For the transition period from _____ to _____

Commission File Number 1-14343

MIDLAND CAPITAL HOLDINGS CORPORATION

(Name of Small Business Issuer in its Charter)

Delaware
(State or Other Jurisdiction of
Incorporation or Organization)

36-4238089
(I.R.S. Employer
Identification Number)

8929 S. Harlem Avenue, Bridgeview, Illinois 60455
(Address of Principal Executive Offices) (Zip Code)

Issuer's telephone number, including area code: **(708) 598-9400**

Check whether the Issuer (1) has filed all reports required to be filed by Section 13 or 15 (d) of the Exchange Act during the past 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of "large accelerated filer," "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act

Large Accelerated filer Accelerated filer Non-accelerated filer Smaller reporting company
(Do not check if a smaller reporting company)

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act).
Yes No

Indicate the number of shares of each of the Issuer's classes of common stock as of the latest practicable date:

As of May 14, 2008, the Issuer had 372,600 shares of Common Stock, par value \$0.01 issued and outstanding.

Notes to Consolidated Financial Statements

Note A — Basis of Presentation

The accompanying unaudited consolidated financial statements have been prepared in accordance with instructions to Form 10-Q and therefore, do not include information or footnotes necessary for fair presentation of financial condition, results of operations and changes in financial position in conformity with accounting principles generally accepted in the United States of America. However, in the opinion of management, all adjustments (which are normal and recurring in nature) necessary for a fair presentation have been included. The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates. The results of operations for the three months and nine months ended March 31, 2008 are not necessarily indicative of the results that may be expected for the entire year.

Note B — Principles of Consolidation

The accompanying unaudited consolidated financial statements include the accounts of Midland Capital Holdings Corporation (the "Company") and its wholly-owned subsidiary, Midland Federal Savings and Loan Association (the "Association") and the Association's wholly-owned subsidiaries, Midland Federal Service Corporation, Midland Insurance Services, Inc. and Bridgeview Development Company, Inc. All significant intercompany accounts and transactions have been eliminated in consolidation.

Note C — Earnings Per Share

Earnings per share for the three month and nine month periods ended March 31, 2008 and 2007 were determined by dividing net income for the period by the weighted average number of shares of common stock outstanding (see Exhibit 11 attached). Stock options are regarded as common stock equivalents and are therefore considered in diluted earnings per share calculations. Common stock equivalents are computed using the treasury stock method.

Note D — Industry Segments

The Company operates principally in the thrift industry through its subsidiary savings and loan. As such, substantially all of the Company's revenues, net income, identifiable assets and capital expenditures are related to thrift operations.

Note E — Effect of New Accounting Pronouncements

In September 2006, the FASB issued Statement of Financial Accounting Standards No. 157, Fair Value Measurements ("SFAS 157"), which defines fair value, establishes a framework for measuring fair value, and expands disclosures about fair value measurements required under other accounting pronouncements, but does not change existing guidance as to whether or not an instrument is carried at fair value. Additionally, it establishes a fair value hierarchy that prioritizes the information used to develop those assumptions. SFAS 157 is effective for financial statements issued for fiscal years beginning after November 15, 2007 and interim periods within those fiscal years. Earlier application is encouraged provided that the reporting entity has not yet issued financial statements for that fiscal year, including financial statement for an interim period within that fiscal year. The Company does not expect the adoption of SFAS 157 to have a material impact on its financial condition or results of operations.

Note E — Effect of New Accounting Pronouncements (continued)

In February 2007, the FASB issued SFAS No. 159, The Fair Value Option for Financial Assets and Financial Liabilities (“SFAS 159”) which allows an entity the irrevocable option to elect fair value for the initial and subsequent measurement for certain financial assets and liabilities. Subsequent changes in fair value of these financial assets and liabilities would be recognized in earnings when they occur. SFAS 159 further establishes certain additional disclosure requirements. SFAS 159 is effective for fiscal years beginning after November 15, 2007, with earlier adoption permitted. Management is currently evaluating the impact and timing of the adoption of SFAS 159 on the Company’s financial condition and results of operations.

