forward-looking statements that we or persons acting on our behalf may issue. We do not undertake any obligation to review or confirm analysts' expectations or estimates or to release publicly any revisions to any forward-looking statements to reflect events or circumstances after the date of this Information and Disclosure Statement or to reflect the occurrence of unanticipated events.

OVERVIEW

Since inception, we have financed our activities from the private sales of our securities and the incurrence of debt as well as from the revenues of Green LED. From January 1, 2010, to the present, we received cash proceeds of $279,654 from the sales of our common stock. Green LED had revenues of $3,041 in 2008, and $117,776 in 2009. From January l, 2010 through June 30, 2010, Green LED had revenues of $345,852.

During the next twelve months, we plan to expand our business by educating consumers on how to save energy and money by utilizing safe, efficient, solid state lighting. We intend on branding our own line of consumer friendly light bulbs, and developing a line of street lights. We plan to finance our growth through traditional bank financing sources as well as additional potential debt and equity private placements. There can be no assurance that financing sufficient to enable us to expand and grow our business will be available to us in the future. The failure to obtain future financing or to produce levels of revenue to meet our financial needs could result in our inability to operate, grow and expand our business.

Results of Operations for the Three Months Ended June 30, 2010 Compared to the Three Months Ended June 30, 2009

Revenue. For both quarters ended June 30, 2010 and 2009. We had limited revenues. We are in the development stage and for the first six months of 2010 have been involved in the sale of our products in the South Florida market.

Gross Profit (Loss). Total gross loss was $146,596 for the three months ended June 30, 2010 compared to the same period of 2009, and $295,062 for the six months ended June 30, 2010, compared to the same period of 2009, an increase of 247%.

Operating Expenses. Total operating expense was $260,626 for the three months ended June 30, 2010, compared to $74,993 for the same period in 2009, an increase of 248%. This increase was primarily caused by increased operating expenses related in salaries and benefits, selling expenses and other costs.

Net Earnings. We generated net losses of approximately $148,466 for the three months ended June 30, 2010 compared to $68,018 for the same period in 2009, an increase of 118%.

Provision for Income Taxes. The Company files and pays it taxes based on yearly profits. As of June 30, 2010, there are no deferred taxes and our income taxes for the six months ended June 30, 2010 were $0, compared to $0 for the same period in 2009.

Liquidity and Capital Resources

General. At June 30, 2010, we had cash of $36,853. We have historically met our cash needs through a combination of proceeds from private placements of our securities and from loans. Our cash requirements are generally for operating activities.

Our operating activities used cash in operations of approximately $443,819 for the six months ended June 30, 2010, and we used cash in operations of approximately $85,219 for the same period in 2009. The principal elements of cash flow from operations for the six months ended June 30, 2010 included a net loss of $295,062 an increase in accounts receivable of $209,387, an increase in inventory of $102,750, and an increase in prepaid assets of $806, offset by: an increase in accounts payable and accrued expenses of $147,790, bad debt expense of $15,652, and depreciation expense of $854.

Cash used in investing activities during the six months ended June 30, 2010 was $0 compared to a negative $214 during the same period in 2009.

Cash received in our financing activities was $408,999 for the six months ended June 30, 2010, compared to cash received of $83,900 during the same period in 2009.

As of June 30, 2010, current liabilities exceeded current assets by 1.13 times or by $508,779. Current assets increased 140% from $186,986 at December 31, 2009 to $448,603 at June 30, 2010 while current liabilities increased 49% to $643,504 at June 30, 2010 from $957,382 at December 31, 2009. As a result, our working capital decreased from $43,475 at December 31, 2009 to a deficit of $123,034 at June 30, 2010, primarily as a result of the conversion of subordinated debt into a note payable in the amount of $280,384.

We do not have sufficient capital to meet our current cash needs, which include the costs of compliance with the continuing reporting requirements of the Securities Exchange Act of 1934, as amended. We intend to seek additional capital and long term debt financing to attempt to overcome our working capital deficit. We are currently making a private placement of our stock to raise capital, but there is no assurance that the can raise sufficient capital or obtain sufficient financing to enable us to sustain monthly operations. In order to address our working capital deficit, we also intend to endeavor to (i) reduce operating costs, (ii) reduce general, administrative and selling costs, and (iii) increase sales of our existing products and services. There may not be sufficient funds available to us to enable us to remain in business and our needs for additional financing are likely to persist.

