#### MANAGEMENT'S DISCUSSION & ANALYSIS OR PLAN OF OPERATIONS

The Company survived the credit crisis that caused a significant slow down in mortgage loan applications over the past several years. The Company is able to service its approximate \$165,000 in revolving debt from current cash flows and remain in business. In order to expand, the Company plans to raise equity in the future. Steven Hershman, Chairman & President can sell up to 277,000 LFLS common stock shares into the open market, subject to the applicable filing of SEC Form 144 and use the proceeds raised to pay off/down the Company's indebtedness exchange for a to be determined amount of Preferred Stock. If this materializes the Company's interest expense and cash flows are expected to improve significantly. However, any actions to sell shares by any Control Person will have to be gauged subject to market conditions. During 2010 the Company experienced a significant trend improvement in loan closings and increased consumer interest for refinancings. The Company believes this trend may continue for several years as interest rates are expected to remain low in order to stimulate the economy, especially housing. On a cautionary note, the market for mortgages remains illiquid as many commercial banks have cut off warehouse lending lines to mortgage bankers in general, thus leaving far fewer loan programs available to mortgage brokers. Company does see opportunities for expansion and future growth as it believes a strong refinancing market may continue as a result of the US Government's economic stimulus plans. The Company has maintained excellent relationships with the most competitive wholesale lenders in the USA.

#### NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

#### **DECEMBER 31, 2010**

#### A. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

#### (1) Description of Business

Loans4Less.Com, Inc. "the Company" was incorporated in Delaware on June 30, 1999 and was operationally inactive prior to its consolidation with Union Discount Mortgage, Inc. on January 1, 2005.

On January 1, 2005, the Company exchanged 25,000,000 shares of its common stock and 21,500,000 shares of Series A preferred stock for all of the shares (100) of Union Discount Mortgage, Inc. After the exchange Union Discount Mortgage, Inc. became a wholly owned subsidiary of the Company.

Prior period financial statements have been retroactively restated and renamed to show the capitalization of Loans4Less.com, Inc. while at the same time maintaining the historical financial data of the acquired company Union Discount Mortgage, Inc.

#### (2) Cash and Cash Equivalents

For purposes of the statement of cash flows, the Company considers all highly liquid debt investments purchased with a maturity of three months or loss to be cash equivalents.

#### (3) Marketable Securities

The Company may invest in various equity or debt instruments. The Company accounts for such investments in accordance with Statements of Financial Accounting Standards No. 115 and 130 "Accounting for Certain Investments in Debt and Equity Securities" and "Reporting Comprehensive Income," respectively.

Management determines the appropriate classification of its investments at the time of acquisition and reevaluates such determination at each balance sheet date. Trading securities are carried at fair value, with unrealized trading gains and losses included current period income. Available-for-sales securities are carried at fair value with unrealized gains and losses included in other comprehensive income. Realized gains and losses are included in current period income for both types of securities. Investments classified as held-to-maturity are carried at amortized cost. In determining realized gains and losses, the cost of the securities sold is based on the first in, first out method.

Investment securities are exposed to various risks, such as interest rate, market and credit. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks in the near term would materially affect the amounts reported in the balance sheet and the statement of income and stockholder's earnings.

#### NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

#### **DECEMBER 31, 2010**

#### A. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED):

#### (4) Property and Equipment

Property and equipment are stated at cost. Additions, renewals, and betterments are capitalized, while expenditures for maintenance and repairs are charged to expense. The cost and related accumulated depreciation accounts are removed when items are sold, and the resulting gain or loss is reflected in income.

It is the policy of the Company to provide depreciation based on the estimated useful life of the individual units of property and equipment. The depreciation methods and the estimated useful lives used as the basis for the application of those methods are as follows:

Description	Method	Estimated Useful Life
Improvements	Straight-line	3 years
Computers	Straight-line	5 years
Furniture & equipment	Straight-line	5 years

#### (5) Revenue Recognition

The Company recognizes loan origination (85%), miscellaneous processing fees (5%) and real estate commissions (10%) according to industry standards, as income when the loan transaction is completed and the related documents are recorded by the appropriate statutory agency.

#### (6) Use of Estimates

The preparation of financial statements in conformity with general accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues of expenses during the reporting period. Actual results could differ from those estimates.

#### (7) Income Taxes

The Company utilizes SFAS No.109, Accounting for Income Taxes, which requires an asset and liability approach to financial accounting and reporting for income taxes. The difference between the financial statements and tax basis assets and liabilities is determined annually. Deferred income tax assets and liabilities are computed for those differences that have future tax consequences using the currently enacted tax laws and rates that apply to the periods in which they are expected to affect taxable income. Valuation allowances are established, if necessary, to reduce the deferred tax asset to the amount that will more likely than not be realized. Income tax expense is the current tax payable or refundable for the period plus or minus the net change in the deferred tax assets or liabilities.

#### **DECEMBER 31, 2010**

#### A. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED):

#### (8) Consolidation

Union Discount Mortgage, Inc. is a wholly owned subsidiary of the Company. Accordingly, the financial statements are presented as a consolidation. Because the Company does not have material transactions of its own and all business is conducted through Union Discount Mortgage, Inc., management declined to show the two entities separately. There were no eliminating entries.

#### (9) Earnings per Common Share

Earnings per share are computed using the weighted average number of shares outstanding during the year.

