5) Financial Statements

These financial statements have not been audited but have prepared in accordance with generally accepted accounting principles.

6) Describe the Issuer's Business, Products and Services

- (A) The Issuer was organized under the laws of the State of Florida on 05/05/2005.
- (B) The issuer's primary and secondary SIC Codes; Primary SIC Code: 6726.
- (C) The issuer's fiscal year end date; The Issuer's fiscal year end date is December 31.
- (D) Business of Issuer:

The Issuer completed a shares exchange with EPA Petroleum, Inc. and filed in November, 2014 to change the name and symbol to World Oil Group, Inc. (WOGI) which went effective in December, 2014.

World Oil Group, Inc., (WOGI) is a petroleum company that focuses on three areas of the Petroleum industry: 1) Oil & Gas Exploration & Production, 2) Energy Trading and 3) Enhanced Oil Recovery (EOR) and Remediation.

WOGI has been scaling up operations in the Middle East North Africa (MENA), Gulf States and Central/South American regions as from 2015 forward.

EPA Petroleum, Inc. (EPA) is a wholly owned subsidiary of World Oil Group, Inc. (WOGI) and currently represents WOGI's Exploration & Production. The Company is an independent producer of crude oil and natural gas. EPA Petroleum is actively involved in drilling activities within the Commonwealth of Pennsylvania using Xite Energy, Inc. as its subcontractor drilling partner.

World Oil Group, Inc. is now taking the path-breaking challenge in Petroleum Engineering Education via Petroleum Engineering Workshops and Conferences taught by Dr. Samuel Armacanqui, who has over 20 years field experience in MENA/Central/South American Oil Fields and plans to lead the world on its "Sustainable Oil & Gas Field Model" implementing the concepts and related applications model in the Petroleum Industry. WOGI is always seeking new opportunities in the petroleum industry and will look to develop economic growth in the areas it works. As WOGI enters into a market, it will seek to help bring jobs within its footprint. World Oil Group's vision is to grow exponentially with the Petroleum Industries using "The Sustainable Oil & Gas Fields" concepts and applications for E&P & EOR, and Energy Trading in the USA and around the world.

In December of 2013, EPA signed an agreement to drill and service 10 wells for Benchmark Standard, LLC for \$1,250,000. WOGI shall receive a net revenue interest of

80% of the Oil production from the 10 wells and initially collect \$350 per month per well for monthly operations of the wells. EPA has drilled all 10 wells and has begun fracking for oil on 5 of those wells in April 2015. WOGI has fracked the first 5 oil wells and wells 1, 2, and 3 are pumping with wells 2 & 3 on Oil. Well 4 started pumping on August 3, 2015 and is anticipated to come on Oil in 20 - 30 days, as of the filing of this report Ergon has picked up 3 truckloads of Oil at approximately 150 barrels each.

EPA Petroleum, Inc. markets these wells to institutional buyers and industry partners who pay EPA Petroleum, Inc. on to drill and service the wells for a fee and revenue share. In exchange buyers are afforded the opportunity to take advantage of generous tax advantages, while having a revenue producing wells for many years. This is a mutual benefit for both EPA Petroleum, Inc. and the drilling client.

WOGI and its affiliates currently have the ability to drill up to another 90 wells on its current leases. WOGI has developed relationships with local land/mineral owners securing an estimated additional 2,000 acres of oil producing properties for additional development.

EPA entered into the agreement with Benchmark for a lower percentage to get in the game, now that WOGI has proven it can design, develop, drill and produce Oil, all new well packages will come with a high back end percentage for WOGI. WOGI will seek to develop and sell individual 5 and 10 well packages annually which should produce annual revenue in excess of \$1.2 million dollars.

In April of 2015, WOGI acquired the Assets of Environmental Protection Associates, Inc. whose products are the World's Most Effective 100% H₂O based Non Toxic, Non-Flammable, and Non-Carcinogen Environmentally friendly products. Its products can be used in all phases of the Oil, Gas & Mining Industry and specifically in 5 major areas 1) Shoreline Clean Up for Hydrocarbon Spills, 2) Oil Sheen Removal in all Hydrocarbon Spills, 3) Oil Tanks / Tankers (helps to reclaim Oil BS&W back into Re-sellable Crude, 4) Petroleum/Paraffin Removal treatment for use in all phases of the oil industry. It will remove wax accumulation, targets paraffin and asphaltene accumulations, returns paraffin to the oil phase of the crude, and kills algae/mold, all without lowering the quality of the fuel, and 5) to eliminate the usage of toxic chemicals used in Gold Mining.

