The accompanying notes are an integral part of these financial statements

Aerius International, Inc.
(A Development State Company)
NOTES TO FINANCIAL STATEMENTS
March 31, 2011
(Unaudited)

1. Nature of Operations

a) Organization

In January 2007, CyberVegas.com acquired all the outstanding common stock of Aerius, a Nevada corporation in a transaction accounted for as a reverse merger. The Company issued 28,000,000 shares to the shareholders of Aerius and reserved 10,000,000 shares to satisfy the obligations to existing convertible note, stock option, and warrant holders. Aerius is developing high performance antenna technology for cellular and other mobile wireless communications devices. The product significantly improves voice quality while reducing energy consumption and SARs therefore producing the most “green technology” in the industry.

As part of the merger the Company directors resigned with the directors and officers of Aerius being appointed to the board of directors. The name of the corporation (CyberVegas.com) was changed to Aerius International, Inc.

b) Going Concern

The accompanying financial statements have been prepared assuming the Company will continue as a going concern.

As shown in the accompanying financial statements, the Company has incurred a net loss of \$861,603 for the period from February 24, 2000 (inception) to December 31, 2009 and has no sales, and a net loss of \$1,514,406 for the period from February 24, 2000 (inception) to March 31, 2011 and has no sales. The future of the Company is dependent upon its ability to obtain financing and upon future profitable operations from the development of its new business opportunities. Management has plans to seek additional capital through a private placement. The financial statements do not include any adjustments relating to the recoverability and classification of recorded assets, or the amounts of and classification of liabilities that might be necessary in the event the Company cannot continue in existence.

2. Significant Accounting Policies

The financial statements of the Company have been prepared in accordance with generally accepted accounting principles in the United States. Because a precise determination of many assets and liabilities is dependent upon future events, the preparation of financial statements for a period necessarily involves the use of estimates, which have been made using careful judgment.

The financial statements have, in management’s opinion, been properly prepared within reasonable limits of materiality, and within the framework of the significant accounting policies summarized below.

a) Development Stage Company

The Company is a development stage company as defined in the Statements of Financial Accounting Standards No. 7. The Company is devoting substantially all of its present efforts to establish a new business and none of its planned principal operations have commenced. All losses accumulated since inception have been considered as part of the Company's development stage activities.

b) Intellectual Property

The Company has developed and acquired patented technology that applies to wireless to hand held communications units. The costs have been capitalized.

c) Income Taxes

The Company has adopted Statement of Financial Accounting Standards No. 109 – "Accounting For Income Taxes" (SFAS 109). This standard requires the use of an asset and liability approach for financial accounting and reporting on income taxes. If it is more likely than not that some portion, or all if a deferred tax asset, will not be realized, a valuation allowance is recognized.

d) Financial Instruments

The Company's financial instruments consist of cash.

Unless otherwise noted, it is management's opinion that this Company is not exposed to significant interest or credit risks arising from these financial instruments. The fair value of these financial instruments approximate their carrying values, unless otherwise noted.

3. Common Shares

In January 2007, the Company filed an amendment to its articles of incorporation raising its authorized common shares to 100,000,000. At such time the Company had 10,000,000 fully paid shares issued and outstanding. The Company resolved to forward split its common shares on a 5-to-1 basis, resulting in a new total of issued and outstanding shares at 50,000,000. In anticipation of the merger, the Company exchanged assets of the previous business for approximately 40,000,000 shares of common stock. The Company then acquired Aeries for 28,000,000 common stock.

In March 2011, the Company filed an amendment to its articles of incorporation raising its authorized common shares to 190,000,000. At such time the Company had 97,261,615 total outstanding shares.
