

Disclosure of Changes to Business.

As of May 31st Mr. Danny Jenkins resigned his position as an officer and Director of EnableTS Inc.

In July 2010 Mobile Media Unlimited Holdings (MMUH) entered into an agreement to purchase 100% of Enable Software Ltd from Cloud Centric Systems, Inc.

The agreement outlined, that MMUH would pay Cloud Centric Systems, Inc. \$250,000 of preference stock for the asset. As well provide the resources for Enable Software Ltd to develop continue and meet its financial demands, and to provide financial history of MMUH, to satisfy the relevant reporting requirements for the OTC Current Information tier.

Due to the failure of management that pre-dates July 2010, MMUH has been unable to meet many of the requirements. The board made all efforts to resolve outstanding issues, unfortunately, no remedy was reached. Leaving no other alternative but to roll back the acquisition transaction from Cloud Centric Systems Inc.

Mobile Media has appointed a new board, which will continue to execute alternative business operations.