In April of 2015, WOGI acquired EOR360, Inc. in a Share Exchange EOR360 had acquired the MENA Middle East North Africa marketing rights from EPAI and formed an alliance with EOR360-Egypt, LLC of Virginia, which in turn opened an office in Nasr City, Egypt named EOR360-Egypt to promote the EPA, Inc.'s products and services. EOR360-Egypt, LLC of Virginia has been making strides by establishing a fully registered and capitalized company registered with the Egyptian General Petroleum Corporation (EGPC). EOR360-Egypt is a seven-figure funded local Egyptian company headed by Egyptian Construction Tycoon and his longtime friend and local partner, Mr. Abdul Rahman Seoudy and Retired General Mr. Ahmed Rahman.

PERU

CEO, Nathan Hall, and COO, Dr. Samuel Armacanqui, met in Lima, Peru with Petro Peru officials to discuss taking over an oil field that currently produces 3,000 bpd. Dr. Armacanqui's historical performance leads him to believe the company will be able to bring this oil field from a 3,000 bpd oil production to a 20,000 bpd production range in 24 months. Historical performance of similar fields have shown to further increases to 40,000 bpd production in an additional 24 months, utilizing EOR methods and protocols. WOGI's team will also discuss all potential opportunities with its new remediation and EOR products. The meeting took place the first week of September 2015.

The company met opposition in late 2015 when the block being discussed went into heavy scrutiny and went before the Peruvian Congress regarding who will operate this oil block. This is still in contention.

The company signed an agreement with a concessionaire to obtain co-concession rights to 4,081 hectares of some of the most bio diverse land in the world in the Tambopata area of the State of Madre de Dios. Since the termination of local advisor and former Peruvian signatory, Richard Varrialle, the company will seek a new agreement.

Since June 2016, the company has been in negotiations with government officials to build a micro oil refinery with scalability from 5,000 to 20,000 bpd. The company submitted its official request and executive summary of a master plan on August 22, 2016. On March 4, 2017, an official response was given to move forward with a public-private initiative.

OMAN

WOGI has not been able to set the meeting for Oman because of the holy month of Ramadan and Eid Mubarak, but will seek to try to meet with Soltex, LLC, officials towards the end of September 2015 to finalize negotiations.

The parties are still in communication and will revisit this opportunity in the future.

LIBYA

Environmental Protection Associates, Inc. entered in an Agency Agreement with ALMAWRED to appoint and authorize ALMAWRED as its Agent. The Agent shall be deemed its exclusive agent in connection with the marketing of the Products and Services yet to be identified for the Ministries/Projects in Libya.

WOGI remains in regular communication with ALMAWRED and is waiting on the in-country situation to stabilize as hyperinflation has caused the Libyan Dinar to dramatically weaken against the US Dollar, making it very difficult to pay for services.

BAHRAIN

WOGI acquired a contract with Awan International General Trading, as part of its assets purchase agreement with Environmental Protection Associates Inc. (EPAI), in April 2015. The current contract is for 99 years and covers 11 countries with annual revenues estimated at \$3,000,000, for the manufacturing of the AWAN PRA Oil Field Products. WOGI is seeking to work with AWAN on EOR projects in the region without placing a financial strain on the Company or to dilute the Company. WOGI will supply technical support while AWAN supplies logistical support.

CEO, Nathan Hall, spoke with AWAN's Sales & Marketing Director, Mr. James Gard, and Principal Owner, Mr. Nasir Awan, regarding the transfer of its existing 99 year contract as defined in agreement "Indefinite Time Period" with Environmental Protection Associates, Inc. directly to World Oil Group, Inc. This agreement is for the manufacturing of the AWAN PRA Oil Field Products. WOGI's CEO proposed to Mr. Awan and Mr. Gard to further expand its relationship into Oil Field Services with the "Sustainable Oil and Gas Field" model. All agreed to explore the opportunities.

AWAN had entered into a mutually exclusive relationship with Environmental Protection Associates, Inc. to import and distribute all Environmental Protection Associates, Inc.'s products. AWAN has identified numerous EOR opportunities in Indochina.

