NOTES TO FINANCIAL STATEMENTS
June 30, 2017 and December 31, 2016

Environmental Liabilities

The Company is subject to a variety of federal and state environmental regulations and agencies. The Company will only accrue liabilities for environmental claims and damages when it is probable and the costs are estimable.

Use of Estimates

Concentration of Credit Risk

The Company places its cash in financial institutions which are insured by FDIC. At times, such cash may be in excess of the FDIC insurance limits.

NOTE 2 – INCOME TAXES

The Company accounts for income taxes under principals, which requires the Company to recognize deferred tax assets and liabilities for the expected future tax consequences of events that have been recognized in the Company's financial statements or tax returns. Under this method, deferred tax assets and liabilities are determined based on the difference between the financial statement carrying amounts and tax basis of the assets and liabilities using enacted tax rates. The Company has no significant differences between book and tax accounting. At June 30, 2017, the Company had an estimated tax loss carry-forward of approximately \$3,500,000. Due to uncertainties as to future profitability, the value of the net operating loss carry forward is fully reserved.
