The Company is proceeding with its development of its ecommerce web-site and associated software.

NOTE 5 NOTES PAYABLE – RELATED PARTIES

The Company entered into a Stock Purchase Agreement and Plan of Reorganization on April 8, 2008 wherein the Company agreed to purchase American Pacific Rim Commerce Group (the Seller and a private Nevada corporation). This transaction will be accounted for as a reverse merger. The agreement was executed on August 13, 2008. As part of the agreement the Company agreed to pay MGI Consultants, Inc. (MGI) $375,000 for its part in putting the business acquisition together. The purchase funds are to come from MGI's best efforts to raise $600,000 to $1,200,000 for the Company. During the quarter ended August 31, 2008 the Company paid MGI $205,128 leaving a balance of $169,695 outstanding.

The Company issued a note to MGI in the amount of $272,500 covering the $169,695 outstanding balance and $102,805 in consulting fees. The note carried 8% interest compounded annually with a conversion feature to common stock at the lesser of $0.10 per share or 50% of the five day average preceding notification. The note was held equally by eight MGI parties. In October 2009 the Company notified the note holders of its inability to repay the note in cash and on November 2, 2009 the note holders provided their first notification to the company of their intent to convert without actually calling for conversion. The intent to convert was memorialized on November 6, 2009 using the preceding five day average from October 26-30, 2009 of $0.013 per share.

The Company attempted negotiations to settle the debt on more favorable terms. However, the note holders finally called for conversion based on their original November 2, 2009 notification and on May 28, 2010 the Board of Directors agreed to the conversion in exchange for an irrevocable voting proxy given to the Company Chairman for the aggregate of 47,843,240 shares issued in the conversion. Each of the eight Note Holders agreed to the voting proxy for each of their 5,980,405 shares received with such proxies to expire on June 1, 2011.

Each of the eight MGI parties agreed to receive 5,755,075 common shares for the principle and interest up to November 6, 2009 plus 1,110 shares per day per note holder. The shares were issued on July1, 2010 resulting in the issue of 5,980,405 shares to each note holder or a total of 47,843,240 shares. The number of shares issued was calculated at $0.0065 per share or 50% of the preceding five day market average of $0.013 per share as of the November 2, 2009 date of notification. The fair value of the shares issued is $621,962 (47,843,243 x $0.013) from which the Company has allocated $272,500 to settlement of the note's principal and the remaining $349,462 to interest expense. Included was $125,220 used to pay consulting fees for the development of internal-use software. The Company restated its FY 2009 financial statements to reflect the capitalization of these costs and related interest.

On June 4, 2010 the Company issued an 8% note to MGI Consultants in the amount of $45,000 for its payment of $45,000 worth of transactions in behalf of the Company. The note has a convertible feature wherein the principal and accrued interest may be converted to common stock at the conversion rate of the lesser of $0.10 per share or 50% of average of the preceding five day bid price. The Company recorded a beneficial conversion feature in the amount of $45,000 for the convertible note. On August 8, 2010 and November 24, 2010 the Company issued a $13,000 and a $4,700 respectively to MGI Consultants with the same convertible terms listed above. NOTE 6. PROVISION FOR INCOME TAXES

The Company provides for income taxes under ASC 740 “Income Taxes” which requires the use of an asset and liability approach in accounting for income taxes. Deferred tax assets and liabilities are recorded based on the differences between the financial statement and tax bases of assets and liabilities and the tax rates in effect currently.