The foregoing does not constitute a comprehensive summary of all material changes or developments affecting the manner in which the Company keeps its books and records and performs its financial accounting responsibilities. It is intended only as a particular interest to financial institutions.

**MIDLAND CAPITAL HOLDINGS CORPORATION
AND SUBSIDIARIES**

Item 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

FORWARD-LOOKING STATEMENTS

When used in this Form 10-Q and in future filings by the Company with the Securities and Exchange Commission, in the Company's press releases or other public or shareholder communications, or in oral statements made with the approval of an authorized executive officer, the words or phrases "would be", "will allow", "intends to", "will likely result", "are expected to", "will continue", "is anticipated", "estimate", "project" or similar expressions are intended to identify "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995. Such statements are subject to risks and uncertainties, including but not limited to changes in economic conditions and real estate values in the Company's market area, changes in policies by regulatory agencies, fluctuations in interest rates including the relationship between long and short term interest rates, demand for loans in the Company's market area and competition, all or some of which could cause actual results to differ materially from historical earnings and those presently anticipated or projected.

The Company wishes to caution readers not to place undue reliance on any such forward-looking statements, which speak only as of the date made, and advises readers that various factors, including regional and national economic conditions, substantial changes in levels of market interest rates, credit and other risks of lending and investment activities and competitive and regulatory factors, could affect the Company's financial performance and could cause the Company's actual results for future periods to differ materially from those anticipated or projected.

The Company does not undertake, and specifically disclaims any obligation, to update any forward-looking statements to reflect occurrences or unanticipated events or circumstances after the date of such statements.

GENERAL

Midland Capital Holdings Corporation (the "Company") is the holding company for Midland Federal Savings and Loan Association (the "Association" or "Midland Federal"). At March 31, 2008, there were 372,600 shares of the Company's common stock outstanding.

The principal asset of the Company is the outstanding stock of the Association. The Company presently has no separate operations and its business consists only of the business of the Association and its subsidiaries. Midland Federal has been principally engaged in the business of attracting deposits from the general public and using such deposits to originate one to four family residential mortgage loans, and to a lesser extent, consumer, multi-family and other loans in its primary market area. The Association also has made substantial investments in money market mutual funds and to a lesser extent, other liquid assets, mortgage-backed securities and investment securities. Midland Federal also operates a wholly-owned subsidiary, Midland Federal Service Corporation that owns and operates Midland Insurance Services, Inc., a full service retail insurance agency.

The Association's primary market area consists of Southwest Chicago, and the southwest suburban communities of Bridgeview, Oak Lawn, Palos Hills, Hickory Hills, Justice, Burbank, Chicago Ridge, Homer Glen, Lockport, Orland Park and Lemont. The Company serves these communities through its main office in Bridgeview, two branch banking offices in southwest Chicago and a third branch banking office in Homer Glen, Illinois. The Association's deposits are insured up to applicable limits by the Federal Deposit Insurance Corporation ("FDIC"). At March 31, 2008, Midland Federal's capital ratios exceeded all of its regulatory capital requirements with both tangible and core capital ratios of 9.19% and a risk-based capital ratio of 20.40%.

**MIDLAND CAPITAL HOLDINGS CORPORATION
AND SUBSIDIARIES**

FINANCIAL CONDITION

At March 31, 2008, total assets of the Company decreased by \$5.9 million to \$119.0 million from \$124.9 million at June 30, 2007. The decrease in assets was the result of a decline in loans receivable as well as a decline in the combined balance of short term investment securities and interest bearing cash deposits. Net loans receivable, including loans held for sale, declined \$2.4 to \$82.5 million at March 31, 2008 from \$84.9 million at June 30, 2007. Investment securities available for sale declined \$19.7 million, due to maturities, to \$1.3 million at March 31, 2008 from \$21.0 million at June 30, 2007 while interest bearing cash equivalents increased \$17.0 million to \$28.2 million at March 31, 2008 from \$11.2 million at June 30, 2007. The \$17.0 million increase in interest bearing cash equivalents was funded by the proceeds from maturing investment securities.