#### B. LINE OF CREDIT AND OTHER CREDIT FACILITIES

As of December 31, 2010 the Company has a revolving line of credit at Bank of America with a maximum borrowing amount of \$50,000, bearing an interest rate of 3.5% over the Prime Rate with an outstanding principal balance of \$50,000. The Company also has other credit card balances of approximately \$114,735outstanding which are accruing various annual interest costs.

#### C. RETIREMENT PLAN TERMINATED

The Company adopted a retirement plan for substantially all full-time employees. The plan did allow for discretionary Company contributions up to 25% of employee compensation. On March 10, 2008 the Company terminated this Plan.

#### D. OPERATING LEASE AGREEMENT MODIFIED

Effective March 1, 2010 the Company continued its contract as a month-to-month rental at a rate of \$1.75 per square foot or 996 square feet of space for \$1,743 per month.

#### **DECEMBER 31, 2010**

The Series B preferred stock is entitled to dividend payments at a rate of 6.75% per annum based on the principal amount paid to the Company for each share. This preferred stock ranks senior as to rights upon liquidation, dissolution or winding up of the Company and has no voting rights. Each share of the Series B preferred stock is convertible into one share of common stock at any time. The Board of Directors has designated 21,500,000 shares of the Company's preferred stock as Series A Convertible Preferred Stock. All 21,500,000 shares of Series A stock have been issued and are outstanding. The Series A stock is not entitled to any regular dividend payments. The preferred stock ranks senior to common stock as to rights upon liquidation, dissolution or winding up of the Company. The Series A stock is entitled to ten votes for each share on matters involving amendments to the Company's charter, merger or dissolution of the Company or any disposition of the Company's assets requiring special authorization of the shareholders. Each share of the Series A preferred stock can be converted into one share of the Company's common stock. These shares are subject to a lock-up agreement effective two years after the start of public trading in the common stock.

The Board of Directors has authorized 250,000,000 shares of Common Stock of which 27,741,092 shares are issued and outstanding. Pursuant to the Reg A Offering, 292,000 shares at \$0.25 were sold to investors and those subscriber's funds were released to the Company in fiscal 2007.

#### I. CERTAIN OTHER TRANSACTIONS AND DISCLOSURES

On July 1, 2009 the Board of Directors issued a Resolution permitting its Control Persons to redeem common stock in lieu of receiving taxable wages and/or commissions. The Company believes that this can reduce its operating expenses and may provide certain tax advantages to those redeeming stock. The Company also believes that it may benefit in the reduction of overall outstanding stock (see table E1 above).

#### J. STOCK BASED COMPENSATION

The Company accounts for its stock based compensation based on provisions in SFAS No. 123, "Accounting for Stock Based Compensation," which utilizes the fair method for the valuation of its securities given as compensation.

## K. $\frac{\text{AFFIRMATIVE STATEMENT REGARDING THE ACCURACY OF THESE FINANCIAL}}{\text{STATEMENTS}}$

It is the opinion of management that all adjustments necessary for a fair statement of results for the interim period have been included. All adjustments are of normal recurring nature.

## Management's Discussion and Analysis and Results of Operations for the period ended December 31, 2010 compared December 31, 2009

The Company believes its increase in revenues for the period ended December 31, 2010 versus the same period last year, was mainly due to a strong refinancing market in Q3-Q4. The Company was not able to sustain an ongoing advertising campaign and relied on its database of existing clients.

Revenues for the period ended December 31, 2010 increased 23% from \$464,097 to \$572,909 compared to the period ended December 31, 2009.

Net Ordinary Income for the period ended December 31, 2010 was \$396,456 compared with a Net Ordinary Income of \$71,760 for the period ended December 31, 2009.

Total Operating Expenses for the period ended December 31, 2010 amounted to \$176,453 compared with \$392,231 for the period ended December 31, 2009. #### Company shows Income from Operations versus recurring prior losses.

The Company redeemed/canceled common stock mainly in lieu of paying salaries and/or commissions pursuant to the Resolution as authorized by the Board on July 1, 2009 which improved our Income Statement even though revenues declined and also this action reduced our outstanding common stock capital. Stock Grants/Redemptions made during 2010 are reflected on the Company's financial statements as of December 31, 2010 and are fully disclosed in the Notes to the Financial Statements.

#### Substantial Intangible Assets not reflected on Balance Sheet

The Company is currently studying FASB Rules 141 & 142 to determine if under those guidelines a Fair Value for our intangible assets can be reflected on our balance sheet. The Company believes that it retains substantial value for its intangible assets based on certain factors.

#### Outlook for 2011

The outlook for 2011 is somewhat unpredictable as mortgage interest rates have risen at the beginning of 2011 and the general refinancing business has slowed from Q3-Q4 2010. However, the Company believes it has the resources to continue its current operations without outside financing. However, the Company may be unable to expand rapidly without raising the necessary working capital.

#### Company Seeks to Raise Equity Capital

The Company is seeking to raise capital for its balance sheet to advance its ongoing plan of operations, pay off or reduce its obligations, obtain audited financial statements with the aim of becoming a fully-reporting company, invest in a new platform of technologies in order to facilitate increasing revenues through aggressive advertising and marketing with the main goal of developing a recognizable new national loan brand name. The Company is seeking licensing and/or Joint Venture arrangements in other loan products in order to effectively brand Loans4Less.com as more of a general loan consumer portal site using mortgages as a base service.