The standard requires the reduction of deferred tax assets by a valuation allowance if, based on the weight of available evidence, it is more likely than not that some or all of the deferred tax assets will not be realized. In the Company’s opinion, it is uncertain whether they will generate sufficient taxable income in the future to fully utilize the net deferred tax asset. Accordingly, a valuation allowance equal to the deferred tax asset has been recorded. The total deferred tax asset is $106,033 which is calculated by multiplying a 22% estimated tax rate by the cumulative NOL of $481,966. The total valuation allowance is a comparable $106,033. Details for the period ended May 31, 2011 and the year ended November 30, 2010 follow:

	May 31, 2011	November 30, 2010

**Item 4.	Management's discussion and analysis or plan of operation.**

The issuer shall provide the information required by Item 16 of Section One of these Guidelines

**Item 16.	Management's Discussion and Analysis or Plan of Operation**

Issuers that have not had revenues from operations in each of the last two fiscal years, or the last fiscal year and any interim period in the current fiscal year for which financial statements are furnished in the disclosure statement, shall provide the information in paragraphs A and C of this item. All other issuers shall provide the information in paragraphs B and C of this item.

The Issuer, per Guideline, shall provide information in paragraphs A and C of this Item.

A. Plan of Operation.

1. Describe the issuer's plan of operation for the next twelve months. This description should include such matters as:

i. a discussion of how long the issuer can satisfy its cash requirements and whether it will have to raise additional funds in the next twelve months;

ii. a summary of any product research and development that the issuer will perform for the term of the plan;

iii. any expected purchase or sale of plant and significant equipment; and

iv. any expected significant changes in the number of employees.

The Issuer's Plan of Operations to penetrate the Chinese Marketplace is as follows:

(1) The link of 1.3 billion Chinese consumers and American small to medium size businesses will be the focal point of the business model and overall strategy. The initial thrust will be American Pacific Rim Commerce Group's e-commerce business to business and business to consumer Internet site, which is under development. The Issuer is critically behind in delivering the roll-out of its proprietary e-commerce site as a result of its inability to attract financing that is favorable to the Issuer. Due to the changing economic and regulatory environment, the Issuer cannot opine as to when, if ever, the beta-site would be fully operational, however, the Issuer continues to allocate appropriate resources, when available, to effort launching its technologies.

When, if ever, the Issuer's e-commerce site is fully operational, the Company intends to concentrate on its marketing plan to brand www.mymyJ.com as the number one trade connection between the Chinese consumer and products and services ‘Made In the USA’. The Issuer’s marketing plan includes providing exposure using the US and Chinese media, through various advertising and public relations outlets, including television, radio, internet and print mediums, along with strategically focused corporate sponsorships and event marketing.

The Company’s marketing plan includes cross media interviews and personal appearances to create exposure for the Company. In addition, the Company intends to showcase ‘celebrity’ and ‘vanity’ products via the internet. Uniquely, American athletes, entertainers and artists can market themselves along with a chosen product in China through the Issuer’s strategic alliance business formula.

Following the launch of its e-commerce site, the Issuer plans to set up, in joint ventures with local retailers in China, “All American Goods” kiosks in 50 major Chinese cities that will only carry American goods targeting the 300 million middle class Chinese who yearn for authentic and quality “Made in America” merchandise.

(i) The Issuer was issued a temporary suspension of trading in its securities, pursuant to Section 12(k) of the Securities exchange Act of 1934, commencing at 9:30 a.m. EDT on June 7 2011, and terminating at 11:59 p.m. EDT on June 20, 2011. According to the Order of Suspension of Trading by the Securities and Exchange Commission, trading in the securities of APRM has been temporarily suspended as, per the Order: “Questions have arisen concerning the adequacy and accuracy of press releases concerning the Company’s revenues”. The Issuer cannot opine as to which ‘questions’ arose as to the Issuer revenues, as the Issuer has repeatedly, in each and every Information and Disclosure Statement and Financial Statements filed with the OTC Disclosure Service, and, additionally, in public releases, stated that it has no revenue nor was producing revenue at the current time. Such suspension has created a materially detrimental effect on the Issuer and its ability to attract financing on terms which would be favorable to the Issuer. Furthermore, all recent conversations between the Issuer and independent financiers have been terminated as a result of the suspension.

