

GOLD AND SILVER MINING OF NEVADA, INC., FINDS A GOOD AMOUNT OF GOLD AND SILVER IN NEW MINING LOCATIONS IN NEVADA

Las Vegas, NV – August 13, 2014

Gold & Silver Mining of Nevada, Inc. (PINK SHEETS: CJTF), a junior mining company in Nevada, announces confirmation of significant gold and silver in new mining claims.

WE FOUND GOLD AND SILVER: The recent 1 ton sample over 7 placer mining claim areas in Nevada of (31) 20 acre claims equivalent were screened and assayed. The results came back from contract processor and showed very good results. Now further sampling will occur over a larger range and depth when expanded permits allow. Each of the 7 claim areas produced gold and silver dore results.

The assay results showed gold content at a range from .1702 ounces per ton (5 .27 grams per ton) to .3356 ounces per ton (10.4 grams per ton) from the sample concentrated into processing from the 1 ton collected of which only 714 lbs of the 1 ton was sieved at 2mm.

These gold values are verified by an experienced third party processor we have been using and our new claims in central Nevada will now follow a faster program to develop a inferred resource base for full scale operation.

N. Fred Anderson of CJT Mining, Inc and Brian R. Collins of Collins Mining, each 50% co owners of the claims were both in the field and assisted in the sampling. CJT Mining, Inc. is a wholly owned subsidiary of Gold and Silver Mining of Nevada, Inc. (Stock symbol CJTF).
