ITEM 4 - ISSUANCE HISTORY

Common Stock

During the six months ended August 31, 2017, the Company issued 2,000,000 shares of common stock to a third party for website development costs. The Company valued the shares at $300,000; the fair value on the date of grant.

During the six months ended August 31, 2017, the Company issued 50,000 shares of common stock to investors according to the terms provided in the Company's cash subscription agreement. The shares were issued at par value.

Prior to the twelve months ended February 28, 2016, the Company granted 30,440 options to employees and directors with a term of 5 years and exercisable at prices ranging from $0.098 to $0.127 per share. 8,000 options vested immediately while the remaining 22,440 options vest at a rate of 33% on the grant date, 33% one year from the grant date and the remaining 33% two years from the grant date. The fair value of the options was determined using a Black Scholes model. The total grant date fair value of the options amounted to $3,630,278 of which $0 and $22,755 was recorded as stock compensation expense during the six months ended August 31, 2017 and 2016, respectively.

During the year ended February 28, 2017, the Company issued 2,425,000 shares of its common stock to investors for cash consideration of $90,000. During the year ended February 28, 2017, the Company issued 220,000 shares of its common stock to extinguish a demand note payable and related accrued interest in the amount of $5,000 and in exchange for executing an Advisory consulting Agreement.

At various dates during the year ended February 28, 2017, the Company issued 6,060,999 shares of common stock to investors according to the terms provided in the Company's cash subscription agreement.

At various dates during the year ended February 28, 2017, the Company issued 1,853,750 shares of common stock to consultants as compensation for services rendered for a value of $410,044.

At various dates during the year ended February 28, 2017, the Company issued 2,958,126 shares of common stock to note holders in exchange for principle and interest on loans and notes payable for an aggregate value of $452,752.

On April 4, 2016, the Company cancelled 1,530,000 shares of common stock held by the Company's former Director/CEO.

Preferred Stock, Series A

During the year ended February 29, 2016, the Company issued 2,000,000 shares of its Series A Preferred Stock to related parties as consideration for the purchase of intellectual property. The fair value of the shares of $17,800, based on the value of the control feature, was recorded as expense during the year ending February 29, 2016.

On September 9, 2014 and October 13, 2014 Biodynamic Molecular Technologies, LLC (a commonly controlled shareholder) agreed to cancel a total of 16,000 common shares of the Company in exchange for 1,000,000 shares of Series A Preferred stock and 20,000,000 shares of Series B Preferred stock.

Preferred Stock, Series B

On September 9, 2014 and October 13, 2014 Biodynamic Molecular Technologies, LLC (a commonly controlled shareholder) agreed to cancel a total of 16,000 common shares of the Company in exchange for 1,000,000 shares of Series A Preferred stock and 20,000,000 shares of Series B Preferred stock.

The Company estimated the fair value of the 20,000,000 shares of common stock based on the trading price on date of the exchange, and the fair value of the preferred stock using a probability weighted expected return method (PWERM) and recorded expense equal to the excess of the fair value of the preferred stock over the common stock of $476,000, which is included in loss on acquisition of intellectual property from a commonly controlled entity on the consolidated statements of operations.

NOTE 1 – Organization and Significant Accounting Policies

Nature of Business

Radiant Creations Group, Inc. ("the Company") has created innovative technologies in skin protection and enhancement, which consist of various proprietary products including an anti-aging and revitalizing skin cream generally sold under the "Radiant Creations" label. The Company's principal business is the development and marketing of unique and proprietary scientific technologies and cosmetic and over-the-counter personal enhancement products and devices and currently sells its products exclusively over the internet to customers located within the USA.

Effective January 4, 2017, the Company formed Palm Beach Pure, Inc., a wholly owned subsidiary incorporated in the State of Florida. Palm Beach Pure, Inc. is authorized to issue 1,000,000,000 common shares and its stated par value is $0.0001. The Company was formed to hold products developed under the Palm Beach Pure brand.

NIT Enterprises, Inc. ("NIT") was incorporated in the state of Delaware on May 12, 2014 and is doing business in the State of Florida. As of February 29, 2016, NIT was majority owned by the Company and was formed to permit Radiant Creations Group to "spin-off" the Nucleotide ("NA") technology it holds.