The Issuer did not produce revenue within the current fiscal year and absent the completion of its technology it does not anticipate generating revenue. Absent additional funding, the continued development of the Issuer’s proprietary e-commerce platform will be materially affected. The Issuers Board of Directors may have to issue, at terms which may be highly dilutive and unfavorable to the current Shareholders, additional common stock, and/or, Promissory Notes to fund development and implementation of the e-commerce platform. However, there can be no assurance that if such an Offering of the Issuers securities was made available and or a debt financing was obtained, such securities and or debt financing would be successful. Furthermore, it is highly unlikely that such an Offering of Securities and or debt financing will be on terms favorable to the Issuer, given the suspension of trading of the Issuers Securities. The Board of

Directors is developing strategic alternatives to accomplish its Plan of Operations. Such alternatives include, but are not limited to; (a) a merger of the Issuers assets with that of a strategic competitor, (b) recapitalization of the Issuer's securities to attract more favorable financing of the Issuer's Plan of Operations, and or (b) the sale of the Issuer and or (d) the sale of all of the assets of the Issuer.

During the Period herein (May 27, 2011), the Issuer issued to Jepera Investments Inc., a Convertible Promissory Note in the amount of $51,000, 8% per annum, compounded annually. Such Convertible Promissory Note shall mature on May 27, 2012. Monies from such debt financing was anticipated to bridge the Issuer financially to provide the Issuer the time necessary to finalize recent negotiations and conversations with debt and equity financing groups to fund the continued development of the Issuer's Plan of Operations. As a result of the suspension of trading in the Issuers securities, such funding conversations have terminated and the Issuer is focused on restarting such conversations. Absent additional financing the Issuer will be unable to fund operations in the 3rd quarter.

(ii) As of the date herein, the Issuer has forestalled entering into any further commitments to develop additional add-on technologies while the Issuer focuses on completing the build-out of its current platform. As a result of the suspension of trading in its securities, the Issuer believes that there is a material uncertainly as to the continued funding of the Issuer, on terms favorable to the Issuer, which will result in further delays to the implementation of its Plan of Operations. The Issuer, due to the changing economic environment cannot opine as to when, if ever, the beta-site would be fully operational, however, the Issuer continues to allocate appropriate resources, when available, to effort launching its technologies. When, if ever, the Issuers e-commerce website is fully operational, the Company intends to concentrate on its marketing plan to brand www.mymyJ.com as the number one trade connection between the Chinese consumer and products and services 'Made In the USA'.

(iii) The Issuer's Board of Directors is exploring strategic alternatives to further its plan of operations. Such strategic alternatives include, but are not limited to: (a) a merger of the Issuers assets with that of a strategic competitor, (b) recapitalization of the Issuers securities to attract more favorable financing of the Issuers Plan of Operations, and or (b) the sale of the Issuer and or (d) the sale of all of the assets of the Issuer. Additionally, one or more joint venture partners had approached the Issuer to act as a strategic partner or acquirer of the Issuer, prior to the Order of Suspension. Those conversations have been terminated by the engaging party.

(iv) Absent additional funding, the Issuer does not anticipate any significant changes to its current number of employees.

B. Management's Discussion and Analysis of Financial Condition and Results of Operations.

1. Full fiscal years. Discuss the issuer's financial condition, changes in financial condition and results of operations for each of the last two fiscal years. This discussion should address the past and future financial condition and results of operation of the issuer, with particular emphasis on the prospects for the future. The discussion should also address those key variable and other qualitative and quantitative factors that are necessary to an understanding and evaluation of the issuer. If material, the issuer should disclose the following:

i. Any known trends, events or uncertainties that have or are reasonably likely to have a material impact on the issuer's short-term or long-term liquidity;

ii. Internal and external sources of liquidity;

iii. Any material commitments for capital expenditures and the expected sources of funds for such expenditures;

iv. Any known trends, events or uncertainties that have had or that are reasonably expected to have a material impact on the net sales or revenues or income from continuing operations;

v. Any significant elements of income or loss that do not arise from the issuer's continuing operations;

vi. The causes for any material changes from period to period in one or more line items of the issuer's financial statements; and

vii. Any seasonal aspects that had a material effect on the financial condition or results of operation.

