#### **Item 4 Management's Discussion and Analysis or Plan of Operation.**

Material events and uncertainties known to management that would cause reported financial information not to be necessarily indicative of future operating results or of future financial condition. Issuers are not required to supply forward-looking information. This is distinguished from presently known data that will impact upon future operating results, such as known future increases in costs of labor or materials.

#### **Any known trends, events or uncertainties that have or are reasonably likely to have a material impact on the issuer's short-term or long-term liquidity**

The future of the Company is dependent upon its ability to obtain financing and upon future profitable operations. Should we be unsuccessful in obtaining additional funding or increase sales, we may be unable to meet our cash flow requirements in the short term.

#### **Internal and external sources of liquidity**

The Company has been selling stock in private placements and has secured a line of credit for factoring its receivables.

#### **Any material commitments for capital expenditures and the expected sources of funds for such expenditures**

None.

#### **Any known trends, events or uncertainties that have had or that are reasonably expected to have a material impact on the net sales or revenues or income from continuing operations**

Ongoing discussions with a Spill Response Company that has expressed an interest in creation of a strategic partnership between their SRC and MOP may create serious opportunity with respect to oil spill response where we have been unable to position ourselves in years past. If we can solidify this partnership it may be possible for us to jointly respond to specific spills in the future with both companies enhancing market share.

In addition to ongoing discussions with Nigerian companies we have been contacted by companies and at least one government in two other West African nations. One country is creating a National Response Plan and is discussing using MOP products as the basis for their response stations. The other country is new to oil production and two separate companies are looking for cleanup products to bring to the Market there.

**Any significant elements of income or loss that do not arise from the Issuer's continuing operations**

None.

**The causes for any material changes from period to period in one or more line items of the issuer's financial statements**

The company is engaged in the process of purchasing a surplused paper mill property and intends to expand its production capacity and to add cellulose insulation production into the mix, producing Sorbent as demand dictates and insulation during any lull in the demand for sorbent. The market for insulation – although less lucrative – is very strong regionally.

**Any seasonal aspects that had a material effect on the financial condition or results of operation**

None.

**Off-Balance Sheet Arrangements**

The Company does not have any “off balance sheet” arrangements.

**Item 5 Legal proceedings.**

There are no current past, pending or threatened legal proceedings or administrative actions either by or against the issuer that could have a material effect on the issuer's business, financial condition or operations.

**Item 6 Defaults upon senior securities.**

As of the date of this disclosure, there are no material defaults in the payment of principal, interest, a sinking or purchase fund installment, or any other material default.

**Item 7 Other information.**

**Entry into a Material Definitive Agreement.** N/A

**Termination of a Material Definitive Agreement.** N/A

**Completion of Acquisition/Disposition of Assets, including but not limited to Mergers.** N/A

**Creation of a Direct Financial Obligation or an Obligation under an Off Balance Sheet Arrangement of an Issuer.** N/A

**Triggering Events That Accelerate or Increase a Direct Financial Obligation or an Obligation under an Off-Balance Sheet Arrangement.** N/A

**Costs Associated with Exit or Disposal Activities.** N/A

**Material Impairments.** N/A
