Instructions to Item XVI

Issuers that have not had revenues from operations in each of the last two fiscal years, or the last fiscal year and any interim period in the current fiscal year for which financial statements are furnished in the disclosure statement, shall provide the information in paragraphs A and C of this item. All other issuers shall provide the information in paragraphs B and C of this item.

The discussion and analysis shall focus specifically on material events and uncertainties known to management that would cause reported financial information not to be necessarily indicative of future operating results or of future financial condition.

Issuers are not required to supply forward-looking information. This is distinguished from presently known data that will impact upon future operating results, such as known future increases in costs of labor or materials. This latter data may be required to be disclosed.

B. Management's Discussion and Analysis of Financial Condition and Results of Operations.

1. *Full fiscal years.* Discuss the issuer's financial condition, changes in financial condition and results of operations for each of the last two fiscal years. This discussion should address the past and future financial condition and results of operation of the issuer, with particular emphasis on the prospects for the future. The discussion should also address those key variable and other qualitative and quantitative factors that are necessary to an understanding and evaluation of the issuer.

Sales from continuing operations in the first nine months of FY 2011 ending March 31, 2011 were $8,700.671 compared to sales of $5,250,234 during the same period in the prior fiscal year. This is a 65.7% improvement. In addition, the company earned a profit from continuing operations of $190,327 in the first nine months of FY2011 compared to a loss of ($94,511) prior year. Total income for the first nine months including non-operational income was $232,085. The Company continues to focus on debt reduction. During the first nine months of FY2011 Debt was lowered by $192,632 which was a reduction of 37.8%.

The Company's SendGlobal subsidiary completed and launched new products for consumers including:

- www.MyMobile011.com - a premium quality outbound international calling service to more than 190 countries
- www.AloBilady.com - focuses on routes to the Middle East
- www.MexicoMinutes.com - for outbound calls to Mexico

Send Global also launched a new web interface for its retail store customers called EzPosa. EzPosa is an enhanced web portal that is especially user friendly. EzPosa allows Send Global to provide both telecom and non-telecom services at the point of sale. Send Global is discussing possible business ventures with companies who have unique point of sale services such as mobile wallets for possible delivery through Send Global's retail store network.

Currently SendGlobal provides outbound calls from the United States to all the recognized countries around the globe. SendGlobal is now exploring mobile phone applications that would allow it to originate calls in other countries using consumer smart phones. This has the potential of rapidly increasing SendGlobal sales. Long-term iTeknik is also focused on looking for suitable merger/acquisitions to help it grow.

Fiscal Year 2010 (July 1, 2009 to June 30, 2010) was a year of considerable change for the Corporation. In September 2009 the Board of Directors decided to close the Corporation's TeleCents Communications, Inc. Division. TeleCents had been primarily engaged in providing wholesale carrier services. The wholesale carrier segment of the telecommunications industry has become crowed with competitors, many of which were far larger than TeleCents. The Board decided that it would shut down operations at TeleCents and focus on the Corporation's other division, SendGlobal Corporation.

SendGlobal Corporation is engaged in providing outbound international calling services primarily through cell phones. SendGlobal's major market segments consist of sales to independent retailer stores and direct sales to consumers through the Company's various Internet web sites such as, www.SendGlobal.com, www.GreatMinutes.com, and www.IndiaMinutes.com.

As part of the new focus on SendGlobal, the Company embarked on a three-point continuous improvement plan: (1.) Increase sales, (2) Reduce operating costs, and (3.) Improve quality. There were many new initiatives implemented as part of this three-part program. SendGlobal completely reorganized its distribution network for sales to retailers. The number of independent sales agents in the country was increased. Several new promotion programs were implemented during the year. New training programs and sales aids were developed for retailers.

SendGlobal signed new agreements with major international carriers to lower its route costs and enhance phone call quality. In January of 2010 the Company moved its Network Operations Center to a new location in Southfield, Michigan. This resulted in major cost savings. SendGlobal's systems team also designed and developed new software systems to enhance the Company's CMS platform, which is the heart of its proprietary operating system.