On March 11, 2016, the Company executed a General Release and Separation Agreement with NIT Enterprises, Inc. and other related and unrelated parties wherein the parties agreed to separate NIT Enterprises Inc. and The Radiant Creations Group, Inc. Terms of the Separation include: Transfer of certain debt and accrued interest from Radiant to NIT, assumption of certain accounts payables of Radiant by NIT, cancellation of all related employment contracts of the officers and directors of both entities and transfer of ownership of series A and series B preferred stock from Mr. Gary R. Smith, the former CEO, to Michael S. and Gary D. Alexander, the current CEO and CFO, respectively, in exchange for 50% of the 10,000,000 founder shares of NIT held by Radiant and cancellation of 500,000 shares of NIT common stock held by Michael S. Alexander, CEO of Radiant.

Non-controlling Interest in Consolidated Financial Statements

The Company held a controlling interest in NIT Enterprises, Inc. and reported amounts attributable to non-controlling interest as separate components of deficit and net loss through the fiscal year ending February 29, 2016. As of February 28, 2017, the Company no longer reported its minority-interest in NIT in the financial statements as a result of the General Release and Separation Agreement consummated on March 11, 2016.

Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates. The Company's significant estimates include the valuation of stock-based compensation and derivative liabilities, estimates for future charge-backs, and allowance for slow moving or obsolete inventory.

Cash and Cash Equivalents

The Company considers all highly liquid investments with an original term of three months or less to be cash equivalents. As of August 31, 2017 and 2016, the Company had no cash equivalents.

Inventory

Inventory consists of finished goods and is valued at the lower of cost or market value. Cost is determined using the first in first out (FIFO) method. Provision for potentially obsolete or slow moving inventory is made based on management analysis or inventory levels and future sales forecasts.

Property and Equipment

Property and equipment are stated at cost, net of depreciation provided by use of a straight-line method over the estimated useful lives of the assets, of five years. The Company reviews property and equipment for potential impairment whenever events or changes in circumstances indicate that the carrying amounts of assets may not be recoverable.

Website Development Costs

The Company accounts for website development costs in accordance with Accounting Standards Codification 350-50 "Website Development Costs". Accordingly, all costs incurred in the planning stage are expensed as incurred, costs incurred in the website application and infrastructure development stage that meet specific criteria are capitalized and costs incurred in the day to day operation of the website are expensed as incurred.

The Company placed its main website (www.radiantcreations.com) into service prior to year 2014, with an anticipated redesign of the website in fiscal 2017. An additional website is has been developed for the Company's wholly owned subsidiary, Palm Beach Pure, Inc. All costs associated with the new website are subject to straight-line amortization over their expected useful life, a five year period. As of August 31, 2017, the Company has capitalized costs in the amount of $350,000 pursuant to a third party agreement entered into on January 19, 2017. The agreement encompasses a multi-phase project that includes a direct sales website, social media marketing, PPC marketing, influencer marketing, affiliate marketing, ambassador program, and a mobile application. The project is completed in four phases.

Intangible Assets

In accordance with ASC 350-30-65 "Goodwill and Other Intangible Assets", the Company assesses the impairment of identifiable intangible assets whenever events or changes in circumstances indicate that the carrying value may not be recoverable. Factors the Company considers important, which could trigger an impairment review include the following:

1. Significant underperformance compared to historical or projected future operating results;
2. Significant changes in the manner or use of the acquired assets or the strategy for the overall business; and
3. Significant negative industry or economic trends.

When the Company determines that the carrying value of an intangible asset may not be recoverable based upon the existence of one or more of the above indicators of impairment and the carrying value of the asset cannot be recovered from projected undiscounted cash flows, the Company records an impairment charge. The Company measures any impairment based on a projected discounted cash flow method using a discount rate determined by management to be commensurate with the risk inherent to the current business model. Significant management judgment is required in determining whether an indicator of impairment exists and in projecting cash flows.

For the three months ended August 31, 2017 and 2016, the Company did not impair any long-lived assets.

