### **1. NATURE OF OPERATIONS**

Ethos Gold Corp. (the “Company” or “Ethos”) was incorporated on March 12, 2007 under the British Columbia Business Corporations Act. In 2009, it began trading on the TSX Venture Exchange (“TSX-V”) as a Tier 2 company under the symbol ECC. Its registered office is located at 1430 – 800 West Pender Street, Vancouver, BC, V6C 2V6. The Company’s principal business activities are the identification, exploration and development of economically viable mineral properties.

The Company’s operations during the six months ended June 30, 2017 were solely directed towards the search for business opportunities in favorable jurisdictions.

These financial statements have been prepared on the basis that the Company will be able to realize its assets and discharge its liabilities in the normal course of business. The ability of the Company to continue as a going concern is dependent on obtaining additional financing and if required through the issuance of debt or equity. There is a risk that additional financing will not be available on a timely basis or on terms acceptable to the Company. These financial statements do not reflect the adjustments or reclassifications that would be necessary if the Company were unable to continue operations in the normal course of business.

### **2. BASIS OF PREPARATION**

#### **Statement of compliance**

These condensed interim financial statements, including the comparative statements, have been prepared in accordance with International Accounting Standards (“IAS”) 34, Interim Financial Reporting using the same accounting policies and methods as were used for the Company’s financial statements and the notes thereto for the year ended December 31, 2016 (“Annual Financial Statements”). These financial statements should be read in conjunction with the Annual Financial Statements.

#### **Basis of Preparation**

These financial statements have been prepared on a historical cost basis, except for cash and cash equivalents classified as fair value through profit or loss which has been measured at fair value.

#### **Changes in accounting standards not yet adopted**

IFRS 9 uses a single approach to determine whether a financial asset is measured at amortized cost or fair value, replacing the multiple classification options in IAS 39. The approach in IFRS 9 is based on how an entity manages its financial impairment methods in IAS 39. The effective date for application of IFRS 9 was revised from annual periods beginning on or after January 1, 2015, to annual periods beginning on or after January 1, 2018, with earlier adoption permitted. The Company is currently evaluating the impact of the adoption of the amendments on its financial statements; however, the impact, if any, is not expected to be significant.

	Yukon Canada	Total
<b>Acquisition Costs</b>		
Balance, December 31, 2016 and June, 30, 2017	\$ 1	\$ 1

#### WC Property, Yukon

The Company staked a 44 claim property in 2012. This property will remain in good standing until 2018 with no further expenditures.

### 4. SHARE CAPITAL

#### (a) Authorized

Unlimited number of common shares without par value  
Unlimited number of preferred shares without par value

#### (b) Common shares – Issued and outstanding

Common shares - At June 30, 2017 and December 31, 2016 the Company had 47,335,381 common shares issued and outstanding.

Preferred shares – At June 30, 2017 and December 31, 2016 no preferred shares were issued and outstanding.

- i) On May 12, 2016, the Company completed a non-brokered private placement of 3,876,470 units at a price of \$0.17 per unit for gross proceeds of \$659,000. Each unit is comprised of one common share and one non-transferable common share purchase warrant exercisable for a term of two years. Each common share purchase warrant entitles the holder thereof to purchase one additional common share of the Company at an exercise price of \$0.30 per common share during the term of the warrant. The Company incurred \$6,167 in related expenses. No finder's fee was paid in connection with the private placement.

#### (c) Share purchase options

Share purchase options are granted at an exercise price equal to the estimated fair value of the Company's common shares on the date of the grant.

On June 22, 2010, the Company implemented a new Share Option Plan for the benefit of directors, employees, management company employees and consultants of the Company. The Plan provides that the directors of the Company may grant options to purchase common shares on terms that the directors may determine. The maximum aggregate number of common shares that may be reserved for issuance under the Plan is 10% of the issued and outstanding common shares of the Company at the time of grant. At June 30, 2017, 3,190,000 share purchase options were outstanding.