The foregoing raises substantial doubt about our ability to continue as a going concern. Management's plans include seeking additional capital or debt financing. There is no guarantee that additional capital or debt financing will be available to us when and to the extent we require, or that if available, it will be on terms acceptable to us. The financial statements do not include any adjustments that might result from the outcome of this uncertainty. The "Going Concern Qualification" might make it substantially more difficult for us to raise capital.

Part E Issuance History

Item XVII. List of securities offerings and shares issued for services in the past two years

Offerings by Former Management

On October 23, 2009, our former management caused us to issue 40,000,000 shares of common stock (the "Debt Shares") without registration under the Securities Act. Based upon a resolution of our former board of directors, the Debt Shares were issued in exchange for four purported loans (the "Loans") made to us from September 2003 through October 2007, in the amount of $223,547, by the "lending consortium" of Shayla Investments LLC, a company owned and controlled by Mac Shahsavar. The legal opinion requesting removal of the restrictive legend provides that the loans were made by the Shareholders receiving the shares not Shayla. Neither our current management nor our auditor has any documents which evidence the Loans and thus are unable to confirm whether such loans were valid and who made the loans. Additionally, the loans were purportedly made during a period when we were an inactive corporation.

Shayla Investments LLC is not a broker registered with the Securities and Exchange Commission and we are unaware of who constitutes the lending consortium of Shayla. Our transfer agent records reflect the 40,000,000 Debt Shares were issued as follows:

Kalan Industries, Inc received 4,000,000 shares of our common stock. Our transfer agent records reflect that Kalan Industries Inc. is a company controlled by Kevin Tussy, our former president.

469577 Manitoba Ltd. received 4,000,000 shares of our common stock. We are not aware of who controls 469577 Manitoba, Inc.

Shayla Investments, LLC received 4,000,000 shares of our common stock. Our transfer agent records reflect that Shayla Investments LLC is controlled by Mac Shahsavar.

SD&T Associates LTD. received 4,000,000 shares of our common stock. We are not aware of who controls SD & T Associates LTD.

Sterling Grant Capital Inc. received 4,000,000 shares of our common stock. We are unaware of who controls Sterling Grant Capital.

Joel Schneider, our former legal counsel who rendered the tradability opinion for the Shayla shares received 100,000 shares of our common stock.

Westbrook Leasing, LLC received 4,000,000 shares of our common stock. Transfer agent records reflect that Gene Morales is the control person of Westbrook Leasing LLC.

Green Streak Group, Inc received 4,000,000 shares of our common stock. Our transfer agent records reflect Eddy Marin controls Green Streak Group, Inc.

Quantumcast, Inc received 4,000,000 shares of our common stock. Our transfer agent records reflect that Mark Fisher, Esquire controls Quantumcast, Inc.

Tillerman Securities Ltd. received 4,000,000 shares of our common stock. Our transfer agent records reflect that H Christian Saunders controls Tillerman Securities Ltd.

AKA Holdings, Inc. received 4,000,000 shares of our common stock. We are not aware of who controls AKA Holdings, Inc.

Probita Associates, Inc received 4,000,000 shares of our common stock. We are not aware of who controls Probita Associates, Inc.

Because we do not have the records related to these transactions we are not able to identify the control persons of all corporate entities who received the shares.

Because the Loans were convertible into more than 40,000,000 shares of our common stock and we had only 33,056 shares outstanding, Shayla as well as its lending consortium are our affiliates. As a result, while the offer and sale by us to Shayla appears to have been private offering made to Shayla with whom we had a pre-existing relationship, any resale by Shayla or its assignees must have an exemption from registration under the Securities Act since the shares were not registered.

A review of the daily trading activity of our common shares from October 23, 2009, to present reveals that approximately 29,000,000 of the Debt Shares were publicly resold without registration or exemption in violation of the Securities Act. Since we had only approximately 15,000 shares freely tradable prior to the issuance of the Debt Shares, we have assumed the public sale of the approximate 29,000,000 common shares is the result of the resale of the Debt Shares by the recipients. The sum representing the average of each trading days bid and ask price multiplied by each respective days volume reflects that the public sale of these 29,000,000 common shares resulted in gross proceeds of approximately $5,000,000.

We are currently evaluating what remedial steps we should take to mitigate the issuance of these shares without a restrictive legend. Future sales into the public market of the Debt Shares could cause the price of our stock to decline and limit our future ability to raise capital through an offering of equity securities. We could be the subject of securities class action litigation or regulatory actions due to the issuances of the Debt Shares without a restrictive legend. Should this occur, our defense of the lawsuit or regulatory action could be costly and divert the time and attention of our management.