Advertising

The costs of advertising are expensed as incurred. Advertising expense was $750 and $195,532 for the six months ended August 31, 2017 and 2016, respectively.

Basic and diluted net loss per share

Basic loss per share is computed using the weighted average number of shares of common stock outstanding during each period. Diluted loss per share includes the dilutive effects of common stock equivalents on an "as if converted" basis. As of August 31, 2017, the number of potentially dilutive shares consisted of options to acquire 30,440 shares.

For the six months ended August 31, 2017 and 2016, potential dilutive securities had an anti-dilutive effect and were not included in the calculation of diluted net loss per common share.

Related parties

The Company follows subtopic ASC 850, Related Party Disclosure, for the identification of related parties and disclosure of related party transactions.

Revenue Recognition

The Company follows guidance under ASC 605, Revenue Recognition, in determining when to report income from operations. The Company recognizes revenues when persuasive evidence of an arrangement exists, the price is fixed or determinable, and collection of the resulting receivable is reasonably assured. Revenue recognized by the Company normally occurs upon shipment of our product to the customer.

Cost of Revenue

Amounts recorded as cost of revenue relate to direct expenses incurred in order to fulfill orders of our products. Such costs are recorded as incurred. Our cost of revenue consists primarily of the cost of product; refunds and chargebacks; processing fees; and the cost of product samples.

Cash flows reporting

The Company follows ASC 230, Statement of Cash Flows, for cash flows reporting, classifies cash receipts and payments according to whether they stem from operating, investing, or financing activities and provides definitions of each category, and uses the indirect or reconciliation method ("Indirect method") as defined by ASC 230, Statement of Cash Flows, to report net cash flow from operating activities by adjusting net loss to reconcile it to net cash flows from operating activities by removing the effects of (a) all deferrals of past operating cash receipts and payments and all accruals of expected future operating cash receipts and payments and (b) all items that are included in net loss that do not affect operating cash receipts and payments.

Share-based Expense

ASC 718, *Compensation – Stock Compensation*, prescribes accounting and reporting standards for all share-based payment transactions in which employee services are acquired. Transactions include incurring liabilities, or issuing or offering to issue shares, options, and other equity instruments such as employee stock ownership plans and stock appreciation rights. Share-based payments to employees, including grants of employee stock options, are recognized as compensation expense in the financial statements based on their fair values. That expense is recognized over the period during which an employee is required to provide services in exchange for the award, known as the requisite service period (usually the vesting period).

The Company accounts for stock-based compensation issued to non-employees and consultants in accordance with the provisions of ASC 505-50, *Equity – Based Payments to Non-Employees.* Measurement of share-based payment transactions with non-employees is based on the fair value of whichever is more reliably measurable: (a) the goods or services received; or (b) the equity instruments issued. The fair value of the share-based payment transaction is determined at the earlier of performance commitment date or performance completion date.

Share-based expense for the six months ended August 31, 2017 and 2016 was $0 and $421,549, respectively.

Income Taxes

The Company utilizes the asset and liability method to measure and record deferred income tax assets and liabilities. Deferred tax assets and liabilities reflect the future income tax effects of temporary differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases and are measured using enacted tax rates that apply to taxable income in the years in which those temporary differences are expected to be

recovered or settled. Deferred tax assets are reduced by a valuation allowance when, in the opinion of management, it is more likely than not that some portion or all of the deferred tax assets will not be realized.

The Company follows the provisions of Accounting for Uncertainty in Income Taxes, which clarified the accounting for uncertainties in tax positions and required that the Company recognizes in its financial statements the impact of an uncertain tax position, if that position has more likely than not chance of not being sustained on audit, based on technical merits of that position.

The Company is subject to the United States federal and state income tax examinations by the tax authorities for the 2017, 2016, and 2015 tax years.

Recently issued accounting pronouncements

In January 2017, the FASB issued ASU No 2017-4, *Intangibles — Goodwill and Other (Topic 350).* The new standard simplifies the Test for Goodwill Impairment. This update is effective for annual periods beginning after December 15, 2019, and interim periods within those fiscal years, with early adoption permitted, including adoption in an interim period. The Company is currently evaluating the impact of the pending adoption of the new standard on the Company's consolidated financial statements.