Loans receivable held in portfolio decreased by \$1.9 million to \$81.9 million at March 31, 2008 from \$83.8 million at June 30, 2007, as loan repayments of \$9.6 million exceeded portfolio loan originations of \$7.7 million during the nine months ended March 31, 2008. The Company continued to originate loans held for sale which totaled \$6.5 million during the nine months ended March 31, 2008. There were no new purchases of mortgage-backed securities during the nine months ended March 31, 2008 and as a result, the balance of mortgage-backed securities decreased by \$195,000 to \$1.3 million, due to repayments.

The balance of investment securities available for sale declined by \$19.7 million to \$1.3 million at March 31, 2008 compared to \$21.0 million at June 30, 2007. During the current nine month period the Company reinvested \$20.0 million in maturing United States Treasury Bills into a short term government and agency money market mutual fund with an investment return that exceeded the available investment return on short term United States Treasury securities. The investment securities portfolio at March 31, 2008 was comprised of a \$1.0 million intermediate term United States Treasury bond. Gross unrealized gains in the available for sale investment securities portfolio were \$321,000 at March 31, 2008 compared to gross unrealized gains of \$208,000 at June 30, 2007, reflecting the positive impact of lower interest rates on the market value of that investment security.

The balance of interest bearing deposits increased by \$17.0 million to \$28.2 million at March 31, 2008 from \$11.2 million at June 30, 2007. The increase in interest bearing deposits was due to the reinvestment of maturing investment securities, discussed above.

Non-performing assets consisted of non-accruing loans totaling \$1.2 million at March 31, 2008, all of which are located in our market area, compared to \$511,000 at June 30, 2007. The allowance for loan losses decreased \$9,000 during the nine months ended March 31, 2008 due to net charge offs of consumer loans, and amounted to \$411,000, or 0.50% of total loans, at March 31, 2008 as compared to \$420,000, or .49% of total loans, at June 30, 2007. The Company made no loan loss provision during the nine months ended March 31, 2008. Non-accruing loans at March 31, 2008 consisted of \$1.1 million in one-to-four family residential mortgage loans and \$66,000 in non-mortgage loans. At March 31, 2008 the Company's ratio of allowance for loan losses to non-performing loans was 35.66% compared to 82.22% at June 30, 2007. Management believes that the current allowance for loan losses at March 31, 2008 is adequate to cover probable accrued losses in the portfolio.

Midland Federal owns \$1.1 million of stock in the Federal Home Loan Bank of Chicago ("FHLBC") as a member institution. The FHLBC did not declare a quarterly dividend on its stock in the fourth quarter of 2007 and has announced that it does not anticipate paying dividends in 2008. The Company has no information on when dividend payments on FHLBC stock will resume or the amount of any future dividends.

**MIDLAND CAPITAL HOLDINGS CORPORATION
AND SUBSIDIARIES**

FINANCIAL CONDITION (continued)

The following table sets forth the amounts and categories of non-performing assets in the Company's portfolio. Loans are placed on non-accrual status when the collection of principal and/or interest becomes doubtful, generally when the loan is delinquent 90 days or more. Foreclosed assets, if any, include assets acquired in settlement of loans.

