

Blue Diamond Ventures Inc., Cannabis Clean Update

Clean 1st, Subsidiary of BLDV launches Supply Division

October 19th, 2017 Blue Diamond Ventures Inc. (OTC PK: BLDV)
Denver Colorado:

Blue Diamond Ventures Inc. (BLDV) provides an update of the Cleaning & Sanitation initiatives of Cannabis Clean & Cannabis Clean Supply.

From Cleaning Company – to – Technology Leader

Cannabis Clean started almost four years as a division of Clean 1st LLC, and was fully acquired by BLDV earlier this year. The company was built on the hard work of Steve & Amber McMorro and a highly dedicated service team. The revenue was generated by cleaning Cannabis Facilities. With the help of BLDV Cannabis Clean has reinvented the business plan to allow revenue and territorial expansion throughout the USA and Canada. Cannabis Clean will slowly move away from Cleaning Services and now provide comprehensive analysis and sanitation protocols to growers and processors to reach the level of antimicrobial control that is increasing becoming a requirement in the industry.

New Standards Developed in Israel

BLDV has successfully engaged with a leading laboratory standards firm in Israel to help formulate the GMPc and GAPc Standards that will provide basis for the new technology driven approach of Cannabis Clean. The Canadian GPP documents are incorporated as well to ensure that the new standards can be applied to Quality Green, AMS and other clients of BLDV. The new BLDV company formed in Israel this week will administer this project.

Material Science Approach

BLDV & Cannabis Clean have successfully relocated their Denver office to Eltron Research & Development in Boulder, CO. “The material science laboratories of Eltron will be critical when it comes to testing and verification of the new standards” say Josh Alper CEO of BLDV, “The PAA Technology developed by Eltron will be one of the major technologies incorporated into the new plan.

Attention to Revenue through newly announced Cannabis Clean Supply.

“The creation of **Cannabis Clean Supply** was the missing component” said Steve McMorro, President of Clean 1st and Director in BLDV, “we now have a way to bring the proven products and equipment to the market beyond the relationships in the Denver market. The emphasis for Clean 1st moving forward will be on **Consulting** for new construction, **Training** of facility staff, **SOP Development** for the industry of Growers, MIPS and Dispensaries, with supplies and equipment sales moving to **Cannabis Clean Supply**.”