In August 2016, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") No. 2016-15 *Statement of Cash Flows (Topic 230): Classification of Certain Cash Receipts and Cash Payments.* The amendments in this ASU introduce clarifications to the presentation of certain cash receipts and cash payments in the statement of cash flows. The primary updates include additions and clarifications of the classification of cash flows related to certain debt repayment activities, contingent consideration payments related to business combinations, proceeds from insurance policies, distributions from equity method investees and cash flows related to securitized receivables. This update is effective for annual periods beginning after December 15, 2017, including interim periods within those fiscal years. Early adoption of this ASU is permitted, including in interim periods. The ASU requires retrospective application to all prior periods presented upon adoption. The Company intends to adopt the ASU for the fiscal year ending February 28, 2018.

In March 2016, the FASB issued ASU 2016-09, "Compensation - Stock Compensation (Topic 718): Improvements to Employee Share-Based Payment Accounting". The amendments are effective for public companies for annual periods beginning after December 15, 2016, and interim periods within those annual periods. Several aspects of the accounting for share-based payment award transactions are simplified, including: (a) income tax consequences; (b) classification of awards as either equity or liabilities; and (c) classification on the statement of cash flows. Management believes that this ASU will not have a significant impact on its financial statements

In February 2016, the FASB issued ASU No. 2016-02, *Leases (Topic 842).* This update requires organizations to recognize lease assets and lease liabilities on the balance sheet and also disclose key information about leasing arrangements. This ASU is effective for annual reporting periods beginning on or after December 15, 2018, and interim periods within those annual periods. Earlier application is permitted for all entities as of the beginning of an interim or annual period. Management is currently evaluating the overall effect adoption of this ASU will have on our financial condition, results of operations, and cash flows. We currently believe the adoption of this ASU will not have a significant effect on our Consolidated Balance Sheets.

NOTE 2 – Going Concern

The accompanying financial statements have been prepared on the basis of accounting principles applicable to a "going concern", which assume that the Company will continue in operation for at least one year and will be able to realize its assets and discharge its liabilities in the normal course of operations.

Several conditions and events cast substantial doubt about the Company's ability to continue as a going concern. The Company has a working capital deficit of $286,440 as of August 31, 2017 and has incurred net losses since inception. The Company's future capital requirements will depend on numerous factors including, but not limited to, executing its marketing and business plans and the pursuit of business opportunities. These factors raise substantial doubt regarding the Company's ability to continue as a going concern.

These financial statements do not include any adjustments to the recoverability and classification of recorded asset amounts and classification of liabilities that might be necessary should the Company be unable to continue as a going concern.

NOTE 3 – Non-controlling Interest

NIT Enterprises, Inc. was incorporated in the state of Delaware on May 12, 2014 and is doing business in the State of Florida. The Company was under common control with the management of Radiant Creations Group and was formed to permit Radiant Creations Group to "spin-off" the Nucleotide technology it holds. At February 29, 2016, the Company held 54.2% of NIT and 45.8% was held by non-controlling interests.

In March 2016, the Company transferred three third-party notes payable totaling $245,000, plus accrued interest to NIT Enterprises, Inc., its minority-owned subsidiary. In addition, the Company cancelled $730,556 in intercompany loans from NIT Enterprises, Inc. to the Company in exchange for 5,000,000 shares of NIT Enterprises, Inc. held by the Company as a Founder of NIT Enterprises. As a result, the Company no longer has controlling interest in NITE. As of February 28, 2017, the Company recorded a gain on the deconsolidation of NIT in the amount of $3,413,775.

NOTE 4 – Website Development Costs

On January 19, 2017, the Company's wholly owned subsidiary, Palm Beach Pure, Inc., entered into an agreement with a third party that encompasses a project to includes a direct sales website, social media marketing, PPC marketing, influencer marketing, affiliate marketing, ambassador program, and a mobile application. The entire project will be completed in four phases, the first of which is the development of a website with a direct sales platform for the Palm Beach Pure brand. Pursuant to the terms of the contract, the Company has agreed to pay $50,000 in cash and the balance through the issuance of 2,000,000 shares of Radiant Creations Group common stock for development costs. As of August 31, 2017, the Company paid a down-payment of $25,000 and has financed the balance of $25,000; payable over a period of six months and beginning May 1, 2017. The shares were recorded at fair value on the date of grant and the company has capitalized an additional $300,000 as a result. The Company is amortizing these costs over the expected useful life of five years. As of August 31, 2017, the Company has completed it proposed website work in advance of its estimated completion date. As a result, the Company was relieved of the balance of $25,000 due on the original note under its website and marketing development program. The $25,000 is recorded as forgiveness of debt income.