In July/August/September of 2009 Michael Zoyes received telephone calls from various individuals, all of whom indicated that they thought that they had purchased shares in Green LED Solutions LLC. which has subsequently been absorbed by Green LED Technologies Inc. The various individuals further indicated that they had sent money for these shares to F & M Holdings in Fort Lauderdale Florida. Michael Zoyes informed agents from the State of Florida's Bureau of Financial Investigations, Office of Financial Regulation of the phone calls and affirmed to the agents that prior to the abovementioned telephone calls, Green LED Solutions LLC nor any of its members or employees had any knowledge of these purported sales of shares. Prior to entering into the agreement with Hi Score, Michael Zoyes and Dror Svorai notified Eddie Marin of Green Streak and then Hi Score attorney Mark Fisher of the abovementioned telephone calls. Eddie Marin and Mark Fisher denied having any knowledge or involvement in the abovementioned fraudulent sales of shares of Green LED Solutions LLC. We understand that there is an open investigation into the abovementioned fraudulent sales of shares of Green LED Solutions LLC.

Our former president Kevin Tussey caused 2,520,293 shares of our restricted common stock to be issued and delivered to our former legal counsel Mark Fisher, on or about October 1, 2009, by delivering a Presidents certificate to our transfer agent. The shares were issued to approximately fifty persons in twenty eight states. While it is inconclusive as to why the 2,520,293 shares were issued, it should be noted that the above mentioned list of shareholders is substantially similar to a list of victims of the abovementioned fraud. Other than the above mentioned President's Certificate, we do not have any documents that discuss the purpose of the issuance of said shares. Absent evidence to the contrary, we believe that the said issuances are valid.
Our transfer agent records reflect the beneficial owners of the said issuances as follows:

The certificates representing the above shares were issued with a restrictive legend. The above offers and sales occurred without the knowledge of our existing management and without delivering the proceeds of these sales to us.

We do not have all documents related to this offering and are dependent upon limited records we received from our transfer agent and conversations our management has had with certain of the purchasers of these securities in drafting this disclosure.

We are presently evaluating what remedies are available to us, if any, to recover the approximate $6,000,000 in proceeds from the above mentioned public sales from the Shayla shares and the shares sold on October 7, 2009.

Post Green LED Acquisition Issuances

On October 21, 2009, we issued 40,000,000 shares of our common stock to Dror Svorai the sole shareholder of Green LED. We also issued 2,000,000 shares to Michael Zoyes an employee of Green LED at the time of the acquisition. The shares were issued in reliance upon the exemptions from the registration requirements of Section 5 pursuant to Section 4(2). The certificates evidencing the aforementioned mentioned shares contain a restrictive legend (1) stating that the shares have not been registered under the Securities Act and (2) setting forth or referring to the restrictions on transferability and sale of the shares under the Securities Act.

On January 11, 2010, we issued an aggregate of 100,000 shares of Common Stock to Mr. Avraham Mardo (50,000) and Mr. Amnon Sadikov (50,000) for consulting services rendered and to be rendered to the Company by these individuals. The shares were issued in reliance upon the exemptions from the registration requirements of Section 5 pursuant to Section 4(2). The certificates evidencing the aforementioned mentioned shares contain a restrictive legend (1) stating that the shares have not been registered under the Securities Act and (2) setting forth or referring to the restrictions on transferability and sale of the shares under the Securities Act.

From January 26, 2010 through March 17, 2010, we sold an aggregate of 245,000 shares of our Common Stock to eight (8) non-affiliated accredited investors for an aggregate purchase price of $87,500 or an average of $.357 per share. The shares were issued in reliance upon the exemptions from the registration requirements of Section 5 pursuant to Section 4(2). The certificates evidencing the aforementioned mentioned shares contain a restrictive legend (1) stating that the shares have not been registered under the Securities Act and (2) setting forth or referring to the restrictions on transferability and sale of the shares under the Securities Act.

On April 1, 2010, we sold in 60,000 shares of our Common Stock to Mark Livingston and 40,000 shares to Noel Rogers at the price of $.25 per share. The shares were issued in reliance upon the exemptions from the registration requirements of Section 5 pursuant to Section 4(2). The certificates evidencing the aforementioned mentioned shares contain a restrictive legend (1) stating that the shares have not been registered under the Securities Act and (2) setting forth or referring to the restrictions on transferability and sale of the shares under the Securities Act.