	March 31, 2008	June 30, 2007
(Dollars in Thousands)		
Non-Accruing Loans:		
One-to-four family	\$ 1,086	\$ 484
Multi-family	—	—
Consumer	66	27
Commercial business	—	—
Total non-performing loans	<u>\$ 1,152</u>	<u>\$ 511</u>
Foreclosed Assets:		
One-to-four family	—	—
Total foreclosed assets	<u>—</u>	<u>—</u>
Total non-performing assets	<u>\$ 1,152</u>	<u>\$ 511</u>
Total as a percentage of total assets	<u>0.97%</u>	<u>0.41%</u>

As of March 31, 2008, there were no loans not included in the above table where known information about the possible credit problems of borrowers caused management to have serious doubts as to the ability of the borrower to comply with present loan repayment terms and which may result in disclosure of such loans in the future.

Consumer loans	—	6
Total recoveries	<u>—</u>	<u>6</u>
Net recoveries (charge-offs)	(9)	6
Additions charged to operations	—	—
Balance at end of period	<u>\$ 411</u>	<u>\$ 422</u>
Ratio of net charge-offs during the period to average loans outstanding during the period	.01%	—%
Ratio of net charge-offs during the period to average non-performing assets	1.23%	—%
Allowance for loan losses to non-performing loans	35.66%	50.61%
Allowance for loan losses to total loans	0.50%	0.49%

The Company was aware of no regulatory directives or suggestions that the Association make additional provisions for losses on loans. Although the Company believes its allowance for loan losses is at a level that it considers adequate to provide for probable accrued losses in the portfolio, there can be no assurance that such losses will not exceed the estimated amounts.

Deposits for the nine months ended March 31, 2008 decreased \$5.6 million to \$104.1 million from \$109.7 million at June 30, 2007 as a result of withdrawals, net of deposits, in the amount of \$7.1 million, offset by interest credited to deposits in the amount of \$1.5 million. The net decrease in deposits is primarily attributed to continued intense competition for deposit accounts in the current interest rate environment. The decrease in deposits is the result of a \$2.9 million decrease in passbook deposit accounts, an \$852,000 decrease in NOW accounts, an \$829,000 decrease in money market accounts, a \$503,000 decrease in certificate of deposit accounts and a \$473,000 decrease in demand deposit accounts.

Stockholders' equity increased \$145,000, or 1.1%, to \$13.9 million at March 31, 2008 from \$13.7 million at June 30, 2007. The increase in stockholders' equity was due to net income of \$380,000 and an increase in accumulated other comprehensive income of \$33,000 offset by the payment of cash dividends in the amount of \$268,000.

**MIDLAND CAPITAL HOLDINGS CORPORATION
AND SUBSIDIARIES**

RESULTS OF OPERATIONS

Net income for the quarter ended March 31, 2008 was \$41,000 compared to net income of \$164,000 for the quarter ended March 31, 2007. Net income decreased in the current quarter, compared to the prior year quarter, as the result of a \$209,000 decrease in net interest income and a \$5,000 decrease in non-interest income, offset by a \$27,000 decrease in non-interest expense and a \$64,000 decrease in income taxes.

For the nine months ended March 31, 2008 the Company had net income of \$380,000 compared to net income of \$557,000 for the nine months ended March 31, 2007. Net income decreased in the nine months ended March 31, 2008, compared to the prior year period, as the result of a \$456,000 decrease in net interest income offset by an \$83,000 increase in non-interest income, a \$105,000 decrease in non-interest expense and a \$91,000 decrease in income taxes.

The Company's interest rate spread decreased to 2.89% for the quarter ended March 31, 2008 from 3.54% for the prior year quarter. The decrease in interest rate spread reflects an increase in the Company's average cost on deposits to 2.22% in the current quarter from 2.11% in the prior year quarter as well as a decrease in the average yield earned on interest earning assets to 5.11% in the current quarter from 5.65% in the prior year quarter as a result in part of our increase in liquidity at a time when short term interest rates were dropping. The average balance of net earning assets (average interest earning assets minus average interest bearing liabilities) increased by \$1.3 million to \$20.5 million compared with the prior year quarter.