	May 31, 2017	May 31, 2016
Website development costs	$ 350,000	$ --
Less accumulated amortization	(40,834)	--
Website development costs, net	$ 309,166	$ --

Amortization of website costs was $40,834 and $0 for the six month periods ending August 31, 2017 and 2016, respectively.

NOTE 5 – Notes Payable

Notes payable

The company entered into a short-term note payable in connection with a website and marketing agreement made effective on January 19, 2017. The Company has agreed to repay $25,000 over a six month period with payments beginning on May 1, 2017. The note is considered an interest-free demand note payable. As of August 31, 2017 and 2016, the principle balance on the note was $25,000 and $0, respectively. As of August 31, 2017, the Company has completed it proposed website work in advance of its estimated completion date. As a result, the Company was relieved of the balance of $25,000 due on the original note under its website and marketing development program. The $25,000 is recorded as forgiveness of debt income.

ITEM 6 - DESCRIBE THE ISSUER'S BUSINESS, PRODUCTS AND SERVICES

A. Description of the issuer's business operations:

The Radiant Creations Group, Inc., formerly known as Nova Mining Corporation (the "Company") was incorporated in Nevada on December 29, 2005. From inception, the Company's principal business activity was the acquisition and exploration of mineral resources. On June 20, 2013, following a change of control and subsequent acquisition of an exclusive license agreement, certain assets and processes to innovative technologies in skin protection and enhancement, which consist of various proprietary products including an anti-aging, youth preservation and revitalizing skin crème generally under the "Radiant Creations" and "Palm Beach Pure" labels, the Company changed its principal business to the development and marketing of unique and proprietary scientific technologies and cosmetic and over-the-counter personal enhancement products and devices.

CURRENT MARKETING PLAN

Radiant Creations manages and deploys marketing campaigns as its means for generating revenues. The campaign process depends on outside services and in-house staff, which collectively contribute to its success.

Customer Service: Customer Service is a necessary part of every product-merchandising firm, but particularly when you work in Direct Response where "buyer's remorse" may occur more frequently. Radiant Creations contracts top of the line Customer Service that is based out of the US and made up of highly trained individuals, saving sales that might otherwise result in returns or dissatisfied customers. The familiarity of our Customer Service Staff with our complete inventory is vital to the integrity of Radiant Creations, as it appeases almost every customer inquiry. Customer Service staff is trained specifically to ensure customer satisfaction, and utilizes the services of an overflow center to ensure that calls are handled in a prompt manner.

Fulfillment: Our Fulfillment services provide real time tracking capability, which allows Radiant Creations to fulfill most orders within 24 hours. As such, we are able to guarantee timely, accurate shipments at great rates. Regardless of quantity, time frame, or weight Radiant Creations will process orders efficiently. The knowledgeable Fulfillment Center Staff works from early in the morning to late at night every day making sure each and every order ships timely and successfully.

COMPETITION

The skin care and online marketing businesses are characterized by vigorous competition throughout the world. Brand recognition, quality, performance and price have a significant impact on consumers' choices among competing products and brands. We compete against a number of companies, some of which have substantially greater resources than we do.

Our principal competitors consist of large, well-known, multinational manufacturers and distributors of skin care products, most of which market and sell their products under multiple brand names. We also face competition from a number of independent brands, as well as some retailers that have developed their own beauty brands.

RESEARCH AND DEVELOPMENT

We incurred no research and development expenditures to date.

INTELLECTUAL PROPERTY

We own an exclusive licensing agreement with Dr. Yin-Xiong Li, M.D., Ph.D and one trademark under the name "Revivasol".