On or about June 14, 2010, we sold 2,380,952 shares of our common stock to TJ Management, Inc. in exchange for $50,000, a company controlled by Joseph Kahlon . We believe several issuer exemptions are available for our offer and sale to TJ Management. We believe that Section 4(2) and 4(6) of the Securities Act were available for the offer and sale of the shares because: (a) there was no general solicitation in the offer or sale; (b) all purchasers were accredited investors; (c) we had a pre-existing relationship with TJ Management; (d) the offer and sale did not involve a public offering; (e) we did not receive proceeds from any resales of the shares by TJ Management. We also believe that Rule 504 was available for our offer to TJ Management because (a) we are not an SEC reporting company;(b) we did not receive proceeds of more than $1,000,000 in a twelve month period; and (c) we are not a blank check company. Our counsel opined the shares could be issued without a restrictive legend. Even though the offer to TJ management by us was exempt, prior to public resale TJ Management must locate a resale exemption from the registration requirements of the Securities Act. We believe that as an accredited investor TJ Management possessed sufficient sophistication and experience to determine (i) whether a non-issuer exemption from registration is available for its resale; and (i) whether the safe harbor provided by Rule 144 of the Securities Act is available for its resale.

On or about July 30, 2010, we sold 2,400,000 shares of our common stock to Magna Group, LLC, a Texas limited liability company controlled by Joshua Sason in exchange for $30,000. We believe several issuer exemptions are available for our offer and sale to Magna Group, LLC. Our counsel opined the shares could be issued without a restrictive legend. Even though the offer and sale to Magna Group was exempt under Section (4) 2 of the Securities Act because it did not involve a public offering, prior to its public resale Magna Group must locate a resale exemption from the registration requirements of the Securities Act. We believe that as an accredited investor Magna Group possessed sufficient sophistication and experience to determine (i) whether a non-issuer exemption from registration is available for its resale; and (i) whether the safe harbor provided by Rule 144 of the Securities Act is available for its resale.

On or about August 4, 2010, we sold 8,000,000 shares of our common stock to Equititrend Advisors LLC, Inc, San Diego, CA, a California limited Liability Company controlled by Thomas and James Mahoney, managing partners, in exchange for 6 months of Investor Relations services at the rate of 2,000,000 shares per month. Counsel for our company opined that the shares could be issued without a restrictive legend. Even though the offer and sale to Equititrend Advisors was exempt under Section (4) 2 of the Securities Act because it did not involve a public offering, prior to its public resale Equititrend must locate a resale exemption from the registration requirements of the Securities Act. We believe that as an accredited investor Equititrend Advisors possessed sufficient sophistication and experience to determine (i) whether a non-issuer exemption from registration is available for its resale; and (i) whether the safe harbor provided by Rule 144 of the Securities Act is available for its resale.

On August 23, 2010, we plan to instruct our transfer agent to legend any shares set forth in this section that remain in certificate form and which were issued without a restrictive legend. We may have violated Section 5 of the Securities Act and as a result certain investors may have rescission rights against us and we may be required to pay damages. Consequently certain investors may have rescission rights as to any securities purchased from us. If this action was held by a court or other governmental body to be a violation of the Securities Act, we could be required to repurchase any shares purchased by investors and pay statutory interest and penalties.

Re: Merger with Green LED Technology, Inc.

Dear Mr. Svorai:

The purpose of this letter is to set forth our preliminary understanding that GREEN LED TECHNOLOGY, INC. ("LED") and its intent to facilitate a merger, acquisition, or other combinational transaction with a publically trading Pink Sheet public company (the "Vehicle") with and into that suitable publicly trading Vehicle.

1. Definitive Agreement

As soon as reasonably possible after the date hereof, the parties intend to complete negotiations on a definitive agreement regarding the proposed merger (the "Agreement") providing for the merger of LED with and into the Vehicle. It is presently intended that the closing of the merger (the "Closing") will take place on or prior to Monday, September 21, 2009. The consideration for the merger shall be fifty percent of the Vehicle's common stock all of which shall be in the form of one (1) year restricted stock, par value $.001. The Agreement shall further provide that post transaction the Vehicle, as successor to LED, will be capitalized with no less than Five Million dollars ($5,000,000.00) in working capital paid with and from LED's restricted stock. The valuation of these restricted shares shall be based upon generally acceptable accounting principles of the business going forward, with said valuation amended from time to time.