For the nine months ended March 31, 2008, interest rate spread decreased to 3.16% compared to 3.63% in the prior year nine month period. Interest rate spread also decreased in the nine months ended March 31, 2008 compared with the prior year period as a result of an increase in the average cost on deposits combined with a decrease in the average yield earned on interest earning assets. For the nine months ended March 31, 2008 the average yield paid on interest costing deposits increased to 2.26% from 2.03% in the prior year period while the average yield earned on interest earning assets decreased to 5.42% for the nine months ended March 31, 2008 from 5.66% in the prior year period.

Interest Income

Interest income decreased \$208,000, or 12.4%, for the quarter ended March 31, 2008 as compared to the same period last year. The decrease in interest income is attributed to a \$3.6 million decline in the average balance of interest earning assets to \$115.6 million for the quarter ended March 31, 2008 compared to \$119.2 million for the quarter ended March 31, 2007 as well as a decrease in the average yield earned on interest earning assets to 5.11% for the quarter ended March 31, 2008 from 5.65% in the prior year quarter.

For the nine months ended March 31, 2008, interest income decreased \$344,000, or 6.7%, from the 2007 period. The decrease in interest income for the current nine month period was the result of a decrease in the average yield earned on interest earning assets as well as a decrease in the average outstanding balance of interest earning assets. The average yield on interest earning assets decreased to 5.42% compared to 5.66% for the year earlier period. The average outstanding balance of interest earning assets decreased by \$3.0 million to \$117.7 million for the nine months ended March 31, 2008 from \$120.7 million for the prior year period.

MIDLAND CAPITAL HOLDINGS CORPORATION
AND SUBSIDIARIES

Interest Income (continued)

Interest on loans receivable decreased \$87,000, or 6.8%, for the quarter ended March 31, 2008 from the comparable quarter in 2007. The decrease in interest income was primarily attributed to a \$3.8 million decrease in the average outstanding balance of net loans receivable to \$82.3 million for the quarter ended March 31, 2008 from \$86.1 million for the quarter ended March 31, 2007. The average yield earned on loans receivable also declined to 5.74% for the quarter ended March 31, 2008 as compared to 5.89% for the quarter ended March 31, 2007.

Interest on mortgage-backed securities decreased \$3,000, or 14.6%, for the quarter ended March 31, 2008 from the comparable quarter in 2007. The decrease in interest income is attributed to a \$241,000 decrease in the average balance of mortgage-backed securities to \$1.3 million from \$1.5 million in the prior year quarter. The decrease in the average outstanding balance of mortgage-backed securities offset an increase in the average yield earned on mortgage-backed securities to 5.91% for the quarter ended March 31, 2008 from 5.84% in the year earlier period. The average yield earned on mortgage-backed securities increased despite the decline in market interest rates due to the lag in the re-pricing of the Company's adjustable rate mortgage-backed securities.

Interest on investment securities decreased \$203,000, or 75.8%, to \$65,000 for the quarter ended March 31, 2008 from \$268,000 for the prior year quarter due to a decrease in the average outstanding balance of investment securities. For the quarter ended March 31, 2008 the average outstanding balance of investment securities decreased \$16.0 million to \$5.0 million from \$21.0 million in the 2007 quarter as a result of maturities. The average yield earned on investment securities increased to 5.16% for the quarter ended March 31, 2008 from 5.12% in the 2007 quarter.

Interest earned on interest bearing deposits increased \$95,000, or 80.6%, to \$212,000 for the quarter ended March 31, 2008 from \$117,000 for the prior year quarter. The increase in interest income is attributed to a \$16.4 million increase in the average outstanding balance of interest bearing deposits to \$25.9 million for the quarter ended March 31, 2008 from \$9.5 million in the 2007 quarter. The increase in the average outstanding balance of interest bearing deposits was due to the reinvestment of maturing short term United States treasury bills into a short term government and agency money market mutual fund in order to capture a yield advantage over direct investment in short term United States Treasury Securities. The increase in the average outstanding balance of interest bearing deposits offset a decrease in the average yield earned on interest bearing deposits to 3.28% for the quarter ended March 31, 2008 from 4.97% in the 2007 quarter.