(i) The Issuer was issued a temporary suspension of trading in its securities, pursuant to Section 12(k) of the Securities exchange Act of 1934, commencing at 9:30 a.m. EDT on June 7 2011, and terminating at 11:59 p.m. EDT on June 20, 2011. According to the Order of Suspension of Trading by the Securities and Exchange Commission, trading in the securities of APRM has been temporarily suspended as, per the Order: "Questions have arisen concerning the adequacy and accuracy of press releases concerning the Company's revenues". The Issuer cannot opine as to which 'questions' arose as to the Issuer revenues, as the Issuer has repeatedly, in each and every Information and Disclosure Statement and Financial Statements filed with the OTC Disclosure Service, and, additionally, in public releases stated that it has no revenue nor was producing revenue at the current time. Such suspension has created a materially detrimental effect on the Issuer and its ability to attract financing on terms which would be favorable to the Issuer. Furthermore, all recent conversations the Issuer was having with independent financiers have been terminated as a result of the suspension.

(ii) The Issuer was in conversation, as disclosed in Item 4, with several strategic alliances and independent funding sources that expressed an interest in aligning themselves with the Issuer to support the Issuer in developing its Plan of Operations, either through a debt or equity financing. As a result of the suspension, such conversations have been terminated. The Issuer believes that the suspension has and will have a materially negative effect on the ability of the Issuer to implement its Plan of Operations. The Issuer believes that as a result of the suspension of trading, the Issuer's ability to implement either a placement of its Securities or seek additional debt financing with non-affiliated parties has been materially effected on terms which would be favorable to the Issuer. As a result of such suspension, the Issuer is interviewing business brokers to advise the Issuer on the sale of all of its assets.

(iii) Conversations with potential strategic funding partners have terminated as a result of the suspension of trading of the Issuer's Securities; the Issuer is focused on restarting those conversations. As a financing bridge as noted in section (i), the Issuer executed a Convertible Promissory Note in the amount of $51,000.00 on May 27, 2011 to sustain operations. The lender was Jepera Investments, Inc. and the President of the Issuer is also the President of Jepera Investments Inc and its sole Director and Shareholder. The Issuer executed a Convertible Promissory Note with terms similar to and representative of Notes of this type and with Notes the Issuer has executed in the past. The Issuer has been noticed by the lender of a material default in the terms of the Note as a result of its suspension of trading. It is unknown at this time what, if any, actions the lender is prepared to initiate.

(iv) As of the date herein, the Issuer has forestalled entering into any further commitments at this time to develop additional technologies while it is completing the build-out of its current platform. The Issuer believes that the material uncertainty as to the continued funding of the Issuer, as a result of the suspension of trading in its securities, may result in further delays to the implementation of its Plan of Operations. Currently, the Issuer has no plan in place to offset the loss of funding and or potential loss of funding created by the SEC suspension. Furthermore, the Issuer does not believe given the current economic and regulatory environment that any such funding, if available, would be on terms which would be favorable to the Issuer. As such, the Issuer, for all that which is stated herein has not made any additional material commitments for capital expenditures nor does the Issuer have any near-term sources of funds for such expenditures.

(v) The Issuer believes that the material uncertainly as to the continued funding of the Issuer, as a result of the suspension of trading in its securities, may result in further delays to the implementation of its Plan of Operations. The Issuer is currently developing its proprietary e-commerce site. As such, the Issuer has not generated any such revenue nor has reported that it has done so. As such, outside that which is stated herein, there are no known additional trends, events or uncertainties that will or have had or that are reasonably expected to have a material impact on the net sales or revenues or income from continuing operations.

(vi) See (v).

(vii) As previously stated in the Issuers Information and Disclosure Statement the Issuer is a development stage company and is developing its proprietary e-commerce site. As such, the Issuer has not generated any such revenue nor has reported that it has done so. As such, there are no causes for any material changes from period to period in one or more line items of the issuer's financial statements.