2. Additional Provisions of the Agreement

The terms and conditions of the merger are to be contained in the Agreement, which will be reasonably satisfactory in all respects, in form and substance, to the parties and their counsel. It is anticipated that the Agreement will, among other things:

(a) contain Vehicle and LED representations and warranties, covenants, indemnities and other provisions usual and customary in transactions of this nature involving entities with characteristics and in circumstances similar to Vehicle and LED, including, without limitation, representations and warranties as to the condition of and the title held to the assets of Vehicle and LED, the

financial statements of Vehicle and LED, the payment of taxes and contingent liabilities;

(b) provide that the consummation of the Merger shall be conditioned upon:

(i) each party having obtained all material required consents, rulings, approvals, licenses and permits, or exemptions therefrom, from all governmental or non-governmental administrative or regulatory agencies having jurisdiction over the parties hereto, the Assets, the Agreement and the transactions contemplated thereby;

(ii) LED having obtained all material required consents pursuant to existing agreements or instruments by which LED may be bound;

(iii) LED shall provide an un-audited accounting of its business operations since inception, and through its last business quarter. Further, as necessary, LED shall assist in good faith with Vehicles accountant to complete a consolidated report of the combined business in a timely manner;

(iv) LED having secured employment agreements with its key employees for the benefit of Vehicle, as successor-in-interest to LED, reasonably acceptable to Vehicle, with such salary and benefits as are standard in the industry.

(v) each party having complied with all requisite corporate procedures; and

(vi) such other closing conditions as are usual and customary in transactions of this nature.

4. Termination

Negotiations pertaining to the Agreement may be terminated by Vehicle at any time without cost or liability. In order to induce Vehicle to enter into negotiations with respect to the merger, LED agrees that it will not discuss any merger, sale of its assets or any similar transaction with any party other than Vehicle, or enter into any negotiations or conversations with respect thereto with any party other than Vehicle, before the Closing, unless Vehicle has terminated negotiations pertaining to the Agreement in writing or given its prior written consent.

5. Expenses .

Each party hereto shall bear its own legal and other expenses in connection with the negotiation and consummation of this transaction; provided , however , should LED breach in any material respect its obligations under this Letter of Intent, in addition to any other rights Vehicle may have, LED shall pay Vehicle a Fifteen Thousand Dollars ($15,000.00) break-up fee.

6. Broker .

Each party hereto represents to the other that it has not dealt with or agreed with any broker or finder or similar person and that no fees shall be payable to any person or entity as a result of the transactions contemplated hereby. Each party hereto agrees to indemnify and hold harmless and defend the other from and against any and all damages, costs, expenses (including without limitation reasonable attorneys' fees), losses and liabilities in connection with any claim for any brokers', finders' or similar fees in respect of the proposed merger by any person claiming the same against the party seeking indemnity in respect of the actions of the other party.

7. Public Announcements .

The parties will advise and consult with one another prior to the issuance of any public announcements pertaining to the proposed merger, and no such announcement will be made by LED without the prior consent of Vehicle, except as may be required by law.

8. Counterparts .

This letter may be executed in two or more counterparts, each of which shall be an original, but all of which together shall constitute one instrument. It is expressly understood that this letter is merely an expression of intent and neither party thereto shall have any obligation to the other (except as set forth in Paragraphs 4, 5, 6 and 7 hereof) until the execution and delivery of, and as provided in, an Agreement. This letter shall not create rights or confer any benefit on third parties. Management of the affairs, property, and business of the Corporation shall be vested in the Board of Directors, which shall consist of not less than one nor more than ten members, who shall be elected at the annual meeting of stockholders by a plurality vote for a term of one (1) year, and shall hold office until their successors are elected and qualify. Directors need not be stockholders. Directors shall have all powers with respect to the management, control, and determination of policies of the Corporation that are not limited by these Bylaws, the Articles of Incorporation, or by statute, and the enumeration of any power shall not be considered a limitation thereof.

Section 2. Vacancies:

Any vacancy in the Board of Directors, however caused or created, shall be filled by the affirmative vote of a majority of the remaining directors, though less than a quorum of the Board, or at a special meeting of the stockholders called for that purpose. The directors elected to fill vacancies shall hold office for the unexpired term and until their successors are elected and qualify.

