

ID Global Corporation Assists Atlantic Pacific, LLC in Re-Launch of Midwest Operations

Hinsdale, Illinois--(December 23, 2013) – ID Global Corp. (OTC: IDGC) is pleased to announce that with the recent round of funding for Atlantic Pacific, LLC (AP) it has begun to move the equipment necessary for a full re-launch of its Midwest operations with a primary focus on the Chicagoland area. AP plans to start with three trucks and a max capacity of 8500 gallons per day.

Sebastien DuFort, president and CEO stated "Things are moving along with AP and we see a great opportunity to re-kindle some old accounts that have already accepted our new pricing structure and get started right away. The Chicagoland area is low hanging fruit for us as IDGC has a physical presence here and can oversee the re-launch."

About Atlantic Pacific, LLC

AP's mission is to ensure its companies procure the highest quality products and services at the best value for its customers as a result of the inter-company relationships. Frequent customer interaction, strong vendor relations and continuous review and improvement of its processes will further this goal. The Company currently operates in five regions in the continental U.S. These reclaimed products can be easily integrated into any operation. Since this energy source is renewable, the Company believes it is in line with current trends towards environmentally conscious products which also supports a worldwide market. Through one of our established companies, the used lube oil is taken in via the company's own truck fleet. The oil is tested and processed to meet the strict guidelines of water and chlorine content, once within the proper parameters, the oil is loaded and transported by way of rail to the re-refinery where it is processed further into but not limited to; base oil or vacuum gas oils. The company's management and staff have over 28 years of experience in the waste oil industry. The company is currently operating with a supply contract to the largest used oil re-refiner in volume for 2011-2012. The current renewable contract is for another two and a half years. The company, since its inception, has consistently been the re-refiner's largest supplier of used lube oil feedstock. The Company anticipates sales to the re-refining market which includes Omega Refining (www.omegarefining.com) and Safety-Kleen, Inc. as well as to the burner fuel market.