(viii) Not applicable.

C. Off-Balance Sheet Arrangements.

The Issuer has reviewed the Guidelines under Section C. Off-Balance Sheet Arrangements and is not aware of, nor party to, nor subject of, any such off-balance sheet agreements, arrangements, discussions, plans or intentions.

Item 5. Legal proceedings.

The issuer shall provide the information required by Item 8(a)(11) of Section One of these Guidelines, to the extent not already disclosed in a prior disclosure statement.

11. Any current past pending or threatened legal proceedings or administrative actions either by or against the Issuer that could have a material effect on the issuer’s business, financial condition, or operations and any current, present or pending suspensions by a securities regulator. State the names of the principle parties, the nature and current status of the matter, and the amounts involved.

The Issuer was issued a temporary suspension of trading in its securities, pursuant to Section 12(k) of the Securities exchange Act of 1934, commencing at 9:30 a.m. EDT on June 7 2011, and terminating at 11:59 p.m. EDT on June 20, 2011. According to the Order of Suspension of Trading by the Securities and Exchange Commission, trading in the securities of APRM has been temporarily suspended as, per the Order: “Questions have arisen concerning the adequacy and accuracy of press releases concerning the Company’s revenues”. The Issuer cannot opine as to which ‘questions’ arose as to the Issuer revenues, as the Issuer has repeatedly, in each and every Information and Disclosure Statement and Financial Statements filed with the OTC Disclosure Service, and, additionally, in public releases stated that it has no revenue nor was producing revenue at the current time. Such suspension has created a materially detrimental effect on the Issuer and its ability to attract financing on terms which would be favorable to the Issuer. Furthermore, all recent conversations the Issuer was having with independent financiers have been terminated as a result of the suspension.

The Issuer believes that the suspension has and will have a materially negative effect on the ability of the Issuer to implement its Plan of Operations. The Issuer believes that as a result of the suspension of trading, the Issuer's ability to implement either a placement of its Securities or seek additional debt financing with non-affiliated parties, on terms which would be favorable to the Issuer, has been materially effected

Item 6. Defaults upon senior securities.

If there has been any material default in the payment of principal, interest, a sinking or purchase fund installment, or any other material default not cured within 30 days, with respect to any indebtedness of the issuer exceeding 5% of the total assets of the issuer, (i) identify the indebtedness and (ii) state the nature of the default, the amount of the default and the total arrearage as of a recent date.

If any material arrearage in the payment of dividends has occurred or if there has been any other material delinquency not cured within 30 days, with respect to any class of preferred stock of the issuer, give the title of the class and state the nature of the arrearage or delinquency. In the case of a default in the payment of dividends, state the amount and the total arrearage as of a recent date.

The issuer need not respond to this item with respect to any class of securities all of which is held by, or for the account of, the issuer or its totally held subsidiaries. Issuers need not repeat information that has been previously disclosed in a prior disclosure statement, although the issuer shall provide updates regarding previously reported defaults.

Currently the Issuer has two material defaults;

The Issuer was notified on June 4, 2011, by the Lender, who holds a Convertible Promissory Note in the amount of $45,000.00 that such debt had matured and the Lender was calling the debt associated with the Note. The Issuer is currently in discussions with the Note holder to extend the maturity date. The Issuer cannot opine as to the outcome of such discussions. The Issuer does not have the financial ability to redeem such debt without negatively impacting the operations of the Issuer.

The Issuer was notified on June 11, 2011, by the Lender, who holds a Convertible Promissory Note issued on May 27, 2011 in the amount of $51,000.00 that the Issuer by virtue of its suspension of trading in its securities had defaulted in the terms and conditions of such Convertible Promissory Note. The Issuer is currently seeking advice from its counsel on such claims. The Issuer cannot opine as to the outcome of such discussions. Currently, the Issuer does not have the financial ability to redeem such debt.