AWAN has a strong business history in the import/export of commodities throughout the GCC (Bahrain, Saudi Arabia, Kuwait, Qatar and the United Arab Emirates) as well as Pakistan, China and Malaysia.

Mr. Hall and WOGI's incoming COO, Dr. Samuel Armacanqui, will travel to Bahrain in the near future to solidify the revised terms of the contract, and explore the identified areas.

BAHAMAS

At the end of May 2015, CEO Nathan Hall, together with Dr. James Bennett, Jon Malis and team, spent several days in the Bahamas and met with the President of the Grand Bahama Port Authority, Limited, Mr. Ian Rolle, and Senior Business Development and Marketing Manager at The Grand Bahama Port Authority, Limited, Mr. Derek Newbold. During the meetings, several business opportunities were discussed including World Oil Professional Education & Certifications "WOPEC" an online school which will act as adjunct to the seminars taught by Dr Samuel Armacanqui. The main purpose of the meeting was to discuss WOGI building a micro refinery with the capabilities to produce 5,000 bpd and scale production up to 25,000 bpd. A full site survey was also completed.

The Bahamas has the 4th largest fuel storage capacity in the world and only about 65% is currently being used. Having a refinery located in the Bahamas will be a strategic location for the new Nicaraguan canal being built and for the cruise ship industry, and the Bahama Port Authority has agreed to purchase 30% of the fuel being refined. WOGI has

the support of the Port Authority to move forward with the project and the Port will assist WOGI in any way it can to help bring jobs to the Island. WOGI has already located a 5,000 bpd refinery turnkey out of the box including installation, once the refinery is up and running the labor will shift to 75% Bahamians and 25% non-Bahamians. To build the refinery, WOGI was working with a JV partner, Baron Capital Enterprise, Inc. (OTC: BCAP), who would put up the funds to purchase the refinery and its initial start-up costs.

Thereafter, Baron Capital's President and CEO, Matt Dwyer, along with Derrick Lefcoe, promised to raise capital to build the refinery. BCAP failed to perform and together with another entity, Experience Art and Design, Inc. (OTC: EXAD) and Dr. James Bennett of Jackson, Mississippi, they collectively stole WOGI's intellectual property and opened up another public company, Bahamas Development Corporation (OTC: BDCI). Nothing further has transpired since.

7) Describe the Issuer's Facilities

The Company maintains a corporate office at:

609 N. Charles Richard Beall Blvd., Suite 105
Debary, FL 32713

8) Officers, Directors, and Control Persons

A. Names of Officers, Directors, and Control Persons

Nathan Hall
President, CEO, Chairman of the Board of Directors, and Control Person
609 N. Charles Richard Beall Blvd., Suite 105
Debary, FL 32713

B. Legal/Disciplinary History. Please identify whether any of the foregoing persons have, in the last five years, been the subject of:

1. A conviction in a criminal proceeding or named as a defendant in a pending criminal proceeding (excluding traffic violations and other minor offenses); **None**
2. The entry of an order, judgment, or decree, not subsequently reversed, suspended or vacated, by a court of competent jurisdiction that permanently or temporarily enjoined, barred, suspended or otherwise limited such person's involvement in any type of business, securities, commodities, or banking activities; **None**
3. A finding or judgment by a court of competent jurisdiction (in a civil action), the Securities and Exchange Commission, the Commodity Futures Trading Commission, or a state securities regulator of a violation of federal or state securities or commodities law, which finding or judgment has not been reversed, suspended, or vacated; **None**
4. The entry of an order by a self-regulatory organization that permanently or temporarily

barred suspended or otherwise limited such person's involvement in any type of business or securities activities. **None**

C. Beneficial Shareholders.

Nathan Hall – 2,120,000,000 shares of Common stock (92.6 percent)
500,000 shares of Preferred A stock (100 percent)
609 N. Charles Richard Beall Blvd., Suite 105
Debary, FL 32713

Grace Carlton - 30,000,000 shares of Common stock (1.3 percent)
609 N. Charles Richard Beall Blvd., Suite 105
Debary, FL 32713

9) Third Party Providers

Legal Counsel – Securities; Accountant or Auditor; Investor Relations **None**

I, Nathan Hall, certify that:

1. I have reviewed this 2017 Quarterly Disclosure Statement for the period ending June 30, 2017 of World Oil Group, Inc.
2. Based on my knowledge, this disclosure statement does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this disclosure statement; and
