6) Describe the Issuer's Business, Products and Services

Describe the issuer's business so a potential investor can clearly understand the company. In answering this item, please include the following:

- A. a description of the issuer's business operations;

The Issuer acquired all the outstanding shares of Wave Electricity Renewable Power Ocean (WERPO) which owns the technology of generating electricity from the sea. The technology has been implanted in Israel and China with additional projects being negotiated. The projects require financial assistance from their joint venture partners which have not been forthcoming.

The Issuer had entered into an Agreement for the purchase of all the outstanding shares of Affiliated Genetics, Inc founded in April 1994. It provides dozens of medical DNA testing applications, a full range of genomic services, and DNA based, human identity testing. Located in Salt Lake city, UT, the laboratory provides outstanding customer service with a highly trained staff of scientists, technicians and customer service representatives.

The Issuer had completed a rigorous due diligence and concluded that Affiliated Genetics Inc would require substantial financial support which would hinder the operations of its affiliate WERPO. The Agreement was cancelled through the cooperation of both parties thereto.

On January 25, 2017, the Issuer entered into a preliminary acquisition agreement under the form of a letter of intent with California Sandwiches that has successfully operated for 50 years. The Issuer withdrew its interest in this project but nevertheless the Issuer continued to seek an acquisition in the food industry.

Subsequently, the Issuer had initiated negotiations which led to the acquisition of Pasta Romana a very successful food processing company offering Italian dishes, pasta and pizza. This business has been in operation since 1996 and distributes its products to Aldi, Costco, Imvescor, Loblaws, Maxi, Metro, Provigo, Sobeys, Super C and Trader Joe's. A due diligence had been successfully completed.

Following this acquisition, the board took the decision to retrocede the shares of WERPO as this business model requires substantial investments to be successful. The business would be a drain on the financial position of the Issuer, while the acquisition of Pasta Romana will provide substantial revenues and improved shareholder value.

B. Date and State (or Jurisdiction) of Incorporation:

BLACKBIRD INTERNATIONAL CORPORATION

NOTES TO UNAUDITED CONSOLIDATED INTERIM FINANCIAL STATEMENTS JULY 31, 2017

1. NATURE OF BUSINESS AND BASIS OF PRESENTATION

a) Nature of Business

Blackbird International Corporation (The "Company") was incorporated under the laws of the state of Nevada on October 9, 2006 under the name of Ark Development Inc. The Company changed its name from Ark Development Inc. to Blackbird International Corporation on November 28, 2008. The Company has chosen an October 31 fiscal year end.

The Company provides renewable energy solutions with its unique sea wave energy system. The Company's services include development of the hydro-pneumatic sea wave energy system, adapting it to suit any terrain, erection of sea wave power plants around the world and operation and/or training local staff to operate said power plants. This includes attaining patents for the Company's unique technology. The original patents and technology were developed by SDE Energy and Desalination Ltd. The company has acquired all of the rights to these patents and technologies.

A bit of background: BBRD holds all the shares of WERPO the operating company and that is why the financials of BBRD are basically those consolidated with the figures of WERPO. Effective May 31, BBRD replaced WERPO and acquired Pasta Romana

b) Basis of Presentation

These financial statements and related notes are presented in accordance with accounting principles generally accepted in the United States, and are expressed in US dollars.

2. NATURE OF SIGNIFICANT ACCOUNTING POLICIES

a) Cash and cash equivalents

The Company considers all highly liquid investments with a maturity of three months or less at the time of acquisition to be cash equivalents.

b) Accounts Receivable

The Company evaluates its receivables for aging and the determination of potential losses on receivable. Based upon the evaluation, the Company does not deem an allowance for losses on receivables is necessary. Therefore the provision for doubtful accounts and notes was approximately \$-0- as of July 31, 2017.

c) Capital Assets - Intangible Assets

Intangible assets represent the cost of patents and intellectual property. The Company adheres to the ASC 350, Intangibles - Goodwill and Other. Accordingly, intangible assets with finite lives are amortized over their estimated useful lives.

The Company recognizes impairment losses on intangible assets used in operations when indicators of impairment are present and the undiscounted cash flows estimated to be generated by those assets are less than the assets' carrying amounts. The impairment loss is measured by comparing the fair value of the asset to its carrying amount. Fair value is estimated based on discounted future cash flows.

d) Foreign Currency Translation

The functional currency of the Company is the U.S. dollar. The dollar is the currency that represents the economic environment in which the Company operates and intends to operate. The Company's transactions and balances denominated in dollars are presented at their original amounts. Non-dollar transactions and balances have been re-measured to dollars. All transaction gains and losses from re-measurement of monetary assets and liabilities denominated in non-dollar currencies are reflected in the statements of operations.

e) Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. The most significant estimates relate to the valuation of the investment portfolio and the recognition of revenue in connection with the receipt of unregistered securities pursuant to technology acquisition alliance agreements and technology transfers. Actual results could differ from those estimates.

The July 31 end should include the figures for BBRD for May 1 to 31 consolidated with the figures of Pasta Romana covering the period May 1 to July 31. The figures for WERPO are approximate and should be based on 1/3 of the total amounts of the previous quarter.

f) Stock-Based Compensation

As of July 31, 2017, the Company did not have any stock-based compensation.

BLACKBIRD INTERNATIONAL CORPORATION

NOTES TO UNAUDITED CONSOLIDATED INTERIM FINANCIAL STATEMENTS JULY 31, 2017

g) Fair Value of Financial Instruments

The Company follows ASC 820, "Fair Value Measurements" which defines fair value, establishes a framework for measuring fair value and requires additional disclosures about fair value measurements. The carrying amounts of accounts payable approximate fair value based on their short-term maturity.

h) Income Taxes

The Company adopted the provisions of Financial Accounting Standards Board Interpretation No. 48 ("FIN 48"), Accounting for Uncertainty in Income Taxes, which clarifies the accounting for uncertainty in income taxes recognized in an enterprise's financial statements in accordance with FASB Statement No. 109, Accounting for Income Taxes. FIN 48 provides guidance on the financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. FIN 48 also provides guidance on de-recognition, classification, interest and penalties, accounting in interim periods, disclosures, and transition. As of July 31, 2017, the Company had no unrecognized tax benefits and did not record any cumulative effect adjustment to net assets as a result of adopting FIN 48.

i) Revenue Recognition

The Company recognizes revenue when delivery of goods or completion of services has occurred provided there is persuasive evidence of an agreement, acceptance has been approved by its customers, the fee is fixed or determinable based on the completion of stated terms and conditions, and collection of any related receivable is probable.

j) Earnings per Share (EPS)

Basic earnings per share is computed on the basis of the weighted average number of shares of common stock outstanding during the year. Diluted earnings per share is computed on the basis of the weighted average number of shares of common stock plus the effect of dilutive potential common shares outstanding during the period using the treasury stock method. The Company has no dilutive potential common shares.

k) Financial Instruments and Concentrations of Credit Risk

The Company's financial instruments consist of accounts receivable and accounts payable. The fair value of accounts receivable and accounts payable approximate their carrying amounts in the financial statements due to the short maturity of such instruments.

2. Intangible Assets

The Company's intangible assets are defined as non-monetary long-term assets which have no physical substance and are held for the production of goods and provision of services, lease, operation or management. They are mainly patents. Intangible assets are stated at actual cost of acquisition, and are amortized over their estimated useful life of 25 years.

3. Accounts payable

Accounts payable is comprised of trade payables of \$3,285,086 payable as at July 31, 2017.