For the nine months ended March 31, 2008, interest on loans receivable decreased \$268,000, or 6.9%, compared with the prior year period. The decrease in interest income was primarily attributed to a \$5.5 million decrease in the average outstanding balance of net loans receivable to \$83.4 million for the nine months ended March 31, 2008 from \$88.9 million for the nine months ended March 31, 2007. The average yield earned on loans receivable also declined slightly to 5.83% for the nine months ended March 31, 2008 as compared to 5.84% for the prior year period.

For the nine months ended March 31, 2008 interest earned on mortgage backed securities decreased \$8,000 to \$59,000. The decrease in interest income is attributed to a decrease in the average outstanding balance of mortgage-backed securities to \$1.3 million for the nine months ended March 31, 2008 from \$1.6 million for the nine months ended March 31, 2007. The decrease in the average outstanding balance of mortgage-backed securities offset an increase in the average yield earned on mortgage-backed securities to 5.92% for the nine months ended March 31, 2008 from 5.62% for the comparable prior year period.

**MIDLAND CAPITAL HOLDINGS CORPORATION
AND SUBSIDIARIES**

Interest Income (continued)

For the nine months ended March 31, 2008 interest earned on investment securities decreased \$329,000, or 41.0%, to \$473,000 from \$802,000 for the 2007 period. The decrease in interest income is attributed to decreases in both the average outstanding balance of investment securities and the average yield earned on investment securities. For the nine months ended March 31, 2008 the average outstanding balance of investment securities decreased \$8.4 million to \$12.5 million from \$20.9 million in the 2007 period. The average yield earned on investment securities also decreased to 5.06% for the nine months ended March 31, 2008 from 5.13% in the year earlier period.

For the nine months ended March 31, 2008 interest earned on interest bearing deposits increased \$281,000, or 90.0%, to \$594,000 from \$313,000 for the 2007 period. The increase in interest income was due to an \$11.2 million increase in the average outstanding balance of interest bearing deposits to \$19.3 million for the nine months ended March 31, 2008 from \$8.1 million for the comparable prior year period. The increase in the average outstanding balance of interest bearing deposits offset a decrease in the average yield earned on interest bearing deposits to 4.10% for the nine months ended March 31, 2008 from 5.12% for the prior year period.

Interest Expense

Interest expense increased by \$1,000 to \$528,000 for the quarter ended March 31, 2008 compared with \$527,000 in the prior year quarter. The increase in interest expense is attributable to an increase in the average yield paid on interest costing deposits to 2.22% for the quarter ended March 31, 2008 from 2.11% for the quarter ended March 31, 2007. The increase in average yield was the result of increased competition for deposit liabilities from special rate promotions. The increase in the average yield paid on interest costing deposits was offset by a decrease in the average balance of interest costing deposits. The average balance of interest costing deposits decreased by \$4.9 million to \$95.1 million for the quarter ended March 31, 2008 from \$100.0 million in the prior year quarter.

For the nine months ended March 31, 2008 interest expense increased \$112,000, or 7.3%, to \$1.6 million from \$1.5 million for the prior year period. The increase in interest expense in the nine month period is the result of an increase in the average yield paid on interest costing deposits offset by a decline in the average outstanding balance of interest costing deposits. For the nine months ended March 31, 2008 the average yield paid on interest costing deposits increased to 2.26% from 2.03% for the nine months ended March 31, 2007 while the average outstanding balance of interest costing deposits decreased by \$3.4 million to \$97.3 million from \$100.7 million for the comparable prior year period.