### 4. SHARE CAPITAL (continued)

#### (c) Share purchase options (continued)

A summary of the status of the Company's share purchase options outstanding is presented below:

	<b>June 30, 2017</b>		<b>December 31, 2016</b>	
	Number of Shares	Weighted Average Exercise Price	Number of Shares	Weighted Average Exercise Price
Outstanding, beginning of period	3,190,000	\$0.28	2,085,000	\$0.31
Granted	-	-	1,340,000	\$0.30
Expired	-	-	(235,000)	\$0.69
Outstanding, end of period	3,190,000	\$0.28	3,190,000	\$0.28

As at June 30, 2017, the following share purchase options were outstanding and exercisable:

<b>Expiry date</b>	<b>Outstanding Options</b>	<b>Weighted Average Exercise Price</b>	<b>Weighted Average Remaining contractual life (in years)</b>	<b>Exercisable Options</b>
May 16, 2018	1,000,000	\$0.36	0.88	1,000,000
Aug 2, 2019	100,000	\$0.20	2.09	100,000
Jul 29, 2020	750,000	\$0.15	3.08	750,000
Jun 22, 2021	1,340,000	\$0.30	3.98	1,340,000
	3,190,000	\$0.28	2.23	3,190,000

The weighted average grant-date fair value of share purchase options granted during the six months ended June 30, 2017 was \$nil (Year ended December 31, 2016 - \$0.17) per share purchase option. The Company determines the fair value of options granted using the Black-Scholes model for share purchase options issued to employees. The Company determines the fair value of share purchase options issued to non-employees using the value of services provided by the non-employees.

### 4. SHARE CAPITAL (continued)

#### (c) Share purchase options (continued)

The following weighted-average grant date assumptions were used in valuing share purchase options granted during the six months ended June 30, 2017 and the year ended December 31, 2016 to directors, officers and employees:

	June 30, 2017	December 31, 2016
Weighted average share price	n/a	\$0.30
Weighted average exercise price	n/a	\$0.30
Risk-free interest rate	n/a	0.70%
Expected volatility <sup>(1)</sup>	n/a	69%
Expected years of option life <sup>(2)</sup>	n/a	5
Expected dividends	n/a	Nil

<sup>(1)</sup> Expected volatility was determined based on the historical volatility of the Company over a period commensurate with the expected option life

<sup>(2)</sup> The effects of early exercise were not incorporated into the model as the options are expected to be held for the contractual life.

#### (d) Share purchase warrants

### **8. COMMITMENT AND CONTINGENCIES**

The Company's exploration activities in the Yukon Territory are subject to various federal, provincial and state laws and regulations governing the protection of the environment. These laws and regulations are continually changing and generally becoming more restrictive. The Company conducts its operations so as to protect public health and the environment, and believes its operations are materially in compliance with all applicable laws and regulations. The Company makes, and expects to make in the future, expenditures to comply with such laws and regulations, including any reclamation at its mineral properties, on a continuous basis.

### **9. MANAGEMENT OF CAPITAL**

The Company's objectives when managing capital are to safeguard its ability to pursue its objectives. The Company measures its capital as its shareholders' equity. The Company's primary source of capital is the issuance of equity.

The Company manages and adjusts its capital structure whenever changes in economic conditions occur. To maintain or adjust the capital structure, the Company may seek additional funding.

The Company may require additional funding to meet its administrative overhead expenses in the long term. The Company believes it will be able to raise capital as required, but recognizes there will be risks involved that may be beyond its control.

The Company expects its current capital resources will be sufficient to carry out its exploration plans and operations through at least the next twelve months. There are no external restrictions on the Company's capital.

### **10. FINANCIAL INSTRUMENTS**

The Company is exposed to credit risk, liquidity risk and interest rate risk from its financial instruments which include cash and cash equivalents, amounts receivable, accounts payable and accrued liabilities. The Company is not exposed to significant market or other price risks.

#### Credit risk

Credit risk is the risk of an unexpected loss if a customer or third party to a financial instrument fails to meet its contractual obligations. The Company's cash and short term investments are on deposit at a major financial institution. Amounts receivable consist primarily of goods and services tax refunds due from the Government of Canada and are neither past due nor impaired. As such, the Company considers its exposure to credit risk to be minimal.

#### Liquidity risk

Liquidity risk is the risk that the Company will be unable to meet its financial obligations as they come due. The Company is exposed to liquidity risk through its accounts payable, accrued liabilities and amounts due to related parties, which are all due on demand. The Company uses cash forecasts to ensure as far as possible that there is sufficient cash on hand to meet short-term business requirements. Cash is invested in highly liquid investments which are available to discharge obligations when they come due.

### **10. FINANCIAL INSTRUMENTS (continued)**

#### Interest rate risk

Interest rate risk is the risk that changes in interest rates will affect the fair value or future cash flows of the Company's financial instruments. The Company is exposed from time to time to interest rate risk as a result of holding fixed rate temporary investments of varying maturities. The Company reduces the risk that it will realize a loss as a result of a decline in the fair value of these investments by limiting these investments to highly liquid securities with short-term maturities.

As at June 30, 2017, the Company estimates that a 1% change in prevailing interest rates would change the fair value of future cash flows from the Company's financial instruments by approximately \$1,000 (December 31, 2016 - \$1,000).
