Basis of Presentation

The financial information set forth herein is unaudited. This financial information, in the opinion of management, includes all adjustments consisting of normal recurring entries necessary for the fair presentation of such data. The fiscal year end of the Company is December 31.

**NOTE 2- SIGNIFICANT ACCOUNTING POLICIES**

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of income and expenses during the reporting period. Actual results could differ from those estimates.

#### Cash and Cash Equivalents

The Company considers all highly liquid investments purchased with an original maturity of three months or less to be cash equivalents. As of March 31, 2016, the Company had no cash equivalents.

#### Income Taxes

Deferred tax assets and liabilities are determined based on the differences between the financial reporting and tax bases of assets and liabilities using the enacted tax rates and laws that will be in effect when the differences are expected to reverse. A valuation allowance is established when necessary to reduce deferred tax assets to the amounts expected to be realized.

The Company accounts for income taxes under the provisions of Financial Accounting Standards Board Accounting Standards Codification 740, *Accounting for Income Taxes*. It prescribes a recognition threshold and measurement attributes for the financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. As a result, the Company has applied a more-likely-than-not recognition threshold for all tax uncertainties. The guidance only allows the recognition of those tax benefits that have a greater than 50% likelihood of being sustained upon examination by the various taxing authorities.

#### Basic and Diluted Net Loss per Share

Basic and diluted net loss per share calculations are calculated on the basis of the weighted average number of common shares outstanding during the year. Diluted loss per share calculations includes the dilutive effect of common stock. Basic and diluted net loss per share is the same due to the absence of common stock equivalents.

#### Fair Value of Financial Instruments

The Company's financial instruments including cash approximate their fair value due to their short term maturities.

#### Recent Accounting Pronouncements

The Company does not expect the adoption of any recently issued accounting pronouncements to have a significant impact on its financial position, results of operations or cash flows.

The Company currently has a small executive management group, which is sufficient for its present stage of development. The Company has relied, and will continue to rely, upon a number of consultants and others for operating expertise. The loss of a member of this group could have a material adverse effect on the Company.

## **Evaluation of Disclosure Controls and Procedures**

Based on their evaluation of our disclosure controls and procedures(as defined in Rule 13a-15e under the Securities Exchange Act of 1934 the "Exchange Act"), our principal executive officer and principal financial officer have concluded that as of the end of the period covered by this report such disclosure controls and procedures were not effective due to the lack of segregation of duties and lack of a formal review process that includes multiple levels of review to ensure that information required to be disclosed by us in reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in Securities and Exchange Commission rules and forms because of the identification of a material weakness in our internal control over financial reporting which we view as an integral part of our disclosure controls and procedures. The material weakness relates to the lack of segregation of duties in financial reporting, as our financial reporting and all accounting functions are performed by an external consultant with no oversight by a professional with accounting expertise. Our CEO /CFO do not possess accounting expertise and our company does not have an audit committee. This weakness is due to the company's lack of working capital to hire additional staff. To remedy this material weakness, we intend to engage another accountant to assist with financial reporting as soon as our finances will allow.

## **Changes in Internal Control over Financial Reporting**