Provisions for Losses on Loans

The Company maintains an allowance for loan losses based upon management's periodic evaluation of probable accrued losses in the portfolio based on known and inherent risks in the loan portfolio, the Company's past loan loss experience, adverse situations that may affect borrowers' ability to repay loans, estimated value of the underlying collateral and current and expected market conditions. The allowance for loan losses totaled \$411,000, or .50% of total loans, at March 31, 2008 compared to \$420,000, or .49% of total loans, at June 30, 2007. After considering the moderate level of non-performing loans, the high concentration of one-to-four family mortgage loans in the loan portfolio, the level and nature of its charge offs and recoveries, the stable housing market in its primary lending area and the volume of its loan activity, the Company determined that the \$411,000 allowance for loan losses was sufficient to cover probable accrued losses in the loan portfolio consistent with its policy for the establishment and maintenance of adequate levels of loan loss reserves. As a result, the Company made no loan loss provisions during the three and nine months ended March 31, 2008.

**MIDLAND CAPITAL HOLDINGS CORPORATION
AND SUBSIDIARIES**

Non-Interest Income

Non-interest income decreased \$5,000 to \$198,000 in the quarter ended March 31, 2008 as compared to the prior year quarter. The primary factors for the decrease in non-interest income were a \$26,000 decrease in gain on the sale of loans and a \$17,000 decrease in loan fees and service charges offset by a \$29,000 increase in gain on sale of other investments, a \$6,000 increase in deposit related fees and a \$3,000 increase in commission income. The increase in gain on sale of other investments was the result of the mandatory redemption of a portion of Midland Federal's Class B VISA, Inc. common stock during the current quarter.

For the nine months ended March 31, 2008 non-interest income increased \$83,000 to \$675,000 from \$592,000 in the prior year period. The primary factors for the increase in non-interest income were a \$96,000 gain on the sale of marketable equity securities, including the Class B Visa, Inc. common stock discussed above, and a \$20,000 increase in commission income, offset by a \$10,000 decrease in deposit related fees and the elimination of a \$24,000 recovery in the prior year period for data communication charges billed in error in previous periods.

Non-Interest Expense

Non-interest expense decreased \$27,000 to \$1.1 million in the quarter ended March 31, 2008 as compared to the prior year quarter. The decrease in non-interest expense is primarily the result of an \$11,000 decrease in staffing costs, a \$4,000 decrease in office occupancy and equipment expense and a \$4,000 decrease in data processing fees.

For the nine months ended March 31, 2008 non-interest expense decreased \$105,000 to \$3.2 million compared with the prior year period. The primary factors for the decrease in non-interest expense in the current nine month period were a \$62,000 decrease in staffing expense, an \$8,000 decrease in advertising expense, a \$6,000 decrease in data processing fees and a \$5,000 decrease in computer software and support expense. The decrease in staffing expense is primarily attributed to a \$67,000 decrease in the cost of employee pension and health insurance benefits, offset by normal increases in payroll expenses.

Income Taxes

Income taxes decreased by \$64,000 to \$21,000 in the quarter ended March 31, 2008 from \$84,000 for the same period last year. The decreased income tax provision was due to the decrease in operating income in the quarter ended March 31, 2008 as compared to the quarter ended March 31, 2007.

For the nine months ended March 31, 2008 income taxes decreased \$91,000 to \$196,000 compared to \$287,000 in the prior year period. The decreased income tax provision was due to the decrease in operating income in the nine months ended March 31, 2008 as compared to the nine months ended March 31, 2007. The effective income tax rate in all periods presented was 34.0%.

**MIDLAND CAPITAL HOLDINGS CORPORATION
AND SUBSIDIARIES**

LIQUIDITY AND CAPITAL RESOURCES

The Company's principal sources of funds are deposits, loan and mortgage backed securities repayments, proceeds from the maturities of investment securities and other funds provided by operations. The Company maintains investments in liquid assets based upon management's assessment of (i) the Company's need for funds, (ii) expected deposit flows, (iii) the yields available on short-term liquid assets and (iv) the objectives of the Company's asset/liability management program. At March 31, 2008 the Company had commitments to originate \$747,000 in loans for the portfolio and unused lines of credit in the amount of \$3.6 million. At March 31, 2008 the Company had commitments to sell \$604,000 in loans. Also on that date, the Company had \$36.6 million of certificate of deposit accounts maturing within one year, which management generally expects to retain.

