Electronic Control Security, Inc. Announces

Its Reporting on OTC Markets.com

CLIFTON, N.J., August 11, 2015 — Electronic Control Security, Inc. (OTC Pink Sheets EKCS) (ECSI), a leading provider of electronic security system technologies to the government and private sectors, announced the decision by the company to begin reporting of its news releases and financial reports in order to keep our shareholders informed on the current status of events. The information is available at www.otcm Markets.com.

Arthur Barchenko, President and CEO stated, “On September 29, 2014, ECSI decided to go dark in order to conserve cash and protect our shareholders. ECSI had invested over a million dollars in government proposals either as a small business prime or as a small business sub-contractor to large corporations. We were awarded six contracts, two small business prime and four small business sub contracts, but there have been no funded task orders for physical security technology over the past three years. Further, a number of other proposals we submitted have yet to be awarded, and extensions in scope and price have been granted the government agencies.”

Mr. Barchenko further stated “ECSI has survived by downsizing while maintaining its relationship with its long-term clients by maintaining and upgrading their technology and through limited new product sales to its existing customers. We are pleased to state that our current product backlog and our “Bid To Build” proposals amount to \$7,103,000. This is based on committed contracts and firm product proposals now in progress and/or projected to close in the first and second quarters of Fiscal 2016. Therefore, based on these developments, we have decided to become a reporting company on OTC Markets. Further, you will be seeing quarterly and year end financial reports going forward.”

Mr. Barchenko added, “It has been a long, hard and difficult task in keeping ECSI a viable entity. I believe we have done that with the support of our executives and employees who have contributed their time, effort and financial resources for ECSI and its shareholders.

“We plan on issuing periodic news releases on the progress we are making in closing our outstanding proposals and delivering on our contracts.”

ECSI SAFE HARBOR STATEMENT: This press release contains forward-looking statements that involve substantial uncertainties and risks. These forward-looking statements are based upon our current expectations, estimates and projections about our business and our industry and reflect our beliefs and assumptions based upon information available to us at the date of this release. We caution readers that forward-looking statements are predictions based on our current expectations about future events. These forward-looking statements are not guarantees of future performance and are subject to risks, uncertainties and assumptions that are difficult to predict. Our actual results, performance or achievements could differ materially from those expressed or implied by the forward-looking statements as a result of a number of factors, including but not limited to, acceptance of our proposals, sufficiency of working capital, receipt and timing of collections from purchase orders, the availability of working capital, changes in economic conditions generally and in our industry specifically, changes in security technology, legislative or regulatory changes that affect us, changes in costs and the availability of goods and services, the introduction of competing products, changes in our operating strategy or development plans, sufficiency of cash reserves and the risks and uncertainties discussed under the heading "RISK FACTORS" in Item 1 of our Annual Report on Form 10-K for the fiscal year ended June 30, 2009 and in our other filings with the Securities and Exchange Commission. We undertake no obligation to revise or update any forward-looking statement for any reason.