Conversion shall be deemed to have been effected on the date when delivery of notice of an election to convert and certificates for shares is made, and such date is referred to herein as the "Conversion Date."

c) Partial Conversion. In the event of the conversion of some but not all of the shares of Series A Preferred Stock represented by a certificate or certificates surrendered, the Company shall execute and deliver to or on the order of the holder, at the expense of the Company, a new certificate representing the number of shares of Series A Preferred Stock which were not converted.

i) Subdivisions, Combinations, or Consolidations of Common Stock. In the event the outstanding shares of common stock shall be subdivided, combined or consolidated, by stock split, stock dividend, combination or like event, into a greater or lesser number of shares of

If the Company at any time subdivides, combines or consolidates the outstanding shares of common stock as contemplated by Section 4(f)(i), in each such event the Series A Conversion Rate that is then in effect shall be adjusted as of the time of such event by multiplying the Series A Conversion Rate then in effect by a fraction (x) the numerator of which is the total number of shares of common stock issued and outstanding immediately after the time of such subdivision, combination or consolidation, and (y) the denominator of which is the total number of shares of common stock issued and outstanding immediately prior to such subdivision, combination or consolidation.

iii) Reclassifications and Reorganizations. iv) Distributions Other Than Cash Dividends Out of Retained Earnings. If the Company shall declare a cash dividend upon its common stock payable otherwise than out of retained earnings or shall distribute to holders of its common stock shares of its capital stock (other than shares of common stock and other than as otherwise would result in an adjustment pursuant to this Section 4(f)), stock or other securities of other persons, evidences of indebtedness issued by the Company or other persons, assets (excluding cash dividends) or options or rights (excluding options to purchase and rights to subscribe for common stock or other securities of the Company convertible into or exchangeable for common stock), then, in each such case, provision shall be made so that the holders of Series A Preferred Stock shall receive upon conversion thereof, in addition to the number of shares of common stock receivable thereupon, the amount of securities of the Company and other property which they would have received had their Series A Preferred Stock been converted into common stock on the date of such event and had they thereafter, during the period from the date of such event to and including the date of conversion, retained such securities and other property receivable by them as aforesaid during such period, subject to all other adjustments called for during such period under this Section 4(f) with respect to the rights of the holders of the Series A Preferred Stock.

g) Certificate as to Adjustments. h) Fractional Shares. Fractional shares of Series A Preferred Stock may be issued and all conversion, voting and other rights shall be applied to such fractional shares on a proportional basis; provided, however, that in lieu of any fractional shares of common stock to which the holder of Series A Preferred Stock would be entitled upon conversion or otherwise pursuant hereto, the Company shall issue to such holder, one whole share of common stock. The number of whole shares to be issuable to each holder upon such conversion shall be determined on the basis of the number of shares of common stock issuable upon conversion of the total number of shares of Series A Preferred Stock of such holder at the time converting into common stock.

5) Liquidation.

a) In the event of any voluntary or involuntary liquidation, dissolution or winding up of the Company, the assets of the Company available for distribution to stockholders shall be distributed among the holders of the shares of Series A Preferred Stock and common stock, pro rata based on the number of shares held by each such holder, treating for this purpose all such securities as if they had been converted to common stock pursuant to the terms hereof immediately prior to such dissolution, liquidation or winding up of the Company.

b) In the event of any voluntary or involuntary liquidation, dissolution or winding up of the Company which will involve the distribution of assets other than cash, the Company shall promptly engage an independent appraiser to determine the fair market value of the assets to be distributed to the holders of shares of its capital stock. The Company shall, upon receipt of such appraiser's valuation, give prompt written notice to each holder of shares of Series A Preferred Stock of the appraiser's valuation. Any equity securities of other entities to be distributed shall be valued as follows: (i) if the common stock is listed on a national securities exchange or NASDAQ, the last sale price of the common stock in the principal trading market for the common stock on such date or, if there are no sales common stock on that date, then on the next preceding date on which there were any sales of common shares, as reported by the exchange or NASDAQ, as the case may be; or (ii) if the common stock is not listed on a national securities exchange or NASDAQ, but is traded in the over-the-counter market, the closing bid price for the common stock on such date, as quoted by the OTC Bulletin Board or the National Quotation Bureau, Incorporated or similar publisher of such quotations or, if there are no sales common stock on that date, then on the next preceding date on which there were any sales of common shares, as quoted by the OTC Bulletin Board or the National Quotation Bureau, Incorporated or similar publisher of such quotations, as the case may be; or (iii) if the fair market value of the common stock cannot be determined pursuant to clause (i) or (ii) above, such price as the Board of Directors of the Company shall reasonably determine, in good faith.