The Company uses its capital resources principally to meet its ongoing commitments to fund maturing certificate of deposits and deposit withdrawals, fund existing and continuing loan commitments, maintain its liquidity and meet operating expenses. The Company considers its liquidity and capital reserves sufficient to meet its outstanding short and long-term needs. The Company expects to be able to fund or refinance, on a timely basis, its material commitments and long-term liabilities.

At March 31, 2008, the Association had tangible and core capital of \$10.9 million, or 9.19% of adjusted total assets, which was approximately \$9.2 million and \$7.4 million above the minimum requirements in effect on that date of 1.5% and 3.0%, respectively, of adjusted total assets.

At March 31, 2008, the Association had total capital of \$11.4 million (including \$10.9 million in core capital) and risk-weighted assets of \$55.8 million, or total capital of 20.40% of risk-weighted assets. This amount was \$6.9 million above the 8.0% requirement in effect on that date.

Item 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

A smaller reporting company is not required to provide the information required by this item.

Item 4T. CONTROLS AND PROCEDURES

The Company has adopted disclosure controls and procedures designed to facilitate the Company's financial reporting. The disclosure controls currently consist of communications between the Chief Executive and Financial Officer and each department head to identify any new transactions, events, trends, risks or contingencies which may be material to the Company's operations. In addition, the Chief Executive and Financial Officer and the Company's independent auditors also meet on a quarterly basis and discuss the Company's material accounting policies. Finally, the Chief Executive and Financial Officer and certain of the Company's other Officers meet on a regular basis to review the Company's financial statements and certain documents related to material transactions. The Company's Chief Executive and Financial Officer has evaluated the effectiveness of these disclosure controls as of the end of the period covered by this report and found them to be adequate.

The Company maintains internal control over financial reporting. There have not been any significant changes in such internal control over financial reporting in the last quarter that has materially affected, or is reasonably likely to materially affect, the Company's internal controls over financial reporting.

**MIDLAND CAPITAL HOLDINGS CORPORATION
AND SUBSIDIARIES**

PART II — OTHER INFORMATION

Item 1. LEGAL PROCEEDINGS

From time to time, the Association is a party to legal proceedings wherein it enforces its security interest or is a defendant to certain lawsuits arising out of the ordinary course of its business. Neither the Company nor the Association believes that it is a party to any legal proceedings that will have a material adverse effect on its financial condition at this time.

Item 1A. RISK FACTORS

A smaller reporting company is not required to provide the information required by this item.

Item 2. CHANGES IN SECURITIES

Not applicable.

Item 3. DEFAULTS UPON SENIOR SECURITIES

Not applicable.

Item 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS

Not applicable.

Item 5. OTHER INFORMATION

Not applicable.

Item 6. EXHIBITS

See Exhibit Index.

CHIEF EXECUTIVE AND FINANCIAL OFFICER CERTIFICATION

I, Paul Zogas, certify that:

1. I have reviewed this quarterly report on Form 10-Q of Midland Capital Holdings Corporation;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which statements were made, not misleading with respect to the period covered by this report.
3. Based on my knowledge, the financial statements, and other financial information included in this quarterly report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officers and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) for the registrant and we have:
 - a) designed such disclosure controls and procedures, or caused such disclosure controls to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this quarterly report is being prepared; and
 - b) evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - c) disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting.
5. The registrant's other certifying officers and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of registrant's board of directors (or persons performing the equivalent function):
 - a) all significant deficiencies in the design or operation of internal controls over financial reporting which could adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - b) any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal controls.
